March 18, 2025

Dear Board members,

I was assigned the task of selecting a company to perform the Low Voltage and Audio-Visual installation for the Civic Center Buildings. The first phase was finding a company to complete the design sketches and specifications needed to obtain bids on short notice. Tom Conway from VC3 and Teffera Kowalske from Redstone Architects both recommended MDIS (Metro Detroit Integrated Systems, LLC).

Once MDIS was selected through bid a process, they began working very closely and patiently with the Township, and our vendors for electrical wiring, security, and Information Technology for the Civic Center project. Upon completion of the drawings and specifications, I sent out bids utilizing section 4.7 (c) 7. Request for Qualification in our policy manual for the low voltage, audio-visual equipment and installation of each for both new buildings.

The committee established consists of myself, Dan Keller, and John Holland. The committee members agree that MDIS not only has the lowest bid, but the most comprehensive and accurate bid. MDIS has thus far proven to be competent and responsive to our requests. MDIS has supplied references for large projects that they have completed. In addition to MDIS being referred by VC3 and Redstone, VC3 has worked with MDIS on many projects in the past and speaks highly of their work. MDIS has also successfully completed a couple of small jobs for the Township.

As a part of their bid, MDIS will perform end to end testing, which means they test every connection to ensure everything they installed is working before we get in the building. The testing will be documented in a certification report needed for the 25-year warranty on cables and fiber optics. In addition, MDIS has agreed to a 1-year service warranty period where no labor will be charged to the Township. All equipment warranties follow the warranty of the manufacturer, which will be supplied to us upon completion of the project work.

Please see the attached spreadsheet for the breakdown of pricing information. The committee recommendation is that MDIS be awarded the low voltage and audio-visual business for the Civic Center building project in the amount of \$835,289.32, upon a mutually acceptable signed agreement reviewed by the Township attorney, and receipt of performance and payment bonds.

NOTES

- THIS RFP INCLUDED INSTALLATION FOR ALL LOW VOLTAGE CABLING FOR THE BUILDING AND THE AV EQUIPMENT AND INSTALLATION
- IT EQUIPMENT NETWORK SWITCHES, WIFI ACCESS POINTS, GATEWAYS, FIREWALLS, MODEMS, AND SERVERS ARE BEING HANLED BY VC3
- VC3 IS RESPONSIBLE FOR CONFIGURING THE NEW NETWORK AND WIRELESS ACCESS NETWORK FOR THE BUILDINGS.
- SECURITY HARDWARE AND INSTALLATION IS BEING HANDLED BY SUMMERS AND ASSOCIATES
- QUOTE DOES INCLUDE RACKS FOR IT SERVERS IN BOTH BUILDINGS, FAN KITS, OVERHEAD TRAYS, AND CABLE MANAGEMENT SYSTEMS WHICH MDIS WILL ORGANIZE FOR US.
- ALL INCLUSIVE QUOTE – ONLY CHANGES IN PRICE FOR THINGS WE REQUEST THAT ARE OUT OF THEIR CONTROL
- 25 YEAR WARRANTY FOR CABLES AND FIBER OPTICS
- 1 YEAR SERVICES WARRANTY FREE LABOR – CAN BUY UP TO 60 MONTHS UPON REQUEST
- EQUIPMENT WARRANTIES ARE INDIVIDUAL
- CERTIFICATION TESTING ON CABLING, DOCUMENTING RESULTS FOR COMPLIANCE TO SUBMIT FOR MFG CABLE WARRANTY AND TO ENSURE EVERYTHING IS WORKING PRIOR TO MOVING INTO THE BUILDING
- USER TRAINING SESSIONS FOR AV EQUIPMENT
- INVESTIGATE USE OF PEG FEES FOR AV EQUIPMENT IF WE PUT BOARD MEETINGS ON CABLE CHANNEL

Subject: Letter of Interest for Low Voltage Installation & Audiovisual Procurement for Township Hall & Senior Center

To Whom It May Concern:

Thank you very much for the opportunity to submit Metro Detroit Integrated Systems' (MDIS) proposal for the Low Voltage Installation and Audiovisual Work for White Lake Charter Township's new Township Hall & Senior Center facility.

This letter serves as an unequivocal expression of MDIS's interest in performing the low voltage and audiovisual work outlined in Exhibits A and B of the RFP, for the Township Hall & Senior Center. We are honored for the chance to contribute to the creation of a facility that will serve as a foundation for community growth and engagement for years to come.

MDIS affirms that we have thoroughly reviewed the designs and specifications set forth in the RFP and that we understand the scope, complexity, and technical requirements of this project. MDIS is wholly confident in our ability to execute the requested services efficiently and effectively for White Lake Charter Township. MDIS is fully committed to meeting all the requirements outlined in the RFP and assures you of our competency, skills, and extensive experience in similar projects.

Furthermore, MDIS makes the following certifications:

1. All information provided in our submission is true, accurate, and complete.
2. MDIS understands and accepts that White Lake Charter Township reserves the right to select the solution that best fits its needs, which may include selecting multiple vendors, a non-lowest bidder, or no vendor at all.
3. MDIS warrants that it has no conflicts of interest that would impede White Lake Charter Township's impartial selection process.
4. MDIS will not charge White Lake Charter Township any sales tax, acknowledging the Township's tax-exempt status, and will rely on receiving a certificate of tax exemption upon award.

5. MDIS shall provide White Lake Charter Township a complete one-year warranty covering all systems, equipment, and workmanship from the date of occupancy. MDIS stands fully behind the quality of its design, equipment, installation, configuration, and training services.
6. MDIS understands that the final product and all related materials will become the sole property of White Lake Charter Township.
7. MDIS will provide the required Certificates of Insurance (COIs) in compliance with White Lake Charter Township's specifications for this project.
8. MDIS shall indemnify, defend, and hold harmless White Lake Charter Township, its officials, employees, and agents from all claims, damages, or expenses arising from MDIS's performance of work under the contract. This indemnification is primary and in addition to any required insurance coverage.
9. MDIS will secure a Performance Bond to White Lake Charter Township covering the full project value, as additional assurance for our timely and complete execution of the work.
10. MDIS certifies that it is in full compliance with the Iran Sanctions Act (Michigan Public Act 517 of 2012). We confirm that neither MDIS nor any of its parent companies, subsidiaries, or affiliates are in any way affiliated with Iran.
11. MDIS affirms that the proposed compensation outlined in our submission is sufficient for us to execute all phases of the required services.
12. MDIS confirms that our proposals will remain valid for a period of six months from the RFP submission deadline.

MDIS is ready to provide clarifications, revisions, or additional information as needed. Should you have any questions during the evaluation of our proposal, please do not hesitate to reach out, and we will happily assist you however we can.

Thank you for the privilege of submitting our proposal and for considering MDIS for this important project. We are enthusiastic about the opportunity to contribute to White Lake Charter Township's new Township Hall & Senior Center, and look forward to the prospect of working together.

Warm regards,

Eric W. Hubers & Alex M. Hubers

White Lake, MI 48383

Subject: Introduction to Metro Detroit Integrated Systems, LLC

Metro Detroit Integrated Systems (MDIS) is a **full**-service low voltage and technology systems integration firm that is headquartered in Royal Oak, Michigan. MDIS specializes in the design, prewiring, installation, configuration, training, and support of advanced, turn-key low voltage systems for municipalities and other businesses.

Founded in 2013, for over 11 years, MDIS has partnered with municipalities and businesses to deliver reliable, high-quality solutions designed to meet both current and future needs. At MDIS, we are driven by a commitment to uncompromising excellence. Our philosophy is simple: do it right the first time. We take immense pride in our meticulous installations, utilizing only high-end, proven equipment to ensure every project meets the highest standards of reliability and performance. From keeping all wiring “*sexy*” and organized, to carefully planning for long-term serviceability and scalability, at MDIS we have a culture of going the extra mile to deliver systems that stand the test of time. These principles have made MDIS a trusted partner of over 1,000 municipal and business customers, and have earned us a reputation for being a strong, dependable, and forward-thinking low-voltage firm. When you work with MDIS, you’re not just getting a system for today’s needs—you’re aligning yourself with a partner that’s ready to grow and evolve with you.

MDIS’s Core Services Include:

- **Data and Fiber Optic Cabling:** Designing and installing large-scale structured cabling systems for robust and efficient network infrastructures.
- **Audiovisual Systems:** Implementing advanced audio and video solutions for conference rooms, live broadcasting, multi-room audio setups, and digital signage.
- **Automation and Control:** Providing custom automation solutions that simplify the control of complex environments.
- **Paging and Intercom Systems:** Installing reliable communication systems for seamless information dissemination.
- **Wi-Fi Networking:** Designing and deploying wireless networks for consistent, high-performance connectivity.

- **Access Control and Video Intercom Systems:** Enhancing security with advanced access control measures and intercom installations.
- **CCTV Surveillance:** Offering high-definition analog and IP camera systems with DVR/NVR recording and remote monitoring capabilities.

At MDIS, we manage all our installations in-house, maintaining a high level of control over project execution. Our team is comprised of 20 experienced professionals who approach every project with precision and dedication, whether it's data cabling, fiber optic pathways, advanced security solutions, or audiovisual systems. At MDIS, we have a strong company culture based on a belief that every detail matters, and our work reflects our passion for delivering lasting solutions that help communities and organizations thrive.

We are genuinely excited about the opportunity to bring our expertise to White Lake Charter Township's Civic Center projects. We are confident that our approach, paired with our proven track record, will help create two state-of-the-art facilities that will serve your community for many years to come.

Warm regards,

Eric W. Hubers & Alex M. Hubers

Subject: Work Program for White Lake Township Hall & Senior Center

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to present our comprehensive work program for the structured cabling and audiovisual package at the White Lake Township Hall & Senior Center. The following framework represents our tried-and-true approach that MDIS has successfully deployed for thousands of low voltage installations across former government and commercial projects. We have fine-tuned the categories and timelines to align specifically with the unique needs of the White Lake Township Hall and Senior Center project, to help provide a clear understanding of the timeframe, milestones, and phases you can expect as we bring your project to life.

Project Initiation (ASAP)

- **Performance Bond Conversion:** Upon notification of the award, MDIS will convert the bid bond into a performance bond.
- **Kickoff Meetings:** Conduct numerous internal and external meetings with stakeholders to align on project scope, deliverables, and expectations.
- **Sales Orders and Project Creation:** Initiate sales orders and establish project frameworks with design and coordination teams.

Planning Phase (2 Weeks)

- **Design and Coordination:** Develop connection diagrams, punch lists, rack drawings, labeling schemes, and IP schemes internally, in close collaboration with township representatives, architects, electrical contractors, and VC3.
- **Site Walkthroughs:** Conduct comprehensive walkthroughs to review existing conditions and finalize logistical planning.
- **Permitting:** Ensure all required permits are obtained before work commences.

Procurement Phase (6-8 Weeks)

- **Equipment Review and Ordering:** Verify compatibility and accuracy of all equipment, focusing on budget compliance and design specifications. Orders for

standard items will be placed within 1-2 weeks, with special order items taking up to 6-8 weeks.

- **Warehousing and Staging:** Stage equipment at MDIS's secure warehouse.

Rough-In Phase (2 Weeks)

- **Site Preparation:** Establish cabling pathways, coordinate with other trades, and ensure cable trays and equipment enclosures are securely installed.
- **Grounding and Bonding:** Install 6AWG grounding cables and jumpers to protect equipment from power fluctuations.

Pre-Wiring and Termination (4-6 Weeks)

- **Cabling Pre-Wiring:** Pull, label, and route low-voltage cables (e.g., data, control, power, bundled access control, speaker) from IDF/MDF areas to endpoints. MDIS will adhere to BICSI-compliant wiring standards and document a detailed cable ID scheme for future servicing.
- **Cable Termination:** Terminate Cat6 cabling in wall plates, keystone jacks, and patch panels. Label both ends with vinyl ID labels for easy identification and maintenance.
- **Fiber:** Fiber optic cabling will be installed, spliced, and certified for speed and reliability.

Equipment Installation (4-6 Weeks)

- **Initial Equipment Installation:** MDIS will start the process by closing up openings with equipment and wall plates. The installation process will begin with securing simpler components, such as wall-mounted speakers and wall plates, ensuring these fixtures are properly fastened and aligned.
- **Finishing Equipment Installation:** Once the job site is secure, MDIS will bring in high-value audiovisual systems, including displays, microphones, touch panels, and broadcasting equipment, for installation. Each device will be mounted, connected, and properly positioned. Rack-mounted low-voltage equipment, cable management systems, and audiovisual control devices will be installed and integrated into the system.

Configuration and Testing (2 Weeks)

- **System Configuration:** Program and configure all systems per RFP specifications, ensuring seamless integration to meet client's needs.
- **Testing:** Conduct thorough tests to verify system functionality and identify any required adjustments. MDIS will perform an in-depth test of all installed systems, to ensure they meet expected quality and functionality.

Certification, Documentation, and Handoff (2-3 Weeks)

- **Certification Testing:** Perform certification tests on cabling, documenting results for compliance to submit for manufacturer lifetime cabling warranty.
- **As-Built Documentation:** Provide comprehensive as-built drawings, IP address logs, test results, and instruction manuals.
- **User Training:** Deliver training sessions to ensure designated users are fully equipped to operate the systems.

MDIS Warranty (1 Year from Occupancy)

- **Workmanship Guarantee:** Provide a one-year warranty on all workmanship, with options for extended service agreements upon request.

We are enthusiastic about the opportunity to contribute to this project and are confident in our ability to deliver timely and quality results.

This timeline serves as a preliminary plan, providing a structured framework for how MDIS intends to execute the scope of work efficiently and effectively. While it reflects our current understanding of the project requirements, it is subject to adjustments based on construction progress, coordination with other trades, and unforeseen variables. MDIS remains committed to maintaining open communication with all stakeholders and will promptly address any necessary updates to ensure the project stays on track and aligned with White Lake Township's goals.

Should you require additional information or clarification, please do not hesitate to contact us.

Warm regards,

Eric W. Hubers & Alex M. Hubers

Subject: List of Client References for Charter Township of White Lake

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to provide a list of client references. Below, you'll find a list of a few of our clients and examples of MDIS's recently completed and ongoing government/municipality projects, highlighting our expertise in delivering comparable services. These projects showcase our firm's capabilities in providing innovative low-voltage solutions, including structured cabling, security/access control, paging/sound masking, digital signage, and complex audio-visual systems. They also demonstrate our ability to meet the unique needs of government and municipal clients through meticulous planning, professionalism, and the integration of cutting-edge technology. Included is a list of clients, a brief scope of work detailing services performed, total revenue of the projects, and points of contact.

CITY OF HAMTRAMCK

Project Dollar Amount: \$287,772.00

Project Completed: 2023

Services Provided: Multi-site CCTV, Access Control, Intercom, Jail Cell Monitoring, Cabling Projects, and Dispatch AV Installation.

MDIS has established itself as a reliable partner for the City of Hamtramck, offering a comprehensive range of services to enhance safety and security. In this project, MDIS installed over 70+ Axis Communications IP surveillance cameras at key locations such as Hamtramck City Hall, PD, Parks, Fire Department, and remote ballot box camera locations, ensuring thorough coverage and effective monitoring capabilities. The team also integrated a total of 43 Access Control Doors at multiple sites with cutting-edge IP access control and intercom solutions, enhancing security with secure entry systems, access control cards, and fobs. Additionally, MDIS successfully planned, subcontracted, and facilitated the installation of multiple motorized commercial gates, high-voltage electrical systems, concrete camera pole and pedestal installations, asphalt paving/repair, and directional boring, as required by our customers for these projects completed in 2023. This ensured the smooth facilitation of these challenging services on their behalf and seamless integration of these systems with our IP Access Control and

Card Readers/IP Intercom. Furthermore, MDIS executed installations of Cat 6 structured cabling projects to establish reliable infrastructure supporting various systems and operations. Demonstrating our commitment to meeting diverse needs, MDIS supplied and installed specialized equipment, including microphones, audio systems, on-air lights for broadcasting needs, and microphone toggle switch solutions for the Treasurer's Office. Furthermore, MDIS designed and implemented a unique jail cell monitoring alert system, incorporating Axis strobe lights, proximity sensors, and officer alerts to ensure regular inmate checks for their safety. These initiatives highlight MDIS's dedication to delivering innovative solutions tailored to the city's specific requirements.

CITY OF ECORSE

Project Dollar Amount: \$269,014.77

Project Completed: 2022

Services Provided: Multi-Site CCTV & Access Control, Intercom, License Plate Capture Cameras, Cat 6 Cabling & WiFi Upgrades, and Dispatch AV Installation.

MDIS successfully completed several major projects with the City of Ecorse during the latter part of the COVID-19 pandemic, navigating health and hygiene protocols while finishing projects under budget and ahead of schedule. MDIS provided a range of IP solutions to enhance safety and surveillance, including installing Axis CCTV Surveillance and access control systems at key city sites like City Hall, Court, PD, Fire, Library, Water Pump Sites, Parks & more. MDIS also implemented surveillance at Dingell Park, installed CCTV at Bernard Popp Park, and provided additional Axis Communications equipment licenses. Additional cameras were installed at the Senior & Community Center, Public Library, and boat ramp along the Detroit River bordering Canada, improving surveillance coverage. These solutions used a mix of on-premise and remote servers, existing network and fiber backbone, and wireless bridging technology. MDIS also assisted with structured cabling, uplink, and rack overhauls at multiple MDF and IDF locations in the building, adhering to local codes and minimizing disruptions to operations by closely collaborating with city staff. These efforts highlight MDIS's commitment to delivering innovative solutions tailored to the City of Ecorse's specific needs.

CITY OF CENTER LINE

Project Dollar Amount: \$210,769.90

Project Completed: 2022

Services Provided: Live Broadcasting and Distributed AV System in Courtroom, Citywide CCTV, Access Control, Intercom, Jail Cell Monitoring, Cabling Projects, and Dispatch AV Installation.

MDIS collaborated with the City of Center Line on significant courtroom AV upgrades and distributed IP video setup and control. We installed multiple HD PTZ video conferencing cameras, Shure wired/wireless microphones with Shure antenna distribution systems for local speech reinforcement, beamforming ceiling-mounted microphones, commercial confidence monitors for courtroom staff to review case information and camera angles, Barco USB-C wireless casting, and an Atlona IP automation system. These systems are CLEMIS-compliant, recording audio and video for review and record-keeping, with MDIS providing setup instructions and training. This project enabled the City to continue operations and court cases during COVID-19, all within budget.

Additionally, MDIS collaborated with the City's Police Chief to design a comprehensive RFP for a city-wide IP video surveillance system. Awarded to MDIS, this project involved installing dozens of strategically placed IP cameras, fisheye cameras, multisensory cameras, and LPR cameras, feeding back to the City's PD and City Hall from various locations. The installation required WAN internet, wireless bridging, and the city's fiber backbone, necessitating planning and coordination of various tasks. Despite not being the cheapest option, MDIS won the bid because the city believed MDIS best met their needs and provided the best value. We are honored to continue working with Center Line as their AV and security needs evolve.

CHARTER TOWNSHIP OF REDFORD

Project Dollar Amount: \$634,078.85

Project Timeline: Started 2024 – Current (*Work In Progress*)

Services Provided: Axis Communications Security Cameras, ICT Protege Access Control, Alarm Systems, Panduit Structured Cabling, Unifi Enterprise Network, Harman Distributed Audio, Sharp NEC Display Solutions, and QSYS Control/Automation Solutions.

MDIS is proud to have been awarded the ‘entire low-voltage package’ for the new \$25 million Wellness and Community Center in Redford Township. This state-of-the-art facility will include basketball courts, an overhead mezzanine running track, gym areas, an auditorium, pools, and much more—becoming a key resource for the community.

