

Experience. Please list experience and/or any knowledge, skills, abilities, or qualifications that you possess and believe relevant to the board/committee for which you seek appointment:

I am a longtime educator and school principal with more than 25 years of experience working with children, families, staff, and the community. As a school leader, I understand the importance of creating welcoming, inspiring spaces that reflect the people and community they serve. I have experience developing school visions, working with diverse groups, managing projects, and bringing people together around shared goals.

I am also one of Westlake's original residents and continue to live in the Hammocks community. I care deeply about the future of our city and want to help make Westlake a place that is beautiful, welcoming, and full of opportunities for residents to connect. I believe my experience as an educator, community member, and school leader would allow me to bring a thoughtful and family-centered perspective to the Art in Public Places Committee.
