Florida Municipal Pension Trust Fund – DB 60% Equity Allocation
Executive Summary
As of March 31, 2026

DB 60% Equity Allocation

- The FOMC held rates steady in March, with forward guidance continuing to project one additional 25 basis point cut in 2026, though market expectations shifted dramatically from two cuts to zero as energy-driven inflation fears took hold. The Iran War was the key focus for investors, driving increased volatility and a sharp 38 basis point rise in the 10-year Treasury yield. Broad equity indices fell in March as markets assessed the impact of higher oil prices on consumer demand and corporate margins, while the US dollar strengthened as a safe-haven. Core real estate earned a modestly positive return for a sixth consecutive quarter, with all property sectors positive and the office sector appearing to have passed through its trough. The 60% Equity Allocation trailed the Target Index in the first quarter, down 1.7% versus down 0.8%.
- This allocation has earned a 9.1% return over the past year and risen 8.7% over the past 3 years.
- Over the past 10 years, this allocation is up 7.6% on average annually. While this performance is slightly behind the target index (up 8.0%) the risk-controlled nature of many of the underlying strategies are designed to provide downside protection should the markets continue to moderate or decline.

FMLvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund matched the Bloomberg US Aggregate A+ Index in the first quarter. The Fund's yield curve positioning and ABS holdings added to the returns with the portfolio well positioned going forward, especially with the higher valuations in lower quality corporates. Over the past 10 years, the Fund has achieved over 30 basis points of excess return on average annually relative to the benchmark.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

FMLvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund outpaced the Bloomberg Multiverse in the first quarter, up 0.1% vs. down 1.1%. Exposure to collateralized mortgage obligations helped drive modest gains in January and February, while remaining stable during the March volatility. Insurance-linked assets also contributed to the performance, while exposure to sovereign bonds, and an overweight in financials detracted. The fund has outpaced the benchmark by nearly 280 basis points over the past year and ranks in the top 34th percentile of its peer group of global unconstrained fixed income managers.
- In the 10 years since inception, the Core Plus Fixed Income Fund has posted absolute returns of 3.1% on average annually, ahead of the benchmark (up 0.8%).

FMLvT Diversified Large Cap Equity Portfolio

- At the end of third quarter 2025 the decision was made to transition the Fund's allocation to 100% to the SSgA S&P 500 Fund. The assets from the Hotchkis & Wiley Diversified Value Fund and the Atlanta Capital High Quality Growth Fund were transferred to a transition account at Northern Trust at the end of September and were fully invested in the SSgA S&P 500 Fund on 10/1/2025. This fund provides investors with passive exposure to the US large cap equity marketplace.
- Broad equity indices fell in March as investors assessed the potential impact of higher oil prices on consumer demand and corporate profit margins. Despite the downturn equity valuations remain above average overall, particularly for US large caps, but growth expectations are supportive for now. The Fund matched the performance of the S&P 500 in the first quarter, both falling 4.3%.
- The Diversified Large Cap Equity portfolio has achieved a 12.9% return on average annually over the past 7 years.

Florida Municipal Pension Trust Fund – DB 60% Equity Allocation
Executive Summary
As of March 31, 2026

FMIvT Diversified Small to Mid Cap Equity Fund

- The Diversified Small to Mid Cap Equity Fund trailed the benchmark in the first quarter, down 4.2% vs. up 2.0%, as lower quality factors like high beta, smaller size, and companies with negative earnings outperformed. The portfolio's lack of energy exposure detracted as that sector was up significantly on concerns in the Middle East. Despite the near-term difficulties for the Fund, it has risen 8.6% on average annually over the last 7 years.
- This strategy has generated very strong results over the past 10 years, rising 10.6% on average annually, matching the benchmark.

FMIvT International Equity Portfolio

- The FMIvT International Equity Portfolio outpaced the MSCI ACWI ex-US Net benchmark in the first quarter, down 0.1% vs. down 0.7%), with the escalation of the conflict in Iran erasing the positive performance generated in the first two months of the quarter. Stock selection in the information technology and energy sectors were contributors, with an underweight to communication services and materials detracting. Despite the headwinds, the Portfolio has risen 23.8% over the past year, and has outperformed the benchmark over longer term time periods.
- This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and emerging markets.

