. . .

Hello,

Below are the corner stops and route times we had for the 2022-23 school year.

I also looked up average ridership for the corner stops. January - Early March 17-19 students on average Mid March-May 11-15 students on average The corner stops went to the Riverside Middle School and the High School-elementary students that used transit have always been picked up at their homes and dropped off at the school.
