# Preliminary Cost Proposal

May 8, 2026

Waller County

*Re: CloudGavel Electronic Warrants*

Waller County:

On behalf of Tyler Technologies, I would like to express our sincere gratitude to Waller County for the opportunity to present this proposal for our CloudGavel Electronic Warrants solution.

Tyler Technologies is pleased to offer a proven, low-risk approach that will enable Waller County to efficiently meet the objectives set forth for this project. We are confident that our solution, backed by both extensive experience and a robust product offering, will address your needs and help you achieve your desired outcomes.

We look forward to collaborating with you as you consider the various options for this project. We firmly believe that the Tyler Solution combines the right product, the necessary expertise, and the approach required to successfully meet the goals of Waller County.

Thank you again for considering Tyler Technologies. We are excited about the possibility of working together and are happy to provide any further information you may require.

Sincerely,

Amiee Dismukes  
Account Executive

# Preliminary Cost Proposal

## Overview

CloudGavel is the global leader in electronic warrants. We are committed to national leadership in training, best practices, awareness, and product innovation. Our single focus is to help law enforcement professionals, judges, courts, and clerks of court have the best available technology, training and processes available for warrant creation, servicing, and archiving.

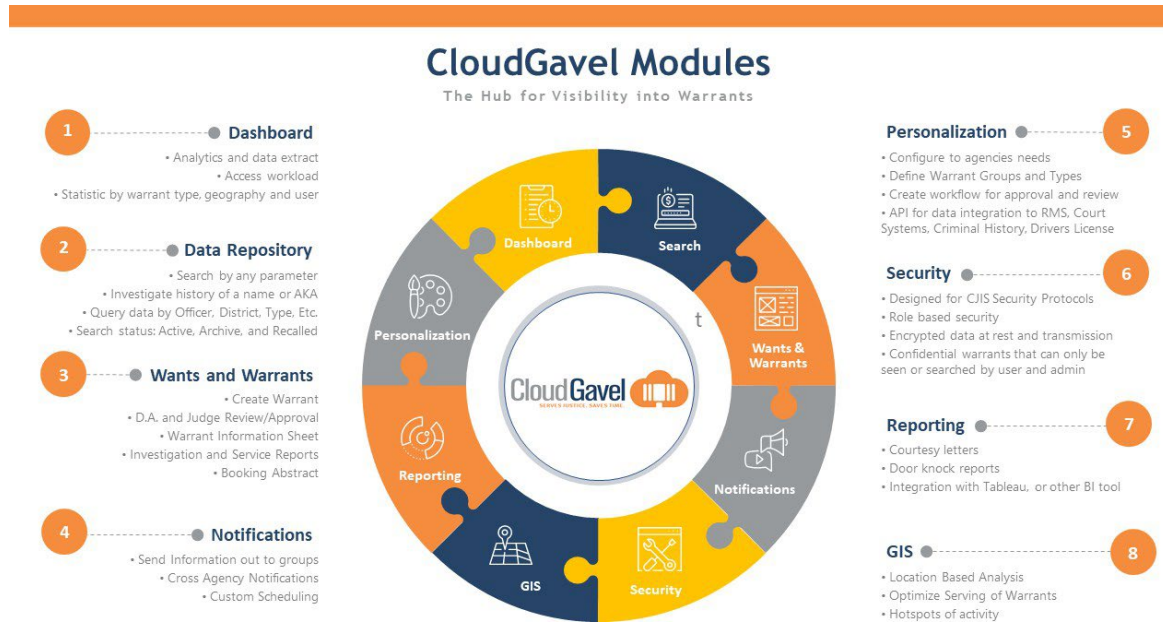

## CloudGavel Solution

Tyler is pleased to submit this proposal for services to support the agencies within Waller County with our cloud-based electronic warrants solution. CloudGavel brings speed and efficiency to the Warrant process. The CloudGavel solution is all-inclusive and delivers these impressive features:

- **Latest Technology** - Old paper-based systems are being replaced by electronic systems that save time increasing law enforcement effectiveness while cutting costs out of the process. Any internet capable device can prepare and submit warrants to the judge, from anywhere at any time.
- **Common warrant language and forms** – within an agency, within a judicial district, and within a state....consistent and specific forms, workflow and process improves productivity for everybody
- **Economical and Flexible** – solution supports unlimited users in your agency. Simple to set up, administer and use...no hardware or software to install or support. Pricing is population based so, the cost scales from smaller to larger agencies. A single agency can participate along with their judge (s), or all agencies in a judicial district or county can participate together as a multijurisdictional solution..... regional solutions can easily grow out over time.
- **Tailored for your State and Agency** – CloudGavel at no cost to your agency sets up your unique state forms (arrest, subpoena, etc.) and your statutes, as well as your judges/districts and other location specific data to speed data entry and warrant creation
- **Custom Integrations** – where desired, API's allow integration of CloudGavel with agency RMS systems eliminating duplicate data in many cases and enabling effective information sharing.
- **Enhanced Security** – CJIS compliant hosting environment with highest security protocols hosted on Amazon's government AWS cloud hosting environment – the best quality in the world.

## Industry Leading Warrants Process

CloudGavel simplifies and expedites the warrant approval and issuance process by allowing public safety officers to use any device with secure internet access to log on to our web application and generate a warrant. After the electronic warrant is automatically populated, it is then electronically sent to a judge for review and approval.

### Fast Justice

CloudGavel enables law enforcement officers to act quickly and to ensure the safety of those officers as well as the general public. Law enforcement officers are able to take action as soon as they have probable cause, thereby reducing the possibility that a suspect will be tipped off and flee. If required, a secure video conferencing link between the officer and judge can be utilized. A judge is able to review the warrant and respond from anywhere, eliminating the need to physically be in an office.

### Value

CloudGavel saves countless hours, and even days, of lost time over the course of a year. By maximizing the efficient deployment of police resources, agencies reduce unplanned overtime used to process warrants and file paperwork.

# Preliminary Cost Proposal

## Annual (Recurring) Costs

Tyler is providing an unlimited use license for the law enforcement agencies, courts, and district attorney users within Waller County for our CloudGavel electronic warrants solution. We are also providing an unlimited use license for all patrol units to complete unlimited DUI warrants.

Waller County will pay an annual subscription fee upon each contract term renewal, which is currently set on the date a master agreement is fully executed. The annual subscription fee includes the following:

- County-wide deployment of the CloudGavel Solution to all agencies, courts, prosecutors, departments, etc. requiring system access.
- All system-wide product enhancements
  - These consist of all enhancements that are available to all clients.
- All system bug fixes
- Full technical support to all agencies, courts, departments, etc., in Waller County.

Software as a Service	Annual SaaS Fee
<b>CloudGavel – Electronic Warrants (up to 700 warrants annually**)</b> <ul style="list-style-type: none"> <li>- Enterprise Licensing – Unlimited Users</li> <li>- Support and Maintenance</li> <li>- Interface Support</li> <li>- Cloud Hosting</li> </ul>	Year 1: \$10,500*

\* = Annual SaaS Fees escalate 5% per year.

\*\* =Additional warrants are billed at \$15 per warrant monthly in arrears.

## One Time Costs (Project Services)

These costs are for the services required to implement CloudGavel, including project management, configuration, training, and go-live assistance.

Project Services	Cost
<b>Implementation Services</b> <ul style="list-style-type: none"> <li>- Project Management</li> <li>- Discovery &amp; Requirement Gathering</li> <li>- Customization &amp; Configuration</li> <li>- Staging and Production Environment</li> <li>- Data Migration</li> <li>- Testing/Training/Onboarding</li> </ul>	\$7,875

Any additional services supplied to Waller County by CloudGavel outside of the electronic warrant system will be billed on a mutually agreed price and scope of work and will require an amendment to the scope of the master agreement before the start of any project.

# Preliminary Cost Proposal

## Total Cost Year One

Annual (Recurring) Costs & Services Costs Totals	
CloudGavel Electronic Warrants (Recurring)	\$10,500*
Implementation Services (One Time Cost)	\$7,875
<b>TOTAL SOFTWARE AND SERVICES COST</b>	<b>\$18,375</b>

\* = Annual SaaS Fees escalate 5% per year.

## Summary

We look forward to expanding upon our continued partnership with Waller County, and we are excited for the possibilities of introducing these new business and technology innovations to the County.