MDIS is responsible for everything from the resale and warranty of all equipment to prewiring all low-voltage systems, physical installation, cabling, programming/configuration, and documentation. For this project, we’re installing 52 Axis Communications IP security cameras, 38 ICT Protege access control doors with electrified hinges and motorized commercial mortise door handles, a building-wide QSYS paging system, 600+ Cat6/6A data drops with Panduit structured cabling, APC Lithium UPS battery backup solutions, and Chatsworth racks, cabinets, and cable tray systems.

Additionally, MDIS is installing 25 Sharp NEC 4K 500-NIT commercial 24/7 displays on a mix of fixed, tilt, and articulating mounts throughout the building. These will serve as security camera viewing monitors, digital signage screens, displays for cable TV in fitness areas, and BYOD (Bring Your Own Device) entertainment in community rooms. The administrative meeting room areas will be set up with Microsoft Teams video conferencing systems to improve communication.

In total, we’re installing 86 commercial 70V speakers from JBL/Harman, including a variety of styles and colors to blend seamlessly with the building’s decor—ceiling, pendant, and line array models. These will power distributed audio-visual systems integrated with QSYS control and automation solutions. The auditorium will feature dual motorized projector screens, projectors, multiple pairs of line array speaker systems, and a QSYS automation system to control the entire complex, with a divisible space setup managed through touchscreens.

All of this work, except for the alarm system, is being handled in-house by MDIS’s skilled team. The alarm system for the building—covering panic buttons, motion sensors, and all doors and windows—is being installed by a trusted subcontractor, ensuring full compliance with the RFP.

The Charter Township of Redford has been a longstanding customer of MDIS. Over the past decade, we’ve successfully completed dozens of projects together at over 11 different sites. We’ve built a close, ongoing working relationship, consistently delivering innovative solutions that meet the township’s unique needs.

Subject: Timeframe Flow Chart for White Lake Township Hall & Senior Center

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to present a tentative timeframe flow chart for the White Lake Township Hall & Senior Center project.

This Gantt chart provides an estimated project timeline, assuming a start date at the start of Q2 in 2025. It aligns with the "Work Program" section provided earlier and serves as a visual representation of the project's phases and milestones.

This timeline is subject to change based on potential delays from other trades or adjustments in the overall construction schedule. MDIS remains highly flexible and adaptable to ensure project success. If acceleration is required, we can allocate additional personnel to expedite specific phases. Conversely, if delays occur, our team is ready to pause and adjust, maintaining alignment with the larger construction effort.

PLEASE REFERENCE THE GAANT CHART ON THE FOLLOWING PAGE

As experienced professionals, MDIS is well-versed in working within general contracting frameworks and ensuring smooth coordination with other trades. We take pride in delivering quality work that integrates seamlessly into larger construction timelines.

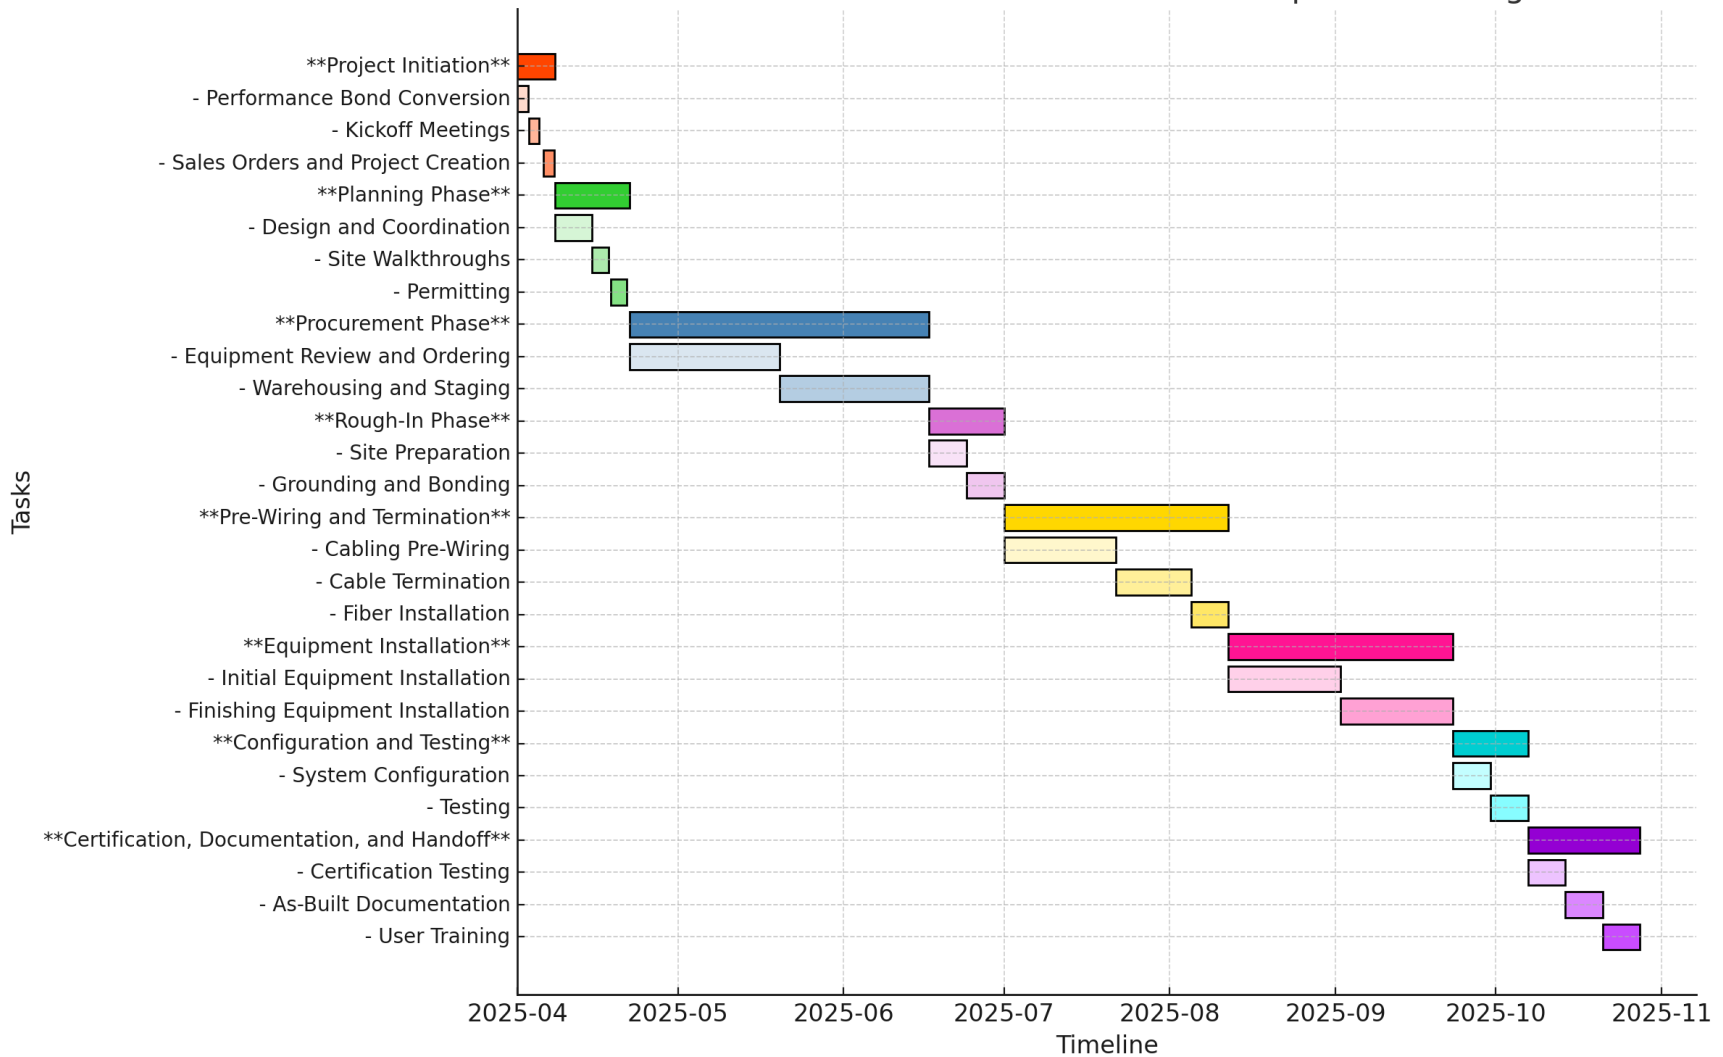

If you have any questions, need further information, or require any adjustments, please don't hesitate to contact us. We are always happy to assist and ensure the project's success.

Warm regards,

A handwritten signature in blue ink that reads "Eric W. Hubers & Alex M. Hubers". The signature is written in a cursive, flowing style.

- Please mail all payments to **4921 Leafdale Blvd. Royal Oak, MI 48073-1020**
- 3.5% Processing Fee will be added if paying by credit card.
- Thank you for choosing MDIS!

SECTION 8:
PAYMENT TERMS

MDIS Payment Terms - *“The 50/50/50/50”*

MDIS shall, as a condition precedent to its right to receive any payment, submit to the Charter Township of White Lake an application for payment along with all necessary receipts, vouchers, and other documentation to establish payment for labor and materials and to confirm the absence of any liens or other claims on the property, work, or funds related to the Work.

Required documentation may include:

1. MDIS’s sworn statement.
2. MDIS’s partial or final waiver of lien.

PAYMENT SHALL FOLLOW THE TERMS OUTLINED BELOW:

For **Equipment**:

- The **first 50%** of the total equipment cost shall be due upon contract execution. This deposit enables MDIS to procure and allocate the necessary materials to begin the project.
- The **final 50%** shall be due upon MDIS’s receipt of and secure storage of all equipment, supported by documentation such as proof of insurance, receipts, bills of lading, photographs, and other items necessary to confirm delivery and proper storage.

For **Labor**:

- The **first 50%** of the total labor cost shall be due thirty (30) days prior to the start of onsite installation.
- The **final 50%** shall be due upon project completion, which includes the successful resolution of any punch list items, delivery of as-built documentation, training provided to the owner, and receipt of the Owner’s written approval confirming system handoff.

FULL CREDIT FOR MDIS DESIGN SERVICES (IF APPLICABLE)

Clients who have purchased MDIS design services, will be eligible for **FULL 100% CREDIT FOR ALL DESIGN SERVICES RENDERED**, applied as a discount to their final invoice, if the project is awarded to MDIS.

CONDITIONS FOR PAYMENT:

Payment by the Charter Township of White Lake shall be contingent upon:

- Submission of required documentation, including lien waivers, as outlined above.
- Inspections conducted to verify the Work has been completed according to contract specifications.
- Approval of Work by the Owner.

Payments do not constitute a waiver of any defects or relieve MDIS from their obligation to correct defective Work. Issuance of the final payment does not waive the Township's rights to address any defects or incomplete Work discovered after payment.

The final payment for Work shall be made only after:

1. MDIS has fully performed all obligations under the contract.
2. All Work has been inspected and approved by the Charter Township of White Lake.
3. All required waivers and documentation have been submitted.

RIGHT TO WITHHOLD PAYMENTS:

The Charter Township of White Lake reserves the right to withhold any payment if reasonably necessary to address:

- Defective or non-conforming Work.
- Claims, liens, or disputes with subcontractors or third parties.
- Damage or liabilities caused by MDIS.
- MDIS's failure to meet contractual obligations.

Funds withheld may be applied to offset costs, damages, or liabilities incurred by the Township as a result of MDIS's actions or omissions.

**ADDITIONAL INSURED – OWNERS, LESSEES OR
CONTRACTORS – SCHEDULED PERSON OR
ORGANIZATION**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name of Person or Organization:

ANY PERSON OR ORGANIZATION THAT YOU ARE
REQUIRED TO ADD AS ADDITIONAL INSURED TO
THIS POLICY BY WRITTEN CONTRACT OR AGREEMENT

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

Who Is An Insured (Section II) is amended to include as an insured the person or organization shown in the Schedule, but only with respect to liability arising out of your ongoing operations performed for that insured.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – COMPLETED OPERATIONS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location And Description Of Completed Operations
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED TO ADD AS ADD'L INS TO THIS POLICY BY WRITTEN CONTRACT OR AGRMT	
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. Section II – Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the Schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable Limits of Insurance shown in the Declarations;

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

CHANGES - AMENDMENT OF CANCELLATION PROVISIONS

Supplementary Payments Increased Limits		
Bail Bonds	\$2,500	2
Loss of Earnings per Day	\$1,000	2
Waiver of Transfer of Rights Of Recovery Against Others to Us	Included	6

The terms and conditions of this policy are amended as indicated below:

I. Non-Owned Watercraft

SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE, Exclusion **2.g.(2)** is revised as follows:

This exclusion does not apply to:

(2) A watercraft you do not own that is:

(a) Less than 51 feet long; and

(b) Not being used to carry persons or property for a charge;

This provision applies to any person, who with your expressed or implied consent, either uses or is responsible for the use of the watercraft.

This provision does not apply if the insured has any other insurance for "bodily injury" or "property damage" liability that would also be covered under this provision, whether the other insurance is primary, excess, contingent or on any other basis. In that case, this provision does not provide any insurance.

II. Damage To Premises Rented To You

Under **SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE**, the last paragraph of **2.** is deleted and replaced with the following:

Exclusions **c.** through **n.** do not apply to "Property Damage" to the premises while rented to you or temporarily occupied by you with permission of the owner. A separate Damage To Premises Rented To You Limit of Insurance applies to this coverage which is the greater of:

- a. The Damage To Premises Rented To You Limit for Each Occurrence shown in the Declarations; or
- b. \$300,000

Under **Section III - LIMITS OF INSURANCE**, paragraph **6.** does not apply.

III. Supplementary Payments

SECTION I - COVERAGES, SUPPLEMENTARY PAYMENTS - COVERAGES A & B, is revised as follows:

1. In paragraph **2.**, the limit of \$250 for bail bonds is increased to \$2,500.
2. In paragraph **4.**, the limit of \$250 for daily loss of earnings is increased to \$1,000.

IV. Medical And Dental Payments

Under **SECTION I - COVERAGES, COVERAGE C. MEDICAL PAYMENTS**, if **COVERAGE C. MEDICAL PAYMENTS**, is not otherwise excluded from this Coverage Part:

1. The Medical Payments Limit is changed to the greater of:
 - a. \$10,000; or
 - b. The Medical Expenses Limit shown in the Declarations of this Coverage Part.
2. The provision, in **C. 1.a.(2)** that the expenses must be incurred and reported to us within one year of the date of the accident, is increased to three years.

V. Broad Form Property Damage

Under **SECTION I - COVERAGE A**, Exclusion **2.j.** is amended as follows:

1. Paragraph **(3)** does not apply.
2. Paragraphs **(4)** and **(6)** do not apply to customer's property at your described premises.

We do not cover any property:

1. Subject to motor vehicle registration; or
2. While being used to perform construction operations.

Our limit for any one "occurrence" under this coverage provision is \$25,000.

The insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to the insured, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4.** Other Insurance is changed accordingly.

VI. Property Damage Liability - Elevators And Sidetrack Agreements

The following is added under **SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY**:

1. Exclusions **j. (3), (4)** and **(6)** do not apply to the use of elevators.
2. Exclusion **k.** does not apply to:
 - a. The use of elevators; or
 - b. Liability assumed under a sidetrack agreement.

The insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to the insured, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4. Other Insurance** is changed accordingly.

VII. Property Damage Liability - Borrowed Equipment

The following is added to Exclusion **j.** under **Coverage A.** (Section I):

Paragraph (4) of this exclusion does not apply to equipment which you borrow unless the "property damage" occurs while such equipment is being used by an insured at a job site.

Subject to all of the terms of **SECTION III - LIMITS OF INSURANCE**, the maximum limit in any one occurrence is \$25,000 and an annual aggregate of \$50,000.

This insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to you, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4**. Other Insurance is changed accordingly.

VIII. Broad Form Named Insured

The following is added under **SECTION II - WHO IS AN INSURED**:

- 1.e. An organization other than a partnership, joint venture or limited liability company, any of your subsidiary companies or any company over which you exercise control and actively manage and to which other insurance does not apply are an insured.

IX. Newly Acquired Organizations

Under **SECTION II - WHO IS AN INSURED, 4**, is deleted and replaced with the following:

1. If you are an organization other than a partnership, joint venture, or limited liability company, any organization you newly acquire or form over which you maintain ownership or majority interest, exercise control and actively manage and to which no other similar insurance is available is a named insured. However:
 - a. Coverage A does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and
 - b. Coverage B does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

X. Additional Insureds By Written Contract

A. SECTION II - WHO IS AN INSURED is amended to include as an additional insured any person or organization that you are required to add as an additional insured to this policy by a written contract or written agreement that is:

1. Currently in effect or becoming effective during the term of this policy; and
2. Executed prior to the "bodily injury", "property damage", "personal and advertising injury".

B. The insurance provided to the additional insured applies as follows:

1. That person or organization is only an additional insured with respect to liability caused by your negligent acts or omissions at or from:
 - (a) Premises you own, rent, lease, or occupy or
 - (b) Your ongoing operations performed for the additional insured at the job indicated by written contract or agreement.
2. The limits of insurance applicable to the additional insured are those specified in the written contract or agreement or in the Declarations of this policy whichever is less. These limits of insurance are inclusive of and not in addition to the limits shown in the Declarations.

C. Section IV - COMMERCIAL GENERAL LIABILITY CONDITIONS, under 4. other insurance, is amended as follows:

The following is added to this provision:

1. Regardless of whether other insurance is available to an additional insured on a primary basis, this insurance will be primary and noncontributory if a written contract between you and the additional insured specifically requires that this insurance is primary.

D. With respect to the insurance afforded these additional insureds, the following additional insured exclusion applies:

1. If the additional insured is an architect, engineer, or surveyor, this insurance does not apply to "bodily injury", "property damage", "personal and advertising injury" arising out of the rendering of or the failure to render any professional services by or for you, including:
 - (a) The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings, designs or specifications; or
 - (b) Supervisory, inspection, architectural or engineering activities.
2. The insurance afforded the additional insured does not apply to:
 - (a) "Bodily injury" or "property damage" occurring after:
 - (1) All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on the behalf of the additional insured(s) at the site of the covered operations has been completed; or
 - (2) That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than the contractor or subcontractor engaged in performing operations for a principal as part of the same project.

XI. Additional Insured - State or Political Subdivisions - Permits

The following is added to **SECTION II - WHO IS AN INSURED:**

1. Any state or political subdivision which has issued a permit to you, subject to the following provisions:
 - a. This insurance applies only with respect to operations performed by you or on your behalf for which the state, governmental agency or political subdivision has issued a permit or authorization.
 - b. This insurance does not apply to:
 - (1) "Bodily injury", "property damage", "personal and advertising injury" arising out of operations performed for the federal government, state or municipality; or
 - (2) "Bodily injury" or "property damage" included within the "products-completed operations hazard".

XII. Additional Insured - Managers Or Lessors of Premises

The following is added to **SECTION II - WHO IS AN INSURED:**

1. Any manager or lessor of premises shown in the Declarations is also an insured, but only with respect to liability arising out of the ownership, maintenance or use of that part of the premises leased to you and shown in the Declarations and subject to the following additional exclusions:

The following exclusions are added:

1. This insurance does not apply to:
 - a. Any "occurrence" which takes place after you cease to be a tenant in that premises.
 - b. Structural alterations, new construction or demolition operations performed by or on behalf of any manager or lessor of premises shown in the Declarations.

XIII. Additional Insured - Lessor of Leased Equipment

The following is added to **SECTION II - WHO IS AN INSURED:**

1. The person(s) or organization(s) who leases equipment to you for use in your business is also an insured, but only with respect to liability for "bodily injury", "property damage", "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person(s) or organization(s).

With respect to the insurance afforded to these additional insureds, this insurance does not apply to any "occurrence" which takes place after the equipment lease expires.

