 Last Data Uploaded: 9/8/2022 6:38:15 AM

Developed by Schneider GEOSPATIAL

Existing Site Conditions: This is 2 parcels. Parcel C0480050 contains 89.35 acres and Parcel C0480053 contains 2.00 acres.

The surrounding properties are zoned A1, A2 and R1.

Staff Comments/Concerns: The applicant has requested this 92 acres be rezoned with OSC overlay which allows 1 dwelling per 1 acre density. This development could be developed with 92 lots, however the applicant is requesting 68 lots which is a 26% decrease in total lots.

History: No History

Comments and Recommendations from various Agencies:

Public Works: Public Works recommends a proper A-cell and D-cell lane to be installed. Note: May need to consider centerturn lane installed if the design lines up with development entrance across the street.

Sheriffs' Department: The current estimated population of Walton County is 99853. The Walton County Sheriff's Office issued 49336 case numbers from calls for service in 2021. This does not include business checks that are conducted every night. Walton County currently has about 34799 households with an average of 2.9 people per residence. Any increase of population the service demand of all public safety will be more.

Water Authority: This area is currently served by a 6" water main along Broadnax Mill Road. (static pressure: 60 psi, Estimated fire flow available: 1,500 gpm @ 20 psi). **A new water main will be required to distribute water within the development, looping through development from Broadnax Mill to Marce Camp Road to improve water quality and flow availability. Please coordinate with WCWD.**

Fire Department: No comment received.

Fire Code Specialist: Fire Department access shall be 26' FOC-FOC, plans show 26' BOC-BOC. Fire hydrants shall be placed a minimum of 500' apart.

Board of Education: Will have an effect on the Walton County School System, creating a need for more classrooms, teachers, and transportation.

Development Inspector: No comment received.

DOT Comments: Will not require DOT coordination.

PC ACTION 10/6/2022:

- 1. Rezone – Z22090001 – Rezone 92.012 acres from A1 to R1OSC – Applicant/Owner: Reliant Homes GA LLC - Property located on Broadnax Mill Rd/Marce Camp Rd- Map/Parcel C0480050 & 0053 – District 1.**

Presentation: Ned Butler with Reliant Homes GA LLC represented the case. They would like to rezone the large parcel of 89.35 acres as well as a 2.00-acre tract that has a little white house on it to R1OSC. The property is 92 acres but they are only doing 68 lots and this subdivision would have home similar to the ones in Alcovy Mountain Subdivision. The houses will be 1,950 sq. ft. to 2,600 sq. ft. and the price will be in the

\$400,000 and up. The houses will have hardy siding on all sides and will have a brick water table in the front. He stated that he has met with some neighbors in Cevera Lakes Subdivision through the HOA. There will be no more than 20% of the houses rental and they would be a 12-month term lease. There will not allow Airbnb. There is a surveyor locating existing trees and determining where trees need to be added to the landscape. As far as the entrance, the surveyors are checking on sight distance and they will possibly be moving the entrance across from the church to address the issue brought up by homeowners in Cevera Lakes who had concerns about lights shining into their homes at night. He stated Public Works wants an A-cell and D-cell lane and a center turn lane if the street lines up with the entrance of Cevera Lakes. Brad Bettis asked about the 20% rental asking who will monitor that. Ned Butler stated that while they have control they turn it over to a Management Company and encourage the homeowners to leave it with a management company. The Management will receive and approve a lease. These rentals would be for hardship cases such as divorce, health problems, loss of job and this will be better than property going into foreclosure. Since the site plan was done, they would like to add some conditions due to meeting with some people in the community and they are:

- 1. Developer to add a restriction into the Declaration of Covenants that no more than 20% of the homes in the subdivision can be rented at any one time. All leases or Rental properties shall be for a minimum 12-month term.**
- 2. Landscape buffers will be added to the public right of ways where existing trees are not existing.**
- 3. Upon final determination of the subdivision entrance we will address possibility of needed condition of additional screening, turn lane, etc.**

Speaking: Sam Mosley spoke and stated that he lives at 1203 Lancelot Court. He has concerns about the entrance to the new subdivision and the amount of traffic. He stated with the 68 lots would be approximately 150 cars if 3 times a day would be another 1,000 trips on the road. There have been numerous subdivisions added to Broadnax Mill within the last 20 years and even though the speed limit says, 55 people top the hill at 60 to 65 miles per hour and it would be very beneficial to reduce the speed limit. He would like to see the entrance off Marce Camp Road.

Kim Mitchell who lives at 1200 Lancelot Court and she said that as far as the entrance as proposed on the site plant, that the car lights will be shining right into their bedroom. She also wanted to know how would they know or if it is going to come off Marce Camp Road. She sat and watched traffic this morning at 10:00 and it was awful. There has been a bike rider killed on the road. She would like to know the definite plans that they are going to do, are they going to continue to have it gated, and put some type of buffer along the roadway in the back of the home so they do not have to see the back of them.

Jeremy Woodard spoke and he lives at 2635 Tucker Drive and he stated that nobody from Reliant homes has talked to him. He stated that he has lived at this location for 8 years and it has been a cow pasture forever. He feels that 68 houses is too many to be put on 92 acres. He saw the people out there surveying and they are 80 ft. from the fence line. He is concerned about too many houses and looking at the backs of houses.

