

ENGINEERING SERVICES AGREEMENT

THE STATE OF TEXAS §
 §
COUNTY OF WALLER §

THIS AGREEMENT is made and entered into by and between **WALLER COUNTY, TEXAS**, a public body corporate and politic of the State of Texas acting by and through the Waller County Commissioners Court (hereinafter referred to as "County"), and IEA, Inc., hereinafter called the "Engineer" or "Company".

W I T N E S S E T H:

WHEREAS, the County proposes to hire the Engineer to provide construction engineering and inspection services for the reconstruction of Double Culvert Road north of FM 1736 and Cedar Creek Road from Double Culvert Road to SH 6, in Waller County, Texas, hereinafter called the "Project";

WHEREAS, the Engineer has represented to the County that it is qualified and prepared to perform all of the services described in the Scope of Services, Appendix A, attached hereto and incorporated herein by reference as if copied herein verbatim (Scope of Services), and has submitted a proposal to provide professional engineering services for the Project;

WHEREAS, the County is satisfied that the Engineer is capable of performing the necessary services required for the Project and desires to contract with the Engineer to perform the services described in the Scope of Services;

WHEREAS, the provisions of Chapter 262, Texas Local Government Code, Competitive Bidding Law do not apply to the proposed agreement because the contract is for professional appraisal services and the services were procured pursuant to Chapter 2254, Texas Government Code;

WHEREAS, the County has determined and found that it would be in the best interest of the County to delegate to LJA, Inc. ("LJA") supervisory and management authority over the Engineer; and

WHEREAS, the Engineer will control the methods and means in performing the work set out in the Scope of Services.

NOW, THEREFORE, in consideration of the mutual covenants and conditions set forth below, the parties agree as follows:

1. General

- a. In performing professional engineering services under this Agreement, the Engineer will function solely and exclusively for the benefit of the County and not for the benefit of the contractors for the Project or any other party. All

services rendered by the Engineer under this Agreement shall be performed under the supervision of LJA. The Engineer shall render services in accordance with generally accepted professional standards and use the degree of care and skill reasonably necessary to ensure compliance with all applicable laws and regulations.

- b. The Engineer shall be responsible for the professional quality, technical accuracy and the coordination of all deliverable documents and services furnished by the Engineer under this Agreement. The Engineer shall, without additional compensation, correct or revise all errors and deficiencies in its documents.
- c. The Engineer will collaborate with LJA and County personnel to facilitate the maintenance of a Project Database within the County's Electronic Document Management System. The Electronic Document Management System will provide electronic management that shall govern the distribution and file copies of all Project related correspondence, request for information (RFIs), change orders, pay estimates, reports, plans and technical data. The County and the Engineer will use this system to facilitate the effective electronic exchange of Project information and documents with members of the design team and other interested stakeholders.
- d. The Engineer will collaborate with the County's personnel to facilitate the maintenance of the Project Database. Project files shall be entered into the database by the Engineer on a timely basis and made available by LJA and the County at all times for performance of daily Project activities. Other documents, including those used for legal review, audit requests/requirements, and open records request purposes, shall be entered by the County staff assisting the Engineer team. The Engineer shall also ensure that all Project files are appropriately entered into the database:

- 1. At all critical milestones;
- 2. At established periodic intervals; and
- 3. Following completion of the work as a final Project record, including applicable record drawings.

2. Scope of Services

The services to be provided herein in regard to the Project are defined in Appendix A ("Scope of Services").

3. Compensation and Payment

- a. The Engineer shall be entitled to payment based on specified rates and reimbursement as set forth in this section, and the Engineer agrees that such payment will constitute full compensation for the performance of services under this Agreement. The County shall not be obligated to pay in excess of

\$866,159.40 and the Engineer shall not be obligated to perform further services hereunder once such sum has been earned, except to the extent that the County has given prior written authorization to perform additional services and receive compensation therefore from funds in excess of such figure and within the maximum sum available under 3.c.

