Re: Donation Letter

Chief Simmons,

It is our pleasure at Pafford EMS to donate a LifePak 12 Cardiac Monitor to the West Monroe Fire Department. We realize the importance of having the right equipment with life-saving capabilities on your Units when responding to a cardiac event. I hope that your Fire Paramedics will be excited about this monitor and that it gives them peace of mind knowing that they can manage a cardiac event more efficiently when seconds count. We have included a 3 bay charger and 8 new batteries for this monitor for immediate use. A description of donated equipment is as follows:

LifePak 12 s/n 35904099
NIBP, CO2, Spo2
4 Lead, V Lead/12 Lead
Therapy Cable

3 Bay Battery Charger s/n 13357131
8 Rechargeable Batteries

As a resident of West Monroe, I appreciate the services that you provide to your citizens on a daily basis. We wish you the best of luck and the safest responses this year. If we can assist you with anything in the future, please do not hesitate to reach out to me.

Sincerely,

A handwritten signature in blue ink that reads "Shane Davidson".

Shane Davidson
Chief Operations Officer
