Re: Staff Report

I. Focus relentlessly on fiscal new revenue streams and operational sustainability.

- Staff continues with preparation for the Idle Sites Grant submittal for 606 Parkway Boulevard. Water Department Director has facilitated visits with contractors for the buyer under contract.
- Staff is working with the interim Tourism Director to develop a local program to support our tourism and hospitality industry.

III. Drive strategic community development.

- Senior Center project has been bid with the assistance of SMI and the Public Works and Park and Rec Departments.
- Prepared draft materials for the Plan Commission to evaluate as staff prepares a short-term rental local ordinance. Local stakeholders have also been contacted and providing feedback during the process.
- Staff continues working with developers for project preparation.
