STAFF REPORT

AGENDA ITEM:

Consideration to approve a contract with Ceres Environmental Services, Inc for Debris Clearing, Removal, and Disposal Services.

BACKGROUND:

Fayette County conducts a debris clearing, removal, and disposal service request for proposals "RFP" to competitively select the best firm to perform debris clearing, removal, and disposal in the event of a disaster. These services are utilized to ensure proper disposal of multiple types of debris and to keep documents required by FEMA for possible reimbursement of costs. Fayette County included Tyrone and other municipalities in the RFP process to simplify the bidding process and provide a single vendor for continuity during the recovery.

The RFP (#2365-P) was advertised and lead by Fayette County. Proposals were received by the County and distributed to municipalities for evaluation. Tyrone staff participated in the evaluation process and submitted the evaluation to the County. The County and Municipalities compiled the evaluation scores and determined the top firm. The top firm was Ceres Environmental Services, Inc.

This contract will allow a total of three years with agreed upon annual renewals.