XIV. Additional Insured - Broad Form Vendors

The following is added to **SECTION II - WHO IS AN INSURED:**

1. Any person(s) or organization(s) (referred to below as vendor) with whom you agreed, because of a written contract or agreement to provide insurance is also an additional insured, but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of a vendor's business, subject to the following additional exclusions:

- a. The insurance afforded the vendor does not apply to:
 - (1) "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;
 - (2) Any express warranty unauthorized by you;
 - (3) Any physical or chemical change in the product made intentionally by the vendor;
 - (4) Repackaging, except when unpacked solely for the purpose of inspection; demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
 - (5) Any failure to make such inspections, adjustments, tests, or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
 - (6) Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product.
 - (7) Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or
 - (8) "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:
 - (a) The exceptions contained in Sub-Paragraphs (4) or (6); or
 - (b) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.
- b. This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.
- c. This provision does not apply to any vendor included as an insured by an endorsement issued by us and made part of the Coverage Part.
- d. This provision does not apply if "bodily injury" or "property damage" included within the "products-complete hazards" is excluded either by the provisions of the Coverage Part or by endorsement.

XV. Additional Insured - Volunteers

- A. Under **SECTION II - WHO IS AN INSURED** is amended to include as an insured any person(s) who are "volunteer worker(s)" for you only while performing duties related to the conduct of your business.

However, no "volunteer worker(s)" are insureds for:

- (1) "Bodily injury," "property damage," "personal and advertising injury" arising out of rendering or the failure to render professional services by a "volunteer worker".
 - (2) "Bodily injury", "personal and advertising injury":
 - (a) To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a "employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to other "volunteer worker(s)" while performing duties related to the conduct of your business;
 - (b) To the spouse, child, parent, brother or sister of that "employee" or "volunteer worker" as a consequence of paragraph (2)(a) above; or
 - (c) For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraphs (2)(a) or (b) above.
 - (3) "Property damage" to property:
 - (a) Owned, occupied or used by,
 - (b) Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by you, any of your "employees", "volunteer workers", any partner or member (if you are a partnership or joint venture), any member (if you are a limited liability company).
- B. Exclusion 2. a. of Coverage C (Section I) is replaced by the following:
 - 2. a. To any insured, except "volunteer workers".

- C. "Volunteer worker(s)" means a person(s) who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

XVI. Incidental Medical Malpractice Liability

SECTION II - WHO IS AN INSURED is amended to add the following paragraph:

However, Part **2.a.(1)(d)** does not apply to employed nurses or other employees, excluding physicians or medical doctors, who provide incidental health care services within the scope of their employment by you.

XVII. Broad Knowledge/Notice Of Occurrence

The following is added under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**:

The requirement in condition **2.a.** that you must see to it that we are notified of an "occurrence" or offense applies only when the "occurrence" or offense is known to:

1. You, if you are an individual;
2. A partner, if you are a partnership;
3. A member, if you are a joint venture;
4. An "Executive Officer" or insurance manager, if you are a corporation; or
5. A member, if you are a limited liability company.

The requirement in condition **2.b.** that you must see to it that we receive notice of a claim or "suit" will not be considered breached unless the breach occurs after such claim or "suit" is known to:

1. You, if you are an individual;
2. A partner, if you are a partnership;
3. A member, if you are a joint venture;
4. An "Executive Officer" or insurance manager, if you are a corporation; or
5. A member, if you are a limited liability company.

If you report an accident to your Workers' Compensation insurance carrier which later develops into a liability occurrence, coverage for which is provided by this policy, failure to report such occurrence to us at the time of the accident shall not be a violation of the notification of loss condition in this policy (**Condition 2. in Section IV**). It is understood and agreed, however, that you shall give notification of such occurrence to us as soon as you are made aware of the fact that the particular accident has developed into a liability claim.

XVIII. Waiver Of Transfer Of Rights Of Recovery Against Others To Us

Under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**, the paragraph **8. Transfer of Rights of Recovery Against Others To Us** condition is amended by the addition of the following:

We waive any right of recovery we may have against a person or organization because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under a contract with that person or organization and include in the "products - completed operations hazard" when you have waived such right of recovery under a written contract with that person or organization. Such written contract must be:

1. Currently in effect or becoming effective during the term of this policy; and
2. Executed prior to the "bodily injury", "property damage", "personal and advertising injury"; or
3. Executed after "bodily injury", "property damage", "personal and advertising injury" if:
 - a. The terms and conditions of the written contract or written agreement had been agreed upon prior to the "bodily injury", "property damage", "personal and advertising injury"; and
 - b. The insured can definitively establish that the terms and conditions of the written contract or written agreement ultimately executed are the same as those which had been agreed upon prior to the "bodily injury", "property damage", "personal and advertising injury".

XIX. Mental Anguish

The definition of "bodily injury" in **SECTION V - DEFINITIONS** is replaced by the following:

3. "Bodily injury" means bodily injury, sickness or disease sustained by a person, including mental anguish or death resulting from any of these at any time.

XX. Mobile Equipment

The following is added under **SECTION V - DEFINITIONS, 12. "Mobile Equipment"**:

Paragraph **f.(1)** does not apply to self-propelled vehicles of less than 1,000 pounds gross vehicle weight.

XXI. Personal and Advertising Injury

SECTION V - DEFINITIONS, "Personal and advertising injury" **d.** & **e.** are deleted and replaced by the following:

- d.** Oral or written publication, in any manner, of material that slanders or libels a person or organization or disparages a person's or organization's goods, products or services;
- e.** Oral or written publication, in any manner, of material that violates a person's right of privacy;

XXII. Liberalization

With respect to coverage provided by this endorsement, if we adopt any revisions that would broaden the coverage under this endorsement without additional premium, the broadened coverage will apply to this policy. It will apply when the change becomes effective in your state.

All policy provisions not in conflict with this endorsement shall continue to apply. This endorsement is a valid part of the policy when the form number is shown on the declarations.

SECTION 10:

BID BOND

Bond No. N/A

BID BOND
The American Institute of Architects,
AIA Document No. A310 (February, 1970 Edition)

KNOW ALL MEN BY THESE PRESENTS, that we Metro Detroit Integrated Systems, LLC
4921 Leafdale Blvd.
Royal Oak, MI 48073

as Principal hereinafter called the Principal, and Old Republic Insurance Company
a corporation duly organized under the laws of the state of Pennsylvania as Surety, hereinafter called the Surety,
are held and firmly bound unto White Lake Township
7525 Highland Road
White Lake, MI 48383

as Obligee, hereinafter called the Obligee, in the sum of Five Percent of the Attached Bid*****

Dollars (\$ 5% of attached bid***), for the payment of which sum well and truly to be made, the said Principal and the said Surety, bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has submitted a bid for White Lake Township Hall
Low Voltage: Data/Fiber Cabling & Audio-Visual Services

NOW, THEREFORE, if the Obligee shall accept the bid of the Principal and the Principal shall enter into a Contract with the Obligee in accordance with the terms of such bid, and give such bond or bonds as may be specified in the bidding or Contract Documents with good and sufficient surety for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or in the event of the failure of the Principal to enter such Contract and give such bond or bonds, if the Principal shall pay to the Obligee the difference not to exceed the penalty hereof between the amount specified in said bid and such larger amount for which the Obligee may in good faith contract with another party to perform the Work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect.

Cheryl Hughes Attorney-in-Fact

OLD REPUBLIC INSURANCE COMPANY

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That OLD REPUBLIC INSURANCE COMPANY, a Pennsylvania stock insurance corporation, does make, constitute and appoint:

BARRY W. BERMAN CHERYL HUGHES
of NOVI, MI

its true and lawful Attorney(s)-in-Fact, with full power and authority for and on behalf of the Company as surety, to execute and deliver and affix the seal of the Company thereto (if a seal is required), bonds, undertakings, recognizances or other written obligations in the nature thereof, (other than self-insurance workers compensation bonds guaranteeing payment of benefits, or black lung bonds), as follows:

ALL WRITTEN INSTRUMENTS

and to bind OLD REPUBLIC INSURANCE COMPANY thereby, and all of the acts of said Attorneys-in-Fact, pursuant to these presents, are ratified and confirmed. This appointment is made under and by authority of the board of directors at a meeting held on December 10, 2019. This Power of Attorney is signed and sealed by facsimile under and by the authority of the following resolutions adopted by the board of directors of the OLD REPUBLIC INSURANCE COMPANY on December 10, 2019.

RESOLVED FURTHER, that the chairman, president or any vice president of the Company's surety division, in conjunction with the secretary or any assistant secretary of the Company, be and hereby are authorized and directed to execute and deliver, to such persons as such officers of the Company may deem appropriate, Powers of Attorney in the form presented to and attached to the minutes of this meeting, authorizing such persons to execute and deliver and affix the seal of the Company to bonds, undertakings, recognizances, and suretyship obligations of all kinds, other than bail bonds, bank depository bonds, mortgage deficiency bonds, mortgage guaranty bonds, guarantees of installment paper and not guaranty bonds. The said officers may revoke any Power of Attorney previously granted to any such person.

RESOLVED FURTHER that any bond, undertaking, recognizance, or suretyship obligation shall be valid and binding upon the Company
(i) when signed by chairmen, president or any vice president of the Company's surety division and attested and sealed (if a seal be required) by any secretary or assistant secretary; or
(ii) when signed by a duly authorized Attorney-in-Fact and sealed with the seal of the Company (if a seal be required).

RESOLVED FURTHER, that the signature of any officer designated above, and the seal of the Company, may be affixed by facsimile to any Power of Attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually affixed.

IN WITNESS WHEREOF, OLD REPUBLIC INSURANCE COMPANY has caused these presents to be signed by its proper officer, and its corporate seal to be affixed this 3rd day of October, 2023.

Karen J. Haffner
Assistant Secretary

OLD REPUBLIC INSURANCE COMPANY

Alan Pavlic
Vice President

STATE OF WISCONSIN, COUNTY OF WAUKESHA - SS

On this 3rd day of October, 2023, personally came before me, Alan Pavlic and Karen J. Haffner, to me known to be the individuals and officers of the OLD REPUBLIC INSURANCE COMPANY who executed the above instrument, and they each acknowledged the execution of the same, and being by me duly sworn, did severally depose and say: that they are the said officers of the corporation aforesaid, and that the seal affixed to the above instrument is the seal of the corporation, and that said corporate seal and their signatures as such officers were duly affixed and subscribed to the said instrument by the authority of the board of directors of said organization.

Kathryn R. Pearson
Notary Public

My Commission Expires: September 28, 2026

(Expiration of notary's commission does not invalidate this instrument)

CERTIFICATE

I, the undersigned, assistant secretary of the OLD REPUBLIC INSURANCE COMPANY, a Pennsylvania corporation, CERTIFY that the foregoing and attached Power of Attorney remains in full force and has not been revoked; and furthermore, that the Resolutions of the board of directors set forth in the Power of Attorney, are now in force.

46-5186

Signed and sealed at the City of Brookfield, WI this 18th day of November, 2024.

PRODUCT
DATASHEETS**

specifications

FlexFusion Cabinets shall consist of a welded and assembled steel frame construction available in 600mm, 700mm, and 800mm widths, 1070mm and 1200mm depths and 42 RU, 45 RU, 48 RU, and 52 RU heights. The top of cabinet shall be available with either molded edge protection and snap-in covers for CoolBoot® Grommet Cable Seal or brush cable seal and rear lift-up lid for PDU cable lay-in. Fully adjustable front and rear cage nut equipment rails. Available options includes front single hinged door and rear split-hinged doors with 80% open perforation, horizontally split side panels, cable management fingers, vertical cable manager bracket, PDU mounting bracket and casters. The entire cabinet shall be electrically bonded without the use of bonding wires. Cabinet shall have a 1591kg (3500 lbs.) static load rating and 1136kg (2500 lbs.) rolling load rating.

technical information

Available cabinet sizes:	Height	42, 45, 48, or 52 RU
	Width (mm)	600, 700, or 800
	Depth (mm)	1070 or 1200
Material:	Steel with durable Black or White polyester epoxy powder coat finish	
Compliance:	EIA/ECA-310-E, TIA/EIA-942, UL2416	
Packaging:	Cabinets ships assembled, one per pallet	

key features and benefits

Performance	Best-in-class static load rating of 3,500 lbs. and 2,500 lbs. rolling load is the result of a sturdy and robust cabinet design that safely allows housing of heavier and high-density equipment. 80% open perforated doors assures maximum airflow thru the cabinet for high thermal application.
Rapid Deployment	Easy to adjust equipment rails with choice of time saving tool-less or standard hardware fastener, tool-less vertical cable manager bracket, and tool-less top cap rear entry allows for a faster cabinet installation time than other cabinets
Versatility	Cabinet is available in wide range of sizes and options for hot aisle/cold aisle or thermal containment deployment
Scalability	Configure to order platform to achieve the cabinet to your specification and save time and reduce Capex in your network deployment
Bonding	Cabinets and accessories are integrally bonded without the use of grounding wires to provide a safe and reliable network while reducing installation costs
Durable coating	Cabinets are powder coated in a durable, low maintenance polyester epoxy paint available in Black (RAL9005) or White (RAL9003)

applications

FlexFusion Cabinets are ideal for network or server equipment that provides maximum flexibility and the capacity to manage high cable density in data center, enterprise or co-location deployment. Safely

houses 19" rack mount IT equipment in an indoor environment, provides extensive cable management options and thermal efficient cabinet.

cabinet options

Features	Options to Choose From

2-Post Standard Equipment Rack

specifications

The data equipment rack shall meet EIA-310E standards and be constructed of extruded aluminum or steel capable of accepting 19" wide EIA equipment. The telecommunications rack shall be constructed of extruded aluminum and capable of accepting 23" wide telecommunications equipment. Rack construction method shall ensure an electrically-bonded structure for ease of grounding. The 3" channel rack shall be UL listed for 1000 lbs. load rating and the 6" channel rack shall be UL listed for 1500 lbs. load rating. The equipment mounting rails shall be double-sided #12-24 EIA universal mounting hole spacing. The equipment mounting rails shall include printed rack space identification on the front and back and be numbered up. The channel of the rack shall be capable of mounting NetRunner™ or PatchRunner™ 2 Vertical Cable Managers. 24 #12-24 mounting screws shall be included with the rack.

technical information

Dimension:	Part Number	RU	Height In. (mm)	Width In. (mm)	Depth In. (mm)
	R2P [^]	45	84.0 (2134)	20.3 (514)	3.0 (76)
	R2P48	24	48.0 (1219)	20.3 (514)	3.0 (76)
	R2P79	42	79.0 (2007)	20.3 (514)	3.0 (76)
	R2P96	52	96.1 (2441)	20.3 (514)	3.0 (76)
	R2PW	45	84.0 (2134)	24.5 (616)	3.0 (76)
	R2PS	45	84.0 (2134)	20.3 (514)	3.0 (76)
	R2P6S	45	84.0 (2134)	20.3 (514)	6.0 (152)
	R2P6S96	52	96.1 (2441)	20.3 (514)	6.0 (152)

Packaging: Includes right and left mounting rack channels, top and bottom brackets, assembly hardware with paint piercing washers and anti-oxidizing paste for complete rack bonding

key features and benefits

Rack spaces:	The 8' rack with 52 RUs allows more equipment in the same footprint to maximize real estate for lowest cost of ownership
Extruded aluminum construction:	Designed to be lightweight and durable for easier deployment and reduced transportation costs; UL listed for 1000 lbs.
Heavy duty steel construction:	6" channel rack designed for higher weight capacity for large equipment; UL listed for 1500 lbs.
Printed rack space identification:	Allows for quick location of rack mounted equipment for faster installation and less rework; see individual customer drawings for specific rack RU numbering
Paint piercing washers:	Fully electrically bonds rack components to simplify grounding process for improved network reliability
Double-sided #12-24 mounting holes:	Provides ability to mount equipment on both sides of the rack channel for improved system flexibility
Multiple mounting hole locations:	Provides flexibility to mount to floor using any of three hole locations. Note: Utilizing holes closest to the vertical uprights will minimize deflection
J-bolt accessibility:	J-bolt can be attached to top bracket without violating top RU space for added stability

applications

2-Post standard equipment rack provides a reliable foundation for mounting telecommunication and data center equipment. The rack can be used to manage high performance copper and fiber patch cables. This modular rack system is compatible with horizontal and vertical cable managers. The 2-Post standard equipment rack is part of a complete rack and cable management system that manages, protects, and showcases your network investment.

3" Channel Racks – #12-24 threaded rail, Aluminum

84"H x 19"W:	R2P [^]

GenSPEED® 6 Category 6 Cable

Standards-Compliant Extended Frequency

Features and Benefits

- Unique separator design engineered for consistent electrical performance
- Performance guaranteed to 350 MHz
- TRU-Mark® print legend contains footage markings from 1000' to 0'
- Third-party verified for guaranteed performance
- Made in U.S.A.

Applications

- IEEE 802.3: 1000 BASE-T, 100 BASE-TX, 10 BASE-T, PoE, PoE+
- ANSI/TIA 854: 1000 BASE-TX
- CDDI, Token Ring, ATM
- Digital Video
- Broadband and Baseband Analog Video

Standard Compliances

- ANSI/TIA 568-C.2
- NEC/CEC Type CMR (UL 1666) for Non-Plenum
- NEC/CEC Type CMP (NFPA 262) for Plenum
- UL 444
- RoHS Compliant Directive 2011/65/EU
- ANSI/TIA 862 (Building Automation)
- ICEA S-116-732
- ICEA S-102-700
- ISO/IEC 11801 Ed. 2.0 (Class E)

CONSTRUCTION

Conductors

- 23 AWG solid bare annealed copper

Insulation

- Non-Plenum: Polyolefin
- Plenum: Fluoropolymer

Color Code

- Pair 1: Blue-White/Blue
- Pair 2: Orange-White/Orange
- Pair 3: Green-White/Green
- Pair 4: Brown-White/Brown

Separator

- Divider

Rip Cord

- Applied longitudinally under jacket

Jacket

- Non-Plenum: Flame-Retardant PVC
- Plenum: Low-Smoke, Flame-Retardant PVC

PHYSICAL DATA

	CMR (Non-Plenum)	CMP (Plenum)

NetKey® Category 6 Punchdown Jack Modules

SPECIFICATIONS

Category 6/Class E, 8-position keystone jack module terminates unshielded twisted 4-pair, 22 – 26 AWG, 100 ohm cable. Punchdown tool properly terminates each conductor for optimum performance. Universal label is color coded T568A and T568B wiring schemes.

TECHNICAL INFORMATION

Category 6/Class E channel and component performance:	Exceeds ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E channel requirements at swept frequencies up to 250 MHz Exceeds ANSI/TIA-568.2-D and ISO 11801 Category 6 component requirements at swept frequencies up to 250 MHz
FCC and ANSI compliance:	Meets ANSI/TIA-1096-A; contacts plated with 50 microinches of gold for superior performance
IEC compliance:	Meets IEC 60603-7 and IEC 60512-99-002
PoE and PoH compliance:	Meets IEEE 802.3af/802.3at and 802.3bt type 3 and type 4 Supports Power over HDBaseT up to 100 watts
c(UL)us Listed:	UL 1863 (Use as communications circuit accessory); CSA standard C22.2 UL 2043 (Suitable for use in air-handling spaces)
Operating temperature:	14°F to 167°F (-10°C to 75°C)
RoHS compliance:	Compliant

KEY FEATURES AND BENEFITS

100% performance tested:	Confidence that each jack module delivers the specified performance
110 style punchdown termination:	Utilizes industry standard termination style and includes a wire retention cap
Modular:	Universal keystone jack modules snap in and out of all NetKey Faceplates, Modular Patch Panels, and Surface Mount Boxes for fast moves, adds, and changes
Individually serialized:	Marked with quality control number for traceability
Bulk packaging (optional):	25 jacks packaged in one easy to open container, eliminating the time to open each individual package and reducing on-site waste; ideal for high volume installations

APPLICATIONS

Applications include:

- Ethernet 10BASE-T, 100BASE-T (Fast Ethernet), and 1000BASE-T (Gigabit Ethernet)
- Voice over Internet Protocol (VoIP)

TX6™ Performance 28 AWG UTP Patch Cords

SPECIFICATIONS

Category 6/Class E, UTP, small diameter patch cords shall be constructed of 28 AWG, unshielded, twisted pair, stranded copper (dual-rated CM/LSZH) cable with high performance RJ45 modular plugs. Patch cords shall be offered in multiple lengths and colors for design flexibility.