- (1) All hourly billing for defined services and any additional services not included in the Scope of Services under this Agreement, including changes in the contractual scope of work and revision of work satisfactorily performed, will be performed only when approved in advance and authorized by the County. Engineer understands and agrees that the Maximum Compensation stated is an all-inclusive amount and not additional fee, cost or reimbursed expense shall be added whatsoever to the fee stated in Appendix B.
 - (2) Where subcontractors are employed by the Engineer to perform services specified in this Agreement, the Engineer will be reimbursed for subcontractors' salaries and hourly rates, on the same basis as described for the Engineer's own personnel in subparagraph a. (1), of this Paragraph. Reimbursement to the Engineer for non-salary costs incurred by subcontractors will be on the same basis as if the costs were incurred by the Engineer. The Engineer will be paid a subcontract administrative fee equal to ten percent (10%) of all subcontractor invoiced amounts. Total contract amounts shall include subcontractor fees.
- b. It is understood and agreed that monthly payments will be made to the Engineer by the County based on the following procedures: On or about the fifteenth day of each month during the performance of services hereunder and on or about the fifteenth day of the month following completion of all services hereunder, the Engineer shall submit to the County two (2) copies of invoices showing the amounts due for services performed during the previous month, set forth separately for work under this Agreement and for additional services (accompanied by supporting certified time and expense records of such charges in a form acceptable to the County Auditor). LJA shall review such invoices and approve them within ten (10) calendar days with such modifications as are consistent with this Agreement and forward same to the County Engineer, who will forward to the County Auditor. The County shall pay each such invoice as approved by the County Auditor within twenty (20) calendar days after the County Auditor's approval of same. Invoices are due and payable 30 days from receipt.
 - c. It is expressly understood and agreed that the County has available the total maximum sum of **\$866,159.40** as hereinafter certified available for the purpose of satisfying the County's obligations under the terms and provisions of this Agreement. The County shall not be liable under any circumstances or any interpretations hereof for any costs under the Agreement except for those certified available for this Agreement by the Waller County Auditor, as

evidenced by the issuance of a purchase order by the Waller County Procurement Director for the certified amount. Once the funds are expended for the purpose of satisfying the County's obligations under the terms and provisions of this Agreement, the County shall have no further obligations nor shall the Engineer be required to perform further services hereunder.

4. Time of Performance

It is understood and agreed that the time for performance of the Engineer's services under this Agreement shall begin with receipt of the Notice to Proceed and end **550** calendar days from that date and remain in full force and effect until Project completion.

The contract period in which work authorizations may be issued may not be longer than one and a half years after the date of contract execution or contract amendment. The Engineer is responsible for notifying the County thirty days prior to the end of the contract.

5. The County's Option to Terminate

- a. The County has the right to terminate this Agreement at its sole option at any time, with or without cause, by providing written notice of such intention to terminate and by stating in said notice the "Termination Date." Upon such termination, the County shall compensate the Engineer in accordance with Paragraph 3., above, for those services that were provided under this Agreement prior to its termination and that have not been previously invoiced to the County. The Engineer's final invoice for said services will be presented to and paid by the County in the same manner set forth in Paragraph 3. b., above.
- b. Termination of this Agreement and payment in settlement as described in subparagraph a. of this Paragraph shall extinguish all rights, duties, obligations, and liabilities of the County and the Engineer under this Agreement and this Agreement shall be of no further force and effect; provided, however, such termination shall not act to release the Engineer from liability for any previous default either under this Agreement or under any standard of conduct set by law. No termination of this Agreement shall have the effect of terminating the Engineer's obligations under Sections 7 (Delays and Damages), 8 (Inspection of the Engineer's Books and Records), 13 (Appearance as Witness), or 16 (Indemnification).
- c. If the County shall terminate this Agreement as provided in this Paragraph, no fees of any type, other than fees due and payable at the Termination Date, shall thereafter be paid to the Engineer.
- d. The County's rights and options to terminate this Agreement, as provided in any provision of this Agreement shall be in addition to, and not in lieu of, any

and all rights, actions and privileges otherwise available under law or equity to the County by virtue of this Agreement or otherwise. Failure of the County to exercise any of its rights, actions, options or privileges to terminate this Agreement as provided in any provision of this Agreement shall not be deemed a waiver of any rights, actions or privileges otherwise available under the law or equity with respect to any continuing or subsequent breaches of this Agreement or of any other standard of conduct set by law.

- e. Copies of all completed and partially completed documents prepared under this Agreement shall be delivered to the County upon the Engineer's receipt of termination payment when and if this Agreement is terminated.

