RE: Request to use blue lights on US-45 construction project

American Field Service Corporation is working as a subcontractor for APAC for MDOT on Lee County Project #NH-0002-06(028). We are in the process of repairing the roadway inside the city limits (US 45 from Main Street to McCullough Blvd.). In order to keep the project and our employees safe, we are requesting the use of blue lights in our work area. In the past we have used off duty police personnel in their city vehicles. AFS will compensate the appropriate party at a rate of \$25 per hour. Please let us know if there is any other information that you need. Thanks for your time and service.
