CHAPTER 7 – BUILDINGS AND BUILDING REGULATIONS BY
ADOPTING 2024 ICC CODE SERIES WITH EXCEPTIONS

Request:

This request represents over a year of work by the building division of the Development Services Department and License Commission. The administration and License Commission recommend adopting the 2024 International Code Congress (ICC) series with exceptions. State law requires municipalities and their building officials to stay current by adopting code series not older than 3 preceding versions. Tupelo currently utilizes the ICC 2018 code series.