6. Source of Fee Payments

The County intends to pay for construction engineering and inspection services with the proceeds from the sale and issuance of bonds. It is expressly acknowledged that all payments owing for Engineering services performed under this Agreement shall be made solely from this source of funds for financing design and construction of the Project. The County shall be under no liability under this Agreement to make payment to the Engineer from any other source. In addition, the County reserves the right, at its sole discretion, at any time prior to issuance by the County of the written notice to proceed, to terminate this Agreement and in the event of such termination, the Engineer shall not be entitled to any payment, nor have any claim for compensation or damages resulting from such cancellation. In no event shall the liability of the County under this Agreement exceed the amount hereunder certified as available by the County Auditor.

7. Delays and Damages

Except as otherwise provided herein, the Engineer agrees that no other charges or claims for damage shall be made by it against the County or LJA for any delays or hindrances occurring during the progress of the Engineer in providing to the County the services specified in this Agreement.

8. Inspection of the Engineer's Books and Records

The Engineer will permit the County to inspect and examine the pertinent books and records of the Engineer, but only for the purpose of verifying the direct salary costs, overtime work, and out-of-pocket expenses for additional services charged to the Project described in and contemplated by Paragraph 3. a., above.

9. Personnel, Equipment, and Material

- a. The Engineer represents that it presently has, or is able to obtain, adequate qualified personnel in its employment for performance of the services required under this Agreement and that the Engineer shall furnish and maintain, at its own expense, adequate and sufficient personnel and equipment, in the opinion

of the County, to perform the services when and as required and without delays. It is understood that the County will approve assignment and release of all key engineering and inspection personnel and that the Engineer shall submit written notification of all key engineering and inspection personnel changes monthly for the County's approval prior to the implementation of such changes. Services described in this Agreement shall be performed under the direction of an engineer licensed to practice professional engineering in the State of Texas.

- b. All employees of the Engineer or subcontractors hired by the Engineer shall have such knowledge and experience as will enable them to perform the duties assigned to them. Any employee of the Engineer or subcontractor of the Engineer who, in the opinion of the County, is incompetent or by his conduct becomes detrimental to the Project shall, upon request of the County, immediately be removed from association with the Project.
- c. Except as otherwise specified in paragraph 10. below, the Engineer shall furnish all equipment, transportation, supplies, and materials required for its operations under this Agreement.

10. Items to be Furnished to the Engineer by the County

The following items will be supplied to the Engineer by the County:

- a. Digital copies of construction contract plans and specifications for the Project area.

11. Subletting

The Engineer shall not sublet, assign, or transfer all or any part of the services in this Agreement without the prior written approval of the County. Responsibility to the County for sublet work shall remain with the Engineer.

12. Conferences

At the request of the County, the Engineer shall provide appropriate personnel for conferences at its offices, or attend conferences at the various offices of the County, or at the site of the Project, and shall permit inspections of its offices by the County, or others when requested by the County.

13. Appearance as Witness

If requested by the County, or on its behalf, the Engineer shall prepare such engineering exhibits and plats as may be requested for all hearings and trials related to the Project and, further, it shall prepare for and appear at conferences and shall furnish competent expert engineering witnesses to provide such oral testimony and to introduce such demonstrative evidence as may be needed

throughout all trials and hearings with reference to any litigation relating to the Project. Compensation for trial preparation and appearance by the Engineer in courts regarding litigation matters will be made in accordance with the provisions of Paragraph 3. a. (1), above.

14. Compliance with Laws

The Engineer shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and, to the extent that the Engineer has actual knowledge, the orders and decrees of any courts or administrative bodies or tribunals in any matter affecting the performance of this Agreement, including, without limitation, it is understood that the Engineer shall be responsible for complying with Worker's Compensation laws, minimum and maximum salary and wage statutes and regulations, licensing laws and regulations. When required, the Engineer shall furnish the County with certification of compliance with said laws, statutes, ordinances, rules, regulations, orders, and decrees specified above.

The Engineer shall strictly comply with Section 2251.022 Texas Government Code, and shall require that its subcontractors fully comply with Section 2251.023 Texas Government Code.

15. Insurance

The Engineer shall obtain, keep and maintain any and all insurance that may be required by law or that may be required by any agreement the County has with any other party concerning the Project. The Engineer's insurance policies shall be the primary policies. Under no circumstances will the County be liable for any policy premiums or deductibles. The Minimum Insurance Requirements are attached hereto as Appendix C. During the Term of this Agreement and any extensions thereto, the Engineer at its sole cost and expense shall provide insurance of such type and with such terms and limits as may be reasonably associated with this Agreement as stated in attached Exhibit C.

