

TOWN COUNCIL REGULAR MEETING

21 Main Street

Tuesday, December 13th 2022 at 6:30 PM

MINUTES

A REGULAR MEETING OF THE TOWN COUNCIL OF THE TOWN OF WARRENTON, VIRGINIA, WAS HELD ON DECEMBER 13TH, 2022, AT 9:00 A.M.

Regular Meeting

Work Session

PRESENT

Mr. Carter Nevill, Mayor; Ms. Heather Sutphin; Mr. William Semple; Mr. Brett Hamby; Mr. James Hartman, Vice Mayor; Mr. Sean Polster; Mr. Renard Carlos; Mr. Christopher E. Martino, Interim Town Manager; Mr. Tommy Cureton, Deputy Town Manager; Mr. Stephen Clough, Town Clerk; Mr. Martin Crim, Town Attorney.

PRESENT

ELECTRONICALLY

Mr. Jay Heroux;

ABSENT

None

Regular Meeting

PRESENT

Mr. Carter Nevill, Mayor; Ms. Heather Sutphin; Mr. William Semple; Mr. Brett Hamby; Mr. James Hartman, Vice Mayor; Mr. Sean Polster; Mr. Renard Carlos; Mr. Christopher E. Martino, Interim Town Manager; Mr. Tommy Cureton, Deputy Town Manager; Mr. Stephen Clough, Town Clerk; Mr. Martin Crim, Town Attorney.

PRESENT

ELECTRONICALLY

Mr. Jay Heroux;

ABSENT

None

WORKSESSION - 9:00 AM Called to Order.

At 9:00am Mayor Nevill Called the meeting to order. He stated that a quorum was present.

Councilmen Heroux stated he was at 12 Watts Landing, New Hampshire, participating electronically because of family medical care that prohibited him from attending.

Mayor Nevill noted that a closed session had been stricken; therefore, there was no closed session. In its place, Mayor Nevill stated that there would be a discussion of Town Attorney contract negotiation.

1. Dominion Energy Presentation.

Mayor Nevill introduced Mr. Parker and Ms. Underwood to present on behalf of Dominion Energy.

Mr. Parker discussed different approaches for providing energy to a proposed data center. Those approaches that involved an on-site sub-station were no longer being considered.

Mr. Parker stated that the approach currently being entertained was an off-site sub-station south of the Town of Warrenton, off of Meetze Rd. Another possible location was off of Falmouth St. Mr. Parker noted that both of these options involved predominantly underground, in-road transmission lines.

Mr. Parker noted that these approaches are still being assessed by engineers and altered due to community outreach. A map of the potential options was shown to the Council.

Mr. Parker stated the next three steps and a tentative timeline for this project.

Councilmen Semple stated that he represents the ward predominantly affected by these plans, and that those citizens have expressed great concern. He stated that he lives on Falmouth St. and asked which routes or portions would require an SEC application.

Mr. Parker stated that any area with a transmission line would require an SEC application. This would likely be the half-mile of transmission lines in the Falmouth St. option.

Councilmen Semple asked for clarification on the timelines for the planned SEC application.

Mr. Parker stated that Dominion Energy realized they needed additional time for planning with the original application, including community engagement, and new timelines are flexible.

Councilmen Semple asked if the filing date is or is not conditioned on the requirement of their client.

Mr. Parker said that there are dates their client looks towards, but dates can change.

Councilmen Semple asked about Town and Fauquier County authority over the proposed project, and whether the project will enter the Town limits.

Mr. Parker stated that the Falmouth St. option would cross county property via a half-mile transmission line.

Councilmen Semple questioned who would file the SUP.

Mr. Parker assured that Dominion Energy would own the land and therefore file an SUP.

Councilmen Semple asked if there had been discussions with current landowners about buying property.

Mr. Parker stated that he would have to check with their economic development team.

Councilmen Semple asked about the capacity of the proposed powerlines and potential use for future data centers.

Mr. Parker stated that they would have to look at their plans. And stated that this new infrastructure may be able to support future high-energy users but could not speak about future plans.

Councilmen Semple made a statement about Amazon, future data centers, Dominion Energy, and future power supply. Councilmen Semple asked why the underground transmission lines could not follow Route 29.

Mr. Parker stated that there were issues that groundwater contamination, drainage issues, space issues, and VDOT communications were all factors in looking elsewhere for laying cables. Accessibility caused Dominion to look at the Falmouth property. Mr. Parker assured the Council that nothing has been finalized and that these are simply options to study.

Councilmen Semple asked about impact on roads and right-of-way requirements.

Mr. Parker stated that they were currently looking at 30-40ft of right-of-way with a caveat of there being a lack of detailed construction designs.

Councilmen Semple noted some streets are only 30ft wide, and asked if they would need to use sidewalks and/or tree lawns.

Mr. Parker said he would need to defer to his colleagues not currently present.

Councilmen Semple asked what portion of Walker Dr. Dominion would utilize.

Mr. Parker deferred to distribution and future construction details to come later.

Councilmen Semple asked about the effects on existing above and below-ground infrastructure. Specifically, whether current power lines along Falmouth Rd. would be buried.

Mr. Parker deferred to distribution and future construction details to come later.

Councilmen Semple asked about who would pay for this project.

Mr. Parker stated it was his understanding that the client would pay for the project.

Councilmen Semple asked about liability for accident or damage to property during construction.

Mr. Parker stated that Dominion has a liability hotline open to the public to submit claims for damages to property.

Councilmen Semple asked why option 1 is preferred over option 2.

Mr. Parker stated the Falmouth St. property is preferred because of the size and accessibility of the property. The county property has environmental, shape, accessibility, and space constraints.

Councilmen Semple asked about the future of this project if the Amazon application is denied.

Mr. Parker stated this project is based on a load request from a specific customer and to serve a community as a whole; however, if that customer's request is denied, the project does not move forward.

Councilmen Semple asked why this would prevent Amazon from including a substation on the property included in its application.

Mr. Parker stated he could not speak to that.

Councilmen Carlos thanked Mr. Parker for attending and asked about how current the information included on their website is.

Mr. Parker acknowledged the website and stated that it was up to date.

Councilmen Carlos asked if the website had a section to submit questions to Dominion Energy.

Mr. Parker affirmed.

Councilmen Carlos asked about communication if the Council were to provide the applicant with a series of questions necessary to answer.

Mr. Parker affirmed the Council that a response would be received and introduced Ms. Underwood as the government affairs representative for Fauquier County.

Councilmen Carlos asked about a timeframe for a response.

Mr. Parker asked for at least a week to respond.

Councilmen Carlos asked about the date and location future public outreach attempts in Town Halls.

Mr. Parker stated that February is the next planned community meeting in Warrenton.

Councilmen Carlos asked how constituent should prepare for that meeting and in what manner the meeting would be held.

Mr. Parker stated they would assess how they would hold the meeting closer to the date it is held, and likely open it up for questions and answers.

Councilmen Carlos asked about advanced notice for constituents for said meeting.

Mr. Parker noted they would attempt at least one-month advance notice for citizens.

Councilmen Carlos asked about power requirements at the proposed substation.

Mr. Parker answered that substations have thresholds of 300MW, but the data center may not use that much.

Councilmen Carlos asked about other load requests Dominion had received.

Mr. Parker acknowledged that there were other requests for data centers or industrial usage that the substation could serve.

Councilmen Carlos asked from whom the requests were.

Mr. Parker replied they are discussing the customer at Blackwell Rd. with others interested in rezoned parcels.

Councilmen Carlos asked about the size of the substation.

Mr. Parker stated that a substation is usually five to 10 acres but may differ from that based on future or present requirements.

Councilmen Carlos asked about future requests.

Mr. Parker stated that the data center business is likely not slowing down and look towards the future working with local governments.

Councilmen Carlos asked about preliminary design plans.

Mr. Parker stated that the only plans they had drawn up had been released to the Council and the public.

Councilmen Carlos asked about a timeline for construction.

Mr. Parker stated he could not present a timeline as the project is currently based on public engagement.

Councilmen Heroux asked whether substations are only required for data centers and their purpose.

Mr. Parker stated that substations are not only required for data centers, and they are designed to lower transmission line voltage to be delivered to individuals. They contain transformers to lower voltage to consumer-level capacity.

Councilmen Heroux asked whether the proposed data center would be consumer 300MW.

Mr. Parker said no and reiterated the 300MW is a common capacity prior understanding needs of the community. Mr. Parker stated that building this substation was triggered by a single request but would not only serve this one customer.

Councilmen Heroux asked about the age and reliability of Warrenton's power grid.

Mr. Parker stated that the Town's current power grid is aged but reliable, but future growth requires higher energy consumption.

Councilmen Heroux asked about the benefits of a substation without a data center.

Mr. Parker stated that an additional substation would improve ability to serve the community but cannot speak to the needs of a substation without a data center.

Councilmen Heroux asked about what the maximum load of a data center would be.

Mr. Parker could not share that information due to privacy policies, but stated that once an SEC has been filed, that information could be requested.

Councilmen Heroux asked about costs for laying transmission lines and who would pay.

Mr. Parker stated that the applicant had agreed to bear the costs of laying underground lines, but transmission infrastructure would still be paid by Dominion Energy Customers across Virginia.

Councilmen Heroux asked about how those costs are included in ratepayer bills.

Mr. Parker clarified that they are included in "riders" on customer bills.

Councilmen Heroux asked whether the applicant would receive these "riders" on their electric bills.

Mr. Parker affirmed.

Councilmen Heroux stated an assumption that the applicant's electric bill would be rather high in cost.

Mr. Parker affirmed.

Councilmen Heroux asked about an average electric bill cost for data centers.

Mr. Parker stated he did not have an answer.

Councilmen Heroux asked why access to a substation is important.

Mr. Parker stated that lines entering or exiting a substation should have little impact on the space. Mr. Parker stressed safety.

Councilmen Heroux asked about staffing and the operations of a substation.

Mr. Parker stated that it is not a daily staffed property, but engineers enter occasionally to ensure proper operation.

Councilmen Heroux asked for clarification on the 300MW and the applicant's proposed data center.

Mr. Parker clarified that the entirety of the 300MW will not be serving the applicant.

Councilmen Semple asked if there is a reason Dominion could not upgrade the 230KV line south of Warrenton to a 500KV line.

Mr. Parker stated there were no current plans for an upgrade, but future plans could change.

Councilmen Semple stated concern for future data centers being built in the Town. Councilmen Semple asked if substations spur the construction of data centers.

Mr. Parker could not speak to where data centers are built as that is not Dominion's business focus.

Councilmen Polster asked about any future need forecasts for the Town.

Mr. Parker stated that there is desire to develop other industrial parcels across VA, but Dominion does not build a substation until there is a request. Mr. Parker could not speak to future substation plans.

Councilmen Polster asked about analyzing energy capacities within the Town.

Mr. Parker reiterated the importance of future energy requests. Mr. Parker stated that with future growth, the Town will likely reach capacity but could not speak to a date.

Mr. Polster asked about the capacity of the existing Warrenton substation.

Mr. Parker stated that there is enough capacity to serve a data center with the current substation, but it would be close to capacity. Mr. Parker did not have a wattage to share.

Councilmen Polster expressed approval of Councilmen Semple's idea to bury existing overhead lines along Falmouth St.

Councilmen Semple asked whether the substation is required without the applicant's data center request.

Mr. Parker reiterated that this project is driven by the applicant's request.

Councilmen Hamby asked whether the current substations surrounding the Town are near capacity and whether they serve Warrenton.

Mr. Parker stated that the Warrenton substation is the only substation that serves the Town while the other substations act as "check points" for energy transmission. A new substation would provide redundancy.

Councilmen Hamby referenced various weather events in previous years and power outages.

Mr. Parker stated that if the Warrenton substation were shut off, the Town would not have power.

Councilmen Hamby asked about connections to transmission lines.

Mr. Parker affirmed that all substations must be connected to a transmission line.

Vice Mayor Hartman asked about whether Dominion had received feedback on these route options.

Mr. Parker stated they had received little feedback as the options were new.

Vice Mayor Hartman asked whether that feedback would be made public.

Mr. Parker stated that it would be made public if they are included in an SEC application.

Vice Mayor Hartman asked about the purpose and meaning of a public outreach letter.

Mr. Parker stated that it is to ensure there is an understanding that if the Town or County were to invite high energy users, additional infrastructure would likely be necessary.

Vice Mayor Hartman asked whether there had been any serious discussions with VDOT about right-of-way.

Mr. Parker stated that discussions with VDOT have been preliminary and discussed awareness.

Councilmen Carlos asked if Dominion could provide the Town with a report on current energy usage and projected use with different kinds of growth.

Mr. Parker said he is willing to take that back for investigation.

Councilmen Heroux asked if power demand is growing in Virginia.

Mr. Parker affirmed.

Councilmen Heroux compared Virginia's power growth to other parts of the United States.

Mr. Parker stated that he could not speak to other parts of the country.

Councilmen Semple asked why the Town would seek high energy users and Ms. Underwood's wording in a letter.

Ms. Underwood stated that wording was not the point of the letter, but decisions of economic pursuits and growth eventually require additional infrastructure.

Councilmen Semple asked about the wording in Ms. Underwood's letter.

Ms. Underwood stated an assumption that all towns likely want robust economies and growth.

Councilmen Semple asked if Dominion had received applications for future use.

Ms. Underwood deferred the economic development team.

Councilwoman Sutphin thanked Mr. Parker and Ms. Underwood for attending and answering questions.

Councilmen Polster stated an observation that some questions had not been answered, specifically timelines, but thanked Mr. Parker and Ms. Underwood for coming.

Mayor Nevill asked why Dominion did not consider a current property Dominion Energy owns on Meetze Rd. for a potential substation.

Mr. Parker stated it was likely size constraints and introduced Ms. Thronton. Ms. Thronton stated that the property owned is too small for the necessary facilities of a substation.

Mayor Nevill stated that eminent domain use by the Town could present liability issues for the Town and asked that Route 29 be considered.

2. Status of Special Use Permit SUP 2022-03 Amazon Data Center Application.

Mr. Martino introduced the topic stating that the Planning Commission adjourned without completing a public hearing or making a suggestion to the Town Council on November 22, 2022.

Mayor Nevill asked for clarification on the outcomes if the Planning Commission does not make a recommendation to the Town Council during its December meeting.

Town Attorney Martin Crim stated there would be no public hearing in the January Town Council meeting.

Councilmen Polster asked if the Council could still advertise for the January meeting, but only after the Planning Commission's December meeting and if they make a decision. If they do not make a decision, do not advertise.

Mr. Crim affirmed that that would allow enough time to advertise for the Town Council Meeting and avoid an illegal advertisement.

Councilmen Semple asked for clarification on council actions if the Planning Commission does not make a decision.

Mr. Crim stated that options for this evening would be either to direct staff to advertise for the January Council Meeting but if the Planning Commission does not make a decision in December, defer action on 1 January 2023; or direct staff to wait until after the Planning Commission's meeting to begin advertisement.

Councilmen Semple asked if a recommendation from the Planning Commission is necessary for advertisement of a public hearing.

Mr. Crim answered that the legal issue is if the Planning Commission does not make a recommendation in December, it has gone outside of its scope of authority by not making a recommendation in a "reasonable period of time". This is if the applicant does not agree to continue deferring their application, the "reasonable" timeframe has closed.

Councilmen Semple asserts that this is Mr. Crim's opinion.

Mr. Crim states that this was a legal opinion.

Councilmen Semple asks whether Mr. Crim has created a “reasonable” standard.

Mr. Crim relates this legal opinion to Common Law.

Councilmen Semple asserts an opinion regarding the definition of “reasonable” and states that using Mr. Crim’s legal opinion, the Town Council would not be acting reasonably.

Councilmen Carlos asked if there is a precedent for municipal bodies making recommendations without receiving information from the Planning Commission.

Mr. Crim ensured that it has likely happened but could not present an immediate example. Mr. Crim stated that he would try to find an example before the evening meeting.

Councilmen Polster asked about a 100-day timeframe.

Mayor Nevill asked if an open-ended direction to staff if acceptable action by the Council.

Councilmen Polster asked how to a reasonable period is determined vs. a 100-day timeframe.

Mr. Crim stated that if the applicant is asking for a delay, it is considered a reasonable timeframe.

Councilmen Polster asked if it would be considered “reasonable” to again defer the Planning Commission decision after the December meeting.

Mr. Crim stated that it would not be, as the applicant had only requested deferent until that meeting and had not asked for deferrals past the December Planning Commission meeting.

Councilmen Polster asked for clarification of a 30-day deferment by the applicant.

Mr. Crim stated that the 30-day deferment requested by the applicant upon completion of the application in May only applies *within* the reasonable period, not acting as an extension of the period.

Councilwoman Sutphinreferenced that the application was completed eight months ago, and asked how long the Planning Commission may defer the issue without action from the Council.

Mr. Crim stated that there are gaps within all statutes and that if the Town allows the Planning Commission, there could be a lawsuit for denial of due process. Mr. Crim demonstrated that a cautious course of action would be to state that the Planning Commission must act at its December meeting *unless* the applicant asks for additional time.

Councilwoman Sutphin asserted that this is Mr. Crim's opinion and that the Planning Commission delayed their decisions so they could receive more information, which is reasonable. Councilwoman Sutphin apologized for "being argumentative."

Councilwoman Sutphin stated that the Planning Commission should be able to complete its task.

Councilmen Heroux asked Mr. Crim about how the applicant should present itself at the Planning Commission meeting.

Mr. Crim stated that he was unsure whether this was a legal question.

Councilmen Heroux stated that in his view, the applicant would likely give their best presentation on December to sway the Planning Commission.

Councilmen Semple asked why the Council was rushing if the Council has one year after the application to act.

Mr. Crim stated that he cannot speak to that as it was not a legal question.

Councilmen Semple clarified that his question was regarding the one-year timeframe.

Mr. Crim questioned whether the statute to which Councilmen Semple was referring was applicable to towns or counties.

Councilmen Semple assured it was a statute Mr. Crim referenced already.

Councilmen Carlos asked whether the Planning Commission had requested information not yet provided by the applicant.

Mr. Martino deferred to Ms. Harris.

Ms. Harris stated that the Planning Commission requested more information about noise and elevations.

Councilmen Carlos asked whether the applicant had agreed to provide said information.

Ms. Harris stated that the applicant had agreed to abide by zoning requirements regarding noise and bring forward elevation information on December 20th.

Councilmen Carlos asked whether there was any other information not yet provided to the Planning Commission.

Ms. Harris stated that the applicant needs to update their plans regarding a removed substation and landscaping.

Councilmen Semple inquired about an outstanding zoning determination.

Ms. Harris clarified that the noise ordinance applies to everyone in the Town, and that the applicant will abide by said noise ordinance.

Councilmen Carlos asked whether the Town has provided similar leeway to other applicants as to allow changes to applications during the Planning Commission's oversight process.

Ms. Harris stated that this is not often the case, and that it is being allowed because of the intense scrutiny on this specific application.

Mayor Nevill clarified that if there were no action by the Planning Commission at their December meeting, staff would take no action; but if a vote is taken, staff would advertise for a public hearing at the next Town Council meeting.

3. Planning Commission Appointment Discussion.

Mayor Nevill stated that the Council has appointments to the Planning Commission with appointments they must attend; therefore, Mayor Nevill asked privilege of the Council to move the Planning Commission Appointment discussion forward.

Mayor Nevill turned the discussion to the nominating committee, Vice Mayor Hartman and Councilmen Semple.

Vice Mayor Hartman stated that there had been nine qualified applicants creating a difficult decision for the committee. The committee had chosen Mr. Lasher and Ms. Barbour as nominees for the Planning Commission.

Councilmen Semple expressed approval of the applicants and public participation in the local government.

Mayor Nevill invited Ms. Barbour and Mr. Lasher to the podium to make a statement.

Ms. Barbour expressed excitement for participation in the Planning Commission and mentioned her association with the NAACP and commitment to diversity. Ms. Barbour thanked Councilmen Semple and Vice Mayor Hartman for the opportunity.

Mr. Lasher stated that he believes this to be an honor to give back to the community and referenced experience working in the public sector. Mr. Lasher thanked the Council for this opportunity.

