Subject: Budget Modification- Forestry

Background

Every year the Parks, Recreation, and Forestry Department applies for a DNR Urban Forestry Grant to fund a portion of Ash treatments, tree removal and plantings, safety training courses for staff, forestry equipment, and our tree programs as well as tree planting and care educational opportunities for the community and staff time.

This grant is a 50/50 matching grant up to \$50,000. We did not receive the DNR Urban Forestry Grant for the year 2025.

Budget Goal

Proactively maintains and improves our parks and infrastructure to ensure safety, quality, and equity

Fosters community growth by assessing opportunities, stakeholder input, **environmental needs**, and modern code and policy priorities

Maintains a safe and healthy community, with an eye toward future needs and trends

Financial Impact

We would need \$14,160 to continue our Ash treatments, safety training, and tree purchases for our Right Tree, Right Spot program.

Recommendation

We are looking for approval of \$14,160 to be moved from Contingency Funds to Urban Forestry Expenses.