16. Indemnification

TO THE EXTENT ALLOWED BY LAW, THE ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE COUNTY, ITS OFFICERS, EMPLOYEES, AND AGENTS FROM LIABILITY, LOSSES, EXPENSES, DEMANDS, REASONABLE ATTORNEYS' FEES, AND CLAIMS FOR BODILY INJURY (INCLUDING DEATH) AND PROPERTY DAMAGE TO THE EXTENT CAUSED BY THE NEGLIGENCE, INTENTIONAL TORT, INTELLECTUAL PROPERTY INFRINGEMENT OF THE ENGINEER (INCLUDING THE ENGINEER'S AGENTS, EMPLOYEES, VOLUNTEERS, AND SUBCONTRACTORS/CONSULTANTS UNDER CONTRACT, OR ANY OTHER ENTITY OVER WHICH THE ENGINEER EXERCISES CONTROL) IN THE PERFORMANCE OF THE SERVICES DEFINED IN THIS AGREEMENT. THE ENGINEER SHALL ALSO SAVE THE COUNTY HARMLESS FROM AND

AGAINST ANY AND ALL EXPENSES, INCLUDING REASONABLE ATTORNEYS' FEES, IN PROPORTION TO THE ENGINEER'S LIABILITY, THAT MIGHT BE INCURRED BY THE COUNTY, IN LITIGATION OR OTHERWISE RESISTING SUCH CLAIMS OR LIABILITIES.

17. Delivery of Notices, Etc.

- a. All routine written notices, invoices, change orders, etc. are to be delivered to the County Engineer, J. Ross McCall, P.E., 775 Business US 290 East, Hempstead, TX 77445, or at such other place or places as the County may designate by written notice delivered to the Engineer.
- b. All formal notices and demands under this Agreement shall be delivered to the Waller County Judge, Attention: Carbett "Trey" J. Duhon III, 836 Austin St, STE 4300, Hempstead, TX 77445.
- c. All written notices, demands, and other papers or documents to be delivered to the Engineer under this Agreement shall be delivered to IEA Inc., Attention: Howard Caldwell P.E., 6505 Mapleshade Lane, Dallas, TX 75252, or at such other place or places as the Engineer may designate by written notice delivered to the County.

18. Reports of Accidents, Etc.

Within 24 hours after the occurrence of any accident or other event which results in, or might result in, injury to the person or property of any third person (other than an employee of the Engineer), whether or not it results from or involves any action or failure to act by the Engineer or any employee or agent of the Engineer and which arises in any manner from the performance of this Agreement, the Engineer shall provide notice via phone call to LJA within 2 hours of the Engineer having knowledge of the incident and will subsequently send a written report of such accident or other event to the County, setting forth a full and concise statement of the facts pertaining thereto that are known to the Engineer within 24 hours of the incident. The Engineer shall also immediately send the County a copy of any summons, subpoena, notice, or other documents served upon the Engineer, its agents, employees, or representatives, or received by it or them, in connection with any matter before any court arising in any manner from the Engineer's performance of work under this Agreement.

19. The County's Acts

Anything to be done under this Agreement by the County may be done by such persons, corporations, or firms as the County may designate.

20. Limitations

Notwithstanding anything herein to the contrary, all covenants and obligations of the County under this Agreement shall be deemed to be valid covenants and obligations only to the extent authorized by the Act creating the County and permitted by the laws and the Constitution of the State of Texas.

21. Captions Not a Part Hereof

The captions or subtitles of the several sections and divisions of this Agreement constitute no part of the content hereof, but are only labels to assist in locating and reading the provisions hereof.

22. Controlling Law, Venue

This Agreement shall be governed and construed in accordance with the laws of the State of Texas. This Agreement shall be performed entirely in Waller County, Texas and the parties hereto acknowledge that venue is proper in Waller County, Texas, for all disputes arising hereunder and waive the right to sue or be sued elsewhere.

23. Successors and Assigns

The County and the Engineer bind themselves and their successors, executors, administrators and assigns to the other party of this Agreement and to the successors, executors, administrators and assigns of the other party, in respect to all covenants of this Agreement.

24. Independent Contractor

Notwithstanding any provision of this Agreement, the Engineer shall at all times act as an independent contractor, not as an employee of the County, and the Engineer shall be responsible for the means and methods employed in performing services hereunder.