Mayor Nevill stated that there needs to be discussion regarding the number of Planning Commission members and wished that there be a commitment to geographic diversity within the Town.

4. **Water and Sewer System Growth and Capacity Evaluation.**

Mayor Nevill invited Mr. Cassidy to speak regarding the water and sewer system. Mr. Martino provided a summary of the water and sewer system evaluation.

Mr. Cassidy stated that the purpose of the wastewater treatment facility is to provide healthy and safe water and wastewater services. Mr. Cassidy provided an overview of the operations and both the water and wastewater treatment plant, challenges facing them, and roadmaps for moving forward.

Mr. Cassidy outlined the accuracy of and differences with the 2015 study performed regarding the water and wastewater facilities, and the future needs for build outs or expansions.

Councilmen Heroux asked Mr. Cassidy to define “build outs.”

Mr. Cassidy defined it as when the overall capacity of the facility has reached its limits with current capacity. Mr. Cassidy referenced a current capacity of 2.42MGD and maximum capacity of 2.92MGD. Mr. Cassidy stated that the water facility’s capacity was at 40% and the wastewater facility’s capacity was at 70%.

Mr. Cassidy introduced Mr. Steven Friend.

Mr. Friend explained the flow of water within the water treatment facility, chemicals, and uses of each building.

Councilmen Heroux asked where the largest risk to citizens within the flow Mr. Friend outlined.

Mr. Friend explained how this each step is critical and if one failed, the entire system would fail.

Councilmen Heroux asked if there was a single risk point that was most concerning.

Mr. Friend stated that his biggest concern was the filter control valves due to age and poor function, causing repeated necessary maintenance.

Councilmen Heroux asked about the effects if the filter control valves were to fail.

Mr. Friend stated that no drinking water could be filtered.

Councilmen Hamby asked if there were a way to refilter water through step six and/or increase stored capacity.

Mr. Friend recommended increasing capacity of the clear well. Mr. Friend stated that 10% of water loss can be recycled back to the beginning of the process, but that increases likelihood of bacterial contamination.

Councilmen Hamby reiterated a question about increasing stored capacity.

Mr. Friend stated that there are already difficulties with stagnation, and increasing water capacity would cause larger stagnation issues. Mr. Friend explained the relationship between storage size and stagnation.

Councilmen Polster mentioned a previous plan to create redundancy by increasing storage and creating a loop within the water treatment system. Councilmen Hamby asked about pressure within the water system.

Mr. Friend stated that pressure levels only decline when tank levels begin to decline.

Mr. Friend mentioned a plan to build a building focused on chemical injections to streamline and more accurately treat chemicals. Mr. Friend referenced a plan to bring SCADA online for automated controls. Mr. Friend discussed permit cycles for a dam in Fauquier.

Mr. Friend discussed a timeline for the next steps to be taken regarding the water treatment plant, with an expected conclusion date in May 2024.

Councilmen Heroux asked if the images shown were the aged and difficult valves earlier referenced. Mr. Friend affirmed.

Councilmen Semple asked about the dates of the timeline presented.

Mr. Friend stated that the situations faced by the treatment facilities forced the timeline to be pushed back.

Councilmen Semple asked for financial numbers to be provided in the future, as well.

Mr. Friend stated that those numbers could be provided. Mr. Cassidy summarized that priorities required funding to be used to support the CARP and SIP.

Councilmen Semple summarized that the council would receive a composite overview of costs, revenue, and sources of revenue to pay costs.

Mr. Cassidy affirmed.

Vice Mayor Hartman asked about the capacity and buildout of the water treatment facility.

Mr. Cassidy stated that the water treatment facility was currently at 40% capacity. A buildout would be 80% to 90% capacity.

Mr. Friend shifted focus to the wastewater treatment facility. Mr. Friend outlined the age of different key parts of the wastewater treatment facility. Mr. Friend demonstrated the flow of wastewater through the facility and the purpose of each building within the facility. Mr. Friend reiterated that the wastewater treatment facility is one of the oldest in the Town of Warrenton.

Councilmen Heroux asked about which area in the facility presented the highest risk.

Mr. Friend stated that the primary clarifiers presented the largest risk because of their age, their vulnerability, and the solids issue at the plant.

Councilmen Heroux asked about the efficiency of the wastewater treatment facility.

Mr. Friend stated that the facility was very efficient but was beginning to fail because of its aged equipment. Mr. Friend expressed concern over this, as if one step failed, the process would need to begin all over again.

Councilmen Heroux asked mentioned SCADA and asked whether the plant had little automation.

Mr. Friend stated that the facility was too old in certain areas to be automated in its current state.

Councilmen Heroux asked about the benefits of automation in this situation.

Mr. Friend stated that it is more reliable and allows corrections more easily. An automated system may track itself.

Councilmen Heroux expressed an assumption that newer hires and younger operators would wish to use newer processes and equipment, and asked whether this was correct.

Mr. Friend affirmed.

Councilmen Hamby asked about the future of the rotating biological compactors.

Mr. Friend stated that they would wish to remove the rotating biological compactors and replace them with more efficient technology.

Councilmen Hamby asked about surrounding real estate and who/what owns them.

Mr. Friend pointed out the Army Corps and the WARF on the images displayed.

Councilmen Hamby asked if there was enough need or space for another in-ground building.

Mr. Friend stated that there would *never* be a need for another building.

Councilmen Hamby asked for clarification as to removing the rotating biological compactor and replacing them with clarifiers.

Mr. Friend affirmed that that was the proposal. Mr. Friend stated that rotating biological compactors are being phased out as technology with replacement parts being difficult to find.

Councilmen Hamby asked about the age of the clarifiers and rotating biological compactors.

Mr. Friend reiterated 1958, 1958, 1977, and 1992 for the clarifiers; and 1977 and 1992 for the rotating biological compactors.

Mayor Nevill asked about new technology to replace the rotating biological compactors.

Mr. Friend stated that new technology would use the same concept, along with replacing outdated faulty equipment with newer more efficient equipment.

Mr. Nevill asked whether the rotating biological compactors needed to be physically replaced with new technology.

Mr. Friend stated that the rotating biological compactors would be left in place performing no actions, with secondary clarifiers placed elsewhere.

Vice Mayor Hartman commended Mr. Friend on this presentation, saying it was a great first-presentation for an individual.

Councilmen Heroux stated that his tour of the wastewater treatment facility was excellent.

Councilmen Heroux asked about whether the primary digestion room pumps presented risk.

Mr. Friend stated that those pumps are ugly, but work.

Councilmen Polster asked about the proffer and how it affects the wastewater treatment facility, specifically about a goal range of 2.5 million-3 million.

Mr. Martino affirmed that the goal was to update a permit to 3MGD.

Mr. Cassidy outlined a timeline and future priorities for the wastewater treatment facility. Mr. Cassidy mentioned that Public Works will be having a public hearing to have money allocated for said issues.

Councilmen Semple asked whether the plans presented could be compared to Warrenton 2040, noting significant changes between the two.

Mr. Cassidy stated that the presented plans follow the Warrenton 2040 plan closely and was incorporated into the plans.

Mr. Martino asked for authorization for advertisement for a public hearing to budget and appropriate for the capital projects. Mr. Martino reference funding for water and sewer projects, and allocation of those funds for this project at the evening meeting.

5. Public Works and Utilities Feasibility Study.

Mr. Cassidy stated that the Public Works and Utilities Feasibility Study relates to the Warrenton 2040 plan under the facilities section. Mr. Cassidy stated that staff conducted an in-house assessment of their current facility in 2021 and worked with the Town Manager to identify potential 10-acre sites for a new facility, with option "A" having been chosen.

Option "A" was near the entrance of the landfill, with Mr. Cassidy speaking about the development, engineering, and environmental analyses of the potential site. Mr. Cassidy stated that the future steps necessary to be taken including surveying of the site, rezoning, and inclusion in a CIP. Mr. Cassidy presented estimated construction costs of \$30 million.

Mayor Nevill asked for a reminder on why there is discussion of a new facility.

Mr. Cassidy stated there are noise complaints from residential neighbors and an aging facility that have largely pushed this proposal.

Councilmen Hamby asked whether the current Public Works building was built in 1953 with an addition in the 1980s.

Mr. Cassidy affirmed.

Councilmen Hamby stated that a feasibility study with Fauquier County states the project is plausible, but the next step is a site plan. Councilmen Hamby asked if the 334,000 will culminate in a physical plan.

Mr. Cassidy affirmed.

Councilmen Hamby asked if Public Works was asking to put this into the CIP.

Mr. Martino stated that the next step would be the 334,000 which would be included in the next fiscal planning cycle.

Councilmen Semple expressed appreciation of a presented budget.

Mr. Cassidy stated that there was no previous budget presented.

Councilmen Semple stated this project's impact on future monetary reserves would need to be considered moving forward.

Mr. Martino suggested that this project could be phased, and that the Town could look into such an option for financing.

Councilmen Polster referenced a previous suggestion of a public-private partnership.

Councilmen Carlos asked if the Town would receive any type of State or Federal funding for this project.

Mr. Cassidy stated that such funding is possible but hasn't been investigated.

6. RollOutWarrenton! Second Street Status.

Mr. Cassidy stated that there has been communication with individuals to create a January plan for RollOutWarrenton! to become a permanent fixture. Mr. Cassidy reminded the Council that during the November meeting he had recommended denial for permanent closure of Second St because there was no plan, but they are now working on a plan to be presented in January.

Mr. Cassidy stated that the Town has no more barricades to use to block off Second St, obtaining which would cost the Town money.

Mr. Cassidy stated the January plan would include any measures for businesses to occupy Second St. He recommended reopening Second St until a plan is presented and passed.

Mayor Nevill asked for clarification that during a discussion to reopen, a discussion for closing in summer may be had.

Mr. Cassidy affirmed.

Councilmen Polster stated that a temporary measure for closure would be beneficial. Reiterating that a short-term solution is necessary.

Councilmen Hamby stated that the Council doesn't have a very good plan, so a hard-date is necessary for temporary opening/closure.

Councilmen Carlos referenced Councilmen Polster's statements and stated that a permanent closure would be beneficial.

Councilmen Semple referenced a VDOT application for upgrading Main St and stated that he would like to wait until there is a more definitive approach, opening the street in the interim.

Vice Mayor Hartman agreed with Mr. Semple but stated that he could agree with either viewpoint.

Mayor Nevill asked if removable bollards were a barrier option.

Mr. Cassidy stated that removable bollards are not designed for such a purposed. Additionally, there's a question of who decides when it is open or closed and who uses the space.

Vice Mayor Hartman expressed support for reopening Second St until there is a more concrete plan presented to the Council.

Councilmen Heroux expressed support for reopening Second St.

Mayor Nevill asked the Council if the general consensus was to reopen the street for the winter, but close it to vehicles during RollOutWarrenton!.

Councilmen Heroux affirmed.

7. **Presentation of Fiscal Year 2022 Audit Results and Annual Comprehensive Financial Report – Brown, Edwards, and Company LLP.**

Ms. Miller introduced Mr. Murray, the Town's audit director, who was attending the meeting virtually. Mr. Murray thanked the Council for allowing him to present virtually.

Mr. Murray began with the highlights of the audit including the implementation of GASB 87 leases having minimal impacts on the Town; the impact of financial markets on the Town's pensions; specific Town debts being refunded; and the establishment of a stormwater fund.

Mr. Murray stated that the Town's net position had negligibly decreased from the prior year. Mr. Murray stated that the Town had between 7- and 9-months unassigned funds in the general fund, greatly over the FAA-recommended 2-month timeframe.

Mr. Murray demonstrated that the Town had a consistently positive budgetary comparison except in 2018 and 2020, with growth in 2022 attributed to a meals tax increase. Mr. Murray also demonstrated that the town's expenditures fell below the

Town's budget between 2018 and 2022. Mr. Murray demonstrated a favorable quick ratio for the town.

Mayor Nevill asked the Council if they had any questions.

Councilmen Heroux commended the presentation.

Councilmen Semple stated that if he had questions, Ms. Miller could likely answer.

8. Discussion of Town Attorney Contract.

Mayor Nevill stated that the Council has a discussion about the Town's contract with Vanderpool, Frostick, and Nishanian, PC, and the associated fees.

Mr. Crim thanked the Council for the opportunity to serve Warrenton, that this form of work is the form of work he enjoys doing, and that he wishes he may continue to work with the Town.

Mr. Crim stated that when they began, there was a flat fee for the entire month; however, overall workload had increased. Therefore, Vanderpool, Frostick, and Nishanian had proposed a flat fee of \$10,000 for the first 40 hours of a month, followed by hourly rates of \$290 per hour for attorneys and \$100 per hour for paralegals.

Councilmen Semple asked what this proposal would have cost the town under these new rates.

Mr. Crim did not have an answer.

Councilmen Semple asked whether this was an unusually large amount of legal work.

Mr. Crim stated that this may present a circular feedback loop, and that if there were hourly rates the Town may have more selection into what matters need an attorney.

Councilmen clarified that he wished to understand costs moving forward under these new rates. What benefits are received from flat fees and from other time worked.

Mr. Crim referenced Table 3 within paperwork in front of the Council with relevant information.

Councilmen Heroux asked if there was any information that gave the law firm any idea of a projected demand.

Mr. Crim stated there was no information.

Councilmen Heroux asked if their proposal set an engagement requirement for the \$10,000 flat fee.

Mr. Crim stated that there were no anticipated number of hours when the proposal letter was written the previous winter.

Councilmen Polster asked Mayor Nevill if the original documents were available.

Mayor Nevill asked for clarification on which documents.

Councilmen Polster [inaudible].

Mayor Nevill stated two proposals back were available.

Mr. Crim stated that there is no required action at this time, and he serves at their pleasure.

Councilmen Hamby asked about when this change would take effect.

Mr. Crim stated that this would take effect January 1st and affect future payments.

Councilmen Heroux asked if this was a unilateral contract change.

Mr. Crim referenced a letter in which it is stated that the law firm serves the Town at will and may change rates periodically like other services.

Councilmen Polster asked what the year-end costs were for legal advice.

Mr. Martino stated that he would have to follow up with that question.

Mayor Nevill asked if Mr. Crim's average monthly hours were 67 hours.

Mr. Crim stated that the average he worked was 72 hours.

9. **Agenda Review.**

Mr. Martino reviewed the agenda.

1. **Ordinance to amend Article I of Chapter 10, Section 10-5 of the Code of Ordinances, Town of Warrenton, VA (1991) as amended, related generally to speed limits.**

Mr. Martino stated that the one public hearing scheduled for the evening meeting would be the amendment regarding speed limits around Warrenton Middle School and St. John's.

Mr. Martino stated that the school zones for St. John's were to be on Winchester St and John E Mann St. Mr. Martino suggested striking references to Winchester

St after discussing with Major Carter. Mr. Martino referenced an initial request for both streets to be school zones, but a later preference for John E Mann St.

Councilmen Polster referenced the November Town Council meeting in which there was a request for both streets to still be included; however, only put a school zone on John E Mann St while a study is performed on Winchester St. Councilmen Polster questioned whether that was possible.

Mr. Crim confirmed that he saw a draft proposal for a speed study during school days.

Mr. Martino stated that he was unfamiliar with this point. Mr. Martino asked for clarification.

Councilmen Polster stated that St. John's wishes for the school zone on Winchester St but does not want to act on it immediately, instead focusing on John E Mann St; however, with a school zone already declared on Winchester St, they may create infrastructure in the future without participating in the bureaucratic process again.

Mr. Martino stated that if the ordinance is amended, they *would* have to come back at a future date to establish a school zone on Winchester St.

Councilmen Polster asked if St. John's would still be responsible for the \$10,000 in costs for John E Mann.

Mr. Martino affirmed.

Councilmen Hamby asked for clarification on requested speed limits of 15mph or 20mph, and asked if only one speed could be agreed upon.

Vice Mayor Hartman agreed and asked if both school zones could be made 15mph.

Councilmen Heroux stated that the basis of these speeds were speed studies and was discussed at the previous meeting.

Major Carter affirmed that the St. John's speed study concluded that a 20mph limit was best there. Major Carter did not have information for the Warrenton Middle School study.

Councilmen Polster asked about commonwealth laws related to public school, school zones.

Mr. Crim affirmed that state laws are relevant.

Councilmen Hamby pointed out that these are public streets and expressed concern over differing school zone speed limits.

Mr. Crim stated that there are 14 other streets in the Town with 15mph speed limits, and speed studies are planned for them as well.

Councilmen Hamby stated that there are differences between school zones and streets.

Mr. Martino stated that the 15mph limit is by code and request from the school board. For private schools, speed studies must be performed and abided by.

Councilmen Heroux asked if speed studies must be followed.

Mr. Crim stated that speed studies must be followed, no matter the outcome.

Councilmen Heroux expressed a desire for consistency in speed limits but recognized a requirement to abide by the speed study.

Mayor Nevill asked if St. John's' concern's regarding Winchester St were based in the costs of conducting a speed study.

Councilmen Polster stated that St. John's didn't ask for a school zone on Winchester St and costs incurred by a study.

Mayor Nevill pointed out that Winchester St is still utilized during school pick-up and drop-off and suggested a school zone would be beneficial.

Councilmen Polster asked if a speed limit would create a speed trap.

Councilmen Hamby outlined the route used by individuals attending St. John's and expressed a need for more than only lowered speed limits along Winchester St.

Councilmen Carlos suggested that action along Winchester St be reserved for a later date.

Councilmen Heroux stated that citizens are looking for more permanent speeding solutions and stated that a school zone on Winchester St is only effective during part of the day.

Mayor Nevill asked the Council if the evening resolution would have Winchester St stricken.

Mr. Martino and Councilmen Polster affirmed.

2. **Budget amendment to increase the contribution to Virginia Regional Transit in support of the Circuit Rider.**
Mr. Martino introduced the first consent agenda item to appropriate \$10,000 for the Circuit Rider service. Mr. Martino noted that the cost of the service in FY2023 was greater than in adopted budget.
3. **Bond release for Chick-fil-A (SDP 2007-14 Amended).**
Mr. Martino introduced the second consent agenda item, to release a bond put in place for the Chik-Fil-A project. Public Works and Community Development had indicated that the project had been completed, ergo, the bond should be released.
4. **24'x32' Pole Varn Permit Fee Waiver/Keeping of Swine at Fauquier High School**
Mr. Martino introduced the third consent agenda item for Fauquier High School's agricultural program to construct a swine barn.
5. **Post-Zoning master development plan as proffered in the Walker Dr Rezoning**
Mr. Martino introduced the fourth consent agenda item relating to development of one parcel along Walker Dr.

Councilmen Semple asked why this was on the consent agenda.

Mr. Walton stated that it was how it was proposed and may be removed.

Councilmen Semple expressed support for removal from the consent agenda.

Mr. Walton offered to give a presentation on the project.

Councilmen Semple stated that he was familiar with the project and asked for it to be put under new business for the evening meeting.

Councilmen Hamby asked if the rezoning was for land bay E and if it was in order.

Mr. Walton affirmed. Mr. Walton stated that this is a general concept plan following the rezoning of land bay E.

Councilmen Hamby asked for clarification on the proposal and what new business would be brought forward if removed from the consent agenda.

Mr. Walton outlines different properties associated with access, materials, and architectural rules related to the project included in the agenda.

Councilmen Hamby asked if there was anything missing from the proposal.

Mr. Walton stated that everything has been submitted, with discussion only regarding the height.

Councilmen Semple asked if the construction of left-hand turn-lanes would be completed before the construction of the first unit.

Mr. Walton affirmed.

Councilmen Semple expressed a desire to propose a resolution to table the proposal for 30 days to be examined because of the new idea of post-zoning master development concept. Specifically, to re-examine this new, novel approach. Councilmen Semple stated that he had not had time to consent to this.

Mayor Nevill asked if this required council action.

Mr. Walton stated that a PZMD submission is not required, but thought it was important to have on the agenda.

Councilmen Semple stressed that the PZMD is voluntary, and that this is a good time to look at the proposal.

Councilmen Polster pointed out that the PZMD was non-binding, allowing flexibility.

Councilmen Semple asked whether the outcome of the PZMD is detailed and binding. Councilmen Semple asked if the PZMD required Council action or just Community Development action.

Mr. Walton stated that the process needed to be adopted.

