

The City of Two Rivers applied for and received WDNR grant funding through the Safe Water Drinking Program. This grant money will assist in the replacement of lead and/or galvanized private water services (from the curb stop to the building) throughout the City. Homeowners who qualify for the WDNR funding can receive \$2500 to go towards the private side of their water service lateral replacement.

There is limited funding still available to 2022. Any property owners interested should contact our Engineering Department at 920-793-5539.
