Police Department Quarterly Report

July 2022 thru September 2022

Calls for service:

For the reporting period between July and September of 2022, the Warrenton Police Department handled 4,182 calls for service. Most of these calls for service were for larceny related offenses followed by fraud related offenses.

The police department experienced an increase in quality-of-life related offenses, (drunk in public, drug distribution, and noise violations) within the Haiti St. Community. During the month of July, the Police Department responded to 78 calls for service. In early August a strategy was put into place that involved existing relationships with community stakeholders. As a result of this strategy, which included an increased presence combined with officers utilizing procedural justice principles along with evidence-based enforcement strategies, we have seen a significant reduction in calls for service. During the month of August, Officers responded to 35 calls for service within the community, a 55% reduction. In September the Police Department responded to 3 calls for service, which is a 91% reduction.

The Police Department is continuing our outreach within the community, recently holding a community barbeque, which was funded by the PATH Foundation. We are seeing a continued reduction in calls for service within the Haiti St. Community. Preliminary numbers for the month of October show only 2 calls for service at this time.