Councilmen Polster stated that the process of the PZMD is consistent.

Councilmen Hamby stated that even if the PZMD went through the consent agenda, there are various hurdles it would still need to pass. Councilmen Hamby stated that he didn't see why it couldn't go through the consent agenda.

Councilmen Semple asked Mayor Nevill if the issue could be removed from the agenda at the evening meeting via an objection.

Mayor Nevill stated that Councilmen Semple could motion to remove the item from the consent agenda.

Councilmen Semple stated that this is the action he would take at the evening meeting.

6. Approval of September 13, 2022, Town Council Meeting Minutes.

Mr. Martino introduced the final measure on the consent agenda to approve the minutes from the September 13th, 2022, Town Council meeting.

Mayor Nevill mentions the proclamation to designate 21 Main St as the Municipal Building for Warrenton, VA. Mayor Nevill announces the meeting adjourned at 1:15 PM.

REGULAR MEETING – 6:30 PM

Mayor Nevill called the meeting to order stating a quorum was present.

Councilmen Heroux stated he was at 12 Watts Landing, New Hampshire, participating electronically because of family medical care that prohibited him from attending.

INVOCATION.

Pastor Hackett led the invocation.

PLEDGE OF ALLEGIANCE.

Mayor Nevill asked the attendees to remain standing and recited the Pledge of Allegiance.

CITIZEN'S TIME.

Steve and Anne Wojcik, 621 Old Meetze Rd, spoke regarding a noise from a proposed data center and the 2040 plan.

Dale Browne, 10517 Winged Elm Cir, Manassas VA 20110, president of an HOA, spoke regarding data centers in Prince William County.

Eric Gagnon, 200 Winchester St, spoke regarding noise pollution from a proposed data center.

Mike Fox, 7241 Hastings Ln, spoke regarding zoning ordinances.

Denise Schefer, 6080 Whippoorwill Dr, spoke regarding noise pollution from a proposed data center.

Christina Gagnon, 200 Winchester St, spoke regarding a proposed data center and virtual private networks.

Cynthia Burbank, 6347 barn owl Ct, spoke regarding a car accident and a proposed data center.

Josephine Gilbert, 5273 Ambler Dr, spoke regarding an ordinance allowing Black Lives Matter demonstrations in Courthouse Square.

Dr. Jean Carroll Buzby, 8425 Buckland Mill Road, Gainesville VA 20155, spoke regarding a proposed data center and potential future data centers.

Owen Schefer, 6080 Whippoorwill Dr, spoke regarding a proposed data center.

Amy Trotto, Broad Run spoke regarding SUP 2022-03, timelines, John Foote, Denise Harris, and Town Manager Martino.

Dale Sites 6642 Riley Rd, spoke regarding a proposed data center.

David Gibson, 754 Fox View Dr, spoke regarding the Warrenton Training Center, noise pollution, and a proposed data center.

Yakiir Lubowsky, 448 Devon Dr, co-founder of Warrenton Honest Government League, spoke regarding procedures and a proposed data center.

Sally Burke, 155 North View Cir, spoke regarding a proposed data center.

Tim Hoffman, 4191 cray Dr, Vint Hill, spoke regarding petitions against a proposed data center.

Ken alm, 194 culpeper st, spoke regarding a proposed data center.

Barbara Amster, 726 Acorn Ct, spoke regarding a special use permit.

Ann Zigler, 5577 Old Bust head rd, spoke regarding an online article.

Jennfer Dorrer, 6064 whippoorwill dr, spoke regarding procedures and about questions they had regarding a proposed data center.

Erin O'Donnell, 52 Blue Ridge St, spoke regarding local businesses and a proposed data center.

David Fox, 257 Hidden Creek Ln, spoke regarding representation.

David Daubert, 727 arbor ct, spoke regarding noise pollution from a proposed data center.

APPROVAL OF THE AGENDA.

Vice Mayor Hartman motioned to approve the agenda as presented. Councilmen Hamby seconded. There was no discussion. The vote for the motion was unanimous, as follows:

Ayes: Mr. Renard Carlos; Mr. Brett Hamby; Mr. James Hartman; Mr. John Heroux; Mr. Sean Polster; Mr. William Semple; Ms. Heather Sutphin

Nays:

Abstention:

Absent:

The agenda was approved as presented.

PUBLIC HEARINGS.

1. **Ordinance to amend Article I of Chapter 10, Section 10-5 of the Code of Ordinances, Town of Warrenton, VA (1991) as amended, related generally to speed limits.**

Mayor Nevill declared a five-minute recess at 7:40 PM.

The Council reconvened at 7:47 PM.

Mayor Nevill opened the public hearing at 7:48 PM. Mayor Nevill introduced Mr. Francis as an applicant requesting a speed limit change.

Mr. Francis thanked the Council and Major Carter for working with the school and stated that he represented St. John's school. Mr. Francis stated that distance was the reasoning for a lack of school-zone on Winchester St.

Mayor Nevill closed public hearing at 7:51 PM.

Councilmen Heroux motioned to approve the ordinance. Councilmen Polster seconded. Mayor Nevill opened the floor for discussion.

Councilmen Hamby asked Mr. Francis if the church was content with a school zone only on John E. Mann St.

Mr. Francis stated that the St. John's was comfortable with reapplying for a Winchester St. school zone in the future.

There was no further discussion.

The motion passed unanimously:

Ayes: Mr. Renard Carlos; Mr. Brett Hamby; Mr. James Hartman; Mr. John Heroux; Mr. Sean Polster; Mr. William Semple; Ms. Heather Sutphin

Nays:

Abstention:

Absent:

CONSENT AGENDA.

Councilmen Hamby motioned to approve the consent agenda as presented. Councilmen Carlos seconded. There was no discussion. The vote for the motion was unanimous, as follows:

Ayes: Mr. Renard Carlos; Mr. Brett Hamby; Mr. James Hartman; Mr. John Heroux; Mr. Sean Polster; Mr. William Semple; Ms. Heather Sutphin

Nays:

Abstention:

Absent:

NEW BUSINESS.

1. **Resolution Ad Authorization Amazon SUP 2022-03** – To permit staff to advertise based on the outcome of the December Planning Commission meeting. If the Planning Commission votes, the staff would advertise for a public hearing. If the Planning Commission fails to vote, the Council requests deferral; if the applicant consents, there will be no public hearing.

Vice Mayor Hartman motioned to approve the resolution. Councilwoman Sutphin seconded. The mayor opened the floor for discussion.

Councilmen Semple spoke about the wording of the resolution. Councilmen Semple stated that the Planning Commission did *not* postpone the resolution indefinitely in November; this is not a zoning amendment; and that processes apply to the staff review as well. Councilmen Semple expressed that the Planning Commission acted reasonably.

Councilmen Carlos stated that he shares concerns with Councilmen Semple and asked for clarification on actions taken if the Planning Commission does not act in December without consent from the applicant.

Mr. Crimm affirmed that the Council would move forward if the applicant does not consent.

Councilmen Carlos asked about similar situation in Virginia history.

Mr. Crimm stated that he could not find similar circumstances but emailed colleagues who affirmed that it would be appropriate to move forward without the suggestion from the Planning Commission in such a case.

Councilmen Semple stated that he looked at several planning commission Supreme Court cases with none expressing a similar authority as to what the Council was taking.

Councilmen Polster asked why this resolution needed to be passed that night.

Mr. Crim stated that it did not need to be passed at all.

Councilmen Polster clarified that this was a proactive approach.

Mr. Crim stated that this was a discretionary act.

Councilmen Polster asked about liability if the resolution was not passed.

Mr. Crim stated that there were few liability concerns, but the applicant had asked for this to be heard at the January Council meeting.

There was no further discussion.

The motion passed 4-3, the vote was as follows:

Ayes: Mr. Brett Hamby; Mr. James Hartman; Mr. John Heroux; Ms. Heather Sutphin

Nays: Mr. Renard Carlos; Mr. Sean Polster; Mr. William Semple

Abstention:

Absent:

TOWN ATTORNEY'S REPORT.

Mr. Crim spoke about a newspaper report about a potential Freedom of Information Act lawsuit from Citizens for Fauquier County which had not yet been filed.

Additionally, Mr. Crim commended Chief Kochis and said it had been a pleasure to work with him.

TOWN MANAGER'S REPORT.

Mr. Martino stated that he had offered, and Major Carter had accepted the role as Acting Police Chief with the departure of Chief Kochis.

Mr. Martino referenced an event from the previous week that commemorated Town Staff, and thanked two councilmembers for attending. Mr. Martino referenced 22 nominees for and the individuals who were awarded "Employee of the Year," the winners being Steven Bruck, the Transmission and Distribution Team of the Utilities Department, Lyndie Paul, and Brandon Wagner.

COUNCILMEMBERS TIME.

Councilwoman Sutphin– Stated that she had received threats from individuals and was at a loss for words that the large crowd had left immediately after the citizen's time. She stated that items being thrown at her would not be tolerated again. She stated that people have been extremely disrespectful and threatening. She defended the members of the Council, the Mayor, police officers, and the Interim Town Manager. She expressed a right to safety, opinions, and ability to vote. She wished luck to Chief Kochis and thanked first responders who helped her husband who was injured.

Councilmen Semple – Stated that respect towards council is necessary and was not being shared expressed by everyone. He referenced the "golden rule." He commended Councilmen Carlos and wished him well in the future. He wished Chief Kochis luck in the future.

Councilmen Hamby – Mentioned Mr. Greenstreet and Sean. Congratulated Chief Kochis and Major Carter. Wished 'happy holidays' to all in attendance. Recognized that some topics have become contentious but wished that people would remain kind. Recognized milestones some Town-workers had achieved in length-of-service.

Vice Mayor Hartman – Thanked Town employees and recognized difficulties that some Town staff had gone through in recent times. Reiterated others' statements about Chief Kochis and

that he looked forward to working with Major Carter. Stated 'happy holidays and merry Christmas'.

Councilmen Heroux – Thanked people for making these meetings possible. Thanked Sean and Rernard for making positive differences and wished them the best in their future. Reiterated others' statements regarding Chief Kochis and Major Carter. Congratulated the 22 individuals who were nominated for employee of the year. Mentioned Mr. Francis and thanked him for his work on the Winchester St speed project. Mr. Heroux also mentioned the Town's audit results and thanked the Town's Finance Department. Thanked Mr. Cassidy for the information he gave about water treatment. Mentioned a memorial hockey tournament at the WARF. Mentioned future issues. Asked citizens to remain kind, specifically mentioning the homeless.

Councilmen Carlos – Thanked the other Councilmembers and stated that it was a pleasure to work with them. Thanked the Town staff. Wished 'happy holidays'.

Councilmen Polster – Stated that he served on the Council for his family, and that he served because of his wife, thanking her. He recognized the Town staff for making sure the Town's goals were accomplished. Referenced policing, farmer's markets, camping, water drainage, and contentious conversations.

Mayor Nevill – Thanked Councilmen Carlos for 'challenging race' and making history; and thanked Councilmen Polster for 'creating a challenge'; and wished them best in their future. Emphasized the benefits of kindness.

ADJOURNMENT.

With no further business, this meeting was adjourned at 8.:30 pm on Tuesday, December 13th, 2022.

I hereby certify that this is a true and exact record of actions taken by the Town Council of the Town of Warrenton on December 13th, 2022.

Stephen M. Clough
Town Recorder

Good evening John and Jessica,

I appreciate your offer to advance the conversation verbally next week. However, as no updated information or balloon test has been provided since the last work session, the Chair and Vice Chair are not inclined to schedule the SUP for Amazon on the work session agenda Tuesday. The Planning Commission and staff need adequate time to review any new materials properly submitted both through Open Gov and in hard copy

to ensure the work session is productive. When materials are provided we will route to the Planning Commission members and assess potential next steps for September.

Thank you.

Denise

Good morning John!

We are getting asked daily if there are any updates on the SUP for Amazon. I need to take the work session agenda live today with materials and give an update to the PC tonight at their meeting. Is Amazon proceeding next week and do they have updates for us to post?

Thanks!!!

Subject: August 23rd Planning Commission Work Session

Good afternoon John and Jessica,

Will the Amazon applicant be submitting any new materials for the August 23rd PC works session? There were statements made verbally and wondered if anything was going to be submitted. Staff will be taking "live" the agenda next Tuesday. There were a number of requests/questions at last month's PC work session, including:

- 1) Schedule a balloon test and let the PC know before it occurs.
- 2) Provide the Landscape Plan and Tree Survey.

- 3) Elaborate and document the water usage.
- 4) Invite PC members to visit site.
- 5) Questions about elevations and height.
- 6) Noise generation
- 7) Lighting impacts
- 8) Relationship with Dominion, power needs, and phasing
- 9) Planned Community Outreach, if any
- 10) Relationship with Comprehensive Plan
- 11) Soils and potential for blasting
- 12) Explanation of emergency plans and how potential leaks are contained
- 13) Misc.

Thank you,

Denise

You know your Planning Commissioners, they have over 50 years of combined service in planning on behalf of the Town and have worked on hundreds of applications. Has the PC EVER made a unanimous recommendation to return an application to the applicant because the level of misrepresentations and omissions of data before them prevented them from doing their job? Have They? Maybe Mr. Martino, Mr. Crimm and Mr. Herioux don't know the answer, but it is NO. Doesn't the fact that they reached this conclusion, and that for months the citizens have been raising the irregularities with the application to your attention, raise a red flag that maybe something is not right here?

Perhaps before the Town Manager publicly humiliated and decried the PC, their authority and their decision in a Press Release, a little research and investigation should have been made to determine why the PC found what they did. Perhaps the same applies to the Mayor, who should support the PC instead of characterizing them as needing to be reined in and put back on track? And perhaps the Planner Denise Harris should not have the authority to ignore the PC decision, and continue after the PC decision to work with Amazon to advance the Application to the TC, asking them to advise what they "desire for next steps". Ms. Harris is referring as to whether they want to be placed on Town Council's December 2022 public hearing or January 2022 public hearing. Luckily for you all, Amazon preferred the 1/10/23 public hearing, but it sure would have been interesting to see what maneuvers would have been cooked up to make the Dec public hearing happen.

All of this things should be raising red flags that there is something irregular going on with this application and your Staff, and perhaps you should let the PC do it's job, and you should start doing yours.

The
I ~~was~~ attended the WS and thought we ~~star~~ ^{GIVE DOCUMENTS} would here about the status of the SUP APP, but the TM can't provide any ^{info or answer} ~~the record~~ ^{that was before the PC or why they did what they did}
I only have 3 minutes and can't possibly address the laundry list of misrepresentation + omissions ^{by} Amazon's during the PC process that was before the PC on 11/15 + 11/22/22. I was surprised that at the WS that was to address the status of ~~the~~ Amazon's SUP, that the only topic planned was how to ensure the App is set for public hearing. I was also surprised that the TM had no information about the missing info + misrepresentations, esp b/c he has decried the PC's ^{their} authority and their decision in a press release. ~~It was his~~ ^{He} ~~to assist~~
I want to give you 3 emails - 1 Aug where

I give you

- Attended + that we'd hear status of the APD
- Instead all we heard was how to ensure this gets before the TC's public hearing on 1/20.
- I only have 3 mins + can't address the laundry list of omissions + misrepresentations ~~that fit the~~ before the PC when it reached its decision

~~I was surprised the TM had no info about the~~

Give 8/ can't attend 13
9/ deferral

11/28/28 Email @ exchange from
Deise Hams + John Foote.

I'm also very surprised no info
on the

The lack of transparency of correct and complete information that surrounds the Amazon data center process and application is outrageous, and we witnessed that at your work session today. Besides Dominion's presentation, You were to discuss the status of the SUP Application, but all the Town Manager, Town Attorney and Mayor wanted to address was how the Town can manipulate the timing to get the Amazon application properly noticed for the Jan public hearing. They didn't have any information about the status of the SUP at all – and couldn't answer one question as to why the Planning Commission acted the way they did. Perhaps Ms. Harris should have been prepared to answer your questions fully. Here's here August 11, 2022 email to Amazon outlining materials needed before she will agree to schedule the application for the August 23 hearing.

Soils and potential for blasting

Explanation of emergency plans and how leaks are contained

Of those, only 2 of those – the a balloon test, which used the wrong building height and therefore is useless, and the Applicant's position on how this use aligns with the Comprehensive Plan, had been addressed as of 11.15.22. The Tree Study is out of date, the noise study, after John Foote admitted to making misrepresentations to the PC as to it's contents and conclusions, has been withdrawn as out of date and no numbers on noise and vibration from the Applicant are known at this time. In fact, Foote has said and Staff confirms in its report that "Compliance with the Noise Ordinance cannot be confirmed", because the application is under Agency Review for interpretation of the noise ordinance as it applies to this Data Center application. Although a soil study has been submitted, the extent of blasting required has never been addressed. There have been no objective documentation on water or sewer usage, or stormwater calculations, and none of the information from Dominion that you spent an hour on today has ever been presented to the PC – they were told on 11/15 that theres no on-site substation, but no information on where was available, and where the power lines will go, we don't know, it's not our decision. I think you would agree those have impacts to the Town residents that are relevant to this Application, and should be determined before the impacts can be evaluated?

I attended today's WS and that we'd hear about
the status of the WS - but all that was planned
was how to manipulate the timing to ensure it
gets set for TC public in Jan. I'm surprised
the TM didn't answer any Qs.

To Heather Sutphin, Town Council Member representing Oak Springs, Coppermill, North Rock, and Highlands –

Heather - We are relying on your vote to reject the proposed Amazon Data Center that would harm our neighborhood so drastically. We are all residents of your ward who are very upset that consideration of the DC has even gone this far. The noise alone of existing data centers in Prince William is making residents ill and Amazon has offered no remedy except yoga mats and bungee cords – which are NOT working. We would be subject to the same noise 24/7, 365 days/ year of constant noise and the same debilitating symptoms.

Further, as a Realtor, you surely realize that the projected harm to the value of our townhouses would be substantial, perhaps over \$85,000 each in lost value. Why would you allow this to happen? As two speakers said at a recent Town meeting on Nov 15:

"So who's gonna buy a home that is subject to constant noise and vibration 24/7, 365 days a year?"

Albert Mudrian

"I went and listened at night to one of the data centers and I was horrified."

Barbara Amster

We elected you to represent us, and you appear to have the swing vote, on which the outcome will rest. You will determine our fate.

Please say that we can trust you to protect us from this very harmful proposal. Vote NO on the Special Use Permit.

WARRENTON TOWN COUNCIL

December 13, 2022

Good-evening Mayor, Council Members, community members. My name is Josephine Gilbert and I live in the Scott District.

I've not heard a response from the administration on questions I have about the newly updated Ordinance Special Events. Police Chief Kochis tried to meet with me to answer questions I posed to the Town Attorney per Mr. Martino's recommendation. So here we are.

Two comments.

1. Isn't there a process for citizens to get clarification on an ordinance the town passes? How do you expect the citizenry to abide such ordinance?
2. We now know that BLM has a Warrenton Chapter. The Charlottesville administration leadership said so to the media. Knowing this, isn't time to shut this Saturday morning takeover of our Court House Square?

Do we need our Christmas festivities blemished by this racist organization? I sent you pictures of the Fire Truck with Mr. and Mrs. Claus and a BLM sign. Our Director of Experience Old Town was also sighted at the Gum Drop Square event.

You're providing the space, public safety expenses and declared support. A change in the police department's leadership may be the catalyst. I am hopeful.

Merry Christmas

Ms. Harris – I have just had my client confirm that it would prefer that the Town Council schedule a public hearing on this application on January 10, 2023. Under the circumstance, it would not seem necessary to set a public hearing on December 13th.

John Foote - Shareholder

Good afternoon Mr. Foote,

Please advise the Town on the applicant's desire for next steps regarding SUP 22-03. Below is the draft language for the legal ad. Please review and submit the applicant's desire before COB today.

Special Use Permit (SUP) 2022-03 Amazon Data Center – the owner/applicant Amazon Data Services, Inc., seeks a Special Use Permit under Article 3-4.12.3 of the Zoning Ordinance for an approximately 220,200 square foot data center on industrial zoned parcel consisting of approximately 41.793 acre parcel identified as GPIN 6984-69-2419-000. Designated in the New

Town Character District on the Future Land Use Map located off Blackwell Road and Lee Highway. The owner/applicant is requesting modifications for building height allowance and fence height allowance as part of the Special Use Permit.