FMIvT Core Real Estate Portfolio

- In early 2023, a \$50 million redemption was submitted in order to rebalance the portfolio with the proceeds scheduled to be paid out over several quarters. FMIvT received the final proceeds of their redemption request in December, and the total commitment has been reduced to \$100 million.
- Core real estate returns maintained momentum with a sixth consecutive quarter of positive returns. However, the return is comprised almost entirely of income as price appreciation remains flat. Property transaction volume has improved, and the office sector appears to have passed through its trough. Economic uncertainty could impact dealmaking, but additional rate cutting in 2026 would be a positive for the real estate sector. The FMIvT Core Real Estate portfolio (down 0.9%) outperformed the benchmark (down 2.8%) over the past 3 years.
- The portfolio has outperformed the NFI ODCE Net benchmark over the past 5 years and has achieved nearly 150 basis points of excess return on average annually over the benchmark over the past 7 years.

Total Portfolio

For the One Year Periods Ending March

The rankings represent the portfolio's returns versus a peer universe. The rankings are on a scale of 1 to 100 with 1 being the best.

Total Portfolio Historical Manager Allocation

January 1998: Initial allocation to Broad Market HQ Bond and HQ Growth Equity only.

January 2000: Added exposure to Small Cap markets and passive Large Cap.

February 2004: Increased equity portfolio exposure through reduction in the Broad Market HQ Bond Fund.

May 2005: Added International exposure; increased the Large Core allocation to reduce the Fund's growth bias.

November 2006: Added Large Cap Value allocation to balance the style exposure.

April 2014: Added Core Plus Fixed Income.

October 2017: FMlvt Diversified Large Cap Equity Portfolio was created, which combines the large cap core, value, and growth portfolios.

March 2018: Added Core Real Estate Portfolio.

Florida Municipal Investment Trust
Protecting Florida Investment Act - Quarterly Disclosure
As of March 31, 2026

This Disclosure is intended to provide information with respect to Chapter 175 and 185 Police and Fire Plan's required disclosure of direct or indirect holdings in any "scrutinized companies" as defined in the Florida State Board of Administration (FSBA) Global Governance Mandates Quarterly Report for Quarter 4 2025.

It is important to note that individual Police and Fire Plans have no direct interests in any scrutinized companies. Police and Fire Plans hold an interest in the Florida Municipal Pension Trust Fund. It is also important to note that the Florida Municipal Pension Trust Fund has no direct interests in any scrutinized companies as all of its interests are invested in the Florida Municipal Investment Trust.

The Florida Municipal Investment Trust is the only entity that could possibly have direct interests in any scrutinized companies. ACG has reviewed the **FSBA Global Governance Mandates Quarterly Report-February 24, 2026** that is available on the Florida SBA website. We have reviewed the list of companies appearing in **Tables 1 and 3- Scrutinized Companies with Activities in Sudan and Iran** and **Table 9 – Scrutinized Companies or Other Entities that Boycott Israel**, and compared these lists to securities of companies held directly by the Florida Municipal Investment Trust. As of 3/31/2026, the Florida Municipal Investment Trust had no direct interest in securities on the above referenced lists.

ACG also requested that investment managers, who manage commingled funds that are owned by the Florida Municipal Investment Trust, review the **FSBA Global Governance Mandates Quarterly Report-February 24, 2026** and disclose whether the Florida Municipal Investment Trust may hold any scrutinized companies indirectly through investment in their respective commingled funds. The FMLvT Core Plus Fixed Income Fund owns units in the Pioneer Multi-Sector Fixed Income Fund. The Pioneer Multi-Sector Fixed Income Fund holds **Republic of Turkey** bonds, which represents 0.76% of their respective portion of the FMLvT Core Plus Fixed Income Portfolio, and **Republic of Colombia** bonds, which represents 0.05% of their respective portion of the FMLvT Core Plus Fixed Income Fund. All other managers have confirmed that they do not any securities these lists.