TECHNICAL INFORMATION

Category 6/Class E channel and component performance:	Exceeds all ANSI/TIA-568V.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz \diamond Note: 28 AWG patch cords have attenuation de-rating value of 1.9. Supports 96 meter channels that include 90 meter permanent links. Supports 93 meter channels with 10 meters of patch cords included in the channel
FCC and ANSI compliance:	Meets ANSI/TIA-1096-A (formerly FCC Part 68)
IEC compliance:	Meets IEC 60603-7
PoE compliance:	Supports IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications
c(UL)us compliance:	UL 1863 and CAN/CSA-C22.2 (UL File E129886)
RoHS compliance:	Compliant
Cable diameter:	0.15 in. (3.8mm) nominal
Operating temperature:	14°F-167°F (-10°C-75°C)
Storage temperature:	-40°F-158°F (-40°C-70°C)
Plug housing:	UL94V-0 rated clear Polycarbonate
Contacts:	Gold plated phosphor bronze: contacts plated with 50 microinches of gold for superior performance
Flammability rating:	CM/LSZH dual-rated

KEY FEATURES AND BENEFITS

100% Performance tested for wire map, NEXT, and return loss:	Confidence that each patch cord delivers critical electrical component-level performance. Centered de-embedded plug performs in center of ANSI/ TIA-568.2-D Category 5e component range, ensuring interoperability and optimum performance
Smaller diameter, flexible cable design:	Tight bend radius enables improved cable routing and management in high density applications. Smaller cable diameter allows twice the number of cords to be routed through cable managers and pathways compared to traditional Category 5e patch cords. Reduced cable diameter facilitates improved air flow, cooling, resulting in lower operating costs than traditional Category 5e patch cords
Integral pair manager:	Immediate compatibility with the most common Mini-Com UTP and shielded jacks
Patented tangle-free latch:	Prevents snags and provides easy release, saving time on frequent moves, adds, and changes
Robust construction:	Plug contact plated with 50 microinches of gold and rated to 2500 mating cycles
Flexible stranded cable:	U/UTP stranded 28 AWG copper cable with a nominal diameter of 0.149 in. (3.8mm) allows for high density installations and superior panel cable management

Category 6 28 AWG Patch Cords

Feet lengths:	UTP28SP [^] [^]
Meter lengths:	UTP28SP ^{**} M [^]
Inches lengths:	UTP28SP ^{***} [^]

*Foot lengths: 1 - 50 feet (every 1 foot)
55 - 130 feet (every 5 feet)

**Meter lengths: 0.5 - 10 meters (every 0.5 meters)
11 - 20 meters (every 1 meters)
15 - 40 meters (every 5 meters)

***Inch lengths: 6 and 8 inches
[^]Colors other than Off White: BU (Blue), BL (Black), GR (Green), RD (Red), OR (Orange), YL (Yellow), GY (Gray), or VL (Violet)

\diamond Lengths 1 meter to 15 meters or 6 inches to 49 feet are guaranteed to meet TIA and ISO component and channel requirements. Lengths greater than 15 meters or 49 feet are guaranteed to meet ISO component and both TIA and ISO channel requirements.

TX6™ Performance 28 AWG UTP Patch Cords are pre-labeled with the RapidID™ Network Mapping System to enable faster tracing, placing, and network documentation.

All listed part numbers are compliant with the U.S. Trade Agreements Act (TAA) for purchases shipped to customers in the United States.

TX6™ Performance 28 AWG UTP Patch Cords

APPLICATIONS

Category 6 Performance 28 AWG UTP Patch Cords support the following applications:

- 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet)
- 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM
- Digital video and broadband/baseband analog video
- Voice/data systems
- Voice over Internet Protocol (VoIP)

Certified Premium High Speed HDMI® Cables with Ethernet

- Enables transmission of High Dynamic Range (HDR) video
- Full 18Gbps bandwidth
- UltraHD, 4K@60 2160p
- EMI tested to ensure cables minimize interference with wireless signals
- Up to 32 audio channels with ARC for a multi-dimensional immersive audio experience
- Support for the wide angle theatrical 21:9 video aspect ratio
- Certified Premium HDMI ensures installations are ready for today's 4K/UltraHD environment and are future-proofed
- UL Listed, CL3 Rated

DESCRIPTION:	22/6 Solid bare copper conductor, unshielded/shielded, with an Aquaseal tape and overall jacket.
NEC RATING:	CM or CL3, NEC Article 800 and 725
APPROVALS:	(UL) C(UL) Listed, (ETL)us Listed
APPLICATION:	Materials suitable for outdoor use, and indoor trays, allows a variety of uses for (Intercom, Security, Sound, Audio, Background music)

Construction Parameters:

Conductor	22 AWG Bare Copper
Stranding	Solid
Insulation Material	PVC
Insulation Thickness	0.010" Nom.
Number of Conductors	6
(2 Shielded)(4 Unshielded)	
Shield	100% Aluminum Polyester Foil
Drain	Solid Tinned Copper
Water-Blocking Tape	Internal and Overall 2 ply water swellable tape
Jacket Material	Sunlight/Moisture Resistance PVC
Jacket Thickness	0.025" Nom.
Overall Cable Diameter	0.240" Nom.
Approximate Cable Weight	30 Lbs/1M' Nom.
Flame Rating	UL 1685 Vertical Tray

Electrical & Environmental Properties:

Temperature Rating	-20deg C to 60deg C
Operating Voltage	300 V RMS
Max.Capacitance Between Conductors @ 1 KHz	54 pf/ft Nom.
Capacitance Between Conductors to Shield @ 1 KHz	97 pf/ft Nom.
DC Resistance per Conductor @ 20deg C	17.5 Ohms/1M' Nom.
Insulation Colors	Black, Red, White, Green, Brown, Blue
Jacket Color	Gray
RoHS Compliant	--
TIA455-82B Water Infiltration Test Compliant	Yes
UL 444 & 13 Compliant	Yes

Mechanical Properties:

Max. Recommended Pull Tension	69 lbs.
Min. Bend Radius (Install)	2.4"

Specification Issue Date: 7/06

PART NUMBER:	224
DESCRIPTION:	18/2 STRANDED BARE COPPER CONDUCTORS, UNSHIELDED WITH AN OVERALL JACKET
NEC RATING:	CMR, NEC Article 800
APPROVALS:	(UL) C(UL) Listed or c(ETL)us Listed
APPLICATION:	Indoor for: Intercom, Security, Sound, Audio, Background Music, and Power Limited Control Circuits

Construction Parameters:

Conductor	18 AWG Bare Copper
Stranding	7x26
Insulation Material	PVC
Insulation Thickness	0.008" Nom.
Number of Conductors	2
Shield	None
Drain	None
Jacket Material	PVC
Jacket Thickness	0.017" Nom.
Overall Cable Diameter	0.156" Nom.
Approximate Cable Weight	16.1 Lbs/1M' Nom.
Flame Rating	UL 1666 Riser Flame Test

Electrical & Environmental Properties:

Temperature Rating	-20°C To +60°C
Operating Voltage	300 V RMS
Max.Capacitance Between Conductors @ 1 KHz	30 pf/ft Nom.
DC Resistance per Conductor @ 20deg C	6.2 Ohms/1M' Nom.
Insulation Colors	Black ,Red
Jacket Color	Gray, Black, Brown, White
RoHS Compliant	Yes

Mechanical Properties:

Max. Recommended Pull Tension	42 lbs.
Min. Bend Radius (Install)	1.6"

specifications

NetKey faceplates shall be available in 1, 2, 3, 4, and 6-port single gang for vertical applications and 2-port and 4-port single gang for horizontal applications. Faceplates shall accept all NetKey modules for UTP, STP, fiber-optic, and audio/video applications. Faceplates shall be available in a flush or sloped design, and available with or without labels. Sloped design shall increase wall depth to improve the bend radius control.

technical information

Mounting options:	Screw holes with retention tabs, spaced for single gang openings; compatible with wall board adapter
Packaging:	Supplied with two 1" long, #6 – 32 slotted head screws; select styles include labels and label covers; faceplates without labels include matching mounting screws to match the faceplate; faceplates packaged one per bag, ten per box.

key features and benefits

Modular	Accepts all NetKey modules which snap in and out for easy moves, adds, and changes
Identification	Choice of adhesive labeling or dedicated label pocket for easy identification
Various port densities	Provides design flexibility
Sloped design	Allows proper bend radius control

applications

NetKey faceplates mount to any standard size single gang junction box and can also mount to a wall board adapter or raceway mounting brackets. When using NetKey faceplates with surface raceway, color matching is guaranteed. NetKey faceplates with label and label cover offer a quick and easy way to identify the ports. Mounting screw colors match the faceplate for a clean, consistent look.

Dedicated sloped faceplates provide additional room for bend radius control to help comply with standards.

specifications

Horizontal cable managers shall be capable of managing cables on the front and rear of any 19" EIA rack. The manager shall consist of a 1-piece construction that is molded out of plastic. Horizontal managers shall have pass through holes that incorporate integral bend radius control as well as fingers with rounded edges. The manager shall have rigid end fingers that incorporate integral bend radius control. Hinged covers shall allow access to the cable pathway without having to completely remove the cover from the manager.

technical information

Dimensions:	WMPH2E:	3.5"H x 19.0"W x 8.9"D (88.9mm x 482.6mm x 225.5mm)

	WMPSE:	1.7"H x 19.0"W x 8.9"D (44.1mm x 482.6mm x 225.5mm)
	WMPFSE:	1.7"H x 19.0"W x 3.7"D (44.1mm x 482.6mm x 93.7mm)
	WMP1SE:	1.7"H x 19.0"W x 7.9"D (44.1mm x 482.6mm x 200.1mm)
	WMP1FSE:	1.7"H x 19.0"W x 2.7"D (44.1mm x 482.6mm x 69.1mm)

Packaging: Cable managers include hinged cover(s), mounting hardware, and wire retainers

key features and benefits

Integral bend radius control	Maintains bend radii as cables transition to and from horizontal and vertical pathways
Dual hinged cover	Opens upward or downward to provide easy access to cables in horizontal pathway without having to completely remove cover
Increased finger spacing	Provides larger area for high performance Category 6 cables
One piece, plastic construction	Provides durability and easy installation
Flexible fingers	Provide for easy installation and organizes cables simplifying moves, adds, and changes
Rounded edges on fingers	Protect cables from snags and damage to cable
Cable pass through holes	Provide ease of installation and cable maintenance
Wire retainers	Snap on finger to keep cables in place during moves, adds, and changes

applications

Panduit® PatchLink™ Horizontal Cable Managers provide a neat and efficient way to manage patch cables on any EIA 19" rack. They can be used in multimedia applications to manage copper, fiber optic, and coax cables. Flexible fingers organize the patch cords simplifying moves, adds, and changes while the integral bend radius control and "closed" design protects the patch cables in the pathway. All of these features combine to

provide the user with a horizontal cable management solution that simplifies cable routing in a finished, professional appearance. When used with the Panduit® Mini-Com® patch panels, patch cords, vertical cable managers, and racks, the user receives a total system that satisfies functional and aesthetic requirements for telecommunications rooms.

NetKey® Modular Patch Panels with Faceplates

specifications

Modular patch panels shall consist of a metal panel with molded snap-in faceplates which can be front releasable. Patch panels shall accept all NetKey Modules for UTP, fiber, or A/V applications and shall mount to standard 19" racks. Patch panels shall be available in 24 and 48-port standard density. Angled patch panels shall be designed at an optimum angle to help route the cable.

technical information

Mounting options:	Mounts to standard EIA 19" racks or 23" racks with optional extender brackets
Material:	Stamping is CRS and faceplate is ABS
Packaging:	Packaged with appropriate pre-installed snap-in faceplates, a set of mounting screws (#12-24), and label/label cover where applicable

key features and benefits

Removable faceplates:	Allow front accessibility to installed modules for easy moves, adds, and changes
Modular:	Accepts all NetKey Modules to mix and match media types in the same panel
Angled design:	Allows cable to flow to each side of the rack and minimizes the need for horizontal cable managers by enabling patch cords to be routed directly into vertical cable managers which leads to increased closet density
Optional label:	Available with and without labels to accommodate various needs
Optional strain relief bars:	Help support and manage cables
Optional filler panels:	Fill unused rack openings to provide a clean and consistent look

applications

NetKey Modular Patch Panels are ideal for multi-media applications. They accept all NetKey Modules which can be accessed through the front of the panel to snap in and out for easy adjustments. Various styles and port densities available to fit most needs with a labeling feature available on select styles. Angled patch panels are available for applications where rack space is limited. The design allows cable to flow to each side of the rack, minimizing the need for horizontal cable managers and increasing the density of the rack space.

Poly Pull Line with Orange Tracer 6500-Foot

The Poly Pull Line with Orange Tracer provides a high-quality solution for wire pulling. Its unique orange tracer line makes identification easier. When used with other products from Klein Tools' complete line of wire pulling and conduit tools, professionals can get the job done quicker while saving time, effort and materials.

Specifications

Weight:	11.0 lb (5.0 kg)	Color:	Orange/White

G6 Intelligent Power Distribution Unit (iPDU)

USGv6 Certified

PANDUIT[®]
SPECIFICATION SHEET

OVERVIEW

The best just got better. The G6 iPDU is more than a power distribution unit and energy monitoring device. These iPDU's monitor the data center power and environment (at the rack or cabinet level), by continuously scanning for electrical circuit overloads, and physical environmental conditions that place critical IT equipment at risk. The iPDU's provide comprehensive, accurate, energy measurement data to efficiently use power resources, make informed capacity planning decisions, improve uptime, measure PUE (power usage effectiveness), and drive green data center initiatives to save energy and money.

Making the right choice in IT equipment is essential for a safe, efficient data center operation. Panduit's full range of G6 iPDU's, environmental sensors, and dual locking power cords are the key to fulfilling mission-critical data center needs.

TECHNICAL INFORMATION

Dimensions:	Width In. (mm)	Depth In. (mm)	Height In. (mm)
0U HALF:	2 (52)	2.1 (53)	36.1 (917)
0U MID:	2 (52)	2.1 (53)	58.6 (1490)
0U FULL:	2 (52)	2.1 (53)	69 (1750)
0U FULL Wide:	3.3 (85)	2.1 (53)	69 (1750)

Mounting: Vertical units provide up to 48 outlets without encroaching on the EIA space.

KEY FEATURES AND BENEFITS

Combination outlets¹:	Combination outlets provide the ultimate in flexibility by allowing a customer to use an outlet as either an C13/C15 outlet or a C13/C15/C19/C21 outlet respectively. All combination outlets also accept the Panduit dual locking power cords to eliminate accidental disconnects.
Dual rated PDUs:	Simplify your supply chain by selecting a Dual Rated PDU. Dual rated PDUs have ratings and NRTL approvals for both North American & EMEA on the same part number.
HotSwappable controller:	Replace the controller and display module without having to power down the rack
Redundant network access:	Specifically designed for Landlord/Tenant (Co-Lo's) allowing for remote access of real-time, vital statistics and operating information on two separate, secure networks
Hardened security:	NMP v3, TLS, Encrypted Security; allows for Panduit PDUs to pass standard popular industry certified security scans. USGv6 Certified IPv6 Stack
Dual 1GB Ethernet:	Reduces deployment time by auto-negotiating with data center level network switches and can daisy chain up to 32 iPDU's on a single IP address using only one network switch port
Plug & play sensors:	Digital sensors not only allow for multiple sensors on the same bus; but also identify themselves to the controller to simplify setup and commissioning
Multi-color PDUs:	Different color PDUs simplify power feed identification in redundant power schemes
Mobile & desktop friendly web GUI:	Enhanced web interface that detects the type of device that you are on (laptop, tablet or smart phone); and automatically adjusts the screen for an optimal experience
Mobile and desktop friendly web GUI:	Enhanced web interface that detects the type of device the user is on (laptop, tablet, or smart phone), and automatically adjusts the screen for an optimal experience
Outlet density:	Meets demands of densely packed IT equipment in rack or cabinet space
Form factor:	Optimal form factor enables efficient rack space utilization and airflow
Operating temperature:	60°C ambient at full load for operational reliability in high temperature areas
Cable retention:	Innovative cable tie accepting outlets allow for secure cord retention (C13 & C19 only) using a cable tie for added safety and security. (Panduit part number: PLT21-C0)
Circuit breakers:	Protects data center equipment for increased reliability by interrupting potentially hazardous circuit over-current conditions*
Color coded circuits²	Easily identify phase to outlet banks to aid in fault isolation or load balancing
External chassis ground:	Meets NEC requirements and installation guidelines for IT equipment
Load balancing:	Monitored through visual display on oLED (for three-phase units only)
Multiple input plug options:	A full breadth offering to seamlessly interoperate with existing building power wiring schemes
Multiple mounting options:	Enables simple out of the box commissioning and flexibility with Panduit cabinets and industry standard mounting features enabling installation into third party cabinets
Mounting buttons:	Allows tool-less mounting of rack PDUs for faster installations on vertical 0U units
Supported metering:	Frequency, VA, PF, plus aggregate and per phase Amperage, Voltage, Wattage, and Kilowatts per hour

1 Applies to products outfitted with combination outlets

2 Applies to products outfitted with circuit breakers

G6 Intelligent Power Distribution Unit (iPDU) USGv6 Certified

iPDU PRODUCT FAMILIES

MI series:	Rack PDUs that have the ability for aggregate power monitoring to quickly identify potential power issues, and reclaim available or under-utilized power capacity.
MS series:	Rack PDUs that have the ability for aggregate power monitoring and outlet level switching capabilities for individual outlets or a group of outlets. Enabling power sequencing, rebooting equipment or restrict unauthorized use of individual outlets.
MPO series:	Rack PDUs that have the ability for outlet level (and aggregate) power monitoring to quickly identify potential power issues, and reclaim available or under-utilized power capacity at the outlet level enabling the redeployment or decommissioning of individual servers to reclaim available or under-utilized power capacity.
MSPO series:	Rack PDUs that have the ability for outlet level (and aggregate) power monitoring and outlet level switching capabilities for individual outlets or a group of outlets. Power monitoring at the individual outlet level provides actionable management data on the power consumption of each connected IT device enabling the redeployment or decommissioning of individual servers to reclaim available or under-utilized power capacity. Ideal for remote power reset, and cabinet power on sequencing and restrict unauthorized use of individual outlets.

CABINET COMPATIBILITY

Intelligent PDUs can be easily installed into Panduit (or third-party cabinets) by utilizing the installed mounting buttons (18.4mm diameter). Where necessary, a small diameter (14.5mm) mounting button is available (sold separately, P/N: MA018). Panduit PDUs feature threaded inserts on the back and both sides for the ultimate in mounting flexibility. They safely and efficiently manage and distribute power to multiple devices through a single input power connector, per PDU, to enhance scalability of network build outs.

Painted Cable Hooks

- Powder coated cable hooks are available in a range of colors to help meet your cable identification requirements.
- Standard riveted assemblies are available with painted cable hooks.
- Part numbers can be made by adding the paint color suffix after the cable hook part number.
- Minimum order quantity 500 pieces.
- Standard lead time is 5-10 working days.

Universal Cable Runway

Universal Cable Runway

Our most popular cable runway is designed for value conscious customers. The Universal Cable Runway offers the industry standard features you've come to expect. With the runway supported every 5' (1.5 m), maximum load with minimal deflection is 132 lb/ft (59.9 kg).