Many thanks!

Denise

Denise M. Harris, AICP

Warrenton, Oregon is a small town located in the Willamette Valley. The town is known for its historic architecture and scenic views of the surrounding area. The town is home to several historic buildings and a large park. The town is also known for its annual festival, which is held every year in the fall. The festival is a celebration of the town's history and culture, and it attracts thousands of visitors from all over the world. The town is also known for its beautiful scenery, which includes rolling hills, forests, and a large lake. The town is a great place to visit if you are looking for a peaceful and scenic getaway.

How will PWC protect Great Oak residents from 3 noise sources ??

GLEN GERY BRICK PLANT DATA CENTER

- 9905 Godwin Drive
- Removal of eight existing structures and replace with proposed data center
- Site Plan Under Review
- Existing building demolition and site clearing; anticipated start end of 2022
- Noise study and mitigation plan will be submitted with the building plans and shared w/Great Oak

10000 Brickyard Way

- Building A1 - 54' tall, footprint = 223,820 SF, 2-story
- Building A2 - 54' tall, footprint = 184,660 SF, 2-story
- Building B1 - 54' tall, footprint = 223,820 SF, 2-story
- Building B2 - 54' tall, footprint = 184,660 SF, 2-story
- Additional substation planned

George C Round Elementary School
Kings Landing – 28 Townhomes
Church of Latter-day Saints (LDS) Lot

AWS Tanner Way

- 4 buildings, 820,000 SF, 1-story

Cloud HQ Site

Once a property has an entitlement, rezoning, SUP or by-right zoning, all they need is a site plan and a building permit. They have to develop within the parameters of the entitlement. If they want more than what is allowed in the entitlement, they either ask for a proffer/SUP amendment or a variance. They can sometimes get notifications or waivers through the site plan for site development standards.

Great Oak

PETITION TO PROTECT FAUQUIER COUNTY AND THE TOWN OF WARRENTON

The Town of Warrenton and Fauquier County residents, property, and business owners signing below:

OPPOSE Amazon's Blackwell Road Data Center and application, and any future data centers at Warrenton's Gateways, and **RESPECTFULLY REQUEST** the Warrenton Town Council to **DENY** Amazon's application; and

OPPOSE Dominion Energy's Blackwell Road substation, and **RESPECTFULLY REQUEST** the Warrenton Town Council to **DENY** Dominion's future application for a substation; and

OPPOSE Dominion Energy's new power lines to Dominion/Amazon's Warrenton site, and only if approved, support participation in Virginia's pilot underground transmission program to bury all transmission lines.

Comment	I would like to express my support for the Amazon Data Center Project. Due to the failed policies of the Fauquier County, our schools are suffering. Funding is desperately needed to improve the conditions in our schools. Residents in this county are forced to drive hours to work in order to feed their families. I believe Data Centers will provide additional revenue to our town and schools. We need to invest in future to give young generations opportunity to live and work in this town. Otherwise, they will be leaving as soon as they graduate high school.

Comment	Folks - just to add my opinion to this discussion, my wife and I are opposed to the Amazon data center- from what we have been able to decipher from people in prince william county and manassas, they have a negative impact on the community. I fully support more businesses coming to fauquier county but don't feel that this is a good idea. Thank you

Phone Number	
Committee, Board, or Commission Type	Planning Commission
Agenda Item	Proposed Amazon Data Center
Comment	I am adamantly opposed to the Town of Warrenton approving Amazon's request to build a data center in Warrenton. My wife and I moved to northern Fauquier County in 2007 and are the owners of a horse farm. We were drawn by the rural agricultural nature of the county and the friendly and welcoming citizens. We love the natural beauty and openness of Fauquier County and have chosen to remain here after I retired from a 37 year military career. I cannot state strongly enough my fear and apprehension of what approval of this proposal would mean to the nature and quality of life here. Building one data center, installing all the

required infrastructure, will lead to additional projects that would affect all of northern Fauquier County. This will permanently mar the "atmosphere" and nature of our county forever.

I urge you to not be the ones who ruin Fauquier County by turning it in to Prince William County - West. Please vote to disapprove Amazon's request. Thank you for your consideration.

Sincerely, Jon Kreitz

Name	Ann M. Casey
Address	112B Blue Ridge Street
City	Warrenton
State	Virginia
Zip Code	20186
Email Address	
Phone Number	
Committee, Board, or Commission Type	Town Council
Agenda Item	Amazon Data Center
Comment	Dear Town Council, I once again put forth my opposition to this proposed Data Center by the reasons listed below. WTC (Warrenton Town Council) amended the Zoning Ordinance on short notice last summer to allow Data Centers to be within town limits. It was done quickly and with minimal community input. This is a serious breach of trust between the community and the elected Town Council, and the WTC should prioritize restoring trust with their citizens, not accommodating tech giants. Remington & Vint Hill are Planned Commercial Industrial Districts, and Data Centers should be kept there to protect our natural landscape and habitats.

The proposed HB791 legislation in Richmond will tie data center tax revenue for the community to property/asset depreciation, NOT commercial income. This likely means a significant reduction in expected tax revenue for our community from this initiative.

WTC (Warrenton Town Council) does not get to decide where the high tension power lines will be placed to service the Amazon Data Center. The SCC (State Corporation Commission) will determine that. Approval of Amazon's SUP would place a great burden and battle on your constituents to contend with Dominion about the power line routing location, and above ground vs. below ground lines.

Amazon's SUP is lacking significant required information and detail per the established Special Use Permit Requirements. WTC should not even entertain this application until a complete and detailed application has been submitted for approval.

The SUP cites that "significant tax revenue" will be generated for the community, but provides absolutely no details or specifics on amounts

No details have been given on the environmental impacts, and no Environmental Impact Assessment has been completed as part of the application (to include the source and usage of water for cooling needs, as well as the disposal plan for the water)

It does not include a Load Letter, and therefore we cannot verify power need of the Data Center and are unwilling to accept Dominion's calculations (as that is a conflict of interest, given they are the sole source provider of the electricity). The Load Letter should be provided from an independent party. Noise calculations are lacking in the document

Includes a height precedent, which if approved, gives Amazon an open door to build vertically--is that truly acceptable to our community?

The SUP states that "the applicant [Amazon] will bear the cost of new infrastructure that will be needed and any upgrades to existing facilities" and yet, there is absolutely no analysis provided to determine what those infrastructure costs might be.

Sincerely;

Ann M. Casey

Agenda Item	Amazon Data Center
Comment	I am writing in opposition to the PC approving the data center SUP, mainly because there is not enough information about this project which could significantly affect the Town and Fauquier County. Specifically, how does the data center comply with the comp plan. How does putting a facility that looks like a prison at the town entrance way comply? Information is incomplete regarding the noise that would impact the community. Little is known about the considerable electric power resources needed for the facility which seem to be a moving target. Power that all rate payers would have to pay and would amount to twice the power consumed in Warrenton for residential uses. What is anticipated for transmission lines and substations? What is the game plan for additional data

centers which will appear to be in the works? With Prince William and Loudoun rapidly paving over their diminishing open spaces and farm lands with data centers, why should Fauquier follow their lead destroying our quality of life and rural economy, especially when the income from data centers (which is another unknown for the pending Warrenton facility) evidently hasn't kept property taxes from rising in those counties. Please go back to work to find answers to the questions we are asking.

Comment	The applicant still has not completed the application in full. We cannot process or vote based on an incomplete application. Anyone else attempting this would be shown the door until they completed the process correctly and completely. There is no rush, in my mind, as this entire process has been shrouded in secrecy and non-disclosure agreements which have been a place of refuge for those who wish this to come to fruition and not have any upfront reckoning with the constituents of the Town of Warrenton. One could wonder, "What is their objective? Who stands to gain from rushing this process?" The masthead of the Washington Post (owned by the CEO/President of Amazon) states that "Democracy Dies in Darkness". We are killing democracy here by avoiding

complete transparency in this matter. Why has no one provided information as to why this is such a promising idea? What are the benefits to the town financially and how does this enhance our quality of life? I heard an ad on Spotify the other day extolling the rural virtues and scenic views in Warrenton. How does this proposal maintain the tenets of that advertisement? Data centers are not pretty. Their appearance is stark, cold, militaristic, and reminiscent of a prison complex. Not what I would consider a welcoming view as the gateway to our town.

Name	Judy Marie Lamana
Address	7632 BEAR WALLOW DR
City	WARRENTON
State	VA
Zip Code	20186
Email Address	[REDACTED]
Phone Number	[REDACTED]
Committee, Board, or Commission Type	Planning Commission
Agenda Item	SUP for Blackwell Data Center
Comment	Dear Planning Commissioners,

I have lived just over the border from Warrenton since 1992 and the Army Training Center is my next-door neighbor. I shop in Warrenton, have always appreciated the quality of town leadership, and am not generally opposed to town growth or change.

I am a supporter of the Comprehensive Plan, which seems reasonable, as well as the Timberfence Parkway expansion when it is needed to relieve traffic on Broadview Avenue, even though I would be negatively impacted.

For the thirty years I have lived here, I have been telling everyone that of all the communities surrounding Washington, D.C., near and far, Warrenton is by far the best and most attractive place to live.

However, the Blackwell Data Center at the Gateway to Warrenton will downgrade my regard.

I believe such a use, based on dated zoning laws and an inadequately-scrutinized zoning amendment, would destroy the quality of the town and be an embarrassment. It would industrialize the Gateway to Warrenton, and thousands of people would be impacted every day.

These are my reasons.

The data center:

1. will be extremely visible.
2. will diminish the tourist value of Warrenton, as it will be looming over the gateway to town from its Washington, D.C. entrance.
3. will diminish the value of Warrenton to town residents and to those who identify with Warrenton and live nearby and shop in town.
4. the data center cannot be made attractive by false windows and the addition of exterior building trim. I have seen a photo of a nearby AWS data center with false windows. It does not look like the illustration slide at the prior planning commission meeting. It is still an ugly edifice.
5. provides a small revenue stream not commensurate with the burden of hosting it. And with the worst of Covid likely over, is not needed.

Ethical problems of the data center:

The town manager paved the way for the data center and then went to work for its owner. This is at minimum unethical. The town manager should have recused herself or not accepted the AWS job. Simply a small break between her two jobs means nothing. National laws make such unethical behavior a crime. This taints the whole decision making process of the town council as it certainly would have behaved differently had they known of the town manager's dual interests.

AWS purchased the land without contingencies, which is not prudent, unless you know its development for your purpose is “in the bag.”

The town council seemed to be “asleep at the switch” in simply requiring a special use permit instead of slowing the process down and thinking through whether a data center ordinance might be the better approach, similar to what the county did for utility-scale solar facilities, or whether certain areas zoned industrial should be off-limits to such an zoning amendment, given the new Comprehensive Plan.

The Planning Commission’s role:

I strongly believe the only thing you can do is to follow the new, current, Comprehensive Plan for Warrenton. So much money and so much time was put into its development. It is a good compromise.

The new Comprehensive Plan, which the town government, including the Planning Commission approved, is the “de facto” zoning that is wanted. It’s an updated plan, required by law, and the planning commission’s role was to help shape it and now its role is to follow it. Actual zoning changes, of necessity, often follow after a new Comprehensive Plan.

Your job is not to support a town council mistake or to be a “shadow” town council yourself.

Your vote will be an easy one if you stick to your mandate as Planning Commissioners and support the Comprehensive Plan that you helped create.

Thank you for this opportunity to be heard. Please disapprove of the Blackwell Data Center. Your decision is important.

Comment	Want to express my deep reservations and objections to the proposed Amazon Data Center in Warrenton. I come to Warrenton to shop and visit the historic sights and enjoy Main Street. Have moved to the area because of the rural life and abundant farmland. A massive Data Center has no place in beautiful Warrenton and would totally change the landscape forever.. I hope you will vote NO on approving the project. Please protect our sacred battlefields and history.

Thank you very much,
Milda Vaivada

Comment	Dear Madam Chair Helander and Members of the Planning Commission, I reside at 851 Oak Leaf Court in Ward 1. I am writing to express my opposition of SUP 2022-03, Amazon Data Services. I respectfully request that the Planning Commission recommend denial of the application to the Town Council. First, I do not believe the applicant has provided sufficient information that would allow the Planning Commission to make an informed decision. We still don't have a complete and accurate noise study, and a visual impact study or viewshed analysis has never been offered. (A balloon test and a few

elevation drawings does not constitute a viewshed analysis.) This application has undergone a number of significant changes over the past few months. Has there been sufficient time to thoroughly analyze and understand the effects of the latest submission on the Town? I say no.

That being said, we do know some things—the proposed height and massing of the data center, the lack of screening, the ground elevation of the subject parcel in relation to the surrounding area, the typical amount of noise generated by this type of facility—even with the muffling mechanisms in place—and the massive amount of power necessary to operate a data center. Taking these things into consideration, this facility, as proposed, would have adverse, audial and visual effects on the neighboring residential properties—including my own—and would negatively transform the main gateway corridor to the Town.

Last Thursday, Dominion Energy publicly revealed new plans to serve the electricity needs of the proposed project with distribution and potentially transmission lines connecting to one or two proposed substations. The preferred location for one data center is the Old Wire Factory on Falmouth Street. I wonder if the neighborhoods surrounding that property know this yet. There will definitely be adverse cumulative effects caused by the Amazon proposal.

The data center use is inappropriate for the subject property. It's a poor application. Again, I ask the Planning Commission to recommend denial of the application to the Town Council.

Sincerely,

Wendy Wheatcraft

Comment	I am a resident of Warrenton. I am against this Data Center. Please, let's keep Warrenton a town with manageable growth for us and future generations. There are plenty of medium sized cities with sprawl that already exist in Northern Virginia. Do we really need to be another? No. We do not. Let's keep Warrenton a great place to live for us and our children. Thank you.

Comment	I am a Warrenton resident having moved here last year from California. I love the charm, safe feeling, and history of this city and I feel adding a Data Center will completely change Warrenton making it just another city with possibly more crime like some of the larger cities have. It will lose the small town Mayberry feeling.

Comment	I was not able to attend the meeting tonight but I would like to make sure that my voice is heard. I am not in favor of the data center. I feel as if we were kept in the dark through the early stages and now are scrambling not to be railroaded into accepting defeat. I do not feel completely hopeless and I hope that the opinions of Warrenton residents is given the full weight it deserves.

Comment	I was gratified to see so many people at the meeting tonight, 11/15/2022. I am very much opposed to the Amazon data center because I believe it will not be good for the Town or the County. The entire process was rushed, not adequately analyzed, and purposefully left out input from the citizens. It is a really bad idea to put such a center in places that do not have adequate water, electrical, and infrastructure already in place. I encourage you to vote NO on this propositio

Comment	I am vehemently opposed to the Amazon Data Center. It will destroy our beautiful town of Warrenton and our gorgeous rural county. It will just open the doors for more data centers. They will then need giant and hideous power towers to supply the energy, destroying our landscape and decreasing our property values. No one wants to look at and listen to the awful noises the data center and towers make not to mention the carcinogenic affects they may have. I do not want the beauty of our rural county to be forever destroyed. Dominion has already destroyed some of the pristine farm land with these huge and ugly towers. We have been hearing the horrible complaints from PRINCE WILLIAM COUNTY residents. Please don't do this to your residents. It will be devastating to this special

county. I do not want Fauquier County to look like these other counties. You should be listening to your constituents and protect and treasure this unique county. I implore you to Please VOTE NO to AMAZON!! Thank you.

Comment	Please do not allow Amazon to build a data center in our beautiful rural county. It will forever destroy it. Once this decision is made there will be no going back. More and more data centers will be built like in Prince William and Loudon County. With data centers will come the hideous and ginormous power towers. Please listen to the people of the town and the county. This will not only affect residents in the Warrenton but in the entire county. I implore you to stop and think about this long and hard and do not ignore your constituents. I have lived here for 22 years and would like to stay here for may years to come. I don't want to live in any other county. Fauquier is a very beautiful and unique place with a very rural feel. No other surrounding county is like this.Please

please VOTE NO to AMAZON DATA CENTER!!!! Thank you.

Comment	I am opposed to the Amazon data center being built in Warrenton. We are one of the few towns left in the area that has not been obstructed and ruined by unnecessary developments. The data center will not lead to any benefits in the community and will only allow for more destruction. This one action would tarnish the beautiful land that so many have fought to protect, and suggest room for more opportunities to continue down this path in the wrong direction. I will continually fight for the protection of the rural community that I grew up in.

Comment	Dear Warrenton Planning Commission members: As a Warrenton residential property owner and tax payer for 21 years, I am vehemently opposed to the proposed special-use permit to allow Amazon to build a data center in Warrenton. Warrenton and Fauquier County leaders have done a great job up until now retaining the charming character of Warrenton. PLEASE think further than this one permit and do not open the door to changing what makes Warrenton so special. There are so many existing industrial/commercial areas where

Amazon could build. This parcel is not the right use and sends the wrong message to other similar entities wanting space in our beautiful town and county.

Please let your legacy be one of preserving Warrenton for generations.

Sincerely,
Robin DeMattia

Comment	Please delay a vote on the Amazon data center until the application is complete, and certainly no sooner than the first of the year. This project is inappropriate for historic Warrenton, will lead to more data centers and occupy the town's last remaining industrial properties. At the same time, please open an investigation into Amazon's unseemly hiring of the town manager after she paved the way for Amazon to open a data center in Warrenton.

Phone Number	
Committee, Board, or Commission Type	Planning Commission
Agenda Item	AWS Data Center SUP Application
Comment	Hello, my name is Florence Keenan, and I have been a resident of Fauquier County for over 20 years. I'm also a retired attorney and have submitted comments to this Commission that reiterate what you've heard from so many speakers: this application is inaccurate, incomplete and premature—the noise study won't be ready until next year and you cannot rely on Amazon to adhere to its proposed conditions without detrimentally impacting Warrenton and the surrounding community. Planning Staff has also asked Amazon to consider green infrastructure and LEED standards as encouraged in Plan Warrenton 2040, but neither Amazon's nor Planning Staff's draft conditions for approval address these standards.

As a regulatory attorney, I would not have submitted this application in the first place because the SUP ordinance requires that a complete application be submitted. All of Amazon's amendments, modifications and changes over the course of this application process have undermined its credibility and wasted our time analyzing half-baked studies and factoids.

Moreover, Amazon has never credibly demonstrated how this data center is consistent with the recently passed Plan Warrenton 2040 — because it can't. The strategic plan is Plan Warrenton, where the only mention of data centers is to state that data centers are not appropriate for light industrial zoned areas (see page 70).

Instead, just four months after the Plan was passed, Amazon had a zoning amendment passed to allow a fortress-like data center on what should have become a community friendly mixed-use site. This data center is not compatible with the plan for Warrenton's New Town Character. Neither Loudoun nor Prince William counties have allowed data centers smack dab in their historic county seats of Leesburg or Manassas for obvious reasons— data centers are repellant and noisy.

Community development should be a win-win for Warrenton. It shouldn't result in a divisive and inappropriate win-lose proposition.

If the town really needs more revenues, then negotiate with the county for a greater cost-share portion of revenues from county data centers that depend on town infrastructure. Take the time to get this right.

Amazon should withdraw this application, at least until all the studies are finished and the application is complete. Amazon should also sit down with representatives of the county, town and residents to find a more appropriate location for any truly necessary data center.

Finally, Amazon should donate the Blackwell Road site to the town for a park, in exchange for tax deductions and perhaps even naming rights — “Amazon Park” could go a long way to heal the civic wounds and distrust that this application has generated. That would be a win-win.

Thank you.

Committee, Board, or Commission Type	Planning Commission
Agenda Item	Amazon Data Center SUP
Comment	In recent years, I have been led successful efforts to stop a resort from being approved just west of Upperville, and a hotel/restaurant from being built on rural land near Marshall. The goal of these efforts was to protect historic towns and villages and open space. I'd like to make several observations contrasting these efforts with the Amazon data center decision before the Warrenton Planning Commission. To state the obvious, the Amazon one is much more significant and would change the town and county dramatically. But there are other dramatic differences. Fauquier County treated its comprehensive plan almost as policy and not just as a guideline. County staff was very helpful in sharing

information about the applications and relevant zoning. FOIA requests were not needed to get information and county leaders actually met with residents and felt a responsibility to be responsive. Developers were required to submit complete applications and the county staff did considerable analysis.

