Re: Monthly Status Report

- W. 47th Street Project: The Streetlight foundations and conduit are installed. The sidewalk is complete with exception of one small area at 47th and Adams. The site furniture is being installed. The topsoil is being installed. The irrigation is to be installed this week. The traffic lanes are expected to be shifted on May 15th.
- Westwood View School Project: The entire area in the back of the school is to be sodded in the next two weeks. They are installing riprap around the area inlet.
- 2023 F-550 and Equipment: The order has been placed for the truck and equipment. We have not been given a build date yet.
- CCLIP funding: I have resubmitted the project to KDOT.
- Forestry Grant: I have submitted a grant request for the purchase of a leaf vacuum and a watering trailer for 2024. I don't have any new information on this as of yet.
- CIP: Leslie and I are working on a comprehensive plan to include street work, sidewalks, street lights and stormwater. This should be ready for consideration in June.