- Made of 3/8" x 1-1/2" x .065" (9.53 mm x 38 mm x 1.65 mm) wall rectangular steel tubing
- Cross members welded at 12" (300 mm) intervals
- Individually boxed to prevent scratches and damage
- Standard length is 9'-11 1/2"/119.5" (3035 mm)
- Installation Best Practices includes Runway Elevation Kit
- U.L. classified for suitability as an equipment grounding conductor (must remove paint from side stringers or use grounding strap)
- 11301 Butt-Splice Kit Installation Instructions [chatsworth.com](https://www.chatsworth.com)

NOTE: CPI 10250, 11252, 11275 and 14300 cable runway systems are listed under UL E138966 and tested to the requirements in the Standard for Safety for Metal Cable Tray Systems, NEMA VE 1-2017 and ANSI/NFPA 70.

PRODUCTS

Cable Runway Load-Span Table

Maximum load with minimal deflection is 132 lb/ft when the runway is supported every 5'.

Load-Span Table, CPI Cable Runway

Safety Factor	Span (ft)	4	5	6	7	8	9
1.5	Maximum Load (lb/ft)	206	132	92	67	52	41
	Defection (in)	0.41	0.64	0.92	1.25	1.62	2.03
2.0	Maximum Load (lb/ft)	154	99	69	50	39	31
	Defection (in)	0.31	0.48	0.68	0.93	1.21	1.531
	K factor	0.002	0.005	0.010	0.019	0.032	0.050

CPI recommends supporting cable runway runs every 5 feet.

To calculate deflection for loads lighter than maximum loads listed in table, multiply load for which deflection is desired by K factor listed in table for cable runway support span utilized.

Example: To calculate maximum deflection using a safety factor of 1.5 for a length of cable runway supported every 5' and loaded with 80 pounds per foot:

$$\text{Defection} = (80) (0.005) = 0.40''$$

NOTE: CPI 10250, 11252, 11275 and 14300 cable runway systems are listed under UL E138966 and tested to the requirements in the Standard for Safety for Metal Cable Tray Systems, NEMA VE 1-2017 and ANSI/NFPA 70.

Cable Runway Center Support Kit

The Cable Runway Center Support Kit is available in sizes to support 6" to 24"W (150 mm to 610 mm) cable runway. Not included: Threaded Rod (P/N 11440-00X) and Ceiling Support Bracket (P/N 11406-002).

Cable Runway Center Support Kit

This kit has been designed to make installation of cable runway in the ceiling even easier by using just a single point of attachment. The center attachment design not only makes installation easy, but also provides quick and simple cable routing with no need to thread the cable between the runway supports. The support kit securely attaches to the cable runway stringer, eliminating possible dislocations.

- Made of steel
- Provides an "open" support system with quick and simple cable routing
- Threaded rod cover protects cable insulation from damage
- Compatible with Adjustable Cable Runway

Kit includes:

- (1) support bracket
- (1) reinforcement bar
- (2) 5/8-11 hex nuts;
- (1) 5/8 split lock washers
- (1) 12"L (300 mm) threaded rod cover
- (1) J-bolt kit (2 J-bolts; 2 nuts; 2 washers)

Triangular Support Bracket, Steel

Triangular Support Bracket, Steel

Triangular Support Bracket provides wall support for Cable Runway. Made of cold rolled steel. Load rating is 400 lb (181.4 kg).for cable runway.

- Compatible with Adjustable Cable Runway

Kit includes:

- (1) vertical wall-mounting bracket
- (1) runway support channel
- (1) angle support channel
- (3) clevis pins (5/16" diameter) & cotter pins
- (2) 5/16-18 x 2 1/4" J-bolts
- (2) 5/16-18 hex nuts & 5/16 lock washers

EZ-PATH® SERIES 44+ FIRE RATED PATHWAY

APPLICATIONS

EZ-PATH® Series 44+ Fire Rated Pathway is designed for easy installation in floors and walls. Tested and approved cable capacities range from 0 to 100% visual fill. EZ-PATH® Series 44+ Fire Rated Pathway when installed with available single wall plates is designed for new cable installations. In these installations, the device does not require mechanical attachment to either the wall or the wall framing and must be installed after the wallboard has been installed. Split floor plates and multi-gang wall and floor brackets permit installation around previously installed cables if so desired. These installations require mechanical attachment to the barrier. A list of available accessories along with their intended use is shown on page 2 under available components.

EZ-PATH® Series 44+ Fire Rated Pathway Fire Rated Pathway provides exceptional cable capacity. A single unit installed in a wall exceeds the cable carrying capacity of a 6" (152 mm) sleeve utilizing typical putty firestop systems (35% cable loading). Multiple ganged pathways utilizing available wall bracket kits provide additional capacity or segregation of cables by use, type, installer or vendor as desired.

PRODUCT DESCRIPTION

The EZ-PATH® Series 44+ Fire Rated Pathway is a pathway device designed to allow cables to penetrate fire-rated walls and floors without the need for firestopping. This device features a built-in fire and smoke sealing system that automatically adjusts to the amount of cables installed. Once installed in a fire barrier, cables can be easily added or removed at any time without the need to remove or reinstall firestopping materials.

The EZ-PATH® Series 44+ Fire Rated Pathway consists of an enclosed heavy gauge galvanized steel pathway lined with intumescent material engineered for rapid expansion when exposed to fire or high temperatures, quickly sealing the pathway and preventing the passage of flames and smoke. EZ-PATH® Series 44+ Fire Rated Pathway is painted safety orange for easy identification. Its compact square profile allows a maximum number of cables to be installed in a relatively small area. The pathway measures approximately 4" x 4 5/8" and is 14" long (102 x 118 x 356 mm) and can be increased by 6" (152mm) for every Series 44+ Extension module (EZD44ES) installed.

PERFORMANCE

EZ-Path® Series 44+ Fire Rated Pathway is UL Tested and Classified in accordance with ASTM E814 (UL1479) & CAN/ULC-S115. Systems are available for common floor and wall constructions with ratings up to and including 4 hours.

SPECIFICATIONS

All data, video, and communications cable bundles shall utilize an enclosed fire rated pathway device wherever said cables penetrate rated walls and floors. The fire-rated pathway shall contain a built-in fire sealing system sufficient to maintain the hourly fire rating of the barrier being penetrated. The self-contained sealing system shall automatically adjust to the installed cable loading and shall permit cables to be installed, removed, or retrofitted without the need to remove or reinstall firestop materials. The pathway shall be UL Classified and/or FM Systems Approved and tested to the requirements of ASTM E814 (UL1479) & CAN/ULC-S115.

FEATURES & BENEFITS

- Easy to install.
- No firestopping required.
- Firestopped at all stages of use.
- UL Tested - Low Leakage!
- Acoustically Tested
- UL Classified for the complete range of its capacity.
- Interlocking design for easy gang installations.
- Permits cable segregation by use, type, vendor.
- More than TWICE the capacity of Standard EZ-Path 33.

SPECIFIED DIVISIONS

DIV. 7	07 84 00	Penetration Firestopping
DIV. 26	26 00 00	Electrical
DIV. 27	27 00 00	Communications

INSTALLATION INSTRUCTIONS

EZ-Path® Series 44+ Fire Rated Pathway is designed for use in all common constructions. Single pathways and mounting hardware may be purchased separately or in complete kits. For multi-gang installations, pathways and appropriate mounting hardware must be purchased separately. Single pathways may be installed in either square or round openings. Ganged pathways are designed to be installed in either square or rectangular openings appropriately sized for the number of units desired (See Installation Instructions). In gypsum board walls where pathways are ganged, wall plates must be secured to the wall's internal studs.

CABLE INSTALLATION

Cables may easily be added or removed at any time without removing or reinstalling the fire seal. Cables may be added individually or in bundles. Wrapping ends with a low-friction tape facilitates cable insertion. Avoid any sharp or exposed conductors that can potentially damage interior pads. A self-adjusting cable throat automatically adjusts to accommodate the cable bundle as it passes through the pathway. Installation of a pulling line will facilitate future cabling additions.

MAINTENANCE

No maintenance of the pathway is normally required.

TECHNICAL SERVICE

Technical information including Product Data Sheets, Installation Instructions, applicable UL Classified Systems, Certificates of Conformance, and suggested specifications are available at the company's web site (www.stifirestop.com). For all other information, contact the manufacturer directly by dialing (800) 992-1180.

PRECAUTIONARY INFORMATION

The use of this device is subject to local, regional and national codes. Consult the local Building Code Official or Authority Having Jurisdiction regarding any regional or local requirements that might influence the selection or use of this product.

AVAILABILITY

See Ordering Information below. EZ-PATH® Fire-Rated Pathway Products are available from designated authorized STI distributors. Consult the factory or visit the web site (www.stifirestop.com) for the names and locations of the nearest sales representatives or distributors.

EZDP144RS2	(EZ-Path Series 44+ Fire-Rated Pathway Retrofit Kit Full Kit with device, wall plates & labels)

PHYSICAL PROPERTIES

Dimensions:	4" w x 4 5/8"H x 14" L (102 x 118 x 356 mm)
Shell Composition:	0.059" (1.5 mm) thick galv. steel
Cable Loading Area:	3 3/8" x 3 3/4" (86 x 95 mm)
Allowable Cable Fill:	0 to 100% visual fill
Fire Ratings:	1, 2, 3 or 4 hours
Expansion Begins:	350°F (177°C)
Volume Expansion:	800%
Sample Cable Volume:	210 (Cat6 0.236" OD)
In-Service Temperature:	Not to exceed 120°F (49°C)
Shelf Life:	No Limit

IMPORTANT NOTICE: All statements, technical information, and recommendations contained herein are based upon testing believed to be reliable, but the accuracy and completeness thereof is not guaranteed.

LIMITED WARRANTY: STI warrants that its products will be free of defects for one year from the date of purchase. In the event a product does not conform to this warranty, the sole and exclusive remedy is, at STI's option, replacement of the product or refund of the purchase price. The warranty provided herein shall be void and of no effect in the event that the product is not installed in accordance with STI's published instructions, listed systems and applicable building and safety codes. THIS WARRANTY IS IN LIEU OF ALL OTHER REPRESENTATIONS AND EXPRESSED OR IMPLIED WARRANTIES (including the implied warranties of merchantability or fitness for a particular use) AND UNDER NO CIRCUMSTANCES SHALL STI BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES, INCLUDING, WITHOUT LIMITATION, ANY LOSS OF REVENUE, PROFIT OR USE. Prior to use, the user shall determine the suitability of the product for its intended use, and the user assumes all risks and liability for subsequent use. No person other than an officer of STI is authorized to bind STI to any other warranty for any product for which this warranty is issued.

StructuredGround™ Telecommunications Room Grounding and Bonding Kits for TIA-607-C Compliance

specifications

Grounding and bonding kits shall bond each rack to Secondary Bonding Busbar (SBB) also known as Telecommunications Grounding Busbar (TGB) using Telecommunications Equipment Bonding Conductor (TEBC). Hardware kit shall bolt TEBC to SBB/TGB with 1/4" stainless steel hardware. Each bolt requires a nut, flat washer on both sides, and a Belleville washer on the bolt side of the stack up. TEBC shall be bolted to rack with #12-24 thread-forming screws. Abrasive cleaning pad shall remove oxidation from lug and mounting surfaces. Copper to copper joint compound shall also be utilized to prep lug mounting surfaces. The front and back of each rack requires one ESD Port Kit and ESD wrist strap. Bond SBB/TGB to electrical panel serving equipment in telecommunications room.

kit information

TEBC Kits:
Pre-terminated jumper on both ends – #6 AWG jumper with 45° bent lug on rack side to straight lug on SBB/TGB.

Part Number	Length In.
GJ672UH	72
GJ696UH	96
GJ6120UH	120
GJ6144UH	144
GJ6168UH	168
GJ6192UH	192
GJ6216UH	216
GJ6240UH	240
GJ6264UH	264
GJ6288UH	288

TEBC Kits:
Pre-terminated jumper on one end only – #6 AWG jumper with 45° bent lug for bonding to rack.

Part Number	Length In.
GJS660U	60
GJS696U	96
GJS6120U	120
GJS6180U	180

SBB/TGB Kits:
Pre-assembled with brackets and insulators – bar size 1/4" x 2".

Part Number	Bar Length In.	1/4" Stud Hole with 5/8" Hole Spacing	3/8" Stud Hole with 1" Hole Spacing
GB2B0304TPI-1	10	4	3
GB2B0306TPI-1	12	6	3
GB2B0312TPI-1	20	12	3

Compression Lugs for SBB/TGB:
Two-hole straight tongue compression lug with window.

Part Number	Copper Conductor Size	Stud Hole Size In.	Stud Hole Spacing In.
LCC6-14JAW-L	#6 AWG	1/4	0.50 – 0.63
LCC2-14AW-Q	#2 AWG	1/4	0.63
LCC1/0-14AW-X	1/0 AWG	1/4	0.63
LCC3/0-38DW-X	3/0 AWG	3/8	1.00
LCC4/0-38DW-X	4/0 AWG	3/8	1.00

Armored Fiber Cable Grounding Kits:
Pre-terminated jumper on both ends – straight lug and terminal. Provided with mechanical clamp and cover for terminal and two each #12-24 and M6 hex head thread-forming screws.

Part Number	Armored Cable Diameter In.	Grounding Cable Length In.
ACG24K	Up to 0.84	24
ACG24K-500	0.84 to 1.03	24

applications

StructuredGround™ Telecommunications Room Grounding and Bonding Kits deliver a complete grounding solution, designed to exceed industry standards for ensured electrical continuity and ease of installation. Bonding of rack and equipment to SBB/TGB and proper ESD protection is critical to the reliability and safety needs of the physical infrastructure. Integrated

technology from Panduit addresses comprehensive grounding and bonding needs to protect systems, equipment, and personnel for optimum availability of services and lower operational costs. As solution architecture, a range of installation tooling, design software, and services complement StructuredGround™ Grounding System.

For the complete StructuredGround™ Grounding System offering, refer to www.panduit.com/dcgrounding.

UHD Signage UH5J-H

New High Haze UHD Standard Signage

 Proper Display Brightness

 webOS Smart Platform

 Mobile Content Management

 Meeting Room Solution

UH5J-H	
Screen Size	98" / 86" / 75" / 65" / 55" / 49" / 43"
Native Resolution	3,840 × 2,160 (UHD)
Bezel Color	Black
Brightness	500 nits (Typ.)
Bezel	98" / 75": 14.9 mm (Even bezel) 86": 14.3 mm (Even bezel) 65" / 55" / 49": 9.9 mm (T/R/L), 14.4 mm (B) 43": 8.4 mm (T/R/L), 14.4 mm (B)
Depth	98": 86.1 mm 86": 60.6 mm 75": 57.9 mm 65" / 55" / 49" / 43": 39.9 mm

Appropriate Display Brightness

With a brightness of 500 nits, the UH5J-H series clearly delivers content and can attract attention, making it suitable for displaying presentations and marketing communications in meeting rooms, retail spaces, airports, shopping malls and more.

* Actual images available may differ from the example images shown.

High-Performance with webOS

The built-in System on Chip can execute several tasks at once while providing smooth content playback without the need for a media player. Also, the LG webOS Signage platform provides an intuitive, TV-style remote controlled user interface that is easy to learn and consistent across many LG products.

Conformal Coating

In various places your signage may be unable to avoid exposure to environments containing dust or humidity which may hamper performance over time. The conformal coating on power board helps protect UH5J-H series circuit boards from external particles.

Mobile Content Management

Using the free, downloadable* signage app Promota, users can create custom templates from recommendations on the app to easily promote content on their signage. Visit <https://www.promota.net> for details.

* LG Promota is can be downloaded from the App Store and Google Play store.

IP5x Certified Design

The IP5x Certification ensures that the product is protected from dust, reducing the risk of performance degradation.

Compatible with AV Control System

The UH5J-H has been certified Crestron Connected® for high compatibility with professional AV controls to achieve virtually seamless integration and automated, network-based control.

AVARRO™

LARGE TILT MOUNT

NX-TL4290

EASY TO INSTALL WITH A LOW PROFILE TILTING DESIGN AND POST-INSTALL LEVELING. THE NX-TL4290 IS IDEAL FOR 42" - 90" PANELS WEIGHING UP TO 175 LBS.

SPECIFICATIONS:

- Fits 42"- 90" TVs up to 175lbs
- VESA 100 x 100 to 700 x 400 (W x H) (mm)
- Locking mechanism secures rails to wall plate
- Height adjustable for easy levelling
- Tilt up to 12° to reduce glare
- Simple to install and use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

PTZ3 UHD Camera – One Sheet & Tech Specs

Mastering the art of capture

The NewTek PTZ3 UHD is the best and easiest way of getting the highest quality video and audio onto any network and into any production. The PTZ3 UHD is the only NewTek 4Kp60 camera on the market that offers both professional audio and ultra-high-definition video – all built on the unshakeable foundation of NDI®.

Mastering Audio

For the first time in a NewTek UHD camera, Professional XLR audio input seamlessly runs with equipment such as microphones, mixers, amplifiers, and soundboards. The Professional XLR integration offers clean, balanced audio directly from the camera into the NDI network, so the audio maintains the highest fidelity for customers and integrators.

Mastering Video

To ensure users deliver high-quality images and video, the PTZ3 UHD takes pan/tilt/zoom quality to a new level with improved movement between camera presets. Ease-in and ease-out movements deliver seamless, smooth transitions for a natural, superior quality production without jittery or stuttering movements.

Mastering Connectivity

No other camera on the market offers this level of simplicity and control. Whether it's using a single cable for audio and video, PTZ control, tally and PoE for power or connecting via NDI, NewTek PTZ Cameras simply appear on the network and can immediately be built into any workflow with ease.

Constructed with NDI® at its core, the PTZ3 UHD guarantees the tightest integration with any NewTek live production system and any NDI® workflow – offering professional audio, pristine 4Kp60 and infinite production possibilities.

