Permit # 24.UP.005

The location on the right-of-way of your proposed buried line as shown by the accompanying notice dated **02/22/2024** is approved.

Your attention is directed to Art. 1436A (for power lines) and Art. 1416 (for communication lines) Vernon's Annotated Texas Civil Statutes with particular attention to the following provisions:

1. The Court Commission may designate the place along the right-of-way where such lines shall be constructed.
2. Emplacement of buried lines shall be a minimum of 36 inches below the flow line of the existing ditch. For installations parallel to the right-of-way, the utility shall be located within three (3) feet of the edge of the right-of-way, unless otherwise approved by the County.
3. All placement of lines beneath roadways and asphalt or concrete paved driveways shall be jacked or bored. No open cut will be allowed within five feet of the edge of roadways or such driveways. Open cuts on unpaved driveways shall be performed only with a trenching machine and shall not be excavated. In such cases the trench shall be backfilled and compacted. The driveway surface shall be restored to its original condition. Any variance to these requirements shall have the Commissioners' Court approval.
4. All buried water lines shall be marked thoroughly with detectable tracer wire. All other lines shall be marked thoroughly with detectable underground warning tape. Public to be safe-guarded by use of construction signs and barricades. Identification markers shall be placed along right-of-way lines, that is readily identifiable, indicating name of Company, type of line and emergency contact number.
5. Restore roads to their original condition. Trench is to be back-tracked, dragged, graded and filled as necessary to minimize erosion and sedimentation resulting from the proposed installation. Ditches are to be left clear for drainage.
6. The Court Commission may require the owner to relocate this line, for valid reasons under the law by giving thirty (30) days written notice.

The contractor must notify the County Engineer at (979) 826-7670, forty-eight (48) hours prior to starting construction of the line in order that we may have a representative present. An inspection of the line installation is required prior to backfilling the excavation to confirm proper cover depth.

SPECIAL PROVISIONS:

WALLER COUNTY COMMISSIONERS' COURT

Carbett "Trey" J. Duhon III, County Judge

It is ORDERED by the Court on motion by Commissioner _____, duly seconded by Commissioner _____, that the above and foregoing request be and the same is hereby approved, with _____ members present voting in favor and _____ members present voting opposed. The County Engineer is authorized to comply with the above requests.

- GENERAL NOTES**
- Flags oriented to show where shown are REQUIRED.
 - All traffic control devices illustrated are REQUIRED, except those omitted in the "Typical Shoulder Work Situations" section. Those omitted in the plan, or for routine maintenance work, when approved by the Engineer.
 - Mobile work vehicles or other equipment should be parked near the right-of-way line and not parked on the paved shoulder.
 - Shadow vehicles with a TMA should be used unless it can be positioned 30 to 100 feet in advance of the area of work without obstructing the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricade or other channelizing device may be substituted for the Shadow Vehicle and TMA.
 - Additional Shadow Vehicles with TMA may be positioned off the paved surface, next to those shown in order to protect clear work space.
 - See TCP (1-1) for shoulder work on divided highways, expressways and freeways.
 - C20-13 "SHOULDER WORK" signs may be used in place of C20-10 "ROAD WORK AHEAD" signs for shoulder work on conventional roadways.

RE: Matterhorn Express Pipeline, LLC - 12" Natural Gas Pipeline
Notice of Proposed Utility Work in Waller County Right-of-Way Submittal (2 Crossings)

Ms. Hogan and Mr. Karstadt,

My name is Chelsea Popp and, on behalf of Norfleet Land Services, I represent Matterhorn Express Pipeline, LLC. Matterhorn Express Pipeline, LLC (MXP) proposes to install, operate, and maintain a new pipeline and appurtenant facilities for the transportation of natural gas, being approximately 597 miles in total length from Rankin, Texas to Wharton County, Texas and including a lateral pipeline which extends from the KM Texas Katy Meter Station on Property R11077 to the Dow Katy Lateral Meter Station on Property R11536 near Katy, Texas. This "Dow Katy Lateral", a portion of which will cross through Waller County, Texas, is a proposed 12" steel diameter pipeline.

Matterhorn Express Pipeline, LLC respectfully requests approval from Waller County Engineer's Office to install the underground pipeline via bore construction method under the following County Roads in Waller County:

Morton Rd.
Schlipf Rd.

Construction on the MXP project is expected to begin on or around March 1st, 2024.

According to the previous "Requirements for Waller County Utilities Installation Permit" document, the permit fee is anticipated to be \$100.00 per crossing. I do not see this fee requirement on the newest version of the "Requirements" online. Is this \$100.00 fee still required? If so, it will be paid upon confirmation from the Waller County Engineer's Office. It is understood that a restoration bond will be required. The bond will be submitted after the amount is determined by the County.

Enclosed are the partially executed Notice of Proposed Utility Work in Waller County Right-of-Way for each crossing, Barlow Calculation Sheets, Engineering Plan and Profile Drawings for each crossing location and the Traffic Control Plan. I will be happy to provide any additional materials or information if needed.

With sincerest thanks,

Chelsea Popp
