## STAFF REPORT

### **AGENDA ITEM:**

Approval of a resolution to adopt the County-wide Hazard Mitigation Plan update.

### **BACKGROUND:**

The County-Wide Hazard Mitigation Plan is a federally required planning document developed in accordance with the Disaster Mitigation Act of 2000. The plan identifies natural and man-made hazards that may impact the community, assesses risks and vulnerabilities, and outlines mitigation strategies to reduce or eliminate long-term risk to life and property.

The plan is prepared and updated on a five-year cycle and is coordinated at the county level with participation from all municipalities within the county. Local adoption of the plan by the governing body is required for the Town to remain eligible for certain federal and state hazard-mitigation grant programs.

The current update reflects revised hazard data, updated risk assessments, and amended mitigation actions based on recent events, best available data, and local input.

### **FUNDING:**

None required.

### **STAFF RECOMMENDATION:**

Staff recommends approval of the updated County-Wide Hazard Mitigation Plan and authorization for the Mayor to execute the associated resolution.
