

**--MEMORANDUM--**

MEMO TO: City Council

FROM: Gregory E. Buckley  
City Manager

DATE: August 25, 2023

SUBJECT: Payment Resulting from Monsanto Class Action Settlement, Pertaining  
To PCB Contamination

I have included this matter on the August 28 work session agenda to advise the Council that the City in late April received a check in the amount of \$17,414.03 from a class action lawsuit filed in Federal Court in California, pertaining to pollution of the environment by PCB's produced by Monsanto Co.

This was apparently an "opt-out" class action, where parties were notified of their eligibility for a settlement payment and are then bound by the settlement unless they take action to opt-out. There appears to have been notice sent to the City in the Summer of 2022, although nobody is aware of having received it. In addition to receiving a settlement payment for not "opting out," the City is also subject to a release of future claims against Monsanto, as summarized below:

Plaintiffs and all Settlement Class Members who have not excluded themselves from the Class will release certain claims against the Defendant, its affiliates, certain predecessors and successors, and other parties set forth in the Settlement Agreement. This is referred to as the "Release." Generally speaking, the Release will prevent any Settlement Class Member from bringing any lawsuit or making any claims that Defendant's PCBs and PCB-containing products were defectively designed, that the risks of environmental harm associated with PCBs and PCB-containing products outweighed the benefits of their uses, that Defendant failed to warn of the risks of harm associated with PCBs and PCB-containing products, and that Plaintiffs and the Class suffered property damage as a result of PCB contamination.

2,306 local governmental units nationwide were eligible to participate in the settlement. These were all local governments that hold either wastewater (NPDES) or stormwater (MS4) discharge permits, and are located on a body of water that is impaired by PCB's .

Of those 2,306 units nationwide, it appears that a total of 86 "opted out." In Wisconsin, 137 local units were identified as eligible to participate in the settlement; 5 opted out. I have attached a list of those Wisconsin local units. I have also attached a communication from the League of Minnesota Cities that offers of good, short explanation of this matter. Neither the City Attorney nor I saw anything from the WI League of Municipalities on this topic.

Again, this information is being provided as an FYI. While I would have preferred to bring this matter to you for action on whether or not to "opt out," it appears that the vast majority of eligible units around Wisconsin and the U.S that were included in the "settlement class" ended up as participants.

Claim Number: MST12484  
 Check Number: 102226  
 Check Date: 04/13/2023  
 Check Amount: \$17,414.03

Enclosed is your settlement payment as a Monitoring Fund Entity in the class action lawsuit *City of Long Beach, et al. v. Monsanto Company, et al.* in the United States District Court for the Central District of California. This settlement payment has been calculated in accordance with the terms of the Settlement Agreement approved by the Court in the case. More information is available on the settlement website [www.PCBClassAction.com](http://www.PCBClassAction.com). You may also contact the Settlement Administrator through email at [info@pcbclassaction.com](mailto:info@pcbclassaction.com) or by calling (844) 585-1121. Please cash or deposit this check promptly. **This check will be void if it is not cashed or deposited on or before October 13, 2023.**

# Cities Receive Checks From Monsanto Settlement

April 24, 2023

**The checks are legitimate and intended as compensation for potentially unnecessary testing and mitigation efforts.**

Minnesota cities and counties are beginning to receive sizable checks from a Monsanto Class Action Settlement. Cities should rest assured that these checks — for approximately \$17,000, \$27,000, or \$32,000 — are legitimate. They are intended as compensation for testing and mitigation efforts, which might not have been necessary if not for the actions of the Class Action Defendant.

## Class action lawsuit details

Not too long ago, several large and mostly West Coast cities sued Monsanto for manufacturing a class of industrial chemicals called polychlorinated biphenyls (PCBs), which were released into the environment between the 1930s and 1977.

By early 2022, a class action lawsuit was established: *City of Long Beach v. Monsanto Co.*, Case No. 2:16-CV-03493-FMO-AS (C.D. Ca.). The suit alleged various causes of action against Monsanto for PCB-related impairments to the environment, including to water bodies. The cities alleged that PCBs were present at sites and public properties, including in stormwater, stormwater and wastewater systems, water bodies, sediment, natural resources, fish, and wildlife.

Members of the certified class include government subdivisions that are covered under MS4 (municipal separate storm-sewer system) permits in the drainage areas of or near to specific types of or listed water bodies. A notice was mailed to potential class members around the end of March 2022. As this was an opt-out class action, any potential members of the class that wanted to pursue the causes of action on their own had to opt out by July 25, 2022.

[View the court-approved notice sent to potential class members \(pdf\).](#)

## Settlement payments

During the week of April 17, all members of the class automatically received a payment from a portion of the settlement called the “Monitoring Fund.” This included many government subdivisions in Minnesota.

In addition to consideration for release from claims, the payment is intended to compensate for “PCB sampling and/or any other mitigation efforts in the Settlement Class Member’s sole discretion, as part of compliance with applicable law.” All class members within Minnesota should be aware, this is the only money they will receive automatically from the settlement.

[View a list of government subdivisions in Minnesota that received settlement payments \(pdf\).](#)

Finally, class members should know there is one more opportunity for additional funding but only for special cases. The settlement includes a “Special Needs Fund” set aside to address “a significant regional, state, or national benefit, cost, or contribution” regarding bodies of water “impaired by PCBs through stormwater and/or dry weather runoff.” A special master has been appointed to receive and evaluate applications to this fund. Cities seeking to apply to the Special Needs Fund must do so within one year and 14 days of the date the Monitoring Fund checks were mailed.
