Amy Williams-Kennedy
City of Tupelo
RE: Tupelo Aquatic Center

For over forty years, Colorado Time Systems (CTS) has established the performance standard in electronic swim timing by providing factory direct sales as well as an extensive distributor and customer service network. This standard is maintained by the superior design and technology of our products.

There are many differences among sports timing and display manufacturers' equipment. In sports timing, it is important to understand there are advantages to the purchaser to have a complete timing system manufactured by one company, rather than various manufacturers. Often, claims that manufacturers make about interfacing with another manufacturer's products are unreliable.

Obviously, equipment that is designed concurrently will be guaranteed to work together, whereas mixing components from various manufacturers will result in an unnecessary liability being placed in the hands of the customer. This ends up costing the customer more money and ownership of a system that will not operate efficiently. City of Tupelo and the Tupelo Aquatic Center currently have CTS equipment that was purchased in the past.

Colorado Time Systems is the sole manufacturer and provider of the Gen7 Legacy Timer and the sole provider of swimming specific Yaham Video Displays in the United States.

We look forward to continuing our relationship with your organization. Please feel free to contact us for additional information.

Best Regards,

Rick Connell

GEN7 TIMING SYSTEM

| <u>Qty</u> | <u>Model</u> | <u>Description</u> |
|------------|--------------|--|
| 2 | GEN7-TMR-L | GEN 7 Sports Timer with legacy connections |

The Gen7 Sports Timer is designed to work exclusively with existing CTS timing components and display boards. Incorporates the latest technology with all of the key features of a Colorado Time Systems Console, including up to 12-lane timing, enhanced split handling, start reaction

display, automatic lane arming, interface to 3rd party meet management software, scoreboard cycling and more. The hardware and software combination gives you the flexibility to run your meets your way.

Features:

- Intuitive software interface with modern Windows user interface and is touchscreen friendly. Software to be loaded on owner provided laptop.
- Flexible user interface options: Windows laptop or tablet is primary user interface, with Ethernet connectivity to the timer.
- Robust safeguards, all data is logged and saved on the Gen7. Any issues with user interface are recoverable. Timer will continue running and will finish race without user interface.
- Rich diagnostics, integrated pre-meet diagnostic mode to check system set up and allows proactive equipment maintenance
- Integrated 2.4GHz Wireless to Scoreboards
- Facility network connectivity