The town's offices are just a block away but what a world of difference in how Warrenton is handling the Amazon data center. It sure seems that the town is on the side of Amazon and not the citizens.

I think it is pretty clear that the citizens do not want this data center to be approved. Over 1,800 residents have signed a petition opposing it. At last week's public hearing, the meeting spaces were completely filled, despite miserable weather, and 59 out of 60 persons spoke in opposition to it. Think of the hundreds of pages of comments the planning commission has received, and think about the mayoral election where the incumbent known to be supportive of the data center barely won over the challenger who was not.

I ask that this body send this incomplete application back to Amazon and not vote on it. That's your responsibility. If you were to vote on it, the decision to approve or deny the application could be made by a lame-duck town council that is likely to approve it and that would be the wrong decision for the people they and you represent.

Name	Eric Gagnon
Address	200 Winchester Street
City	Warrenton
State	VA
Zip Code	20186
Email Address	
Phone Number	
Committee, Board, or Commission Type	Planning Commission
Agenda Item	Amazon Data Center Special Use Permit -- OPPOSITION
Comment	Statement in Opposition to the Amazon Data Center SUP Application in Warrenton My name is Eric Gagnon, and my wife and I have lived at 200 Winchester Street in the Town of Warrenton for almost 23 years. Several months ago I heard about the Amazon Data Center (AWS) issue in Warrenton, and I knew it was a bad idea but hadn't really looked into it. However, this summer when I heard that the Warrenton town manager resigned her position to take a job with Amazon's AWS data center division, I got very concerned, and started looking into this issue further.

And I have to say, the more I learned, the stronger my opposition has become to this project.

First, I learned that data centers were allowed into Warrenton's zoning plan by an act of administrative sleight of hand by Mayor Nevill, when they were never allowed before. This was done without any public transparency, public input, or deliberation. Without this change, Amazon could not even think about applying for a permit to build a data center on this site.

Other key shortcuts have been taken by our town government every step of the way, and the Town even invoked "executive privilege" to withhold essential information about the application and the roles of our town officials in that process.

Now I'm old enough to remember how executive privilege was used by Richard Nixon in Watergate and by every other crooked politician since then who's trying to cover up something they don't want the people to know about, and quite frankly I'm surprised to see it happening here.

In addition to the many other important issues raised by other speakers, I'm most concerned about the health effect of the sound and vibration generated by these data centers, and in this location, the sound will affect many hundreds of residents in homes and subdivisions who live within a one- to two mile radius of this site, and our home is within this radius. Last week, we also heard from people who are already experiencing adverse health effects from existing data centers in Prince William County and Haymarket.

I know now that, if constructed on this site, the proposed data center will be a clear and present health risk to all of us in town who live nearby.

Now I hope that there hasn't already been too much insider backroom dealing and hope that the decision to rubber stamp this deal hasn't already been made, but if you pass the buck to have it rushed through by a lame duck Town Council, I would then tell you that this town government is acting in opposition to the health and safety of our citizens—and as one of those citizens, I will not only support any and all lawful action to remedy this situation to keep this data center out of our town,

but would urge my fellow residents to do the same. And I will add that this would include a full and comprehensive investigation of every town official involved in this process.

Comment	This is absolutely ridiculous what you are allowing and trying to approve for Warrenton. You've already started to allow Warrenton to turn into Loudoun or Prince William by you approving 47 townhomes, and retail space to 4 acres next to Obriens, in front of an old neighborhood, that can't handle current pedestrian and vehicle traffic, and now you want a data center? Shame on each one of you for allowing this to get this far! Do not approve!

Comment	If someone told you that some loud data center would be incessantly buzzing half a mile from your home you'd be irritated off too. I live right across the highway from the proposed data center. My mom purchased this home in 2014 and it's the home that she plans on retiring in. Constant buzzing will be not only annoying and irritable, it will be unsupportable. I cannot stress enough how much this will intrude into our lives and the hundreds of people living here. If you don't care about the hundreds of people this will be affecting, maybe you'll be sympathetic to our pets. Dogs and cats have a keen sense of hearing and this will affect them too. This data center means a reduced quality of life for the citizens

of the town that you guys are supposed to represent. You need to listen to the voices of the people who will be directly affected by this. And you also need to listen to the experts who have pointed out the flaws in Amazon's noise study. I know Amazon is a business giant. And I know there is likely some incentive to letting them build a data center here. But why are we crawling closer and closer towards another crowded, unaffordable, and unlivable northern Virginia town?

Comment	To whom it may concern: For the record we are firmly against the acceptance of the proposed Amazon data center in Warrenton, Virginia. We feel the quality of life in our community will be irreparably diminished if this proposal goes through. It has been well documented that such a center will undermine the towns longer term clean energy concept, that there are inherent health risks involved with the attendant noise and substantial transmission lines and that this is a continued extension of the extraordinary expansion of data centers throughout Loudoun county and beyond. Accepting this proposal would be a shocking set back to the massive efforts so many of our citizens have put into environmental preservation. The aesthetic negatives to the

proposed location of this building abetted by the actually height of the building which has been surreptitiously cited as much lower than it is would present a shocking effect on our community which so many have labored to preserve. For these reasons and many others we stand firmly against this proposal.

Dale and Ingrid Lindsay

Agenda Item	Amazon Data Center
Comment	Before the final hearing, you have received adverse comments on Amazon's application from some 60 people. You have heard from scientists, homeowners, and many others. A well documented and recurrent theme has been the concern about noise levels from the planned data center, with particular reference to health and quality of life issues as well as the negative impact of such developments on real estate values in the affected areas of Warrenton. My comments are focussed on process. By counsel for Amazon's own admission, the noise study that was submitted with the application was a draft. This admission was made once challenges had been raised to the findings in the study

that had been filed with the application. It was not corrected forthwith and a final study has still to be submitted. The early study was therefore not a draft submitted by mistake or as a result of an oversight, but quite possibly a way of muddling the noise issues right from the beginning because Amazon now asks, it appears, to submit the final study at the site plan stage.

You are therefore asked to vote on an incomplete application. The controversy that surrounds failure to submit a final noise study is entirely of Amazon's own making. I ask that you refrain from approving the project until Amazon has submitted its final noise study so that the concerns of the many who will be affected by the operation of the center can be properly evaluated.

Agenda Item	AWS Zoning Vote
Comment	In bypassing the planning commission's clear but only inferred disapproval regarding the AWS Data center site, I urge the Council to avoid going against the will of the town and approving the site at this time. Checks and balances within the town's governance must still be respected in this process, thus a decision of this magnitude should also only be made when those in their positions at the time of voting will be in those positions in a full term.

Committee, Board, or Commission Type	Town Council
Agenda Item	AWS Data Center
Comment	Hello,

As I read in the Fauquier Now about the planning commission meeting regarding the Amazon Data Center in Warrenton, I was dismayed to learn that of the sixty people who spoke at the first meeting, only one spoke in support of the data center. I am a father of three kids under six and I have been a town resident here for nearly seven years. My wife and I chose Fauquier County to buy our first home and build our young family. I attended the second planning commission meeting on this matter, and signed up to give the statement below in person, and instead of another round of statements, we were essentially sent home.

IT is the most reliable path to a lucrative and successful career in our country. As I looked around the people in attendance at the planning commission meeting, their faces looked just like the ones in my own life that espouse the belief that hard work translates into a good career. I can tell you in no uncertain terms that I am living proof such a dream remains alive in the field of information technology. There is not a single person I saw in that audience that would have trouble finding a living wage job if they passed the AWS Associate DevOps certification course. That test and the associated Udemy course to prepare for it cost a total of \$160. That's quite a deal.

Projects like Clevengers village, which is a development of 700 houses on the Culpeper side of our county boundary tell us that we are at risk of incurring all the detriments of the so-called "sprawl" while reaping none of the rewards. Our town will suffer traffic congestion because of that development, and reap none of the taxable benefits of it.

As someone who spent much of my life in Fairfax county, I can tell you the quiet nature of Fauquier is appealing. I do not want Fauquier to become Fairfax, Loudoun, Prince William, or any other county in the Commonwealth. I want our county to be head and shoulders above them in our innovation and standard of living. I am interested in advancing education in all STEM fields as our #1 priority, and I wanted to speak to encourage the planning commission to recommend to you to approve the data center if we intend to make Amazon a true community partner.

The presence in our community could offer outstanding opportunities to partner with local schools, and I believe driving academic interest and NOT social media interest in technology needs to be a primary goal. Technology is not going away and understanding what a data center is on a technical level is a master course in applied skills. Civil, chemical, and IT engineers work in close collaboration to build, maintain, and add to a facility like this. I think this data center could encourage apprenticeship and internship programs for local high school or non-collegiate graduates which help create a path forward to success right here in our community. That is invaluable. Please hold them to standards that are appropriate, like noise, water, and power consumption when the facility is

completed, but please approve it.

The fact that two thirds of the speakers at the first meeting were not even from the town told me all I needed to know. These squeaky wheels should not be the only voices heard on this issue.

I would also like to say that while watchdogs and evaluation systems like LeapFrog and GreatSchools may have their biases, there are no public schools in Fauquier county with historically outstanding test scores. Our hospital was literally just rated the worst in the state, and the story of the Fauquier County Public School Superintendent as it relates to our hospital is harrowing. The condition of most of the businesses on Broadview Avenue between Winchester and Frost embarrasses me when I bring out of town residents to my home. When I hear "stop the sprawl," I interpret it as "we're doing it right already." Let me tell you right now: we can still improve. If we want Warrenton 2040 to be spectacular, we need to innovate.

Thank you for your time,

Mike McGee

Having been born in Fauquier County and having lived and taught there for several years, I still have a deep affection for and interest in that area.

I have followed the plans for construction of "data centers" in Warrenton and Prince William County with interest.

I encouraged the Planning Council and the Town Council to consider all aspects of this planned addition carefully and thoroughly before making any final decision.

Its location, size, noise, and likely congestion will seriously and permanently impact the special quality of the Warrenton area and its surrounding landscape.

I know that we cannot prohibit "progress" all together, but the special beauty and community of Warrenton deserve protection and careful planning to maintain its special qualities.

Hello, I am a citizen of this wonderful county and come into Warrenton daily as I live in Bealeton.

I am very disappointed in you all taking down the side street seating that was with Denim and Pearls.

You have taken away such a key seating area of that business that a lot of us enjoyed sitting at to dine in. It gave a lot of us options for if we didn't want to sit inside, and their roof top seating is very limited

This is not connected with the Main Street parklets that we all understand goes away during the winter for snow removal.

I as well as many wish for you to reconsider and put that seating area back for year round seating. No matter the weather we enjoyed sitting there.

Thank you!

Thank you for reaching out, the appropriate person will respond within 24 hours on regular business days. You can always reach us by phone at 540-347-1101, or stopping by the reception desk at Town Hall.

Subject: Amazon Data Center opposition

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

I am categorically opposed to any Amazon data center in Fauquier county. For years and years, this county has fought to remain small and rural, while adjacent counties have exploded with all-too-well-known signs of urban sprawl, most notably the huge power lines that mar the landscapes to the east. Is it possible that the planning commission members prefer to see power lines when they look out over Warrenton and Fauquier County. If they do, then they are the only ones.

In a mountainous region of Indonesia, those officials chosen to maintain the water quality of the downhill streams are required to live at the bottom of the stream. In that way the villagers are assured the officials will closely monitor the water quality.....or be forced to drink water polluted by their own mismanagement.

Perhaps, we could insist that those on the planning commission live directly under the power lines that Amazon requires for its purposes.

There is absolutely no reason for Amazon to put their data center in Warrenton! The natural beauty of which Prince William County could boast in the past has already been irretrievably ruined. For Gods sake, don't allow the planning commission or Amazon or anyone else to destroy our little corner of paradise.

Local resident

Subject: Opposition to the Warrenton Planning Commission Public Hearing for Amazon SUP Application

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

My family would like to voice our opposition to the horrific conversion of the town of Warrenton, from an idyllic small town to an ugly congested town devoid of any character or soul.

We would like you to postpone any action until the following steps are taken:

- Amazon submits a complete application**
- The new planning commission and town council are in place**
- A comprehensive and impartial review is conducted to understand how Amazon and possibly others exerted inappropriate influence on the process**
- Town residents are properly informed about the proposed facility and the town's long term data plans.**

The proposal should be denied if the town decides to vote without taking the above four actions.

Please stop pushing through important decisions that only benefit a select few without any oversight from the people that actually live in Warrenton.

Thank you,

David Briggs

Dear Sirs and Madames,

I plead with you to deny the permit to build an Amazon data center at Routes 17, 15 and 29. This would create such an insult to the character and beauty of your town and surroundings.

I am not a resident of Virginia, but a frequent visitor. My daughter attends college in your state, and as a history buff I regularly travel there. My sister lived for years in Warrenton and I have visited the historical sites of your city and vicinity numerous times, and plan to continue to do so in the future.

The beauty and history of your locale are a major draw for many people like me. Please do not ruin it! Don't let Amazon eat up a county that is closest to Heaven on Earth. Vote no!

Thank you,
Amanda Warren

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

November 10, 2022

Warrenton Town Council

21 Main Street

Warrenton, VA 20186

Dear Town Council Members:

On behalf of the Oak Springs Homeowners' Association ("Association"), a property owner within the Town of Warrenton, and its Board of Directors, I am writing to request the Town Council disapprove the Special Use Permit (SUP) 2022-203 which has been requested by Amazon.

The Oak Springs subdivision is one of the closest neighborhoods in proximity to the proposed data center and is directly across from Blackwell Road where Dominion Energy plans to build a power substation, should the SUP be approved,

The Association is adamantly opposed to the SUP as it will adversely impact our neighborhood by 1) decreasing property values as much as \$88,000 to \$136,000 per parcel as per the National Association of Realtors; 2) generating intolerable noise levels exceeding both town and county noise ordinances and affecting our residents' health and well-being; 3) drastically changing the eastern vista of our community through heavy deforestation by removing hundreds of trees and further decimating the wildlife corridor; and 4) severely impacting ingress and egress along Blackwell Road and Oak Springs Drive during an extended construction process.

Although the Association has been monitoring this issue since April, interestingly, the Oak Springs subdivision has never been identified as a potential stakeholder. That, in of itself, is telling, along with the seemingly lack of transparency by Town officials to keep its public apprised, and its failure to seek out independent review of how such a project would impact not only our community but others. How does this SUP fit into the Town's 2040 Comprehensive Plan? How is building a 50 foot high 5 acre data center and power substation at the entrance to the Town, visible within a 2 mile radius, consistent with the goal of "preserving, enhancing and protecting the environmental, scenic, and natural quality of the Town?" Many of our residents have moved here to get away from the urban, industrial sprawl of the counties north to us. How does building a data center at Warrenton's northern gateway ensure that our beloved Town remains the bucolic, quaint town that it is?

The residents and property owners of the Oak Springs subdivision, as represented by the Association, depend on the prudence, forethought and commitment of its elected officials to represent its constituents in a fair and honorable manner. The Town Council must vote to disapprove this SUP, if it is to keep the confidence of the residents and property owners residing in Oak Springs.

Respectfully submitted, on behalf of the Association's Board of Directors,

Robin C. Lohnes, President

Subject: Warrenton Residents Opposition to Data Centers

Internal Use Only

Dear Members of the Warrenton Town Council and Planning Commission,

We the residents of the Monroe Estates and Old Meetze Rd neighborhoods are highly concerned over the possibility of the Council approving the planned Amazon data center and a potentially larger data center at the old wire factory bordering our community.

As you know, significant questions have been raised around town management's involvement with Amazon prior to the Council's approval of code amendments allowing data centers in Warrenton. These questions, combined with the likely noise and size of these structures near neighborhoods and community areas form the basis of our concerns.

- We believe that large data centers are not compatible with residential neighborhoods or community areas designed for resident's enjoyment.
- We believe that construction and operation of large data centers within our communities is not consistent with the Town's Comprehensive Plan.
- We believe that any decisions to allow large data centers must be reconciled against existing Town code and your responsibilities under the Town Code of Ethics.
- And we believe that the noise level and unsightly appearance of these several hundred thousand square foot structures will negatively impact our quality of life and significantly lower our property values.

Please take a moment to read the details of our concerns in the [attached letter](#) and consider the following requests of Warrenton constituents:

- Pause and reconsider the actions leading to the 2021 zoning amendments in favor of data centers.
- Deny any large data center application within the town limits, beginning with the pending Amazon application.
- Adhere strictly to the requirements of the Town code, including the zoning ordinance, and your own Code of Ethics (attached).
- Respect and follow the 2040 Comprehensive Plan.
- Refrain from any decisions that will result in deleterious impacts to Warrenton residents, as required by Subsection 11-3.10.1 of the Town Code, including noise impacts, viewshed impacts, or degradation of property values.

The Residents of Monroe Estates and Old Meetze Rd Neighborhoods

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Fauquier County is one of Virginia's most beautiful Counties; it is rural and should remain so.

If Amazon Data Center is built in Fauquier County it will only be the start, a foot in the door.

Then more large businesses will be asking for building approval/zoning change and like dominoes our county will lose it's rural-ness.

Amazon Data Center should be built next to cities, areas that are already zoned for businesses such as the Data Center.

Why come here and try to change a zoning that has been put in place for a very good reason; to keep Fauquier Rural.

To: The Warrenton Planning Commission
Date: November 12, 2022

Dear Planning Commissioners:

I am writing to ask you **to not vote** on the Amazon Special Use Permit (SUP) application at your public hearing on Tuesday, November 15th.

The reason is that the application is quite incomplete as some of you and Amazon stated publicly on October 25th, acknowledging information gaps on critical issues including noise/vibration, view shed impacts and power supply. A vote that would prematurely advance Amazon's incomplete application to the Town Council would further **discredit the planning commission** and how the town has handled the entire Amazon situation.

I attended several meetings related to this issue and based on what I know, I am vehemently opposed to this data center. It would seriously tarnish one of the main gateways into our historic town, and would be visible from many parts of the town and even the county. The noise and vibration it would generate constantly would cause physical and mental harm to hundreds of residents, and it would lead the way for more data centers and massive power towers and transmission lines.

Based on the town's own rules, approving any SUP must meet two conditions. It must first be consistent with the town's comprehensive plan. Second, the development proposed under the SUP must not adversely affect surrounding homes and businesses. **The Amazon data center meets neither one.**

If this SUP is approved it will raise serious suspicion who will benefit financially from this decision. It most likely will also tarnish your reputation.
I sincerely hope you come to your senses and if you really love this town and this county, and you have a conscience, you vote NO.

Thank you for the opportunity to voice my opinion.

Sincerely,

Willemina Buursink
8495 Meadows Rd
Warrenton, VA 20186

TO – members of the planning commission
Amazon's proposal is critically incomplete and changing almost by the day. So is Dominion power's. It would be a travesty for the Commission to proceed to a vote in such a situation. Powerful forces are obviously trying to stampede Town and County gov'ts to move forward in the face of unsettled facts. That must be resisted. Please use your meeting to pin down all the issues that need to be fully disclosed and settled.
Thank you

Subject: Amazon Data Center

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

To the Planning Commission:

I have been following the story of the data center from its genesis. It appears to me to be one of back-room dealings, from John Foote helping to write the ordinance which would allow a data center in town in the first place, to Brandi Schaeffer guiding the ordinance through the adoption process and then going to work for Amazon. It also appears that the application is incomplete and therefore there is not a complete picture of both the benefits and the negative impacts. Why rush this thing through? Approving a data center on that property will have effects far more reaching than just there; not only will precedent be set for more of them in the town, but the power lines associated with this one and other future data centers are still unknown and will have great effect on residents and business owners alike.

Please postpone any decision on the application until all information is complete and a fully informed decision can be made.

I am a lifelong resident of Fauquier County and care deeply about the town as well as the county.

Sincerely,

Michael Morency

Dear Members of the Planning Commission,

This Amazon Data Center should never have been allowed where it is proposed to be, and the whole process has bypassed an open and fair discussion.(Closed door meetings) Please note the former Town manager quit and within a month went to work for Amazon! Now you have before you a proposal that has not even been completed. I urge you to turn this incomplete application down for the best future of Warrenton.