PTZ3 UHD Camera - Technical Specifications

Video Output	NDI HX, 3G-SDI, HDMI	
Audio Output	NDI HX, HDMI, SDI	
Video Formats	NDI HX	3840*2160P60/59.94/50/30/29.97/25

	8.66 x 7.48 x 6.41 in (220 x 190 x 173 mm)
	Weight: 2.97lbs (1.35 kg)
Ceiling Mount	Included
Wall Mount	Included
Adapters	MiniXLR (f) to XLR(f) adapter included

Technical Specifications

Video Input	8 x simultaneous external video inputs, supporting any combination of compatible sources
Network Video Input	8 x IP video inputs via NDI, resolution-independent, with support for key and fill
SDI Video Input	<p>4 x HD/SD-SDI connections supporting video input in any combination of standard formats, resolutions, and frame rates¹</p> <ul style="list-style-type: none"> • 1080p: 59.94, 50, 29.97, 25, 24, 23.976 • 1080i: 59.94, 50 • 720p: 59.94, 50, 29.97, 25, 24, 23.976 • 576i 25 • 480i 59.94 <p><small>¹Available frame rates determined by session video standard (NTSC or PAL)</small></p>
PTZ	Support for Pan-Tilt-Zoom (PTZ) robotic cameras via serial and network protocols, including RS232, RS422, and IP, with integrated controls and preset system
Skype TX	Native support for Skype® video call input via Skype TX software integration
Network Video Output	4 x independent IP video mix outputs via NDI®
SDI Video Output	2 x independently configurable HD/SD video outputs, with support for up to 4 simultaneous external connections
Stream Output	2 x resolution-independent streaming video output, independently configurable, with simultaneous stream archive
Multiviewer Output	<p>1 x DVI user interface with multiviewer</p> <p>1 x HDMI multiviewer</p> <p>1 x DisplayPort multiviewer</p>
Mix/Effect Buses (M/E)	<p>4 x M/E buses supporting video re-entry</p> <ul style="list-style-type: none"> • 1 x Mix/Effect channel per bus with support for up to 4 sources • 4 x KEY layers per bus <p>1 x PREVIZ configuration and preview bus</p>
DSK Channels	2 x DSK channels
Media	<p>5 x media players</p> <ul style="list-style-type: none"> • 2 x DDR • 2 x GFX • 1 x Sound
Media Buffers	<p>15 x media buffers</p> <ul style="list-style-type: none"> • 10 x animation buffers • 5 x graphic buffers
Keyers	<p>Integrated LiveMatte® chroma and luma keying technology on all source channels and M/E buses</p> <ul style="list-style-type: none"> • 8 x input keyers • 4 x media player keyers • 4 x M/E keyers • 1 x PREVIZ keyer • 15 x buffer keyers
COMPs	<p>Integrated video composition engine on the switcher and each M/E bus to create, store, and apply layer configuration and DVE-style motion sequences</p> <ul style="list-style-type: none"> • 16 x configurable COMP presets per bus
Virtual Sets	Integrated LiveSet® technology with 30+ live virtual sets and box effects included

DataLink	Integrated DataLink® technology enabling real-time, automated data input from internal and external sources, including webpages, spreadsheets, scoreboards, databases, RSS feeds, watch files, XML, CSV, ASCII and more
Macros	Record, store, edit, and automate commands and user-configured operation sequences <ul style="list-style-type: none"> • Attach to control panel buttons, keyboard shortcuts, hotspots, MIDI, and X-keys® buttons or GPI triggers • Attach to internal events and state changes, including audio, media playback, tally, and specific switcher actions • Supports control via web-based interface
Recording	6 x configurable video recording channels via IsoCorder® technology <ul style="list-style-type: none"> • 4 x QuickTime® archival video recorders (XDCAM HD compatible, 4:2:2 encoding, 24-bit audio, with timecode)² • 2 x H.264 local video recorder (multiple profiles) • Ability to trigger up to 6 additional recordings on select NDI-enabled devices • 1 x MP3 audio recorder <p>2 QuickTime Player not required for playback in common NLE applications</p>
Storage	1 x 3TB internal drive <ul style="list-style-type: none"> • Capacity varies by format, resolution, and file specification • Supports recording to external storage via USB 3.0 • Supports shared storage integration and third-party partner solutions
Grab	Grab full-resolution, deinterlaced still images from external video sources and outputs
Export	Export video and image files to social media, FTP, local or external volumes, and network servers, with optional transcoding
Audio Mixer	Integrated multi-channel audio mixer with support for quad-channel audio, DSPs, 4 x 4 x 4 audio input channel routing
Local Audio Input	4 x SDI embedded 1 x Balanced XLR stereo pair (Line) 3 x Balanced 1/4" stereo pairs (Line) Support for USB audio device input via compatible WDM audio drivers
Local Audio Output	4 x SDI embedded 1 x Balanced XLR stereo pair 1 x Balanced 1/4" stereo pair 1 x Stereo ¼" (phones)
Network Audio	Native support for network audio input and output via NDI® Embedded audio supported for all NDI® input and output video signals Integrated support ³ for Dante® networking protocol from Audinate® Support for AES67 protocol via compatible WDM audio drivers ³ Requires Dante Virtual Soundcard license from Audinate (sold separately) ⁴ Requires third-party virtual sound card license (sold separately)
Supported Media File Formats	Import, store, and play back multimedia files, with optional transcoding, including: <ul style="list-style-type: none"> • Video: AVI, DV, DVCPro, DVCProHD, FLV, F4V, H.263, H.264, MOV, MKV, MJPEG, MPEG, MP4, WMV, WebM, and more • Image: PSD, PNG, TGA, BMP, JPEG, JPEG-XR, JPEG2000, EXR, RAW, TIF, WebP, and more • Audio: AIFF, MP3, WAV, and more
Monitoring	Support for up to 3 multiviewer displays with configurable workspaces and viewports
Signal Monitoring	Integrated waveform and vectorscope, full field rate with digital calibration, color preview and support for ITU-R Rec. 709
Processing	Video: Floating Point YCbCr +A 4:4:4 Audio: Floating Point, 96 kHz
Throughput Latency	~1.0-1.5 frames
A/V Standards	HD-SDI video conforms to SMPTE 292M SD video conforms to SMPTE 259M and ITU-R BT.656 Analog audio levels conform to SMPTE RP-155
Tally	Support for hardware tally via HD15 GPI connector, network tally via NDI®, and Blackmagic Design® SDI tally standard
Genlock	Genlock input supporting SD (Bi-level) or HD (Tri-level) reference signals
GPI	Supports GPI signals via JLC Cooper Electronics eBox GPI interface
MIDI	Support for standard MIDI protocol enabling third-party device control System Drive 250GB SSD
NIC	2 x 1 Gigabit NIC
System Physical	2RU chassis with 400W PSU and multi-tiered hardware and software fail-safe <ul style="list-style-type: none"> • 19.0 x 3.5 x 19.57 in (48.3 x 8.9 x 49.7 cm) with rack ears attached

NewTek Flex Control Panel

The NewTek Flex Control Panel offers greater control than ever before. Offering better connectivity and better control – all with the incredible flexibility of NDI®.

NewTek Flex harnesses the power of the most complete production system on the planet in one control surface. For the first time NewTek introduces a Control Surface that offers video mixing, audio mixing, PTZ control, audio I/O, and talkback.

Better Connectivity

For years operators have been physically tethered to their video switcher where long cable runs and complex set-ups mean they have never had the flexibility to move their location. The Flex Control Panel is the first of its kind to simply connect to a network with NDI and instantly control any video switcher on that network. In addition – the Flex is built to work with any modern TriCaster. As at home controlling the mighty TriCaster 2 Elite as it is mastering the TriCaster Mini X – Flex offers operators all they need for their distributed productions.

Better Control

No other NewTek control panel offers audio and video mixing, PTZ Control and talkback – directly in one unit. With these controls built directly into the panel, it significantly reduces the margin for error for operators, offering greater precision and control than ever before. In addition, by offering audio I/O, Flex instantly expands the on-board I/O of any TriCaster allowing for more external sources to enter the NDI ecosystem directly from the panel.

In the studio or on the road, Flex simply scales with any production, offering precision control not seen in a NewTek control panel before.

NewTek Flex Control Panel – Specifications

Control Panel Features
16 direct crosspoints with Bank and stripe function. Row lighting color follows UI color for delegated bus
2 x 40 Character 2 row LCDs
PTZ Control Delegation and zoom rocker
Mini Joystick for Pan/Tilt control with Focus/Iris control with auto function
16 fader controls for audio In 1-8, Talkback, DDR 1-2, Sound, Record 1-4
4 fader controls for Stream 1, 2, Aux and Master out, Mic and Phones level (Push to Mute/Unmute, ALT-Push for Solo and VU meters)
Media Players & Macro Control
Stream, Capture & Replay
Transitions & T-Bar

NewTek Flex Control Panel – Back Panel Connectivity

ClickShare CX-50 2nd generation

Premium conferencing solution for high-impact rooms

- **Dual screen: people and content side by side on two displays**
- **Effortless switching between UC mode and BYOM experience**
- **Wired roomdock for 4K content sharing and alternative connectivity**
- **Carbon-neutral product**
- **100% secure, encrypted and cloud-managed**

ClickShare CX-50 2nd generation brings flexible wireless conferencing in high-impact meeting spaces and board rooms. When you walk into the meeting room, ClickShare automatically connects you to room devices like cameras, mics, speakers, sound bars and displays.

Start a meeting from your laptop within seconds, using your preferred video conferencing platform. Make hybrid meetings easy, with just one click on the ClickShare Button or the ClickShare App, both for employees and guests.

Product specifications

CLICKSHARE CX-50 2ND GENERATION

ClickShare Base Unit dimensions

Dimensions (HxWxD)	39mm x 200mm x 202mm
Power supply	Standard 110/220 V AC plug or USB-C (back)
Power consumption	Operational: 74.5W (max) Standby: 0.27W -Networked standby: 3.7W
Weight	985 gr

General specifications

Operating system	Windows 10 or higher macOS 11 (BigSur) and higher Android v11 and higher (ClickShare App) iOS 14 and higher (ClickShare App)
System requirements	For a smooth experience with Microsoft Teams or Zoom Minimum: Intel i3 dual-core processor / 8GB RAM / OS : Windows 10 latest build or Mojave latest build Recommended: Intel i5 4-core processor / 8GB RAM / OS: Windows 10 latest build or Mac OS latest build
Video outputs	4K UHD (3840*2160) @ 60Hz. HDMI™ 1.4b 4K UHD (3840*2160) @ 60Hz.USB-C DP ALT mode (back)
Video inputs	4k UHD (3840*2160) @30Hz.USB-C DP ALT mode (front)
Audio output	USB, jack, HDMI
Connections	Front side: 1x USB-C 3.1 Rear side: 1x USB-C 3.1, 2x USB -A 3.1, 1x Ethernet LAN 2.5Gbit, Audio analog line out on jack socket (3.5mm)
ClickShare Buttons	2
ClickShare App	Desktop & Mobile
Native protocols	Airplay, Google Cast, Miracast
Maximum number of simultaneous connections (with Buttons and/or App)	32
Noise Level	Max. 25dBA @ 0-30°C Max. 30dBA @ 30-40°C
Authentication protocol	WPA2-PSK in stand alone mode WPA2-PSK or IEEE 802.1X using the ClickShare Button in network integration mode
Wireless transmission protocol	IEEE 802.11 a/g/n/ac and IEEE 802.15.1
Reach	Max. 30m (100 ft) between ClickShare Button and ClickShare Base Unit
Frequency band	2.4 GHz and 5 GHz (DFS channels supported in select number of countries)
Temperature range	Operating: 0°C to +40°C (+32°F to +104°F) Max: 35°C (95°F) at 3000m Storage: -20°C to +60°C (-4°F to +140°F)
Humidity	Storage: 0 to 90% relative humidity, non-condensing Operation: 0 to 85% relative humidity, non-condensing
Anti-theft system	Kensington lock
Certifications	FCC/CE
Touch screen support & Interactivity	Yes
Wireless conferencing	via App or Button
Local view	High quality
Network connection	LAN & WiFi (dual)
Management and reporting	Yes
Warranty	1 year standard. 5 years coverage upon registering via SmartCare

Engineered
and Certified
for AV over IP

Introducing the NETGEAR AV and IT M4350 Switches, engineered and certified for audio/video over IP with dedicated service and support. The M4350 brings all the simplicity from the M4250 AV Line packed in more Enterprise-class hardware with redundant power supplies and larger fabrics with 25G and 100G uplinks. The revolutionary NETGEAR AV user interface and Engage™ Controller contain pre-configured profiles for all major audio, video, and lighting protocols.

NETGEAR listens to and supports the Pro AV community

- IGMP Plus™ means AV-over-IP multicasting will work out of the box and not flood your network
- Auto-LAG and Auto-Trunk automatically configure the uplinks between multiple switches
- The Engage™ Controller manages all M4250, M4300, and M4350 switches for your AV installations
- NETGEAR Pro AV Design team to help with system design and implementation to ensure the project will work
- AVB, Dante, Q-SYS, AES67, NVX, AMX, Q-SYS, NDI 4, NDI 5, ZeeVee, Aurora Multimedia, Kramer, Atlona, LibAV, Visionary, SDVoE, and many others!
- SMPTE ST 2110 supported on select models, always with the same simplicity from the AV UI

Enterprise-class hardware

- From 1G to 2.5G, to 10G, to 25G, to 100G always within 40cm (15.7in) depth
- Controlled thermal and acoustics (intelligent fans configurable in Quiet Mode to minimize noise, or Cool Mode to minimize heat)

Other IT use cases

- Edge to core stackable platform, from 1 Gigabit to 100 Gigabit for midsize organizations
- Non-stop forwarding (NSF) provides advanced High Availability (HA) with hitless failover across the stack

Industry standard management

- Industry standard command line interface (CLI), main NETGEAR IT web interface (GUI)
- SNMP, sFlow and RSPAN - the entire feature set is available without license

Industry leading warranty

- NETGEAR M4350 series is covered under NETGEAR ProSAFE Limited Lifetime Hardware Warranty*
- 90 days of Technical Support via phone and email, Lifetime Technical Support through online chat and Lifetime Next Business Day hardware replacement

* ETHERNET Mode: Each 4 x 25G block is connected to a 100G SERDES. As such, each 4-port block can only work at the same speed: 4x1G, or 4x10G, or 4x25G. Since 25G takes precedence, when one 25G module is inserted, other ports with 1G or 10G modules get down in the same 4-port block.

** STACKING Mode: Stacking link only works on the highest speed supported by a Stack port. A 25G port, when configured in Stack mode, only operates at 25G. It cannot operate at 10G. Similarly, a 100G port, when configured in Stack mode, only operates at 100G.

*** Ultra90 PoE++ 802.3bt is compatible with 802.3af PoE (15.4W), 802.3at PoE+ (30W) and 802.3bt (60W, 75W and 90W).

* ETHERNET Mode: Each 4 x 25G block is connected to a 100G SERDES. As such, each 4-port block can only work at the same speed: 4x1G, or 4x10G, or 4x25G. Since 25G takes precedence, when one 25G module is inserted, other ports with 1G or 10G modules get down in the same 4-port block.

** STACKING Mode: Stacking link only works on the highest speed supported by a Stack port. A 25G port, when configured in Stack mode, only operates at 25G. It cannot operate at 10G. Similarly, a 100G port, when configured in Stack mode, only operates at 100G.

*** Ultra90 PoE++ 802.3bt is compatible with 802.3af PoE (15.4W), 802.3at PoE+ (30W) and 802.3bt (60W, 75W and 90W).

MERIT X SERIES POWER CONDITIONERS

A Merit Series Power Conditioner is the perfect low-cost AC power solution for any rack mount system. Install an M-8x², M-8Lx, or M-8Dx in to the top slot of your rack, and the eight switched outlets in the rear panel will power up and protect all your equipment up to a 15-amp load. The M-8Lx and M-8Dx feature two slide out, swiveling light fixtures to provide discreet illumination of your equipment on stages, in studios, and in other dark places. A dimmer knob lets you adjust the lamp brightness to just the right level. The M-8Dx adds a bright red, three-digit LED voltmeter that displays incoming voltage. The M-8x² is designed for applications where lights are not required.

FURMAN

THE SOLUTION TO POWER YOUR APPLICATION...

INSTRUMENT RIGS

You've got a rack for your effects, preamps, tuner...You're going to plug that into the wall? One big spike and your rig is up in smoke. Furman's standard level surge/spike protection defends your gear from the spikes and surges that are so common at gigs and practice spots. With Furman's standard level RFI/EMI filtration, you'll get a quieter tone without pops, crackles, and the local radio station coming out of your amp. Plus, dual pull-out lamps (M-8Lx/M-8Dx) let you see your rack without turning the house lights on, while the digital voltmeter (M-8Dx) lets you monitor incoming voltage.

RECORDING

Can't track down where that noise is coming from? Your mix sounding flat? With Furman's standard level RFI/EMI filtration you'll lower the noise floor caused by the dirty AC power coming into your console or DAW. Furman's standard level surge and spike protection keeps your sensitive digital equipment from acting funny or burning up due to everyday spikes and surges. You can even monitor voltage changes, as the digital meter (M-8Dx) allows you to keep an eye on the incoming line voltage. With a 15A capacity and nine total outlets, it's enough to power your whole home studio.

DJ EQUIPMENT

Bars, clubs and other event venues have some of the worst power out there - from air compressors turning on and off to light shows pulling current loads up and down, the AC power can be a strain on the circuits in your rig. Furman's standard level protection and filtration keeps the bad stuff out and the digital voltmeter (M-8Dx) lets you monitor the incoming line voltage. The dual pull-out front panel lights (M-8Lx/M-8Dx) let you discreetly see your board and gear without distracting from the show on the dance floor.

PRO AUDIO

When you're out there gigging, you never know what kind of power you're going to get. The wear and tear on mobile rigs eventually takes it toll - that's why it's smart to plug into Furman's standard level protection and RFI/EMI filtration. It keeps your equipment safe and sounding clean, while the digital voltmeter (M-8Dx) lets you monitor incoming voltage. Whether you're setting up a show at the local club or powering up the church band for their next service, make sure you give them power they can trust.

MERIT X SERIES SPECIFICATIONS

Maximum Output Current
15 Amps

Line Cords
6 ft. captive, 14 AWG, with 3-conductor Edison Plug

Lamps (M-8Lx/M-8Dx)
Two 120V incandescent bulbs, 4 watts each

Operating Voltage
120VAC 60Hz

Spike Protection Mode
Line to neutral

Energy Dissipation
150 Joules

Peak Impulse Current
12,000 Amps

Maximum Continuous Operating Voltage
130 VAC RMS

Noise Attenuation (Transverse Mode)
M-8x²: Greater than 23db, 200Khz to 10MHz
M-8Lx: Greater than 26db, 200Khz to 10MHz
M-8Dx: Greater than 26db, 200Khz to 10MHz

Dimensions
1.75" H x 19" W x 3.75" D (M-8x²)
1.75" H x 19" W x 7.5" D (M-8Lx/M-8Dx)

Weight
M-8x²: 4.9 lbs. (2.2 kg)
M-8Lx/M-8Dx: 6 lbs. (2.7 kg)

Three Year Limited Warranty
Merit Series units are protected by a limited three year warranty covering defects in materials and workmanship.

 Weight 19.2kg (42lbs)

Soundcraft® ViSi CONNECT

Si Expression consoles feature a 64x64 expansion card slot on the rear panel. A full range of ViSi Connect expansion cards is available for multiple I/O formats. Soundcraft is committed to the continued development of the ViSi Connect expansion card range, developing new cards as new network protocols become available.

Beyond Analogue Control

FaderGlow™, One-Knob-One-Function and tOTEM

Most digital mixers claim to offer 'analogue-style' control. Si Expression goes beyond analogue. Combining One-Knob-One-Function control with Soundcraft's unique FaderGlow™ feature and tOTEM system for sends on faders, Soundcraft combines analogue workflow with digital flexibility. FaderGlow illuminates the fader track in different colours to provide at-a-glance status information on precisely what the fader is controlling- aux sends, FX sends or even the graphic EQ that's available on every bus. And 4 assignable fader layers means you can configure the mix exactly how you want it.

Assignable Fader Layers

FOH
Want your FX send right next to your lead vocal or snare? No problem.

Monitors
Now you can put your monitor masters next to the channels they affect.

Dual Purpose
Split the console surface for simultaneous FOH and monitor mixing.

You choose.
Si Expression is all about letting you mix your own way.

Colour touchscreen

Everything you need for easy patching, fader setup, show set-up, FX, and security. But with the One-Knob-One-Function layout of the Si Expression, you'll find the screen is rarely needed with the Si Expression's intuitive analogue-console-like workflow.

392 Rack Units of big-name DSP - built in

Si Expression isn't just packed with DSP power. It's packed with DSP power from industry leading names in FX, dynamics, EQ and digital audio.

97 PEQs	97 COMPRESSORS	66 NOISE GATES	97 TIME DELAYS	31 GEQs	4 MONO - STEREO FX PROCESSORS
---------	----------------	----------------	----------------	---------	-------------------------------

Power mixing made easy

Quality Soundcraft Sound

Lots of mixer companies claim to have great 'British sound'. Soundcraft is British sound. Started in London more than 40 years ago and still designed and engineered in the UK, Soundcraft defined the term 'British sound' in live sound mixing consoles. Soundcraft Co-Founder Graham Blythe's acclaimed microphone preamps and 'British' equaliser still adorn the Si Expression with signature Soundcraft sound today.

Massive Mix Power

Tons of I/O for stage and console

It's hard to believe that a console this small can pack in so much mixing power. All 3 Si Expression models give you a massive 66 inputs to mix and 35 busses, with all channels offering a full compliment of dynamics, EQ and flexible routing. And unlike other compact digital mixers, adding stageboxes (see over) adds to the I/O capacity without reducing it at the console.

