## MEMO

TO: Chairperson Wetzel and Commission Members  
FROM: Andrew Beyer, P.E.  
DATE: March 8, 2023  
RE: Public Works Commission Meeting of March 14, 2023

---

### Agenda Item:

Review and take possible action: Street repair petition for Lafayette Street from S. Church Street west to Termini

### BACKGROUND:

Review and take possible action: Street repair petition for Lafayette Street from S. Church Street west to Termini

The Engineering Division received a request to repair Lafayette Street between S. Church Street and its western termini as soon as 2024. Current practice is to request Public Works Commission review of received street repair petitions and determine if the petitioned street be added to the five-year capital improvement plan.

The pavement on Lafayette Street from S. Church Street to its western termination point has PASER ratings ranging from 2 to 4 (10 being brand new street, 1 being failed pavement). Consulting with the Water Division, water main age in this street segment generally dates back to 1913 construction and is need of replacement. The Street is not currently in the City's five-year capital improvement plan and street & utility design hasn't been completed. A site map is attached as a reference.