Subject: Please OPPOSE Amazon Data Center SUP

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Members of our Warrenton Town Council,

*Please **OPPOSE** an SUP for Amazon's Data Center.*

Warrenton is a *community* (people sharing in-common interests.)
An IN-TOWN Data Center is **WRONG** - **antithetical to our community's common interests and our common character.**

NO Data Centers were in our Comprehensive Plan for future quality-of-life improvements.
A Data Center (concrete bunker) does not serve people, nor is it compatible with our living environment.

A Data Center does not expand our commerce base, residential capacity, or accessible aesthetic/recreational space. It would be a fenced, guarded, secured, confined compound adjacent a major retail center, large townhouse complex, and memory care facility. A highly-visible Data Center would be a horrendous, over-illuminated scab at our Town's gateway.

Moreover, **Amazon does not exhibit caring, or good neighbor qualities** - no regard for our citizenry or our bucolic Town.

- Amazon is deceptive; Amazon is entirely *self-serving*.
- Amazon is *intentionally* not fully compliant (...Does "getting played" not INSULT you?)
- Amazon **will never cooperate, never be forthcoming under the veil of "proprietary info."**

Amazon purports noise compliance here when their Data Centers in PW are "earaches."
Amazon claims noise here will be compliant except for a "rural parcel." ...Where are current, or future "rural" spaces in our small Town limits?

Amazon's **secretive, money-buys-approval deportment is a RED FLAG nightmare relationship.**
There is **nothing compatible, or complementary about Amazon's business model** - nothing our resident's will ever pride in...gain any betterment from...or get cooperation, caring, interacting from Amazon with our better-deserving community.

Please do not SELL us OUT

Please do not SELL OUT the generations of past, present, future families that have striven to make Warrenton an accessible, *people-first* Town to grow-up and live in.

- klisbeth

I wish to oppose the placement of the Data Center in Warrenton, Va. Also the substation should not be placed in the area that has been chosen. These monster facilities are not compatible with the areas landscape. Just because big money comes around knocking doesn't mean we as a town, need to take a knee to their wants. This complete complex, Data Center and Substation are too close to the everyday life of the residents. I say "NO" to the Data Center.

Subject: Comments for the Proposed Amazon Data Center SUP Public
Hearing of 15 November 2022

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

To Whom It May Concern,

I continue to believe this data center opportunity is inappropriate at the proposed Amazon location on Blackwell.

Should you believe, the opportunity should go ahead, I strongly request that you defer any action by the Planning Commission until open issues with the supply of electrical power, noise related to the data center, and lighting are resolved.

Open Issues

- 1.) Electrical Service/Substation. The new VEPCO/DOM study (interesting timing!) calls for a new substation either in the Town of Warrenton (off Falmouth St.) or in Section 2 of the proposed boundary adjustment. The substations are designed to support up to a 300MW load. This is about eight times the projected Amazon load. Both sites will impact residential streets such as Falmouth, Old Meetze and Walker Drive along with the Greenway recreational area.

The ability of the Town of Warrenton to influence the design of this electrical infrastructure will be severely hampered if it approves the data center before the design is fixed and agreed.

Recommendation. Delay approval until the electrical service issues are resolved.

- 2.) Burial of the Distribution Lines. The town zoning code requires the burial of the electrical lines that supply the data center. The proposed draft conditions, prepared by Mr. Foote's team, of the Special Use Permit changes the obligation to a conditional one

of a request. This language can allow the data center to go ahead even if the electrical supply is not buried.

Recommendation. Replace the term “shall request” to “will cause” in the conditions associated with the SUP. This removes the conditional language and ensures full conformance with the Zoning Ordinance.

- 3.) Noise Ordinance. Item 16 of the SUP conditions document states “the Applicant shall conduct a separate sound study one month after commencement of business operations to ensure compliance”. The language is perfect for a normal retail establishment such as Joe’s Pizza shop or Warrenton Foreign Car. The language is certainly inappropriate for a complex facility such as the Amazon Data Center.

The issue is when does the “commencement of operations” happen? Is it when Amazon:

- o Accepts the facility in its Data Center Infrastructure Management system
- o Executes its first production computational function
- o Has the facility is in a full production status (maybe 2 years out)
- o Or some point in between?

Additionally, the noise study should take place when the Amazon facility can be operated in its noisiest configuration or manner authorized under the Special Use Permit - all generators and air chillers operating concurrently at a minimum 50 percent loading. Some of the sample commencement of operations points will happen before the facility can meet this condition.

Note: Mr. Foote stated the facility can commence production activities on ‘bridging power’ and the build out incomplete.

Recommendation: Require Amazon to conduct the noise study within three months after the facility is sufficiently built out to be configured in the specified manner (all generators, air chillers, etc.) **and**, to ensure public confidence in the overall approach to noise management, cause Amazon to fund a system that provides continuous noise measurements of the facility from the date it starts generator

installations for a period of three years. This system will provide the town with near real-time sound level measurements.

-

- 4.) Perimeter Fence Lighting. Item 17 of the conditions for the SUP does not address lighting of the perimeter fence. Mr. Foote stated that Amazon will illuminate fence that runs around the perimeter of the facility. This is a normal practice for high security facilities.

By being located on the edge of the property, it will be close to adjacent properties and roadways. (See yellow dotted line of Mr. Foote's presentation to the Planning Commission for the location of the perimeter fence and walkway. See also Amazon's letter of 9 September 2022 where it states The Applicant has no need to illuminate anything but its secure perimeter and internal areas.)

Recommendation: Modify Item 17 of the SUP conditions document to include the statement that "Where not accomplished by building mounted lighting, the lighting of the perimeter fence will meet the same standards as exterior building mounted lighting (time of day dimming, LED technology, etc.) and individual lights cannot be higher than 3 feet above the fence.

Should the town desire to go ahead with the SUP, I believe it is more important to get it done correctly and completely than getting it done quickly. The incomplete request from Amazon certainly releases the town from any timelines. Getting it the SUP approved in this quarter or next quarter will not change Amazon's ability to meet its customer contractual obligations. They always have option 2.

I hope you find this email of use. Thank you for your time.

Regards,

Fred

Dear Town Council,

As both a resident and business owner in Fauquier County, I am concerned that there is a hearing planned related to an Amazon data center when Amazon's application is incomplete. Fauquier County should not allow large corporations skirt local ordinances and laws, and should comply with all appropriate work before hearings happen, let alone approvals.

Thank you.

Below are comments I submitted earlier, on an important issue that has not been raised at all in the Planning Commission work sessions on Amazon, nor in any of Amazon's submissions.

The Planning Commission would be neglecting its responsibilities if it did not consider these concerns and require Amazon to make a commitment to how many years it will operate the facility, and make provision for what happens to the massive building, fuel storage tanks, mechanical equipment, prison type fencing, and aged computer equipment at end of life.

Subject: Amazon Data Center -- Obsolescence and Provisions for End of Life

To the Warrenton Planning Commission -

As you review the proposed Amazon Data Center, please consider potential data center obsolescence and the need for protective provisions for end-of-life disposal of the warehouse, security fencing, generators, massive diesel tanks, etc.

Below are two commentaries by individuals with deep experience in data centers, suggesting high likelihood of data center obsolescence, even within less than 10 years, and particularly questioning the economic life expectancy of the Amazon proposed facility on Blackwell Road.

If the Amazon data center on Blackwell ceases operation in 10 years or less:

(a) Warrenton risks being left with a hulking vacant warehouse, substation, prison type fencing encircling the site, and other problematic detritus, on a prime location in Town; and

(b) tax revenues will be far less than expected, especially given Town and County tax incentive provisions that will allow Amazon to claim a 100% business property tax rebate for the first three years, after which the depreciated value of equipment will be a fraction of original taxable value.

NOTE: It seems to be the PC's practice to rely only on the applicant's information on issues like this. Given the high monetary self-interest of the applicant, and its tendency to make broad assertions without specific, quantified and independently sourced evidence, I believe it would be a failure of your duty to citizens to rely only on the applicant for this and all other key issues -- and I question whether Town staff have the time and expertise to provide reliable information and advice.

FRED SMITH'S COMMENTS:

In an email to the PC on 9/5/22, Fred Smith made these comments:

*"The proposed data center will be 30 to 35 Megawatts (MW) in size. The campus is a single 220,000 square foot building. When compared to other Amazon facilities, the proposed Warrenton facility is small. It represents about 5 percent of the Amazon data center space within 23 miles of Warrenton. It will also be the smallest facility. **The small size means the Warrenton data center will - the day it opens - be an expensive data center for Amazon to operate. In the hyper competitive IT cloud services market, expensive infrastructure does not last long.**"*

Fred Smith is local (Old Busthead Road) and he has nearly 40 years' experience in the IT/Telecommunications industry including the construction, moving, acquisition and outsourcing of data centers. I urge you to meet with him or invite him to your Work Session so that you can hear more than just the self-interested views of the applicant.

AL ALBORN'S COMMENTS ON DATA CENTER OBSOLESCENCE:

Mr. Alborn is an IT journalist and resident of PWC. He sent these comments to the PWC Board of Supervisors, and they apply equally to the proposed data center on Blackwell Road. Note especially the text which I highlighted below :

From: Alan Alborn <[REDACTED]>
Sent: Tuesday, October 11, 2022 9:55 AM
To: BOCS Email Group <BOCS@pwcgov.org>
Cc: bocs-cos@pwcgov.org; Bill Wright <wawright4@comcast.net>
Subject: We need visionaries defining Prince William County's future.

Chair Wheeler and members of the PWC BOCS,

While I appreciate the cultural, environmental, historical, power (Dominion) and other issues surrounding data centers. I believe the real issue is the technology upon which their architecture is based. It is a very temporary solution to a real business problem. *The decision to support broad expansion of data center zoning should be based in a future technology vision, not a short term, discounted revenue stream.*

The replacement for current data centers is already in the pipeline. The people pitching them are probably quietly planning for the transition to "what's next" behind the curtain. The business market demands "what's now". The technology to watch regarding data centers and storage replacement in general is DNA.

I predict (based on MIT and Harvard's research) *the capacity of some of today's data centers will be available on a DNA thumb drive in the not too distant future.* It is an incredibly robust and stable solution (see: https://wyss.harvard.edu/news/save-it-in-dna/?fbclid=IwAR23AuP8_XbrnSkS-4-e3NkMsGXRbXsMr51pjXWJPL00qhrZ2aq3yMgSbjs).

Vision creation demands that you look in the right places to see what that future might look like. Here is one of many references on DNA for efficient data storage in the future. There are many more (see: <https://www.microsoft.com/en-us/research/project/dna-storage/news-and-awards/>).

I have always followed Gartner Group. This assessment is interesting in many areas. Check their prediction re DNA storage.

“By 2024, 30% of digital businesses will mandate DNA storage trials, addressing the exponential growth of data poised to overwhelm existing storage technology.” See: <https://www.gartner.com/en/newsroom/press-releases/2020-10-21-gartner-unveils-top-predictions-for-it-organizations-and-users-in-2021-and-beyond>

The actual solution might not even be under public discussion at the moment. Rather, it is the musing of some physicist in a University lab somewhere as he or she continues the tradition of thinking “out of the box” for solutions to storing business data.

In the world of technology, the only thing constant is change. The change is always faster, smaller, cheaper, and often surprising. For business and competitive reasons, “what’s next” is often created in secret and eventually surprises us. We shall see.

These monoliths proposed to dot Prince William County are temporary solutions to a real business problem. They are not a long term solution to the world’s appetite for massive amounts of data. *To the businesses proposing these data centers, our community is an expendable and temporary resource.*

Don’t sell out citizens for a few additional tax dollars. The price we might pay in the future just isn’t worth it.

Feel free to check my LinkedIn resume to confirm my bona fides in this area. "Big data" is my profession. This is an informed opinion.

Regards,

Al

Hello Planning Commissioners, Town Manager, and Town Staff,

Attached please find my public comment for the Public Hearing tomorrow night, submitted to the email address on your website, with copy to you. I am unable to attend in person, and greatly appreciate your time in reading my comments.

Thank you in advance to all, for all of the time and consideration you will be extending to the public tomorrow evening and beyond in listening to their concerns.

Kindly,
Suzan Fultz

To: The Warrenton Planning Commission
Subject: Amazon Blackwell Road Data Center

Email: citizencomment@warrentonva.gov

Date: November 14, 2022

Dear Planning Commissioners:

I am writing to ask you **to not vote** on the Amazon Special Use Permit (SUP) application at your public hearing on Tuesday, November 15th.

The application is incomplete as some of you and Amazon stated publicly on October 25th acknowledging information gaps on critical issues including noise/vibration, view shed impacts and power supply. This would be a premature vote in advance of Amazon's incomplete application.

There are concerning and unknown possible impacts upon our community that need to be addressed publicly and with transparency. A few known and possible negative impacts are:

- Noise pollution effecting untold numbers of residents—noise is an insidious problem that effects emotional, psychological, and physical health
- Air pollution from diesel generators and increased truck and auto traffic
- Water consumption. This may be the most horrific consequence of permitting data centers currently being discussed. It has been established that A typical data center which may house several thousand servers, can use **between 300,000 and 680,000 gallons of water per day**, equivalent to what a city of 30,000 to 50,000 people uses

- Devastated property values to those who live within five and perhaps more miles from the site
- Increased population stressing resources that are currently in balance. It is also known that residents of Warrenton live here because they do not want to live in developed and industrialized communities
- Taxes will increase. Contrary to what people commonly believe, taxes increase with industry. No industrial city has lower taxes than any rural community.

I am opposed to this data center. It would be devastating to the quality of life and standard of living we so appreciate in Warrenton. We cannot allow this or any other data center to be located in or around Warrenton; one of the main reasons I left Seattle was because of the devastating effects Amazon had on the city, I didn't anticipate such an horrific prospect to be possible in Warrenton.

Based on the town's own rules, approving any SUP must meet two conditions. It must first be consistent with the town comprehensive plan. Secondly, the development proposed under the SUP must not adversely effect surrounding homes and businesses. **The Amazon data center meets neither one of these two conditions.**

Sincerely,

Dr. Richard Spece
7603 Cannonball Gate Rd

Sirs,

Gaining tax revenue is good if there is a need for it. Fauquier County is agriculture based, not industrial. Destroying the beauty and character of Fauquier would be a crime.

Data Center

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Dear Planning Commission members,

In the initial moments of learning of the proposed Data Center for the Blackwell Road site, I was all for it. I thought it would not be very visible and would bring in clean industry tax benefits and would impact traffic marginally. Since then further reading and listening to these and more aspects of allowing a Data Center to be built in Warrenton or elsewhere in Fauquier County, I have come to the conclusion that it is a very bad idea.

First, how can the town or county allow one Data Center and deny others or many more. Second, the building will be 55 feet high and clearly visible to much of the community and to all those traveling into Warrenton or by the town. It is not architecturally interesting or aesthetically pleasing in the least and any landscaping, shrubbery and small trees, to address the plain box shape would only be visible to the few employees and that's not mentioning the ugly power plant that must be built there. Third, as I understand it, (I'm not an economist by any stretch) the tax benefits for the long term are questionable. The building, however, will be there for a very long time. Fourth, for many years the problem of water has been an issue in Fauquier County. Development of industry and housing has been impacted by our lack of water reserves. This new Data center would need lots of water to help cool the operations. That would be a drain on our already precious supply. Which brings me to the fifth reason the Data Center idea is a bad one, NOISE. The constant drone of the cooling system and the power production would be audible for miles all around the Data Center. What is around the Data Center site, a car dealership and the stripe mall style shopping center containing Giant grocery. But equally close or closer is the Poets Walk Memory Care facility, townhouse developments, housing developments, all personal living spaces. The noise from the data centers is a constant and never ending drone of sound. That takes a physical and mental toll on human health. As for the traffic issue well there is the plus. Sixth, the Data Center would employ only about 80 people and many of those would be commuting from elsewhere. But the low rate of employment for locals is a negative. Seventh, the use of the land is not what the long range plan for the town designated, far from the multi-use plan citizens designed. Eighth, the acquisition of enough power to support the needs of the Data Center must come from out of the county and it must get here somehow. The likelihood of underground transmission lines is slim and none as that is not cost-effective for taxpayers. So there will be a march of massive power towers some place in the county from Prince William

County or farther away. Whether it's down RT. 29 or off the beaten track a bit more , it will still come across rural holdings of the citizens of Fauquier County. That is a prime example of “not in my backyard” feelings and rightfully so. Who wants their property scalded by huge power transmission towers and the value of their property to go down. In essence the Data Center effects Fauquier County not just the town of Warrenton.

I have heard very little from those in favor of allowing the Data Center except on the tax issue and many seem to think that is a never ending source of income. Not allowing commercial use of the land for something like Costco is another argument for visual beauty vs. tax rewards but that also does not address the long range plan that has already been developed for the town of Warrenton. There has been no rise of a group supporting the Data Center with facts to back their argument. I have heard very little or read very little about the benefits except taxes for the Town of Warrenton or Fauquier County. Supporters are very quiet or very few.

It has been revealed that Amazon and its legal team have not been forthcoming with all requests from the Planning Commission. The rush to settle the issue before all studies are complete leaves a bad taste in my thoughts about the virtues of the project and its supporters. It feels like there is money to be made for some that is not so clean. I certainly hope that feeling is incorrect!

As a resident and public school teacher in Fauquier County for all of my adult life, I have watched and held my breath many a time on critical decisions made by the governing bodies. Many of those decisions have looked to protect and maintain the rural beauty and small town feel of Fauquier and Warrenton and I have been relieved. Often I have wished we could find a way to attract clean industry to help relieve the tax burden on home owners. Often I have wished the housing developments would not happen as they don”t pay for themselves in regard to use of police, fire and rescue, schools and road ways, more tax dollars needed. But such is the way of growth and movement from Northern VA and Washington DC. Thankfully it is not as bad in Fauquier and Warrenton as it is in counties and towns to our north and east.

Stay the course prescribed in the Comprehensive Plan and vote down the Data Center. It is not a good fit for us.

Sincerely,

Janie Mosby

Subject: Public Comment for 15 November Planning Commission
Attachments: Tinnitus Demonstration.mp4
Importance: High

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Members of the Warrenton Planning Commission,

The attached video (approximately 33 seconds in length) is a demonstration of the potential damage to human hearing (tinnitus) that can result from exposure to constant sound levels of the frequencies and intensity that originate from cooling fans on data centers. It is a close approximation to how I experience the world as someone with tinnitus.

Tinnitus is not a loss of hearing, unlike deafness, which is more easily understood and appreciated by individuals with normal hearing. It is a constant "noise" (hum, whine, ringing, etc.) that is generated in the auditory processing centers of the brain as a result of prolonged exposure to dominating background sounds in the environment. In addition, it tends to worsen over time, often progressing to the point where it obscures a sufferer's ability to comprehend other sounds and speech. There is no surgery, medication or hearing aid that can treat or eliminate the effect of tinnitus. Progressive tinnitus further complicates sufferers' lives by inducing depression, learning dysfunction, suicidal ideation and difficulties with anger management.

Tinnitus has increasingly impacted my quality of life over the past 45 years, robbing me of simple pleasures of normal hearing that we all too often take for granted.

You, the members of the Warrenton Planning Commission, are on the cusp of making a decision that raises the risk of fellow residents of our town acquiring this debilitating disorder. These individuals occupy more than 650 residences and business located within range of the sound levels emanating from the proposed AWS data center. As officials of our town government, and thus beholden to the citizens of Warrenton, your overriding concern in making any planning recommendation must be first to do no harm.

I urge you to take a mere 33 seconds to view the attached video and, having taken to heart the potential negative environmental impact of the proposed data center, to recommend to our Town Council that this project not be allowed to proceed.

Respectfully,
Calvin W. Hickey

Warrenton Planning Commission

Reference: Amazon Data Center

As a 27 year resident of Fauquier County I have witnessed the growth and Development. Most of it in a positive manner because we have been represented by people who have stepped up to protect our beautiful county and continued to share the mission and vision that states to preserve the physical beauty, historical heritage and environmental quality of the county while ensuring that population growth and development is a positive force on the general welfare of our community.