Choose from 3 frame sizes

The features are identical - just pick the fader and local mic preamp count you need. The rack-mountable Si Expression 1 gives you 16 of each, while the Si Expression 2 and 3 deliver 24 and 32 faders and mic preamps respectively.

Soundcraft®
Si EXPRESSION™
DIGITAL LIVE SOUND CONSOLE

No other compact digital mixer gives you all these essential features

66 GB MIC PRES	66 INPUTS TO MIX	20 AUX BUSES 6 STEREO	4 STEREO MATRICES	4 STEREO LEXICON EFFECTS	MOTORISED FADERS	ASSIGNABLE FADER LAYERS	FADER GLOW	VISI REMOTE ENABLED	D.O.G.S ENABLED	HiQnet ENABLED	MULTI-TRACK RECORDING ENABLED
----------------	------------------	-----------------------	-------------------	--------------------------	------------------	-------------------------	------------	---------------------	-----------------	----------------	-------------------------------

Perform

Si Expression doesn't just look good on paper. It performs brilliantly out there in the real world. Connect a Mini Stagebox 32 and get 32 analogue inputs, 8 analogue line outputs and 4 pairs of AES outputs on stage. The Mini Stagebox 16 provides 16 analogue inputs and 8 line outputs making a 16 x 8 I/O expansion. And unlike some digital mixers, connecting Soundcraft stageboxes adds genuine I/O capacity to the Si Expression without reducing I/O count from the mixer.

One Mixer Does it All

Soundcraft®
ViSi CONNECT

Connect to stageboxes and personal monitor systems, record live to a DAW or link to an audio network.

(See back page for a full list of ViSi Connect expansion cards)

Record

Just add a Multi Digital card from the ViSi Connect range and you're ready to make multitrack recordings direct to any digital audio workstation. Send 40 inputs and 40 outputs to and from your DAW for recording and playback to an Si Expression.

Multi Digital Expansion Card

Soundcraft®
SI EXPRESSION™
DIGITAL LIVE SOUND CONSOLE

The 3U Mini Stagebox 32 and 2U Mini Stagebox 16 come with interface cards included.

Monitor

The Si Expression makes mixing to monitors simple thanks to tOTEM™ (the one-touch easy mixing system). tOTEM™ provides instant access to your monitor mix busses by putting monitor sends on the motorised faders. Mixing to a monitor is as simple as pushing up a fader. For FOH and Monitor applications, the unique D.O.G.S (Dynamic Output Gain Stabilisation) system compensates for any gain adjustment when two consoles are sharing the same source, maintaining original system levels between mic in and direct out.

And ViSi Connect expansion cards make it easy to connect to personal monitoring systems such as dbx's PMC 16. It all makes for a more powerful and easy monitor desk solution.

BLU link Expansion card

Aviom A-Net® Expansion card

Mix Remote

Mix FOH from anywhere in the venue.
Mix monitors from the stage.

Soundcraft®
ViSi REMOTE

The ViSi Remote iPad® app allows remote control of console features from anywhere in the venue, even enabling musicians to mix their own monitors on stage from multiple iPad® devices.

Connectivity & Control

Soundcraft®
SI EXPRESSION™
DIGITAL LIVE SOUND CONSOLE

Connectivity

- 16/24/32 recallable GB mic inputs with locking connectors and phantom power indicators
- 16 XLR analogue line outputs
- 4 Balanced 1/4" Jack mono line inputs
- AES In and out
- Word Clock
- MIDI In and Out
- HiQnet Ethernet port for HiQnet system integration and ViSi Remote System
- 64x64 ViSi Connect expansion slot (see back page)

Input Section

- 8 LED Input Meter
- 48v Phantom power switch
- Polarity reverse switch
- Input Gain/Trim Adjustment
- Variable High Pass Filter
- HPF engage switch

Gate

- Dedicated encoders for Attack, Release, Depth, Threshold and Sidechain Filters
- Gate open, hold and close status LED indicators
- Gate engage switch

Compression

- Dedicated encoders for Attack, Release, Gain, threshold and Ratio controls
- Compressor on every bus
- 5 Segment LED gain reduction indicator
- Compressor engage switch

4 Band British EQ

- Sweepable LF and HF shelf bands
- Fully parametric Hi Mid and Low Mid EQ bands
- EQ engage switch

Output Section

- Channel delay for time alignment on input and output bus, displayed as time or distance
- Variable time delay per channel or Bus (0-500ms)
- Pan control
- LR switch for assigning/un-assigning channels and busses to the L/R output
- Mono switch for routing to mono output (centre speaker, sub bass channel, etc.)

Lexicon Effects Section

- 4 integral Lexicon stereo effects engines
- 29 effect presets per engine with hall, plate and room reverbs, plus delays, modulations and pitch
- Up to 12 parameters for each preset accessed by touchscreen dialogue and 4 surface encoders
- Dedicated Tap tempo switches

The One Touch Easy Mixing Keys

- Dedicated tOTEM Keys for all 14 mix busses, 4 Matrix busses and 4 FX engines
- Mix to any of the mix busses by simply tapping a tOTEM key and pushing up the faders
- FaderGlow™ for visual colour feedback on what the faders are currently mixing: Yellow- Pre-fader Bus, Green- Post-Fader Bus, Blue- FX bus, Orange- Matrices

Global Mode Encoders and Channel Meters

- Instant access to important settings such as input gain/trim, High pass filter settings and Pan controls - adjust these features globally across all channels using dedicated global encoders
- 4 segment LED Input meter, 3 segment LED Gain reduction meter and Gate closed indicator across all channels on the surface

Surface Controls & Global Metering

- FaderGlow™ illuminates the fader track for at-a-glance display of current fader function: White- Linked channels, Pink- Stereo Inputs, Red- Graphic EQ
- 4 mute groups for muting groups of channels as one
- Snapshot control - 1000 cues can be stored and recalled from dedicated cue control buttons
- USB port for saving/loading shows and snapshots with USB memory sticks
- Colour touchscreen for patching, routing, show set-up and security settings
- 8 LED input and output meters (monitor L/R, master L/R, mono)
- Headphone output
- 12V lamp connector

CONNECT SERIES

SLX-D

DIGITAL WIRELESS SYSTEMS

Your performance should never be in question. Whether presenting, educating, praising or entertaining, your relationship with your audience is singular. With SLX-D Digital Wireless you can stand confidently on a strong foundation and build the wireless installation to match ongoing demands, from day-long conference to nighttime performances.

ALWAYS COME THROUGH CLEAR

In front of an audience, clarity is simply essential. SLX-D provides crystal-clear digital audio quality with >118 dB dynamic range.

DROPOUTS ARE OUT

From the leader in digital wireless technology, SLX-D maintains stable signals with high efficiency for rock-solid, reliable performance.

KEEP THE SHOW GOING

Ready to perform for all-day conferences and nighttime performances—up to 8 hours of use from either 2 AA batteries (included) or optional Shure SB903 Li-ion rechargeable batteries and charging accessories.

APPLICATIONS

Event, Presentation and Speech

House of Worship

Performance and Clubs

PRODUCT HIGHLIGHTS

Extended 20 Hz to 20 kHz frequency range (microphone dependent)

118 dB dynamic range

Digital predictive switching diversity

44 MHz tuning bandwidth (region dependent)

32 available channels per frequency band (region dependent)

Up to 10 compatible systems per 6MHz TV band; 12 systems per 8 MHz band

Easy pairing of transmitters and receivers over IR scan and sync

Compatible with Shure Wireless Workbench® control software

Remote control via ShurePlus™ Channels mobile app

Up to 8 hours from 2 AA batteries or optional Shure SB903 rechargeable battery

SHURE

MICROFLEX[®]

MICROPHONES

THERE'S NEVER BEEN A MORE FLEXIBLE CHOICE.

Work a room in more ways than ever with Shure Microflex microphones. Combining sleek, low profile aesthetics and a complete selection of microphones and mounting options, the Microflex line offers the highest standard of quality and efficiency for installed audio applications.

MICROFLEX GOOSENECK MICROPHONES

- Models in lengths from 12-62 cm (5-24 inches) fit a wide variety of applications from the podium to the conference table
- Interchangeable condenser cartridges with superior audio quality

MICROFLEX BOUNDARY MICROPHONES

- Multi-element, low-profile, or wireless microphone styles available
- Extremely versatile range of placement options for easy configuration and installation

MICROFLEX OVERHEAD MICROPHONES

- Compact and adjustable 10 cm (4") gooseneck
- Interchangeable condenser cartridges for accurate sound reproduction in any setting

MICROFLEX LAVALIER AND EARSET MICROPHONES

- For applications requiring low-profile discreet placement
- Use in wired or wireless applications

APPLICATIONS

Conference Rooms

Seminars

Houses of Worship

Theaters

Courtrooms

Lecterns

PRODUCT HIGHLIGHTS

Wide selection for customized installations

Wired or wireless models available

Superior audio quality

CommShield™ Technology for improved RF resistance

Sleek, low-profile designs

MX405, MX410, MX415 MODULAR GOOSENECK MICROPHONES

Flexible in more ways than one, Microflex Modular Gooseneck Microphones deliver unsurpassed style and performance for conference rooms and similar applications. Offering desktop or mounted bases, wired or wireless options, and even interchangeable cartridges, it's easy to get the perfect fit for your application. Fully compatible with Microflex Wireless Systems and ULX-D Systems.

Specifications

Type	Condenser (electret bias)
Frequency Response	50 Hz – 17 kHz
Polar Pattern	MX405/C, MX410/C, MX415/C: Cardioid MX405/S, MX410/S, MX415/S: Supercardioid MX405/MS Lobar Mini-Shotgun
Output Impedance	EIA rated at 150 Ω (170 Ω actual)
Output Configuration	Active balanced
Sensitivity at 1 kHz, open circuit voltage; 1 Pascal = 94 dB SPL	Cardioid: -35 dBV/Pa (18 mV) Supercardioid: -34 dBV/Pa (21 mV) Lobar: -33 dBV/Pa (22 mV)a
Maximum SPL 1 kHz at 1% THD, 1 kΩ load	Cardioid: 121 dB Supercardioid: 120 dB Lobar: 121 dB SPL
Equivalent Output Noise A-weighted	Cardioid: 28 dB SPL Supercardioid: 27 dB SPL Lobar: 36 dB
Signal-to-Noise Ratio referenced at 94 dB SPL at 1 kHz	Cardioid: 66 dB Supercardioid: 67 dB Lobar: 68 dB
Dynamic Range 1 kΩ load at 1 kHz	93 dB
Common Mode Rejection 10 Hz to 100 kHz	45 dB minimum
Preamplifier Output Clipping Level 1% THD	-8 dBV (0.4 V)
Polarity	3-Pin XLR: Positive sound pressure on diaphragm produces positive voltage on pin 2 relative to pin 3 of output XLR connector. 5-Pin XLR: Positive sound pressure on diaphragm produces positive voltage on pin 4 relative to pin 2 of output XLR connector.
Weight	MX405: 54 g MX410: 68 g MX415: 70 g MX400DP: 516 g MX400SMP (w/ Kit): 125 g
Logic Connections	LED IN: Active low (≤1.0 V), TTL compatible. Absolute maximum voltage: -0.7 V to 50 V. LOGIC OUT: Active low (≤1.0 V), sinks up to 20 mA, TTL compatible. Absolute maximum voltage: -0.7 V to 50 V (up to 50 V through 3 kΩ).
Mute Switch Attenuation	-50 dB minimum
Cable	MX400DP: 6 m attached cable with shielded audio pair terminated at a 3-pin male XLR and three unterminated conductors for logic control
Environmental Conditions	Operating temperature: -18 – 57 °C Storage temperature: -29 – 74 °C Relative humidity: 0 – 95%
Power Requirements	48 – 52 Vdc phantom, 8.0 mA

*for detailed dimensions please reference MX405/410/415 user guide

Available Models

The polar pattern of the cartridge is indicated by the model number suffix: C = Cardioid, S = Supercardioid, N = No Cartridge, MS = Lobar

MX405/N, MX405/C, MX405/S, MX405/MS	127 mm (5 inch) gooseneck, bi-color status indicator, includes surface mount preamp
MX405R/N, /C, /S, /MS	127 mm (5 inch) gooseneck, light ring, includes surface mount preamp
MX410/C, /S	254 mm (10 inch) gooseneck, bi-color status indicator, includes surface mount preamp
MX410R/N	254 mm (10 inch) gooseneck, light ring, includes surface mount preamp
MX415/C, /S	381 mm (15 inch) gooseneck, bi-color status indicator, includes surface mount preamp
MX415R/N	381 mm (15 inch) gooseneck, light ring, includes surface mount preamp
MX405LP/N, /C, /S, /MS	127 mm (5 inch) gooseneck, bi-color status indicator, less preamp
MX405RNP/N, /C, /S, /MS	127 mm (5 inch) gooseneck, light ring, less preamp
MX405WLP/N	127 mm (5 inch) gooseneck, bi-color status indicator, less preamp, white
MX405WRNP/N	127 mm (5 inch) gooseneck, light ring, less preamp, white
MX410LP/C, /S	254 mm (10 inch) gooseneck, cardioid, bi-color status indicator, less preamp
MX410RNP/N	254 mm (10 inch) gooseneck, light ring, less preamp
MX410LPDF/C, /S	254 mm (10 inch) gooseneck, bi-color status indicator, less preamp, dualflex
MX410RNPDF/C, /S	254 mm (10 inch) gooseneck, light ring, less preamp, dualflex

Optional Accessories and Replacement Parts

MX400SMP	Surface mount preamp	R185B	Black cardioid cartridge for all Microflex models	A412MWS	Metal locking windscreen
MX400DP	Wired desktop base. Includes 6.1 m attached cable	R184B	Black supercardioid cartridge for all Microflex models	95A2487	Tapered windscreen
R185W-A	White cardioid cartridge for all white Microflex models	R183B	Black Omnidirectional cartridge for all Microflex models	R189B	Black lobar mini-shotgun cartridge for black Microflex models
R189W-A	White Lobar cartridge for all white Microflex models	R184W-A	White Supercardioid cartridge for all white Microflex models	R183W-A	White Omnidirectional cartridge for all white Microflex models

Furnished Accessories

Models with included Preamp

MX400SMP	Surface mount preamp
65A405	Rubber isolation rings
65A2190	Wing nut
95A2529	5-pin XLR-F
65A2166	Cap

All Models

RK513WS	Black snap-fit foam windscreen (4 pcs.)	A189WWS-A	White flocked snap-fit foam minishotgun windscreen
RK514	White snap-fit foam windscreen (4 pcs.)	A189BWS	Black minishotgun windscreen
A410WWS-A	White flocked snap-fit foam windscreen	A189WWS	White mini-shotgun windscreen

MX412, MX418, MX424 STANDARD GOOSENECK MICROPHONES

Microflex Standard Gooseneck Microphones provide the added length and flexibility needed for speakers in environments like lecterns, pulpits, and courtrooms. Available in four models with a variety of lengths and mounting styles to choose from, Microflex Gooseneck microphones feature high sensitivity and balanced, transformerless output for maximum resistance to electromagnetic hum and RF interference, even over long cable runs.

Specifications

Type	Condenser (electret bias)
Frequency Response	50 Hz – 17 kHz
Polar Pattern	MX412/C, MX418/C, MX424/C: Cardioid MX412/S, MX418/S, MX424/S: Supercardioid Omnidirectional cartridge available separately
Output Impedance	EIA rated at 150 Ω (170 Ω actual)
Sensitivity at 1 kHz, open circuit voltage; 1 Pascal = 94 dB SPL	Cardioid: -35 dBV/Pa (17.8 mV) Supercardioid: -33.5 dBV/Pa (21.1 mV) Omnidirectional: -27.5 (42.2 mV)
Maximum SPL 1 kHz at 1% THD, 1 kΩ load	Cardioid: 124.2 dB Supercardioid: 122.7 dB Omnidirectional: 116.7 dB
Equivalent Output Noise A-weighted	Cardioid: 28 dB SPL Supercardioid: 26.5 dB SPL Omnidirectional: 20.5 dB SPL
Signal-to-Noise Ratio referenced at 94 dB SPL at 1 kHz	Cardioid: 66 dB Supercardioid: 67.5 dB Omnidirectional: 73.5 dB
Dynamic Range 1 kΩ load at 1 kHz	96.2 dB 100 dB at 0 gain (internal modification)
Common Mode Rejection	45 dB minimum (10 Hz – 100 kHz)
Preamplifier Output Clipping Level 1% THD	-6 dBV (0.5 V)
Polarity	Positive sound pressure on diaphragm produces positive voltage on pin 2 relative to pin 3 of output XLR connector.
Mute Switch Attenuation	-50 dB minimum
Cable	MX412D and MX418D: The 3 m attached custom cable contains a shielded audio pair and three unshielded conductors for logic control. Overall diameter = 4 mm
Environmental Conditions	Operating temperature range: -18° – 57° C Relative humidity: 0 – 95%
Power Requirements	11 – 52 Vdc phantom, 8.0 mA

*for detailed dimensions please reference MX412/418/424 user guides

MX412, MX418 and MX424

CONTROL[®] CONTRACTOR

LOUDSPEAKER SYSTEMS

SPECIFICATIONS

CEILING SPEAKERS

Control 24C Micro Shallow-Depth Ceiling Speaker

Components:	4.5" Woofer, .5" Tweeter
Frequency Range:	85 Hz – 25 kHz
Power Capacity:	30 Watts Continuous Program 15 Watts Continuous Pink Noise
Sensitivity:	86 dB, 1W, 1m
Coverage:	150°
Nominal Impedance (C24C Micro):	8Ω
70V/100V Taps (C24CT Micro):	8W, 4W, & 2W, & 1W, (plus 0.5W at 70V)
Termination:	Screw-down barrier strip
Dimensions (H x Dia):	106 x 195 mm (4.2 x 7.7 in)

C24CT MicroPlus High Output Shallow-Depth Ceiling Speaker

Components:	4" Woofer, .5" Titanium Tweeter
Frequency Range:	80 Hz – 25 kHz
Sensitivity:	85 dB, 1W, 1m
Coverage:	150°
70V/100V Taps:	25W & 12W, (plus 6W at 70V)
Termination:	Screw-down barrier strip
Dimensions (H x Dia):	106 x 195 mm (4.2 x 7.7 in)

Control 24C Compact Ceiling Speaker

Components:	4" Woofer, .75" Titanium Tweeter
Frequency Range:	80 Hz – 20 kHz
Power Capacity:	80 Watts Continuous Program 40 Watts Continuous Pink Noise
Sensitivity:	86 dB, 1W, 1m
Coverage:	130°
Nominal Impedance (C24C):	16Ω
70V/100V Taps (C24CT):	30W, 15W, & 7.5W, (plus 3.7W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	200 x 195 mm (7.9 x 7.7 in)

Control 26C High Output Ceiling Speaker

Components:	6.5" Woofer, .75" Titanium Tweeter
Frequency Range:	75 Hz – 20 kHz
Power Capacity:	150 Watts Continuous Program 75 Watts Continuous Pink Noise
Sensitivity:	89 dB, 1W, 1m
Coverage:	110°
Nominal Impedance (C26C):	16Ω
70V/100V Taps (C26CT):	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	210 x 252 mm (8.3 x 9.9 in)

Control 26-DT Driver Assembly

Components:	8" Compatible Woofer, .75" Titanium Tweeter
Frequency Range:	70 Hz – 20 kHz
Sensitivity:	89 dB, 1W, 1m
Coverage:	90°
70V/100V Taps:	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Screw locking barrier strip
Dimensions (H x Dia):	Standard 8" driver mounting, 120 mm (4.8 in) deep

Control 19CS In-Ceiling Subwoofer

Components:	8" Low Frequency Driver
Frequency Range:	42 Hz – 200 kHz
Power Capacity:	200 Watts Continuous Program 100 Watts Continuous Pink Noise
Sensitivity:	95 dB, 1W, 1m
Nominal Impedance (C19CS):	8Ω
70V/100V Taps (C19CST):	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	345 x 345 mm (13.6 x 13.6 in)

* Medium and Large Format Ceiling Speakers are not listed on this spec page.

