MEMO

TO: Chairperson Wetzel and Commission Members
FROM: Andrew Beyer, P.E.
DATE: January 4, 2024
RE: Public Works Commission Meeting of January 9, 2024

Agenda Item:

Review and take possible action: request to discharge clear or unpolluted water into sanitary sewer during winter months on Willman Court

BACKGROUND:

Review and take possible action: request to discharge clear or unpolluted water into sanitary sewer during winter months on Willman Court

Chairperson Wetzel received a request from a resident to discharge a sump pump to the City's sanitary sewer system during the winter months to prevent icing in the Street. Per City Ordinance 508-8(A)(7):

Temporary connection to sanitary sewer. If a determination is made that a property owner is discharging clear or unpolluted water into the sanitary sewer, upon recommendation by the Public Works Commission the property owner may be allowed to continue to discharge clear or unpolluted water into the sanitary sewer during the winter months (November 1 to April 1) if there is no storm sewer on the abutting street. The purpose of this exception is to prevent the discharge of water onto the City street which would produce the accumulation of ice and result in hazardous driving conditions

One storm sewer inlet exists on Willman Court and is located in the center island.
