Re: State of Mississippi Contractor License

To: Tupelo Water & Light

Reinhold Electric currently does not have a contractor license with the State of Mississippi. We have started the process of getting the license. Reinhold Electric has already talked to the State Contractor License office asking the typical time it takes to get the license and we were told it typically takes about 2 weeks, if all information is correctly sent in. Should any question need to be answer please contact me at 314-620-4823

Commercial and industrial employees are required to wear hardhats, safety glasses, Hi-Viz apparel, steel-toed boots and cut level gloves when sharp edges are present or when using powered cutting tools, at minimum.

Fiels supervisors Requirements

To help reduce the injury rates all commercial and industrial work sites are required to do a daily Job Safety Analysis (JSA) to eliminate hazards and prevent injury in the work-place. All crews are also required to complete weekly Toolbox talks that pertain to the task, industry, or conditions of work sites.

Safety incintives and Disciplinary action

A safety incentive system has been implemented to provide positive feedback to jobsites that exceeded safety expectations. All safety violations are documented, and progressive disciplinary action is implemented. All incentives and disciplinary action are documented for record.

All union employees are tested for drug and alcohol usage through the union hall or by a third-party administrator for non-union employees. Testing is done for pre-employment, post-accident, for reasonable suspicion and randomly.
