Re: Monthly Status Report

- CCLIP funding: I met with the Unified Government and one of their standing engineer contractors. We have received the funding agreement from the State, and we are working through some issues which will probably require an agreement with the Unified Government and the State of Kansas to clearly state the funding arrangement. This project through the CCLIP Program is not supposed to cost the City of Westwood any expense for any portion of the project to include design, construction and construction engineering. The Unified Government will be paying for the costs of design and construction engineering in lieu of paying for construction costs.
- Storm Debris Removal: This project is complete. We are awaiting the reimbursement.
- Stone wall damage and light pole damage: I have the replacement Medalion, and we will be installing it.
- Public Works Replacement Vehicle: I still have the warning lights to install.
- Street Light Replacement, Belinder Court & Booth: We received only one bid, and it was nearly twice what was budgeted. We do not recommend acceptance of the bid.
- Repairs to Signals, W. 47th Street and W. 47th Place and Rainbow: On May 19th the Video detection system associated with these intersections was struck by lightning destroying a camera, video detection controller, load switch and 4 pedestrian push buttons at W. 47th Place. I am filing a claim with our insurance carrier as this cost will exceed our deductible of \$2,500.00 dollars. We currently have working signals and video detection, but we do not have correctly working push buttons at the intersections. Currently all the ped signals are on continuous call until we receive the parts needed to place the buttons in operation. This may take up to 60 days to receive the parts to finish this project.
- Street Light Pole Knockdown, 4700 Rainbow Blvd.: We have successfully applied for and received reimbursement for the damaged light pole and our labor to install the pole and light fixture from the insured's insurance company. We have ordered the light pole and fixture and will install once received.
- School Preparations: We will be re-installing the crosswalk signs on Belinder @ W. 49th Terrace with new ones for the new school year. We will also be turning on the school zone flashing lights.
