DATE: June 8, 2026

TO: Rik Kowall, Supervisor
Township Board of Trustees

FROM: Sean O'Neil, Community Development Director 

SUBJECT: Zoning Ordinance Amendments

As you may recall, the Community Development Department has been working on several amendments to the Zoning Ordinance. These amendments, which have been broken out by the Planning Commission into two separate "parts" (#2026-001 & #2026-002) for ease of reference, were presented to the Planning Commission on June 4th. After holding the required public hearing, the Planning Commission has recommended approval of part #2026-001 and recommended denial of part #2026-002. These amendments are now ready for Township Board consideration.

Please find attached the two amendments in "parts," which the Planning Commission has requested the Board act on as separate agenda items. Please also find attached the minutes from the June 4th Planning Commission Meeting. I look forward to discussing these amendments with you on June 16th. Please contact me if you have any questions.

Thank you.

WHITE LAKE TOWNSHIP
PLANNING COMMISSION
JUNE 4, 2026

Mary Earley, 5925 Pine Ridge Court, stated the Planning Commissioners are doing a fine job and final site plan approval should remain in their authority.

Chairperson Carlock closed the public hearing at 6:41 P.M.

Chairperson Carlock stated she did not see a reason to remove the authority of final site plan approval from the Planning Commission.

Commissioner Seward stated this change is driven by one project and is concerned about the reasoning for the proposed change. He was shocked to learn that some Board members were not aware that the Planning Commission had the final site plan approval authority. He is not in favor of language changing to give the Township Board final site plan approval.

Commissioner Dehart stated that the proposed changes to the final site plan approval would eliminate the Township's "One Stop Ready" status.

Commissioner Sevic agreed with her fellow Commissioners' comments and added there is a lot of work done by the Commissioners before approving or denying site plans.

Commissioner Seeley added that consideration of the Master Plan and zoning ordinance is considered when the Commission votes on plans.

Commissioner Dehart stated that the Commissioners are not elected, and do not have a political affiliation when considering plans.

Chairperson Carlock re-opened the public hearing at 7:01 P.M.

Michael Powell, 4700 Cornerstone, stated the Planning Commission worked on the language to grant the Planning Commission final site plan approval in the early 2000's. He said when the Township Board had the authority for final site plan approval, developers did not like working within the Township. Approval from the Township Board was long and difficult. To rectify this, language to the ordinance was amended to prevent undue influence from the Township Board on the final site plan approval process. This took the politics out of the process, and the site plan process ran smoother.

He added there is merit to adding an appeal process to the existing ordinance, as there isn't an appeal process to final site plan denial now.

It was MOVED by Commissioner Seward, seconded by Commissioner Seeley to separate the ordinance Zoning Ordinance Amendments 26-001 and 26-002 when presented to the Board for consideration. The motion carried with a roll call vote: (6 yes votes). (Sevic/yes, Seward/yes, Carlock/yes, Dehart/yes, Seeley/yes, Meagher/yes).

It was MOVED by Commissioner Seward, seconded by Commissioner Seeley, to recommend the Township Board approve Zoning Ordinance Amendment 26-001. The motion carried with a roll call vote: (6 yes votes). (Meagher/yes, Seeley/yes, Dehart/yes, Carlock/yes, Seward/ yes, Sevic/yes).

PART 5: Replace Article 5.4, SUBSTANDARD LOTS, in its entirety, to read as follows:

Intent

The purpose of this Section is to establish reasonable dimensional standards for legally created substandard lots containing or intended for single-family residential development. The Township recognizes that many existing single-family residential lots, particularly within older lake area subdivisions, were created prior to the adoption of current zoning standards and do not conform to current lot area and/or lot width requirements. The standards of this Section are intended to allow for the reasonable use, maintenance, expansion, and improvement of single-family homes on such lots while maintaining orderly development patterns.

A. Applicability

For purposes of this Section, a substandard lot shall mean a legally created lot that does not comply with the minimum lot area and/or minimum lot width requirements of the zoning district in which it is located. This Section shall apply only to substandard lots located in zoning districts where single-family dwellings are permitted and which contain an existing single-family dwelling or are intended to be developed with a single-family dwelling. The standards of this Section shall apply to the construction, expansion, alteration, and improvement of single-family dwellings on such lots.

B. Side Yard Setback Reductions for Substandard Lots

For substandard lots that do not meet minimum lot width requirements, side yard setbacks may be reduced to ten percent (10%) of the lot width, with a minimum of five (5) feet, whichever is greater.

Accessory buildings or structures shall be set back a minimum of five (5) feet from side lot lines and five (5) feet from rear lot lines. Setbacks shall be measured to the nearest part of the structure, including overhangs and gutters. These requirements are subject to Section 5.7.A.

Accessory buildings or structures shall not exceed fourteen (14) feet in wall height or eighteen (18) feet in building height. In Suburban Farm (SF) and Agricultural (AG) districts, on parcels at least two (2) acres in size, maximum wall height may be increased to sixteen (16) feet and maximum building height may be increased to twenty (20) feet.

2. Total Accessory Building Area

In all residential districts except Suburban Farm (SF) and Agricultural (AG), the combined ground floor area of all accessory buildings or structures on a lot shall not exceed 125% of the ground floor area of the principal building. Attached garages shall be excluded from this calculation. The Township's Assessing records shall be used to determine the ground floor area.

3. Maximum Ground Floor Area of One Accessory Building

No single accessory building or structure shall exceed 4,000 square feet of ground floor area, except in Suburban Farm (SF) and Agricultural (AG) districts on parcels at least five (5) acres in size.