- a. The Services performed by the Engineer under this Agreement are performed by the Engineer as an independent contractor. This Agreement is not intended to create and shall not constitute a partnership or joint venture between the parties. The Engineer shall have and retain the exclusive right of control over employment, firing, discipline, compensation, insurance, and benefits in accordance with the applicable laws of the State of Texas. The Engineer has no authority to bind or otherwise obligate the County orally, in writing or by any act or omission. Nothing contained herein shall establish an agency, employee-employer relationship, partnership, joint enterprise, joint employer, or joint venture relationship by or between the County and the Engineer.
- b. The Engineer warrants that it will comply with all applicable federal and state laws including, but not limited, to the Prompt Pay Act, in the payment of its employees or subcontract employees.

- c. The Engineer is solely responsible for the payment of wages and any applicable benefits to workers for Services performed for the County. The Engineer shall be responsible for withholding federal and state income taxes, paying Federal Social Security taxes, maintaining unemployment insurance and maintaining workers' compensation insurance in an amount and under such terms as required by the applicable laws of the State of Texas.
- d. The Engineer's workers are not entitled to any contributions by or benefits from the County for any pension plan, bonus plan or any other benefit plan. The Engineer and the workers furnished by the Engineer shall not be entitled to any fringe benefits or similar benefits afforded to employees of the County. The County is not liable for payment of any federal or state taxes and charges including, but not limited to, income withholding taxes, social security, unemployment, workers' compensation, and similar taxes and charges. This Article shall survive the expiration or termination of this Agreement.

25. Certificate of Interested Parties (Form 1295)

Texas law requires all parties who enter into any contract with the County that must be approved by Commissioners Court to disclose all Interested Parties. Texas Ethics Commission Form 1295, must be completed in its entirety. If changes to this Form are necessary during this Agreement, the Engineer will notify and send the County an updated and complete version.

26. Additional Statutory Requirements

Company represents and certifies that, at the time of execution of this Agreement, Engineer (including any wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of the same) is not listed by the Texas Comptroller of Public Accounts pursuant to Chapters 2252 or 2270 of the Texas Government Code, nor will Company engage in scrutinized business operations or other business practices that would cause it to be listed during the term of this Agreement.

27. Dispute Resolution

In an effort to resolve any conflicts that arise during design or construction of the Project or following the completion of the Project, the County and the Engineer agree that all disputes between them arising out of or relating to this Agreement shall first be submitted to non-binding mediation unless the parties mutually agree otherwise. This provision does not preclude available legal remedies in the event the parties are unable to resolve said conflicts through mediation.

IN WITNESS WHEREOF, County and Engineer have caused their respective duly authorized representatives to execute, seal and deliver this Agreement, all as of the day and year first above written.

APPENDIX A

SCOPE OF SERVICES

A. General

The Engineer will provide Construction Engineering and Inspection Services for the Project.

Under this Agreement, Construction Engineering and Inspection Services will include Construction Project Management, Inspection, Project Document and Cost Control, and Personnel Management. Also included are Supplemental Design Engineering Services as needed.

The services listed are the major services that, if directed by the County, will be utilized as part of this contract.

B. Construction Project Management/Inspection

The Engineer, as needed and requested by the County, will provide qualified personnel to execute the function of a Resident Engineer, Design Engineer, Project Field Engineer, Field Engineer, Office Engineer, Office Manager/Administrative Staff, Critical Path Method (CPM) Scheduler, CADD Technician and Inspection staff who will report to the County's Program Manager, LJA. The Engineer will assign field personnel to the Project, and obtain written approval of assignment from LJA prior to implementation.

Each assigned construction project may require unique support activities; however, the typical expectations and responsibilities for the Engineer are as follows:

The Engineer, acting as the Resident Engineer, will manage the progress of assigned construction contracts. The Engineer will coordinate inspection and materials testing personnel; manage Project schedules; coordinate, respond, and track Project RFIs (requests for information); coordinate and track submittals; review and approve required Project shop drawings and submittals; provide supplemental design engineering services (i.e. signed and sealed plan sheets); and provide any other services requested by LJA to support timely Project completion.

The Engineer will review the Project plans and specifications in advance of the various work operations progressively throughout the Project and be thoroughly familiar with the Project requirements. The Engineer is expected to look at the future Project operations to identify potential constructability problems, conflicts, omissions, plan errors, etc. that could result in delays, deficient work or extra costs and bring these issues to LJA's attention. The Engineer may be required to provide design services

(i.e. signed and sealed plan sheets) to help LJA resolve these issues in a timely manner.

