To whom it may concern:

Candle Glo Motel is using the front parking and grassy area to park Uhaul trucks and trailers. We are dispatching and returning this equipment for our community and surrounding areas. These trucks and trailers are parked, dispatched, returned and then inspected after each use. They are not a hinderance to the driving and parking of the current residents of the motel. We are only using the front parking lot and driveway for the Uhaul equipment. Driveway upgrades may be necessary in the distant future, but everything is working great right now.

Thank You,

A handwritten signature in black ink that reads "Todd".
