

Engineering Division of the Public Works Department

To: Chairperson Arnett and Commission Members

From: Andrew Beyer P.E., Director of Public Works/City Engineer

Date: February 17, 2026

Subject: Public Works Commission Meeting of February 24, 2026

Review and take possible action: 2026 Annual Sidewalk Repair Program Area

Background

Agenda Item:

Review and take possible action: 2026 Annual Sidewalk Repair Program Area

BACKGROUND:

A component of the Annual Street Program is a sidewalk repair area. Attached are site maps laying out this year's proposed areas. This year's areas are areas that have not been part of an Annual Sidewalk Repair Program in several decades. This year's program also includes the replacement of existing curb ramps on E. Spaulding Street at Center Street and on Clark Street at S. Third Street with WisDOT ADA Compliant curb ramps. Roughly \$80,000 is available in the Sidewalk Reserve Account for 2026 sidewalk repairs.

Budget Goal

1. Proactively maintains and improves our parks and infrastructure to ensure safety, quality, and equity
4. Maintains a safe and healthy community, with an eye toward future needs and trends

Financial Impact

Roughly \$80,000 is available in the Sidewalk Reserve Account for 2026 sidewalk repairs. Repair costs will initially be charged to the Sidewalk Reserve Account (05-58-11-73). The Engineering Division will then invoice the property owners for the total repair cost.

Recommendation

The Public Works Department recommends approval of the 2026 Annual Sidewalk Repair Program Area.

Motion: Motion to forward a Resolution to the Common Council approving the 2026 Annual Sidewalk Repair Program Area for the aforementioned estimated cost.