The Engineer will monitor the Project contractor's established traffic control and daily operations for compliance with plans, specifications otherwise referred to as the contract documents. The Engineer is responsible for monitoring the Project's operation to verify that the contractor's workmanship and materials incorporated into the Project meet the requirements of the contract documents. The Engineer is responsible for managing and directing daily inspection crews and ensuring the inspectors are properly documenting all daily construction activities, daily photo log, weather conditions, time charges, daily quantities with measurements and calculations, and Project contractor's resources, as well as Project specific information. Discrepancies or deviations from Project contract documents will be identified and brought to the attention of the Project contractor and LJA's Project Manager for correction within 5 days. If required, the Engineer will prepare Project documentation for claim negotiations, hearings or litigation in accordance with Section 13 of the Agreement.

The Engineer will monitor the Project contractor's operations for conflicts with utilities, permit compliance and unforeseen jobsite conditions associated with the Project. The Engineer will coordinate issues with LJA's Project Manager.

The Engineer will coordinate and monitor the performance of their Materials Testing Lab to help verify that sampling, testing, and reporting are performed as required and in a timely manner. The Engineer will track and verify Lab Technician hours and tests performed and review monthly invoices for the Materials Testing Labs, which is part of the Engineer's invoice. The Engineer shall review the testing data and verify that testing results meet Project specified requirements.

The Engineer, in conjunction with LJA, will be responsible for coordination between various entities on the Project, which include, but are not limited, to: County, Designers, TxDOT Personnel/Contractors, Cities, Utility companies, County contractors, LJA Personnel/Contractors, Law Enforcement, Incident Management, Railroad Companies, Materials Testing Services, etc.

The Engineer will evaluate the Project contractor's cost proposals/claims for additional compensation for extra work or time. Each change order proposal will be reviewed for validity and completeness of time impact and cost of change order work. The Engineer will provide recommendations to LJA for approval prior to implementation. The Engineer may be required to prepare signed and sealed plan sheet revisions and specification modifications associated with a desired change in construction Project scope. The Engineer may be requested to prepare a Project bid item quantity "update and reconciliation" change order and contingency balance analysis (including pending change orders). The quantity "update and reconciliation" change order mentioned above shall address all known quantity over-runs and completed significant quantity under-runs.

The Engineer will review the Project contractor's field documentation on a weekly basis to verify compliance with the Texas Pollutant Discharge Elimination System (TPDES) permit requirements. The Engineer will check the Project on a regular basis and after each heavy rainfall to verify that the Storm Water Pollution Prevention Plan (SWPPP) is being followed as required and timely maintenance is occurring. The Engineer will document discrepancies on a TPDES/SWPPP check list and report deficiencies to Project contractor and LJA.

When the Engineer is called upon to observe the work of the Project contractor(s) for the detection of defects or deficiencies in such work, the Engineer will not bear any responsibility or liability for such defects or deficiencies in the work. The Engineer shall not make inspections or reviews of the safety programs or procedures of the Project contractor(s), and shall not review their work for the purpose of ensuring their compliance with safety standards. No fault or negligence shall be attributed to the Engineer based upon the acts or omissions of any Project contractor(s). Construction safety shall remain the sole responsibility of the Project contractor(s).

C. Project Document and Cost Control

All construction documentations (Change Orders, Project Schedule, RFIs, Pay Estimates, Submittals, etc.) shall be scanned, uploaded, and filed as directed by LJA throughout the course of the Project.

The Engineer is responsible for tracking all required submittals to verify that the Project contractor is providing all required shop drawings and submittals in a timely manner, and receiving proper approval prior to implementation. All required submittals and their corresponding revisions will be uploaded and stored on the County's system, in a filing notation agreed upon by LJA.

The Engineer will conduct the pre-construction meeting and construction coordination meetings. The Engineer is responsible for recording meeting minutes and distributing.

The Engineer is responsible for uploading and including all necessary documentation (drawing revisions, correspondence, etc.) to support Project RFIs on the County's system. RFIs are not a change document; however, it can lead to possible design changes and change orders. The change orders and corresponding documentation will need to be uploaded in the County's system. The Engineer is expected to work in conjunction with LJA when a required response will warrant additional work or payment.

