Problem Resolution

Southern Software will provide customer support for mission critical operation of **CAD/DE Analytics**, from 8:30 a.m. to 5:00 p.m., EST, Monday through Friday. Mission critical is defined as “any problem that renders the entire system unstable or inoperable”.

For problems covered under this Agreement, Southern Software will provide the following:

- If the problem is unable to be detected or resolved with a Level 2 response, then a technician will be scheduled for an onsite visit. There is no cost to the customer for the onsite visit as long as the problem is with a Southern Software product or equipment covered by a Southern Software support contract and as long as the problem is not due to a virus or negligent actions/treatment.
