Florida has a very broad public records law. As a result, most written communication, created to or received from local officials, and City employees regarding City business is considered public record and available to the public and media upon request, unless otherwise exempt. Your email communications may therefore be subject to public disclosure. Under Florida law, email addresses are public records. If you do not want your email address released in response to a public records request, do not send electronic mail to this office. Instead, contact the City by phone or in writing.

Subject: July City Council Meeting

Hi Ken,

1. I have concern that the District Manager of Seminole Improvement District and the Developer (Minto) are represented by the same legal counsel Lewis Longman Walker. How does the firm serve both entities without bias?
2. The second concern is that The District Manager for SID Ken Cassel is also the City Manager of Westlake and is employed by Inframark which serves SID and The City of Westlake.

At our July city council meeting I would like on the agenda an explanation as to how these entities can work together without being biased. Please have Inframark, Lewis Longman Walker, and Minto make their own presentations for the council.