Fauquier County stands for agriculture, farm land, equine, winery's, history and most of all good suburban living. We have it all and we the people need to protect it at all cost. I am nauseated and extremely opposed to any thought of a 220,000 sq ft Data Center landing in Warrenton. A slightly concrete box is not physical beauty. There must be other alternatives. Our neighboring counties are already becoming concrete jungles. A Prince William County study found that an overlay district where most of its data centers are concentrated was running out of land considered to be marketable to data center developers who might prefer to build elsewhere — a finding bolstered by a separate study. If you give them an inch they will take miles. Don't turn us into a concrete jungle. The fight is not over, you have a job to do the right thing.

Represent this county for the people. Search out more options, speak up and protect our county.

Oppose the "Amazon Special Permit Application".

Sincerely,
Kimberly Siciliano

To: The Warrenton Planning Commission

Subject: Amazon Blackwell Road Data Center

Email:
citizencomment@warrentonva.gov

Date:

Dear Planning Commissioners:

I am writing to ask you to not vote on the Amazon Special Use Permit (SUP) application at your public hearing on Tuesday, November 15th.

The reason is that the application is quite incomplete as some of you and Amazon stated publicly on October 25th acknowledging information gaps on critical issues including noise/vibration, view shed impacts and power supply. A vote that would prematurely advance Amazon's incomplete application to the Town Council would further discredit the planning commission and how the town has handled the entire Amazon situation.

Based on what I know, I am opposed to this data center. It would seriously tarnish one of the main gateways into our historic town, and would be visible from many parts of the town and even the county. The noise and vibration it would generate constantly would cause physical and mental harm to hundreds of residents, and it would lead the way for more data centers and massive power towers and transmission lines.

Based on the town's own rules, approving any SUP must meet two conditions. It must first be consistent with town's comprehensive plan. Second, the development proposed under the SUP must not adversely affect surrounding homes and businesses. The Amazon data center meets neither one.

Thank you for the opportunity to voice my opinion.

Sincerely,

Amy and Andrew Zwirko

Subject: Warrenton Planning Commission Meeting Tonight
Importance: Normal

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Dear Planning Commissioners,

Please do not vote on the Amazon Special Use Permit (SUP) application at your public hearing tonight, Tuesday November 15. As some commissioners have noted, the application is incomplete and does not address noise, view shed impacts, and water usage. If the application advances without this critical information, it will further discredit the planning commission and the Town's handling of the data center application.

The proposed data center would seriously impact the quality of life for many Warrenton and Fauquier County citizens. The data center and accompanying noise, water, view shed, and power issues would change Warrenton forever and would probably lead to the intrusion of more data centers and massive power lines.

Based on the town's own rules, approving any SUP must meet two conditions. First, it must be consistent with town's comprehensive plan. Second the development proposed under the SUP must not adversely affect surrounding homes and businesses. **The Amazon data center meets neither condition.**

Dave

The letter is SUPERB! It is obvious from your logical argument and substantiated facts that the ToW really has not met the criteria to take a vote. After rereading the letter, it is even more obvious that the PC should return the submitted application back to AMAZON as incomplete and requesting that they complete the application before a future resubmission.

Very well put. This letter needs wide distribution and careful consideration by the Planning Commissioners and the Planning Office Staff.

Bravo!
John

As a citizen of the town of Warrenton I am very concerned about how the proposed Amazon industry will affect our small town. I have lived in Warrenton my whole life and greatly value the small town atmosphere and beauty. When I hear that Amazon would be more in the citizens favor, as far as the tax base, vs two hundred homes, my first thought is why do we need either. I don't understand why our planning commission feels we need to keep up in growth size of communities such as Gainesville or Loudoun county, when obviously it is not what the citizens desire. Our real estate taxes are fastly increasing and in this economy making it hard for long time citizens, who help build our town difficult to continue to live here, which is extremely sad. Therefore, I pray that when the town council votes on Amazon coming into our beloved town, great thought is taken into long term effects on the community and quality of life in general. Maybe step back and slow the growth.

To Whom it may concern,

I live and own a home in Warrenton, Virginia/Fauquier County.

As I am fully occupied as caregiver to my adult daughter with advanced mitochondrial disease and remain, by her doctor's orders, in isolation with her at this time, I am unable to attend today's meeting in person. Therefore, I am sending this email in my place.

I strongly OPPOSE the construction of the Amazon Towers data center and Dominion's expansion as a related result.

Fauquier County is a jewel in the heart of rolling Virginia hills and what drew me and many others to settling here is its "Norman Rockwell" type environment.

It is known that the Amazon towers will be obsolete-abandoned within 10 years—yet their impact will be for generations. The problems and detriments it will bring to our town are more numerous than any potential gains. From the dramatic increase of road traffic with daily trucks, the energy surge, the noise pollution it will cause, harm to local wild life, the huge water requirement needed to operate the center, the very few jobs it will bring—are completely against all the qualities and principals that attracted me to move to Warrenton many years ago. I believe it will completely ruin our town and harm my property values, not to mention my quality of life.

Furthermore, Amazon and Dominion are only interested in their financial bottom line and projects to their boards/share holders. You, as an elected official of the town, were elected in good faith and belief that you would protect the people of Fauquier County—and make decisions based on the happiness and well being of the community you represent. These data centers are completely opposite to all the qualities and benefits that Fauquier County represents and stands for.

So please vote NO against the proposed amendment to allow the data center.

Sincerely,

Eileen Baldwin
Home Owner , Woods at Warrenton

To the Warrenton Planning Comm.

Re: Amazon data center

Please postpone a decision and certainly a vote. The Town does not have enough information to make a decision. Amazon and Dominion keep changing their proposals. And most importantly, the citizens Do Not Want it. People are moving here because they want a small town life. We don't want to be Loudoun and Prince William. How many years have we said that?!

November 15, 2022

Dear Members of the Planning Commission,

I am a resident and property owner in the Oak Springs subdivision. In 2006 I moved to Warrenton from Alexandria away from the hustle and bustle of the suburbs, and for the past 16 years I have called Warrenton my home.

The back of my townhouse sits directly facing Blackwell Road. One of the reasons I chose this home was because I could sit quietly out on my deck and patio and enjoy the native wildlife and foliage.

If the Planning Commission, and ultimately the Town Council, approves the Amazon Special Use Permit (SUP), I will no longer be able to enjoy this amenity.

Additionally, my property value will drop substantially as studies have shown that residential areas around data centers depreciate anywhere from \$88,000 to \$136,000 per parcel. The quietude I once enjoyed will disappear and I will no longer be able keep my windows open during the night but for the incessant hum the data center would generate.

The wildlife corridor and the traffic along Blackwell Road and Oak Springs Drive will be severely compromised. I ask – how does this fall into line with Warrenton's 2040 Comprehensive Plan? Simply, it does not.

While I am cautiously relieved that Dominion Energy has chosen not to construct a substation along Blackwell Road, if the SUP is approved, the view from my home will still be a 220,000 square foot 50+ foot high concrete block.

Please give consideration to those of us whose lives will be severely impacted should this project move forward.

I respectfully urge the Planning Commission as well as the Town Council to disapprove the SUP and keep the bucolic town of Warrenton a place where I, and others, will be proud that our little town said a resounding 'no' to the corporate giant, Amazon.

Thank you for your time and consideration.

Respectfully,

Robin C Lohnes

Planning Commission

Town of Warrenton, VA

Re: Public Hearing to discuss the Special Use Permit requested by Amazon

Attention Commission Members:

As you are aware, there are a considerable number of concerns about various aspects of this issue and significant opposition, as will be demonstrated by the petition to be presented, the many speakers and others in attendance at the Hearing. The purpose of my comments is to support the call to not approve the Special Use Permit requested by Amazon in that it has been

demonstrated, thus far, that it is incomplete and full of unverified and bad information.

Given the concerns raised by the many speakers at the Hearing, as well as the concerns/reservations expressed by the members of the Commission, themselves, at the recent Work Session, it would seem inconceivable that approval of the Amazon request would be made. If not an outright denial of the request, at least action should be taken to keep the meeting open, or continued, or whatever the technical term is that would allow more time for the various concerns to be more thoroughly examined/ explored.

There is too much at stake to make a hasty decision and/or ignore what appear to be legitimate concerns, some of which I will mention below. It also should be recognized, and agreed to by the members of the Commission, that the legitimacy of any concerns/issues raised should be based on the merits of the issues themselves versus a consideration of where the people live who present/raise them or by the number of instances they are mentioned.

Any proposed 'changes' offered by Amazon and/or Dominion, also need to be thoroughly examined. What, on the surface, may appear to be an accommodation may, in the long run, present and/or add to other problems, such as setting up the Town of Warrenton for multiple Data Centers and their associated problems.

Careful attention must be paid to the language used, such as the terms Distribution lines vs Transmission lines. For example, instead of an offer by Amazon to pay for the undergrounding of 'all' electrical/power lines (which would include Transmission lines), an offer by Amazon stipulating only Distribution lines is relatively meaningless in that, it is understood, under Dominion's policy, Amazon would be required to pay for that anyway.

There may not be anything new presented at the Hearing. You have probably been exposed, in one way or another, to all of

them by now. So I will not go into detail discussing them. Rather, I will just list some of the more prominent concerns that have been identified, thus far, that I am aware of.

One concern calls into question the whole administrative process that allowed this to come about in the first place. That may not weigh in on the direct consideration of the Permit; but, it is out there and, in a way, overshadows the whole process.

Continuing weak, shifting, information from both Amazon and Dominion is another. It almost seems as though it was considered, by them, to be a 'done deal' from the beginning; so that more thoughtful, detailed, professional input by them wasn't that necessary.

The whole setting of the proposed Data Center, aka known as the 'viewshed', has been called into question. Is the proposed site one of those that has/had been identified as appropriate for that kind of development? I think the term 'industrialized' has been used to describe such sites/areas. I will not even bring up the ludicrous 'balloon test' results offered by Amazon at the Work Session.

Also, the issue of the noise that will be generated has been raised. It is understood that, as a result, some changes have been offered by Amazon; but, again, these need to be looked at in detail and in context. For example, noise measurement may be one thing at a relatively early stage of development; but, an entirely different matter once the Data Center would be in full operation.

The impact on nearby property values needs to be seriously considered. Speaking of 'value', the proposed tax revenue needs to be carefully examined, as well. In the end, it may not turn out to be what is being speculated/projected. Have the experiences, relative to tax revenue from Data Centers, in other locations/counties been explored? Especially, as concerns what was projected and what actual revenue was received!

Finally, another thing to consider is the projected advancement in technology. Already, there is talk of a time in, perhaps, the not too distant future that will call into question the need for so many Data Centers or even any at all! What happens then to all those structures and the related investments?!

There are many things to consider and, given the importance of this decision relative to the precedent it will set for further/future applications, it is imperative, in the discharge of your duties, to get it right the first time.

Respectfully submitted,

Tom Daily

Subject: Old Bust Head Brewing Company opposed to Transmission Lines
Date: Tuesday, November 15, 2022 11:42:26 AM

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Hello,

As owner of Old Bust Head Brewing Company, and 20+ acres of redeveloped historic retail, industrial, and commercial buildings in Vint Hill, I want to voice my strong opposition to any new overhead power lines in Fauquier County that might come as part of the Amazon data center submission. Our brewery is the anchor that makes the success of all our tenant's businesses possible, and the brewery is dependent on customers who visit our county for its rural and unique character. As we have seen time and time again, power lines destroy communities and are a serious detriment to tourism-dependent businesses like ours. This is why the county voted to underground power lines in Marshall Va, and the business owners and residents agreed to put up with the interim pain for the long term benefit. As a resident of Broad Run, 3.5 miles outside the Warrenton town limits, power lines at the gateway to town would cause destruction to my feelings about Warrenton as a community and seriously impact my motivation for investing in its future.

Please do not be the commission that is responsible for such a blight on what is now a rural and historic treasure.

Sincerely,
Julie Broaddus

I am writing in opposition to approving the data center proposed by Amazon in the Town of Warrenton. The Planning Commission does not have sufficient information from Amazon to make an informed decision to recommend approval of Amazon's application for a Special Use Permit.

On a procedural point, there seems to be some confusion over the 100-day rule. That rule, which only applies to zoning applications, deems applications as "approved" after 100 days from an initial meeting if the application is not acted upon. That provision for a "deemed approval" appears nowhere in the code section governing Special Use Permits.

To the Warrenton Planning Commission and the Town Council

I am dismayed that our town planning commission and council are in such a hurry to vote on the special-use permit to allow Amazon to build a data center within the town limit.

The citizens of the town worked long and hard on the current Comprehensive Plan and to allow a data center in this area designated as one of the gateways into the town is in direct conflict to what was approved.

I feel the town council has not done due diligence to assure the citizens this application meets the town noise ordinance and will not be a visual eyesore. PEC and other citizen organizations have presented information against approval, and I have heard from people that they are "fear mongering", if so then the town council and the planning commission need to do their due diligence to present noise studies to assure residents everything is in compliance with the current town standards.

What is the hurry? We have a new town council and planning commission coming on in January, allow them to review and make the decision.

Please deny or delay the application.

Thank you,

Dear Commissioners,

Besides all the arguments you already know for denying this application, this hearing should not even be taking place with an INCOMPLETE APPLICATION!

No one else in our community would be ushered along to a hearing with an incomplete application, but you are willing to do this with the biggest land-use decision in Warrenton's history.

I would also say, shame on you and the town administration for holding this hearing at Town Hall. This citizens should be allowed a comfortable and dry place to sit and watch the interactions as they wait their turn to speak. Instead, you will have hundreds of people standing out in the cold rain, unable to hear or see anything, and probably just going home. This is the Mayor's version of a "transparent government" I guess.

This hearing should not happen tonight and when the application is complete, you should hold a public hearing at a local auditorium where the citizens can actually participate.

I hope you will do the right thing!

Subject: Warrenton Data Center

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

I am writing to urge the Council to postpone any action approving the massive data center in town due to the noise and vibration that will be caused by the center. The noise will be a permanent loss of the quiet that is a part of Warrenton and once lost, cannot be regained. Approval of this proposal will permanently change Warrenton's small-town appeal and Fauquier County's rural character, and significant noise and visual impacts will affect citizens and visitors alike. Citizens and visitors will be greeted by a fifty-foot-high building on an elevated site, right at the eastern entry to Warrenton. The data center and power lines will be visible from many parts of both Warrenton itself and the surrounding countryside.

Please don't sell out the town for such a short-term financial gain at the expense of the town and its residents.

Hello!

Thank you for the opportunity to share my thoughts.

I love Warrenton. I moved here in October 2020 because I fell in love with its charm, its beauty, its support and protection of agriculture, and its small yet mighty Old Town district. I do not wish to move again- my roots have been set here in Warrenton and I want to stay here- yet I will likely find myself moving if this data center is approved. Let the other counties and cities who have let data centers move in be a dire warning- data centers come in, and peace, quiet, and charm move out. You approve just one and more are sure to follow.

Someone has to stand up to these monstrous corporations- please let the Council be the force which does not give in to the allure of promised revenue and potential jobs (both of which are uncertain), as I am positive that the cost will far outweigh any potential benefits.

Thank you,

Subject: Vote NO on the Amazon SUP

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Members of the Planning Commission,

I am strongly opposed to the Amazon data center SUP. A data center on Blackwell is simply not consistent with the vision for "New Town" included in the Town's 2040 comprehensive plan, which was *just* adopted. The construction of a data center on Blackwell will mean that we permanently lose the opportunity to attract a mixed use development in the Town gateway as described in the Comprehensive Plan (which residents could actually use and enjoy rather than just try to ignore).

It will also degrade the quality of life for the residents of the nearby communities, which constitute some of the Town's best reasonably priced housing. Don't believe what Amazon tells you about the noise. An Amazon data center is exceeding noise limits just up the road in Manassas, causing harm to local residents: https://youtu.be/qpA_v45hnDs. I watched the Planning Commission's recorded meeting from 11/15 and was particularly alarmed by the comments made by a resident of Waterloo North living on View Tree Mountain about the impact of the data center at the Warrenton Training Center on his neighborhood nearly a mile away. I was also moved by the gentleman at the end of the meeting from Oak Springs that played the sound of a data center for the Commission. We don't need that sound in our lives, not to mention the years of uncertainty and battling and construction related to the power source (which the SCC has ultimate control over).

Furthermore, a data center provides limited permanent jobs, and the tax revenue is [highly uncertain](#). There is also a very real possibility that Amazon and the data center lobby (which has seemingly boundless resources) will be able to achieve further tax breaks from the state legislature in the future. Amazon is notorious for its ability to avoid taxes (see [this 2022 piece](#) from the Institute for Tax Policy and Economic Policy), and cannot be trusted to accurately report the value of its equipment. If there is some dire need for revenue, then I'd rather pay more in taxes.

As you must very well know, data centers are bringing tremendous headaches to our neighbors to the north and east, and there has been exceptional and voluminous public opposition to this proposal from Town and County residents. I urge you to listen to the overwhelming majority and **vote down the SUP**.

Thank you for your public service and consideration of my comments. I appreciate your willingness to listen to hours upon hours of public comments and extend the public hearing to 11/22.

I wish to oppose the AWS center proposed for Warrenton. I have lived in Fauquier County since the mid-seventies. I have lived in four different residences here, now residing in The Town of Warrenton. My daughter lives here, my married daughter and her family live here. No one wants the character of our town ruined!

The Planning Commission should NOT approve this. It doesn't meet any of the requirements! It actually shouldn't have gotten to the Planning Commission.

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Good morning!

Thank you for sharing the recording from the meeting Tuesday evening regarding the proposed Amazon Data Center. I was unable to attend, but I am most thankful for the outstanding representation from citizen against this proposal.

I just recently moved to Warrenton, in May 2021. I LOVE this town and am already serving on my community Board of Directors and getting involved as quickly as possible. I work from home and am also a Real Estate agent PT. My 97 yo WWII Veteran father lives with me. We relocated to Warrenton for the beauty, the people, and mostly for the less congestion and noise from Fairfax. I have also brought my son and his family here from Loudoun Co. They also came for the same reasons.

I have lived through and have witnessed the growth of Data Centers both in Loudoun and Prince William Counties. My daughter and her family live in Nokesville, just off Rt. 28 and I owned a ministry located off University Dr in Prince William from 2012-2018. I physically watched the surrounding acreage become COVERED in Data Centers in a matter of just a few short years. I witnessed the same when traveling to my son's home in Ashburn. These Data Centers are one reason that we all CHOSE to come to Fauquier. We made this decision to GET AWAY from the noise, the unsightly buildings, the high electrical resources - and basically, to a County where we believed valued land and families.

These data centers are de-valuing real estate. I have seen it in many transactions, and its just not fair to the homeowners. We see this same type of destruction when roads have to be built, but at least the roads serve the communities. The data centers could easily be placed AWAY FROM homes and local communities.

I am firmly against the data centers, yet I also firmly support the 2040 plan for Warrenton. I am in favor of modernization (to a point) within Fauquier, but I believe the data centers would be detrimental to this County.

Thank you,

Lois Hughes

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Thank you for receiving my comments.

The recent vote to turn rural land on the edge of the Manassas Battlefield National Park into Data Centers is one of the most egregious violations of the character and history of that space.

The data center proposed within the boundaries of the Town of Warrenton will undisputedly open the door for more of the same here.

Warrenton is a gem - a town that is absolutely beautiful at every entrance, whether coming in from 29 near Chevy, Meetze Rd, 29 near the community college, Culpeper St, 211, or 17, Each entrance has character and natural beauty. There is no way to hide the behemoth of a data center at one of those entrances to town.

Warrenton appreciates peace and quiet. Recent data centers erected along the Prince William Parkway PROVE without a doubt that the ambient noise reduces the quality of life of residents nearby, more than a highway or an airport ever would.

Warrenton likes smart growth. A warehouse-style building is not smart growth.

Warrenton likes transparency in the process. The number of speakers is testament to that.

Consider me a "no" on the data center consideration.

