

Council Action Form

Meeting Date: August 8, 2026

Staff Contact: John Sullivan, Public Works Director

Agenda Item:

Consider authorizing the acceptance of a bid from Kansas Heavy Construction for the repair of curb & gutter, sidewalks, storm inlets, wheelchair ramps, and driveway approaches at 13 locations in the city.

Background / Description of Item

I have been looking for a contractor to perform the work for removal and replacement of various concrete items at various locations throughout the city. Kansas Heavy Construction provided me with a bid for all of the work for the bid price of \$100,402.50.

Staff Comments/Recommendation

Over half of the work is located on Shawnee Mission Parkway and on Rainbow Blvd. The work on Shawnee Mission Parkway is being done in preparation for a KDOT Mill & Overlay of Shawnee Mission Parkway in 2028. As you may remember, KDOT, by agreement, does not maintain anything other than the pavement on Shawnee Mission Parkway.

The other portion of the work is located at various locations within the city.

Budget Impact

The costs will be funded by the Special Highway Fund, the State Maintenance Fund and the Stormwater Utility Fund. These funds contain sufficient amounts to cover the expense.

Suggested Motion

I am moving to authorize the expenditure of \$100,402.50 for the removal and replacement of various curb & gutter, sidewalks, storm inlets, wheelchair ramp truncated domes, and driveway approaches at 13 locations in the city.
