
Off-Street Parking and Traffic Circulation Standards - Proposed Additions and Deletions

§550-107G (Proposed Additions and ~~Deletions~~)

(5) Locational prohibitions for off-street parking areas.

(a) Off-street parking shall not be located between the principal structure on a residential lot and a street right-of-way, except: ~~within residential driveways and parking lots designated on the approved site plan (see § 550-145).~~

- i. Within residential driveways.
- ii. Within parking lots designated on an approved site plan under § 550-145.
- iii. During declared snow emergencies.
- iv. During City approved special events under §428-7.

(b) The outdoor storage of recreational vehicles, equipment, and trailers shall conform to § 550-109B(4).

~~(b)~~(c) For all development created after the adoption of this chapter, no private parking shall occur on street terraces, driveways, or any other areas located within a public right-of-way not explicitly designated by the Public Works Director/City Engineer.