Respectfully,
Jason Smolinski
Warrenton resident

Dear Planning Commissioners:

My husband and I attended last Tuesday's Planning Commission meeting. I had signed up to speak, but had to leave before my name was called. Unfortunately, neither my husband nor I can attend the follow-up meeting. That is not because we don't think it is a meeting of the utmost importance. It is because we have both had deaths in the family, including my father, and consequently have numerous guests visiting. So it is with regret that we cannot attend.

There is not much more to add to all the the good comments that were made last week in opposition to this project of Amazon. I would merely like to point out the obvious, that the Amazon Data Center is nothing more than a Trojan house. Saying there will be no massive power lines for this particular data center is cold comfort, because more hideous and gargantuan Data Centers will follow, and with them will come the hideous, gargantuan power lines.

My husband and I fled Loudoun County after watching this disaster unfold there. We were not subjected to the noise factor because we weren't close enough, but the daily assault on our senses from being forced to look upon these hideous structures and the attendant power lines every day took its toll on our mental well being. At first it is subconscious, but soon it becomes impossible to ignore.

The "new look" for the data centers that the Amazon representative showed us on his slide was just as unrelentingly ugly as all the others and has no place in a small community such as Warrenton, dwarfing all surrounding structures, and in such close proximity to so many hapless residents.

The irreversible adverse effects of allowing this data center to be plunked down in the middle of our small, quaint and sweet town cannot be overstated. The unsightliness and noise is nothing but a blight on the surrounding area and without a doubt will cause the people subjected to this onslaught to suffer physically, mentally and even financially as their home values plummet. These data centers have already blighted enough areas. Perhaps the people who like them so much should install them in their own backyards.

For the well-being of this town and county, and for all the people living here you must vote against it.

I would very much appreciate a confirmation that you have received and read this e-mail.

Subject: Proposed Amazon Data Center

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Dear Town of Warrenton Planning Commissioners:

Citizens of the Remington Service District were once promised a 125-acre park (Fauquier Comprehensive Plan, 2003) but we lost our park to a utility solar site. The Remington solar facility produces about 20 megawatts of power annually at operating capacity. Meanwhile, Amazon's proposed Warrenton data center will consume between 5 to 20 megawatts per year (estimates vary due to a lack of information from Amazon and Dominion Energy).

Though we lost our park, Remington residents thought we were helping combat climate change. Now we are dismayed to learn our power generation might be used to satisfy Amazon's thirst.

Please don't approve this proposal; there are negative repercussions for every Fauquier citizen, but especially Remington residents, who have two power plants and one solar facility already.

How much more of a sacrifice must we make to satisfy Amazon, Dominion Energy, and Fauquier County desires? Please don't add more demand.

Sincerely, Mary M. Root

Chairman, Remington Community Partnership

As a resident of Fauquier County and on who visits a shops in Warrenton, we say no to towers and a data center.

Use brown space to build and not the present site. We do not support the towers, the electrical use or water use. No to the noise.

Amazon wins and Warrenton will lose.

Say no!

Subject: Amazon Data Center SUP Noise Conditions are Deceptive and
a Give Away to Amazon
Importance: Normal

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

To the Planning Commission:

If you allow the Amazon Data Center SUP to move forward to the Town Council, you will be aiding and abetting an end run around the Warrenton noise ordinance.

Do not allow that to happen. Do not subject Oak Springs, North Rock, and the Highlands neighborhood to constant noise violations. You will be ruining their property values, their health, and their quality of life. These are real people, with real families.

The conditions developed for the SUP by Amazon and Town staff DO NOT REQUIRE COMPLIANCE WITH THE NOISE ORDINANCE. Read those conditions carefully, like a judge, like a lawyer. Those conditions tacitly give the green light to Amazon to build and commence operations in violation of the noise ordinance -- and only "undertaking" and "diligently pursuing" mitigation -- which is open-ended in time -- i.e., potentially forever.

Do not even think about allowing this to happen. Do not put the interests of a trillion dollar international corporation over the interests of residents and families in the nearby residential neighborhoods of Oak Springs, Highlands, and North Rock. These are not affluent households. Many are working class, modest-income families.

You will further be putting at risk the patients and employees at Poet's walk, the employees and patrons of Giant, Country Chevrolet, Piedmont Family Practice, the Harris Teeter Shopping Center, and many other nearby businesses. Do you really want

to drive away patrons and employees from these businesses, reducing their bottom line, and potentially endangering their continuing operation?

Think of the precedent you will be allowing if you allow Amazon's SUP to proceed, without a noise study, without compliance with the Town noise ordinance -- and with tacit written approval to violate the noise ordinance for an indefinite and potentially prolonged period,

Moreover, you must realize that Town staff have already been complicit with Amazon in trying to deceive you and the public. The Town Staff Analysis prepared for you says that the Noise Conditions require compliance with the Town noise ordinance. That is clearly not true. Instead the Noise Conditions tacitly approve violations, and only require "diligently pursuing" mitigation -- open-endedly -- potentially forever.

Meanwhile, in nearby Prince William County, Amazon is "diligently pursuing" mitigation by wrapping yoga mats around rooftop AC units, bound with bungee cords. Amazon clearly does not know how or whether it can meet even the weak noise standards in PWC -- much less the more protective noise standards of Warrenton.

Do not allow this Amazon SUP to proceed to Town Council without a noise study that demonstrates compliance with the Warrenton noise ordinance. And do not trust Town staff to review such a study. They do not have the expertise -- and have shown they are much more attentive to the needs of Amazon than the needs of residents and neighborhoods in Warrenton.

Look to your consciences, and to your responsibility to the people of this Town and County.

Sincerely,
Cynthia Burbank

Data Centers are a horrible idea. They can be built in areas that don't have such a tremendous negative impact on the citizens of the town of Warrenton. The noise & resulting vibrations will decimate the quality of life we currently enjoy.

I can only surmise that officials making the decision on such an important issue are either ill informed or influenced by some other method. To even consider this going though unrestricted with an open contract is unethical.

Why are you selling out our bucolic area?

This issue reminds me of what the chicken farms have done to the Shenandoah Valley. Promise of jobs & money have polluted ann Eden like area & proved to be a drain & eyesore to the farmer's & environment.

Respectfully, Kathryn Barber

Hello,

If someone told you that some loud data center would be incessantly buzzing half a mile from your home you'd be irritated off too. My mom purchased this home in 2014 and it's the home that she plans on retiring in. Constant buzzing will be not only annoying and irritable, it will be unsupportable. If you don't care about the hundreds of people this will be affecting, maybe you'll be sympathetic to our pets. Dogs and cats have a keen sense of hearing and this will affect them too.

This data center means a reduced quality of life for the citizens of the town that you guys are supposed to represent. You need to listen to the voices of the people who will be directly affected by this. And you also need to listen to the experts who have pointed out the flaws in Amazon's noise study. I know Amazon is a business giant. And I know there is likely some incentive to letting them build a data center here. But why are we crawling closer and closer towards another crowded, unaffordable, and unlivable northern Virginia town?

Subject: Opposition to the Data Centers

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Dear Fauquier Planning Commission members,

At last Tuesday's meeting, many well-informed town residents gave convincing reasons for not rushing into granting the Supplementary Utility Permit (SUP) that is a prerequisite for building a data center on land originally designated for multi purpose uses. Too much secrecy shrouds what appears to have been a hurried "deal" with Amazon. An abundance of evidence gathered from other localities illustrates that noise pollution is potentially a very big problem. Understandably, trying to make adjustments after the center begins operation is not a viable solution. Now there is talk of perhaps one or more data centers within the town limits. These and their connecting power lines have the capacity to disrupt the peace and tranquility that the Greenway has been providing since its completion. That "green space" in itself is a treasured resource that we choose NOT to surrender under Amazon/Dominion's recommended plan of action. VOTE 'NO!' Don't allow data centers to proliferate within Warrenton!!!

Because I live just outside the town's southern boundary, I don't have a vote in town elections. There's a deep community spirit within Warrenton that both town and county residents respect. The Commission needs to take its time in reviewing the data that has already been presented before making an irreversible decision.

Your citizens do not want this data center shoved down our throats. We have been speaking out repeatedly. No one without property to sell has spoken in favor at any of the meetings I have attended.

The planning commission made the right call to DEMAND a full application. At least two said without one, they would have to vote no. Please realize the consequences of agreeing to this thing without all the data - of which you have precious little.

Somehow, I am beginning to think you wouldn't care what the commission says... You sure don't seem to care what your people say.

Subject: Regarding Domion's new proposals to power Amazon't proposed data center

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Yesterday I received a notice from Dominion indicating that it has narrowed its proposals to 2 options, an overhead transmission route and an underground route. Both will pass by our house off of Walker Road. Walker road is a beautiful road and these actions will surely destroy that beauty. I understand that these proposals will be considered on December 13.

These proposals will be moot should Warrenton not grant the Special Use Permit (SUP) for Amazon to build its data center.

Please, I urge you to not grant this SUP! The target location for the data center is adjacent to Warrenton town centers for shopping, etc. It is largely a residential area! Data centers should be planned and built in areas set aside for industry, and should be banned from Fauquier altogether.

Please do not grant the SUP!!!!

Subject: Amazon Data Storage Building in Warrenton

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Mayor and City Council members,

It is with a heavy heart that I find myself writing to you tonight. A year and a half ago my wife and I moved to beautiful Warrenton - nestled in between the Shenandoah mountains and the "Big" city. When we heard about Amazon wanting to put a data storage warehouse in Warrenton city limits, I thought that can't possibly be right - "WHO" would want a huge, sterile, loud and ugly building (and possibly more) in this picturesque setting. I have been to two of the planning commission meetings concerning this special permit request and am just appalled by the lack of transparency by the city government (signing of NDAs - sounds illegal and if it isn't it should be!); the lack of a completed application from Amazon; the lack of real information from Amazon; and the lack of council members' thought processes (why do you think this is good for Warrenton). I have read that most council members have lived in Warrenton for years and it boggles the mind why you have even engaged with Amazon to begin with!

I grew up in Northern Va and like many people wanted to get away from the never ending crazy growth and building of mega centers. 30 years ago I loved driving through Warrenton on the way to the Shenandoah to hike, canoe, or fish, but I'm afraid that I will no longer like what I may see if we let Amazon and others make Warrenton look like Ashburn. I implore you to vote against this special permit and let's keep Warrenton special.

Thank you,

Dave Hettinger

Dear Mayor and City Council Members,

I lived in NOVA for twenty years, moved away due to my husband's job and we returned a year and a half ago. Previously living in Fairfax and Centreville, WE CHOSE WARRENTON to be our home because we loved it's idyllic atmosphere. **Your job is represent the people of Warrenton** and I think it's very clear that the residents DO NOT want the Amazon Data Centers and the power lines that come along with it. In your good conscience, how could you even entertain the thought of it?

No amount of revenue is worth ruining what Warrenton and Fauquier County represent- a break from the hectic NOVA area...a gateway to the mountains, wine and horse country. And we have yet to hear exactly what kind of revenue it will bring!

There are many downsides:

- Unsightly huge structures seen from miles away (not idyllic)

-

Dear Mayor and City Council Members,

I lived in NOVA for twenty years, moved away due to my husband's job and we returned a year and a half ago. Previously living in Fairfax and Centreville, **WE CHOSE WARRENTON to be our home** because we loved it's idyllic atmosphere. **Your job is represent the people of Warrenton** and I think it's very clear that the **residents DO NOT want the Amazon Data Centers** and the power lines that come along with it. In your good conscience, how could you even entertain the thought of it?

No amount of revenue is worth ruining what Warrenton and Fauquier County represent--a break from the hectic NOVA area...a gateway to the mountains, wine and horse country. And we have yet to hear exactly what kind of revenue it will bring!

There are many downsides:

- The beautiful nature of Warrenton will be forever ruined--there's no going back to correct it later. Think Ashburn. Rt. 29/66 and all of the warehouse buildings.
- Unsightly huge structures seen from miles away (not idyllic)
- Noise pollution
- Property values of ALL the residents will go down
- People will not want to move here (how does that help revenue?)
- Does not bring jobs

It seems so unjust that the fate of all of the residents is held in the hands of several people. You signed NDA's? There's been such a lack of transparency, but yet you were elected to protect the people of Warrenton. This is a decision that will affect the fate of Warrenton forever more.

Something has to be preserved...almost be sacred. Think about our National Parks and the pristine beauty that lies within. President Roosevelt and John Muir had a vision -- and COURAGE--100 years ago to preserve that land. Thank God they did, because can you imagine how ruined it be be today? They had the foresight to think about the residents of this country and the future beauty of this land.

Please have the foresight--and courage-- to preserve Warrenton and Fauquier County-- it's fate is in your hands--PLEASE VOTE NO TO THE AWS SUP!!

Respectfully,
Laura Hettinger

Subject: Amazon Data Center Consideration...

[EXTERNAL EMAIL] DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

December 13, 2022
Warrenton Town Council

There is probably nothing in the comments offered below that the members of the Town Council or the Planning Commission have not heard recently regarding opposition to the proposed Amazon Data Center in the area up behind Country Chevrolet. The purpose of submitting the comments is to add yet another voice to the opposition and reinforce the various points that have been raised.

In addition to the many who have spoken at recent events, the Petition that has been signed by, reportedly, 1800 or more residents of the Town and County, is evidence that there is widespread opposition to the Amazon Data Center based on a number of factors that have been raised. The merits of the objections/concerns that have been raised should be taken into consideration based on their objective validity and regardless of the locations of their sources.

To begin, the current approach seems to contradict plans previously arrived at as a result of Comprehensive Planning by the Town and the County. Two industrialized zones (PCIDs) were identified in the County for uses such as Data Centers. It would seem that some coordination with the County would have been in order to assess whatever justification was used to motivate the Town to deviate from the original plans. The current situation, with respect to the proposed Amazon (and eventually other) Data Center(s),

along with the attendant Substations and Transmission Power Lines, has the potential to do irreversible damage to the rural, small-town and overall scenic character of the Town and the County.

The overall conduct of the process itself has been the subject of some concern/criticism. There have been complaints of matters being addressed without public input and allegations of Amazon undue influence. One example is the recognized mishandling and uncertainty regarding the whole noise issue. The hiring of the former Town Manager by Amazon only amplifies these kinds of concerns.

The noise compliance issue is a major concern, as you must be aware; but, it is understood that there are other parts/sections/issues regarding the Amazon application that are not addressed or are inadequate. Given the level of scrutiny this whole Amazon Data Center project has attained, it is crucial that, as the saying goes, 'every T must be crossed and every 'I' dotted'. At this point, that is not the case and, therefore, the Special Use Permit (SPU) should be denied.

Respectfully submitted,

Tom Daily

Town Council
Regular Meeting

**A RESOLUTION DIRECTING STAFF TO ADVERTISE A PUBLIC HEARING ON JANUARY 10TH, 2023 TO
CONSIDER AN AMENDMENT TO THE FISCAL YEAR 2023 ADOPTED BUDGET FOR WATER AND
SEWER CAPITAL PROJECTS**

WHEREAS, Warrenton, VA (Hereinafter "the Town") is a municipal corporation located within the County of Fauquier; and

WHEREAS the Warrenton Town Council is charged by the Code of Virginia with the preparation of an annual budget for the Town of Warrenton;; and

WHEREAS, on June 16, 2022, the Town Council adopted the Town of Warrenton Fiscal Year 2023 Budget; and

WHEREAS, at the September 13, 2023 Council meeting, the Town Council authorized the issuance of up to \$5,400,000 in bonds to finance Water and Sewer projects. After a bank request for proposal process was conducted on behalf of the Town by the Town's financial advisors, Davenport & Company, LLP, the Town opted for a 17-year bank loan in the amount of \$5,000,000 with Chase Bank, which closed on September 30, 2022; and

WHEREAS, a work session was conducted with the Town Council on December 13, 2022 to identify Water and Sewer projects to be financed with the bond, and some of those projects are not currently appropriated in the Fiscal Year 2023 adopted budget; and

WHEREAS, Code of Virginia §15.2-2507 requires that a locality must advertise a public hearing to amend the budget if the amount exceeds one percent of the total expenditures shown in the currently adopted budget; and

WHEREAS, The Warrenton Town Council wishes to authorize staff to advertise for a Public Hearing to gather Public Comments on the proposed amendment to the Fiscal Year 2023 adopted budget; and

NOW, THEREFORE, BE IT RESOLVED that the Warrenton Town Council Hereby adopts a resolution authorizing advertisement of a Public Hearing January 10th, 2023 to consider a budget amendment to appropriate Five Million Dollars for Water and Sewer capital projects.

A RESOLUTION AUTHORIZING THE KEEPING OF SWINE ON THE PROPERTY KNOWN AS FAUQUIER HIGH SCHOOL

WHEREAS, the Fauquier County School Board owns contiguous parcels of property in the Town of Warrenton's jurisdiction, identified as Parcel Identification Numbers 6974-86-3278-000, 6974-75-6925-000, 6974-75-6703-000, and 6974-76-0449-000 (hereafter referred to as the "property"); and

WHEREAS, the property houses Fauquier High School and related improvements and uses, including areas dedicated to agricultural education; and

WHEREAS, it is the goal of the Fauquier High School Agricultural department to provide a unique learning experience for students to understand food systems and careers in agriculture; and

WHEREAS, the Agriculture Department of Fauquier High School proposes to expand its programs, which will require certain improvement to the Property as identified in the materials provided to the Fauquier County School Board on its November 14, 2022 meeting (the "plan"); and

WHEREAS, some of the proposed improvements identified in the plan require permitting from the Town of Warrenton, including: 1) a Swine Permit from Town Council to keep two swine on the property per Section 3-5 of the Town Code, and 2) a building permit for a 768 square foot pole barn to be utilized for equipment storage, covered outdoor class area, and additional livestock, and 3) a Zoning Permit for additional fencing to create an enclosed pasture/paddock for the keeping of additional livestock; and

WHEREAS, the Town of Warrenton has received a Resolution from the Fauquier County School Board approving the plan and requesting that the Town Council waive any fees associated with applications, permits, and approvals related to the plan.

WHEREAS, the requested fee waiver would apply to the building and zoning permits for the proposed pole barn and fencing; and

WHEREAS, the Town strives to foster a positive working relationship with other local governmental entities; and

NOW, THEREFORE, BE IT RESOLVED that the Warrenton Town Council Hereby is Authorizing the keeping of two swine on the property known as Fauquier High School for educational purposes;

BE IT FUTRHER RESOLVED the applicant shall diligently pursue all necessary approvals and begin permitting within six (6) months from the date of December 13, 2022;

BE IT FUTRHER RESOLVED that the Town of Warrenton Town Council agrees to waive all permit fees associated with this request.

A RESOLUTION TO AMEND THE FISCAL YEAR 2023 ADOPTED BUDGET BY \$10,650 TO INCREASE FUNDING FOR VIRGINIA REGIONAL TRANSIT

WHEREAS, the Warrenton Town Council is charged by the Code of Virginia with the preparation of an annual budget for the Town of Warrenton; and

WHEREAS, on June 16, 2022, the Town Council adopted the Town of Warrenton Fiscal Year 2023 Budget; and

WHEREAS, during the development of the budget, the contributions to outside organizations were level-funded with Fiscal Year 2022; and

WHEREAS, Virginia Regional Transit (VRT) provides transportation services in the Town of Warrenton under a Federal 5311 operating grant that calls for certain funding requirements. The buses and routes operated by VRT are funded 50% by the Federal Transportation Administration, 18% by the Virginia Department of Rail and Transportation, and 32% through a local match. The local match provided by the Town of Warrenton is offset by a grant from the PATH Foundation, which brings the Town's share to 20% of the total operating cost; and

WHEREAS, the Fiscal Year 2023 funding request submitted by VRT reflected increased cost estimates to support existing routes that were not incorporated in the original adopted budget for Fiscal Year 2023; and

WHEREAS, the additional amount required to satisfy the funding requirements of the program for Fiscal Year 2023 is \$10,650; and

WHEREAS, meals tax revenues are estimated to exceed the budgeted amount based on year-to-date receipts, providing sufficient current revenue to fund this request;

NOW THEREFORE, BE IT RESOLVED, by the Town Council of the Town of Warrenton this 13th day of December 2022, that the Fiscal Year 2023 Budget be, and is hereby, amended to increase General Fund Meals Tax revenue by \$10,650 and to appropriate \$10,650 for an increase in the contribution to Virginia Regional Transit.