The Engineer will review and approve all information entered into the Daily Report. Daily sketches, measurements and calculation sheets shall be submitted by Project inspectors with their daily report for each pay item installed, then checked and approved by the Engineer's senior inspector. Documenting quantities at the end of the week or month (periods longer than a day) will not be acceptable performance. The Engineer shall keep thorough records on the Construction Contractor's heavy

equipment, noting on the daily construction report: equipment description with make and model number, date arrived on Project, owned or rented, hours used/standby, broke down, date it left the Project or moved to another Project section, and a photo of each piece of equipment for equipment log. The Project Daily Report also will incorporate contract items of observation and decisions associated with the construction of the Project that could be pertinent to extra work and/or claim situations. Digital photographs with a "Date & Time" stamp shall be taken on a daily basis to document construction activities and progress, (with an emphasis on subsurface work) and capture details of problems, conflicts and potential claim issues. The Engineer shall attach each day's photos to the Daily Report.

The Engineer will compile, review and recommend for approval the Construction Contractor's monthly, pre-final and final pay estimates for construction of the Project utilizing the County's system. The Engineer will submit monthly pay estimates in a timely manner such that they can be approved by Commissioners Court and paid by the County within 30 days of the agreed upon monthly estimate cut-off date.

The Engineer will prepare a monthly summary report of construction activities with outstanding issues outlined for review. The Engineer will verify that complete documentation is submitted by the Construction Contractor for material-on-hand payments and checked for accuracy. The Engineer will compile and submit monthly progress information associated with the Project to LJA for review and approval.

Over-run and under-run explanations of original pay item quantities: When original pay item quantities over-run/under-run by 10% or more, a detailed explanation must be given as to why the over-run/under-run occurred. The Engineer shall avoid only stating "design error" as the explanation unless that is the definitive cause as determined solely by the County. The Engineer shall give detailed explanations/justifications of why the over-run/under-run occurred that can be used on the final change order document and may help improve problem areas in the future.

The Engineer will complete the Project Closeout Check List. The Engineer will coordinate final documentation processing in accordance with County standards, policies, procedures and guidelines and submit to LJA upon completion.

The Engineer will prepare an ongoing punch list of discrepancies for the various construction items and monitor the completion and acceptance of the items as required by the Project specifications.

The Engineer will review the Project for substantial completion and final acceptance and coordinate final review walk downs with LJA.

D. Record Drawings

Based upon information supplied in the Project contract documents, the Construction Contractor, and LJA, the Engineer will review and maintain redlined record drawings

throughout the duration of the contract. The redlined drawings will include all revised design plan sheets and show field changes in red, which do not constitute a design change. These drawings must be neat, legible and clearly show what was changed in the field. Design revisions to the plan sheets will be performed by the Engineer based on RFI responses or Change Orders and incorporated into the plans. The Engineer will require that the Construction Contractor's redlined drawings be kept up-to-date with changes being shown in red in an accurate, neat and orderly appearance so they can be used as the record drawings at the end of the Project. After the Resident Engineer has verified the accuracy and completeness of the Record Drawings, each sheet of the Record Drawings shall be marked with the words "RECORD DRAWINGS" in Red ink. The Resident Engineer shall incorporate all redlines into the plan set electronically and provide the final record plan set (both hard copy and electronically) to the County within 90 days of final acceptance of the Project.

RECORD DRAWINGS

THE UNDERSIGNED CERTIFIES THAT TO THE BEST OF THEIR KNOWLEDGE THE CONTENT, ACCURACY AND COMPLETENESS OF THESE RECORD DRAWINGS/ CONTRACTOR REDLINE DRAWINGS REPRESENT HOW THE PROJECT WAS CONSTRUCTED IN THE FIELD.

RESIDENT ENGINEER'S NAME PRINTED _____

DATE _____

E. Personnel Management

All Engineer staff overtime must be approved by LJA prior to the overtime being worked.

All Engineer/Staff vacation/paid time off/planned sick leave/other types of time off work must be approved a minimum of two weeks in advance of the time off by LJA. The Engineer shall provide replacement personnel in a timely manner to be approved by LJA as required.

Personnel shall call in any unplanned sick leave to the Senior Inspector or Resident Engineer before the start of the work shift.

All inspectors will be required to take a lunch break of at least ½ hour. Exceptions must be approved in advance by LJA. This lunch break time will not be charged to the County.