Jennifer Fields spoke in opposition. She lives at 2530 Tucker Drive in the Tucker Mills Subdivision and stated that she has lived there for 16 years and she has watched the farm equipment and tractors go by and she likes that. She stated that the new subdivision would be a strain on the schools and security. She stated that she enjoys the rural lifestyle. She stated that bicyclist ride on the road and she cannot see how 68 homes can be put on the property and that 20% of the homes being rental means that 13 ½ of the houses would be rental. She is also concerned about the traffic and the noise, she came to live in the farm country, and she does not want to see change.

Venise Lee spoke and she lives at 3609 Marce Camp Road and she has lived there for 49 years. She is concerned about traffic and speeders because she has a small granddaughter that she is raising. She is concerned about overcrowding of schools and this will be adding more to the schools. She would like to know how it would benefit the community to add these houses.

Carole Billue spoke, she lives at 3069 Marce Camp Road. She purchased her parents property in February. The property is the Dial homestead and her parents built the home. She feels that 68 homes is too many on this acreage. She can remember taking her daughter who is now 42 years old and she took her and now her six and 7-year-old granddaughters and nieces over to see the animals to teach them about God's creation and teaching them safety and it was a teaching experience. She knows that change is hard. She is concerned about crime and noise. She stated she wished she could buy the land but she cannot. She does not want an entrance on Marce Camp Road.

Ned Butler came back for rebuttal and stated that he did make a couple of contacts with people in Cevera Lakes. He also stated that there will a 100 ft. non-buildable buffer and a 50 ft. along the perimeter. He stated that there would be 68 lots on 92 acres. Each lot requires 25,500 per the requirements of Environmental Health. He stated that he would be glad to meet with the people on Tucker Drive. He stated that he would have the new site plan completed before the Board of Commissioners Meeting. Tim Hinton asked about the modified site plan and Mr. Butler stated that he hopes to have it completed with the new entrance later next week. Mr. Butler stated someone asked about the benefit to the community. He stated that this would be like Cevera Lakes Subdivision.

He stated that the community is growing from the outside and growing from the inside. He stated that he grew up on Tom Brewer Road and he is familiar with the traffic. He stated that this would be quality growth for our community. He stated that the benefit to the community would be to allow people to continue to live in the community.

Tim Hinton stated that he always appreciates citizens coming to the meetings and appreciates applicants getting with the neighbors. Mr. Hinton stated it was well stated about growth and growth is inevitable. As far as the entrance – The Board of Commissioners will make that decision that this Board is only to make recommendations.

Recommendation: Tim Hinton made a motion to approve with the following conditions

- 1. Developer to add a restriction into the Declaration of Covenants that no more than 20% of the homes in the subdivision can be rented at any one time. All leases or Rental properties shall be for a minimum 12-month term.**
- 2. Landscape buffers will be added to the public right of ways where existing trees are not existing.**
- 3. Upon final determination of the subdivision entrance we will address possibility of needed condition of additional screening, turn lane, etc.**

with a second by John Pringle. The motion carried unanimously.

I hereby withdraw the above application _____ Date _____

Article 4, Part 4, Section 160 Standard Review Questions:

Provide written documentation addressing each of the standards listed below:

1. Existing uses and zoning of nearby property;

A1 subdivisions to the South and West, R1 and A2
subdivisions to the East, A1 subdivison to the
south and A2 property to the North.

2. The extent to which property values are diminished by the particular zoning restrictions;

Property values are not anticipated to be
diminished by the proposed zoning.

3. The extent to which the destruction of property values of the plaintiffs promotes the health, safety, morals or general welfare of the public;

The proposed zoning will provide addtional
housing for the local area with no anticipated
destruction of surrounding property values.

4. The relative gain to the public, as compared to the hardship imposed upon the individual property owner;

The proposed zoning will provide addtional
housing and tax basis to the public.

5. The suitability of the subject property for the zoned purposes; and

The proposed use is for a residential use that
coincides with the surrounding uses. The proposed
use also follows along with the Land Use Map
of a suburban character.

6. The length of time the property has been vacant as zoned, considered in the context of land development in the area in the vicinity of the property

The property has been owned by the owner and
vacant since 2022. The property has operated as
a farm for many years previously.

**AUTHORIZATION
BY PROPERTY OWNER**

I swear that I am the property owner of the property which is the subject matter of the attached Petition for Rezoning/Conditional Use Application, as is shown in the records of Walton County, Georgia.

Revised Site Plan for Z22090001 10/25/2022
for Boc Mtg. 11/1/2022

Developer to add a restriction into the Declaration of Covenants that no more than 20% of the homes in the subdivision can be rented at any one time. All leases or rental shall be for a minimum 12 month term.

Landscape buffers will be added to the public right of ways where existing trees are not existing. Clouded areas are shown on the revised site plan of the approximate locations of the landscape buffers. Final determination needed landscape buffers to be approved by the Planning Director.

Removing with the new location shown on revised site plan has entrance more across from the Church.

Upon final determination of the subdivision entrance we will address possibility of needed condition of additional screening, turn lane, etc...
