PHASE VII MAJOR THOROUGHFARE PROGRAM

This agreement, made by and between the City of Tupelo, Mississippi, hereinafter referred to as the "OWNER," and Engineering Solutions, Inc., hereinafter referred to as the "ENGINEERS."

The OWNER intends to implement the proposed Phase VII of the Major Thoroughfare Program, and has employed the ENGINEERS, to perform the various professional engineering services associated with the design and construction of each project as stated in Section A and Section B herein;

WITNESSETH:

That for and in consideration of the mutual covenants and promises contained herein, the parties hereto agree that the Scope of Work for this Agreement shall be the same written and issued by the OWNER and included in the Request for Qualifications and Proposal dated May 2021. 2. The ENGINEERS will prepare an opinion of probable cost based on the construction plans and specifications. However, since the ENGINEERS have no control over the cost of labor, materials, equipment, services provided by others or over contractors' pricing methods, or over market conditions or competitive bidding, the opinion of probable cost will be based on the ENGINEERS' professional experience and judgment; but the ENGINEERS cannot and do not guarantee that proposals, bids or the construction cost will not vary from opinions of probable cost prepared by them.
3. Prior to the advertisement for bids, the ENGINEERS will provide the necessary copies of plans, specifications, and contract documents for the OWNER and the appropriate Federal, State and local agencies from whom approval of the project must be obtained.
4. The ENGINEERS will furnish additional copies of the plans, specifications and contract documents as required by prospective bidders, material suppliers, and other interested parties, but will charge the prospective bidders for such copiers. Such visits and observations are not intended to be exhaustive but rather shall consist of visual observation of materials, equipment, or construction work for the purpose of ascertaining that the work is in substantial conformance with the contract documents and with the design intent. Such overview shall not be relied upon by others as acceptance of the work nor shall it be construed to relieve the Contractor in any way from his obligations and responsibilities under the construction contract.

Based on ENGINEERS' visits and observations, the ENGINEERS shall keep the OWNER informed about the progress of the work and shall endeavor to guard against deficiencies and unnecessary delays in the work.

2. The ENGINEERS will review for general conformance with the design concept necessary shop and working drawings furnished by the Contractor.

6. The ENGINEER will prepare change orders as and when necessary and required, and submit to the Owner for approval by the Tupelo City Council at a regular meeting.
7. The ENGINEERS will provide the OWNER with one set of record drawings. Record drawings will be developed from the construction plans based upon information provided

by the Contractor. Because these drawings are based on unverified information provided by other parties which will be assumed to be reliable, the ENGINEERS cannot and do not warrant their accuracy.

The OWNER shall compensate the ENGINEER for Planning and Design Services at a rate of 5.00% of the total actual construction contract for each individual project.

The compensation for Planning and Design services shall be payable in the following manner:

1. A sum equal to ninety-five percent (95%) of the total compensation for Planning and Design Services based on the approved Engineer's Construction Cost Estimate after completion and submission of the construction plans, specifications, cost estimates, and contract documents. (35%) will be billed upon the submission of the 35-Percent review plans and (65%) will be billed upon the submission of the 65-Percent review plans.
2. A sum equal to five percent (5%) of the total compensation for Planning and Design Services based on the Construction Contract Amount (Bid) after the ENGINEER makes recommendations for awarding the contract.

If the work is not let for public contract, compensation will be based on the Engineers Construction Cost Estimate.

The OWNER shall compensate the ENGINEER for Construction Engineering Services at a rate of 3.50% based on a percentage of the total actual construction cost for each individual project.

The compensation for Construction Engineering services shall be payable in the following manner:

1. A sum equal to a percentage of the total compensation for Construction Engineering Services based on the Construction Contract Amount will be billed based on the amount of construction completed.

Additional or extended services during construction made necessary by prolongation of the contract time of any prime contract by more than thirty days, or acceleration of the work schedule involving services beyond normal working hours.

Payment for the special services specified in this section shall be based on the Special Services Fee Schedule as set forth in Attachment II which is attached hereto and made a part hereof by reference. The ENGINEERS will render to the OWNER an itemized bill for such services; however, in no event shall ENGINEERS be entitled to payment for Special Services in excess of the per day liquidated damages to which Owner is entitled as set forth in the contract between OWNER and the construction contractor for each project. (It is understood by the parties hereto that construction contracts with project contractors have not yet been entered but that the terms thereof as to per day liquidated damages shall apply to this Section upon execution of each.)
