Recommended Action:

Motion to waive reading and adopt the ordinance.

Mr. Buckley provided an overview of this ordinance. This ordinance was recommended from the Plan Commission and is recommended for approval from the Design Committee of Two Rivers Main Street. The intent is to preserve the appearance and safety of the traditional pedestrian friendly downtown area. This would not preclude new establishments from being created that have entry and exit off side streets but would preclude new establishments to create an entry and exit from Washington Street.

The public hearing was opened by Council President Wachowski.

Bob Pietroski spoke in concern of limiting the businesses that could currently take over his vacant building. Mr. Pietroski asked if the ordinance would prohibit a drive thru at his location even if there is not a need for the curb to be cut to create a driveway.

No additional people spoke on the Public Hearing.

Motion made by Stechmesser, Seconded by D. LeClair

Councilmembers spoke of the concern of not clear language throughout the ordinance. There was consensus for the Ordinance to go back to Plan Commission to update the language to address use of current curb cuts and whether existing driveway could be widened to serve new drive-through facilities. This Ordinance would then have to be reviewed again by the Plan Commission and by the Design Committee of Two Rivers Main Street before coming back to Council.

Following discussion, both withdrew their motions. No further action was taken.

7. INPUT FROM THE PUBLIC

The purpose of this is to protect all citizens against lead. Since 2017, this program has been responsible for the removal/replacement of over 900 lead or lead-containing services in the city. There are approximately 1,800 lead service laterals in use in the city today. This bill would provide an additional \$227 million for State Shared Revenues; all local units would continue to receive the base amount of SSR that they currently receive, plus an increase of at least 10% to help fund police, fire, EMS, public works and transportation. Future funding would be equal to 20% of State sales tax revenues; any future increases/decreases would apply to both "base" SSR and the "new" portion. Increase for Two Rivers per current AB 245 language would be 12.5% or \$470,993. Sticking points could include some of the "strings" attached to the proposed increase in State funding for local services. The Governor has threatened a veto of the bill as now written.