A weekly timesheet must be turned in by each inspector each Monday morning to LJA. Timesheets will be compared with the invoice time charged to the County. In the event that an inspector is not at work on a Monday morning, it must be turned in on the first day back to work.

Resident Engineer/Senior Inspector will assign inspector/office manager work shifts in accordance with direction from LJA. Work shifts may be staggered and adjusted to meet day, night and weekend work requirements and minimize overtime as directed by LJA.

F. Miscellaneous

Visitors to the Project: The Engineer or its representatives are to politely greet any visitor, identifying himself/herself and ask for the visitor's identification and inquire

about how the person can be helped. If the visitor is the County Judge, a County Commissioner, County Engineer or a member of their staff, the Engineer or its representative shall immediately notify LJA. The Engineer will provide the authorized visitors (County employees, LJA employees, and their successors and assigns) with the proper safety attire (hard hat and vest) and offer to take them on a tour of the Project. If the visitor is someone with no official business, he or she shall be told that the area is a construction site and to leave the site immediately. If the visitor is a member of the Media, politely decline any interview request. Direct all media requests for interviews or questions concerning the construction Project to Waller County Road and Bridge Department at (979) 826-7670. No consultant or contractor is authorized to speak for or on behalf of the County. Incidents observed by the Engineer involving the media or trespassers on the site shall be documented on the daily construction report.

When accidents occur within the Project limits, the inspection team members will attempt to obtain Police/Sheriff accident case numbers (without disrupting the Officer's investigation) and document on the Daily Work Report as much information as possible (attach photos of Project traffic control, damage to County facilities, accident information, etc.).

APPENDIX B

APPENDIX C

MINIMUM INSURANCE REQUIREMENTS

IEA, Inc.

During the term of the Contract, the Contractor at its sole cost and expense shall provide primary commercial insurance of such type and with such terms and limits as may be reasonably associated with the Contract. As a minimum, the Contractor shall provide and maintain the following coverage and limits:

- A. Workers Compensation**, as required by the laws of Texas, **and Employers' Liability**, as well as All States, USL&H (United States Longshore & Harbor Workers Compensation Act) and other endorsements if applicable to the Project, and in accordance with state law.

Employers' Liability

- Each Accident: \$1,000,000
- Disease—Each Employee: \$1,000,000
- Policy Limit: \$1,000,000

- B. Commercial General Liability**, including but not limited to the coverage indicated below. Coverage shall not exclude or limit Products/Completed Operations, Contractual Liability, or Cross Liability. Where exposure exists, the County may require coverage for watercraft, blasting, collapse, explosions, blowout, cratering, underground damage, pollution, or other coverage. *Waller County shall be named Additional Insured on primary/non-contributory basis.*

- Each Occurrence: \$1,000,000
- Personal and Advertising Injury: \$1,000,000
- Products/Completed Operations: \$1,000,000
- General Aggregate (per Project): \$2,000,000

- C. Automobile Liability**, including coverage for all owned, hired, and non-owned vehicles used in connection with the contract. *Waller County shall be named Additional Insured on primary/non-contributory basis.*

- Combined Single Limit-Each Accident: \$1,000,000

- D. Umbrella/Excess Liability** (*Waller County shall be named Additional Insured on primary/non-contributory basis*)

- Each Occurrence/Aggregate: \$1,000,000

- E. Professional/Errors & Omissions Liability**

- Per Claim/Aggregate: \$1,000,000
-

The County reserves the right to require additional insurance if necessary and shall give reasonable notice to the Engineer to request such additional insurance. Coverage shall be issued by companies licensed by Texas Department of Insurance (TDI) to do business in Texas and who have an A.M. Best rating of at least A-. Engineer shall furnish evidence of such insurance to the County in the form of unaltered insurance certificates. If any part of the contract is sublet, insurance shall be provided by or on behalf of any subcontractor, and shall be sufficient to cover their portion of the contract. Engineer shall furnish evidence of such insurance to the County as well.

Policies of insurance required by the contract shall waive all rights of subrogation against the County, its officers, employees and agents. If any applicable insurance policies are cancelled, materially changed, or non-renewed, Engineer shall give written notice to the County at least 30 days prior to such effective date and within 30 days thereafter, shall provide evidence of suitable replacement policies. Failure to keep in force the required insurance coverage may result in termination of the contract. Upon request, certified copies of original insurance policies shall be furnished to the County.

The requirements stipulated in this attachment do not establish limits of Engineer liability.