Please refer to JBL's Control 200 and Control 300 brochures for specific models and specifications.

IN-WALL SPEAKERS

Control 126W

Components:	6.5" Woofer, 1" Tweeter
Frequency Range:	38 Hz – 20 kHz
Power Capacity:	100 Watts Continuous Program 50 Watts Continuous Pink Noise
Sensitivity:	88 dB, 1W, 1m
Nominal Impedance:	8Ω
Termination:	Screw-down Euroblock
Dimensions (H x W x D):	280 x 215 x 105 mm (11 x 8.5 x 4.1 in)

Control 128W

Components:	8" Woofer, 1" Tweeter
Frequency Range:	30 Hz – 20 kHz
Power Capacity:	120 Watts Continuous Program 60 Watts Continuous Pink Noise
Sensitivity:	90 dB, 1W, 1m
Nominal Impedance:	8Ω
Termination:	Screw-down Euroblock
Dimensions (H x W x D):	334 x 257 x 110 mm (13.1 x 10.1 x 4.3 in)

CONFIGURED FLOOR LOADED ENCLOSED RACK SERIES

18U-27U-42U

FULLY ASSEMBLED RACK SYSTEMS FOR AUDIO, VISUAL OR NETWORKING EQUIPMENT. DESIGNED WITH HEAVY-GAUGE STEEL AND MULTIPLE FEATURES SUCH AS PRE-INSTALLED COOLING FANS, CASTERS, ADJUSTABLE FEET AND REMOVABLE SIDE PANELS.

SPECIFICATIONS:

- Fully welded steel construction
- Weight capacity up to a 1,322 lb., depending on model
- Includes removable locking side panels
- 2 top-mounted DC UL Listed fans
- Includes locking, reversible and tinted glass door and locking rear access panel
- 4 pre-installed swivel casters (front casters lock) and leveling feet
- Each rack includes pre-installed shelves and blank panels

Configuration:

LCS-120-01 Wi-Fi/RF Base System

Product Overview:

This system combines Wi-Fi and RF technology products to provide compliant audio coverage PLUS expanded coverage to everyone with a Smartphone or tablet.

Highlights:

- Extended Audio Reach
- Easy and Convenient
- Free Smartphone App

Includes:

One (1) LW-100P-02 LE 2 Channel (mono) Wi-Fi Server
One (1) LW-202 LE Venue Awareness Kit
One (1) LT-803-072-P1 Stationary 3-Channel Transmitter Package (72 MHz)
One (1) LPT-A107-B Dual RCA to Dual RCA Cable 6.6 ft. (2 M)
Two (2) LR-3200-072 Basic DSP Receiver (72 MHz)
Two (2) LA-401 Universal Ear Speaker
Two (2) LA-430 Intelligent Ear Phone/Neck Loop Lanyard
One (1) LA-423 4 Port USB Charger

Mediasite Recorder

AUTOMATED VIDEO CAPTURE FOR AV-LIGHT SPACES

Ideal for technology-light teaching and learning spaces, the Mediasite Recorder makes day-to-day video and content capture possible for any room on campus or in the office. Mediasite Recorder's rock-solid reliability and automated capture-to-publish workflows guarantee you never miss a teaching, training or learning moment. All content is immediately published to your Mediasite Video Platform or Mediasite Video Cloud, providing you all the tools to manage, secure, share, search and analyze your video.

HIGH-QUALITY, DUAL-STREAM CAPTURE

- Record and synchronize video with any content from screencasts, whiteboards, light boards, visualizers and more
- Preserve every detail including annotations and mouse movements
- Guarantee the best possible video quality reaches every screen with adaptive bit rate streaming

AUTOMATED ERROR-FREE RECORDING

- Pre-schedule start/stop recording times or import existing timetables from scheduling or course management systems
- Give recording and publishing control to content creators through familiar room control touch screens

WEB MONITORING AND MANAGEMENT

- Local and remote confidence monitoring for audio, video and content quality
- Start/stop/pause recordings, adjust capture settings, manage publishing and more
- Ensure all Recorders are always up-to-date with web-based updates

COLLABORATIVE WEB EDITING

- Trim, cut and fade; add video intros/outros, chapters and watermarks; update/replace slides
- Safely revert to any previous version with a complete revision history and non-destructive editing
- Collaborate with others using review/edit/approve workflows to ensure quality

INTERACTIVE VIDEO

- Deepen learning with polls, ask-a-question, bookmarks, sharing, post-video surveys and related links
- Pinpoint exact video moments with SmartSearch or quickly navigate with slide previews and chapters
- Rearrange, resize or pop-out content to focus on what's most important
- Experience the same interactive playback on any device

VIDEO & CONTENT CAPTURE

- Video on-demand capture only (optional live streaming add-on available)
- Supports NDI devices (up to two inputs)
- Records up to 2 simultaneous HD video/content sources
- 2 HDMI inputs supporting:
 - HD resolutions 1080p, 1080i, 720p (HD output as 720p – 1280x720 at 4.5 Mbps)
 - SD resolutions 576p, 576i, 480p, 480i
 - VESA resolutions
- NTSC/PAL

AUDIO CAPTURE

- HDMI embedded audio
- XLR balanced audio
- RCA unbalanced audio

VIDEO / AUDIO OUTPUTS

- DisplayPort output for Recorder configuration
- 3.5mm stereo speaker/headphone output

RECORDER AUTOMATION & CONTROL

- Mediasite Scheduler for automated recording
- Support schedule imports from R25/Schedule25, EMS™, Astra Schedule and Syllabus Plus
- Mediasite Monitor for remote management and confidence monitoring
- Crestron®, AMX™, Extron room control integration via TCP/IP and RS-232
- Optional USB-based push-button recording device/indicator light

RECORDER DESIGN

- Rack-mountable to 1U 19" rack
- On-appliance solid state content storage
- Gigabit (10/100/1000 Mb/s) LAN
- LED status for recording, paused, idle, error
- Kensington Security Slot
- 1.75" (height) x 13.75" (width) x 9" (depth)
- Weight: 5 lbs
- Weight with external power supply and rack kit: 8.25 lbs

INCLUDED EQUIPMENT

- DC power adapter with power cable
- Audio breakout cable
- Rack-mount brackets

POWER REQUIREMENTS

- Power: 84W
- Input frequency: 50-60Hz
- AC voltage input: 100-240V
- Max heat dissipation: 326 BTU/h
- DC voltage output: 12V
- DC current output: 7A

1 DisplayPort 1.4/MST/DP audio is supported.

2 Headphone usage is not supported for the audio line out connector.

3 As defined in EU 2019/2021 and EU 2019/2013.

4 Max brightness and contrast setting with maximum power loading on all USB ports.

5 Pon: Power consumption of On Mode as defined in Energy Star 8.0. TEC: Total energy consumption in kWh as defined in Energy Star 8.0 version.

Steadfast reliability

As the No. 1 monitor company worldwide*, we take pride in our unyielding commitment to quality and the utmost in customer satisfaction.

Premium Panel Exchange

Dell Premium Panel Exchange¹ allows a free monitor replacement during the Limited Hardware Warranty² period even if only one bright pixel is found.

Advanced Exchange Service

This monitor comes with a 3-year Advanced Exchange Service³ so that if a replacement becomes necessary, it will be shipped to you the next business day during your 3-year Limited Hardware Warranty.²

ProSupport

Upgrade to 24x7 specialized technical phone support with the Dell ProSupport option.⁴

* Dell monitors are #1 Worldwide for 9 years! Source: IDC Worldwide Quarterly PC Monitor Tracker, Q2 2023. From 2014 to 2023.

1 Applicable to Dell UltraSharp, P Series, and C Series desktop monitors.

2 For copy of Ltd Hardware Warranty, write to Dell USA LP, Attn: Warranties, One Dell Way, Round Rock, TX 78682 or see <https://www.dell.com/warranty>.

3 Advanced Exchange: Dell will send you a replacement monitor the next business day in most cases, if deemed necessary after phone/online diagnosis. Shipping times may vary by location and for monitors 55" and above. Fee charged for failure to return defective unit. See [dell.com/servicecontracts/global](https://www.dell.com/servicecontracts/global).

4 Availability varies, please visit www.dell.com/support for details. In some countries, hours for in-region support may vary. Support after local business hours may be provided in a language other than the local language.

Technical specifications subject to change without prior notice. Product availability varies by country. Please contact your Dell representative for more information.

Dell OptiPlex 7020

Inspired Design

The OptiPlex 7020 business-class desktop delivers essential performance, security and manageability features to match your productivity needs. Available in the mini-tower and small form factor chassis, the OptiPlex 7020 will seamlessly integrate into any office setting.

Empower your staff

Built with the end-user in mind, OptiPlex 7020 provides the power and performance of 4th Generation Intel® Core™ processors, with Intel® integrated graphics and discrete graphics options that supply increased performance over previous generations. Rich collaborative features include wireless connectivity options, front microphone and headset mini-jacks for voice-over-IP, and Microsoft™ Lync Certification. Plus, OptiPlex 7020 comes with six native USB ports, and legacy PCI support on the mini-tower.

Security you can trust

OptiPlex 7020 is the **most secure commercial desktop in its class**, providing comprehensive encryption, advanced authentication and malware prevention from a single source. The flexibility of Dell's security offerings allow you to choose the level of data protection necessary for your business and budget.

Simplify life for IT

Tool-less serviceability combined with Dell automated technology for deploying, monitoring and updating systems reduces complexity and improves IT efficiency. For increased management of your Dell desktop fleet, integration with Dell KACE applications is available.

Built to last

OptiPlex 7020 desktops are designed and tested to assure long term reliability and durability in hard working environments. Under Dell's Highly Accelerated Life Cycle Testing (H.A.L.T) regimen, engineers verify the system's tolerance to heat, cold, vibration, shocks and drops.

We're here to help

By partnering with Dell for your business needs, you'll receive full lifecycle client management, from deployment to controlled transitions and end-of-life product recycling. Additionally, OptiPlex 7020 is available with award-winning Dell ProSupport™ for 24X7 access to experts who will keep your systems up and running.

Simply do more

Dell offers a complete portfolio of accessories including wireless keyboards and mice, universal headsets, USB port covers, security locks and award winning monitors. And all accessories and software are covered under Dell ProSupport™.

Order your configured OptiPlex 7020 through Dell Smart Selection and expect shipment within 24-48 hours.

OptiPlex 7020 MT/SFF Technical Specifications ¹			
Processors ¹	Intel [®] 4 th generation Core™ i7/i5 Quad Core, and Core™ i3 Dual Core, PDC		
Chipset	Intel [®] Q87 Express Chipset		
Operating System Options ¹	Microsoft [®] Windows 8 Standard 64-bit, Microsoft [®] Windows 8 Pro 64-bit Microsoft [®] Windows 7 [®] Professional SP1 (32/64 bit) Ubuntu [®]		
Graphics ²	Integrated Intel [®] HD Graphics 4600 (i5/i7); Integrated Intel [®] HD Graphics 4400 (i3); Integrated Intel [®] HD Graphics (PDC); supports optional discrete graphics solutions from AMD		
Memory ³	Up to 4 DIMM slots; Non-ECC dual-channel 1600MHz DDR3 SDRAM, supports up to 16GB. Not all options available in every country nor in every configuration.		
Networking	Integrated Intel [®] I217LM Ethernet LAN 10/100/1000; supports optional wireless 802.11n card		
I/O Ports	4 External USB 3.0 ports (2 front, 2 rear) and 6 External USB 2.0 ports (2 front, 4 rear) and 1 Internal USB 2.0 (MT only); 1 RJ-45; 1 Serial; 1 VGA; 2 DisplayPort; 2 PS/2; 2 Line-in (stereo/microphone), 2 Line-out (headphone/speaker)		
Removable Media	Supports optional optical disc drives and media card reader options		
Hard Drives ⁴ Options	Hard Disk Drives: up to 1TB; Supports Hybrid and Solid State Drive No Hard Drive – Supports Dell Cloud Desktop diskless option		
Chassis		Minitower (MT)	Small Form Factor (SFF)

	Keyboards: Dell USB Entry Keyboard, Dell Multimedia Pro Keyboard, Dell Smart Card Keyboard		
	Mouse: Dell USB Optical Mouse, Dell Laser Mouse		
	Audio Speakers: Internal Dell 2.0 and 2.1 stereo speaker systems available; Dell sound bar for select flat-panel displays.		
Dell Print Solutions: Black-and-White, Color and Multifunction Lasers for printing and document management			
Security	Trusted Platform Module ⁶ (TPM) 1.2, Dell Data Protection SecurityTools, Dell Data Protection Encryption, Chassis lock slot support, optional Chassis Intrusion Switch, Setup/BIOS Password, I/O Interface Security, optional Smart Card keyboards, Intel [®] Trusted Execution Technology, Intel [®] Identity Protection Technology, Intel [®] Ant-Theft Technology, KACE Security, Dell Secure Works, BIOS support for optional Computrace ⁷		
Systems Management ⁸	Intel [®] Standard Manageability; No Out of Band Systems Management		
Environmental & Regulatory Standards	Environmental Standards (eco-labels): ENERGY STAR 6.0, EPEAT Registered ¹⁰ , CECP, WEEE, Japan Energy Law, South Korea E-standby, South Korea Eco-label (for SFF/USFF only), EU RoHS, China RoHS Other Environmental Options: Carbon Off-set; Asset Resale and Recovery Service. USFF BFR/PVC Free ⁹		
Warranty and Service	Limited Hardware Warranty ¹¹ ; Standard 3-year Next Business Day On Site Service after Remote Diagnosis ¹² (3-3-3); Optional 3-year Dell ProSupport™ for IT; 4 year and 5 year service and support options ¹³		

1. Offering may vary by region. Some items may be available post-RTS. For complete details, refer to the Technical Guidebook published on dell.com.

2. System Memory and Graphics: Significant system memory may be used to support graphics, depending on system memory size and other factors.

3. 4GB or Greater System Memory Capability: A 64-bit operating system is required to support 4GB or more of system memory.

4. Hard Drive: GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.

5. PSU: This form factor utilizes a more efficient Active Power Factor Correction (APFC) power supply. Dell recommends only Universal Power Supplies (UPS) based on Sine Wave output for APFC PSUs, not an approximation of a Sine Wave, Square Wave, or quasi-Square Wave (see UPS technical specifications). If you have questions, please contact the manufacturer to confirm the output type. Additionally, APFC not available in EMEA.

6. TPM is not available in all regions.

7. Computrace: Not a Dell offer. Certain conditions apply. For full details, see terms and conditions at www.lovackforlaptops.com.

8. Systems Management Options:

- Intel[®] Standard Manageability – Fully enabled at point of purchase, the Intel Standard Management option is a subset of the AMT features. ISM is not upgradeable to vPro technology post-purchase.

- No Out-of-Band Systems Management - This option entirely removes Intel out of band systems (OOB) management features. The system can still support in band management. OOB management support through AMT cannot be upgraded post-purchase.

9. Dell adopts the BFR/CFR/PVC-free definition as set forth in the "iNEMI Position Statement on the Definition of 'Low-Halogen' Electronics (BFR/CFR/PVC-Free). Some exceptions may apply in external peripherals and power cords."

10. Please refer to www.epeat.net for specific country registration rating and participation

11. Limited Hardware Warranty: For copy of Ltd Hardware Warranty, write Dell USA LP, Attn: Warranties, One Dell Way, Round Rock, TX 78682 or see www.dell.com/warranty.

12. Next Business Day Onsite Service after Remote Diagnosis: Remote Diagnosis is determination by online/phone technician of cause of issue; may involve customer access to inside of system and multiple or extended sessions. If issue is covered by Limited Hardware Warranty (www.dell.com/warranty) and not resolved remotely, technician and/or part will be dispatched, usually within 1 business day following completion of Remote Diagnosis. Availability varies. Other conditions apply.

13. Dell Services: Availability and terms of Dell Services vary by region. For more information, visit www.dell.com/servicesdescriptions.

dbx ZonePRO™ 1260

OVERVIEW:

The ZonePRO 1260 offers fixed I/O, pre-configured architecture, configurable insert processing and optional duplication of audio channels to another ZonePRO device via a link bus.

The 1260 features a total of 12 inputs and six outputs. Inputs include two balanced mic/line switchable terminal block inputs, eight mono-summed pairs of unbalanced RCA inputs and one S/PDIF input for up to two digital channels. Hardware-controlled microphone gain allows adjustment of microphone gain per channel.

The 1260 device has a pre-configured architecture with input processing, a central matrix and output processing. Two input insert positions and one output insert position allow channel-specific insert processing to be configured. AutoWarmth®, a psychoacoustic function that maintains full frequency bandwidth even when the signal level has dropped, is permanently available on each output zone.

A link bus allows duplication of the first six audio channels to another ZonePRO device in applications where additional output zones are required.

The front panel of the 1260 features comprehensive signal metering, an informative LCD display and user-specified front panel control.

Additional system control is offered in the form of optional Zone Controllers. This collection of hardware wall-controllers represents a series of simple, elegant user interfaces for functions such as volume, source and preset control.

All ZonePRO devices can be controlled by third party control systems via RS-232 or Ethernet as applicable (see table for further information).

ZonePRO Designer—the configuration, control and monitoring software for the ZonePRO family of devices—offers control of the ZonePRO 1260 via Ethernet or RS-232. The Configuration Wizard within ZonePRO Designer guides users through the step-by-step configuration process of the 1260.

KEY FEATURES:

- 12 Inputs / 6 Outputs
 - 2 Balanced Mic/Line Inputs
 - 8 Unbalanced, Mono-Summed RCA Input Pairs
 - S/PDIF Input
- Microphone Gain per Channel
- Pre-Configured Architecture
- Two Configurable Input Insert Positions
- One Configurable Output Insert Position
- AutoWarmth® per Output Zone
- Link Bus
- Comprehensive Signal Metering
- Front Panel LCD
- User-Specified Front Panel Control
- Optional ZC Controllers
- Ethernet Control
- Serial Control
- Third Party Control
- Wizard-Driven Configuration

ZonePRO™ 1260

TECHNICAL SPECIFICATIONS:

Front Panel LED Indicators:

Per Output: 6 Independent Six-Segment Lightpipe Output Meters that range from -30 to +20 dBu, Threshold Meters
 Other: LCD Display provides information about Source Selection, Page Steering, Zone Volume and Mute

Analog Inputs: 12 Total (2) Switchable Mic or Line, (8) Unbalanced, Mono-Summed RCA Input Pairs, (1) S/PDIF Input

Type: Euroblock (Mic/Line), RCA (Source)

Impedance (Euroblock): >50kΩ Balanced, >25kΩ Unbalanced, RF Filtered

Impedance (RCA): >25kΩ Unbalanced, RF Filtered

Max. Input Line Level: +20dBu Mic/Line, +12dBu RCA

CMRR: >40dB, typically >55dB @ 1kHz

Mic Pre Gain: 30 to 60dB

Mic Input Noise (E.I.N.): <-118dBu, 22Hz-22kHz, 150Ω Source Impedance

Mic Phantom Power: +15VDC

Analog Outputs: 6 Total

Type: Electronically Balanced, RF Filtered Euroblock

Impedance: 120Ω Balanced, 60Ω Unbalanced

Max. Output Level: +20dBu

A/D Performance:

Type: dbx Type IV™ Conversion System

Dynamic Range Line: >113dB A-weighted, >110dB unweighted

Type IV Dynamic Range: >119dB A-weighted, 22kHz BW: >117dB, unweighted, 22kHz BW

Sample Rate: 48kHz

D/A Performance:

Dynamic Range: 112dB A-weighted, 109dB unweighted, 22kHz BW

System Performance:

Dynamic Range: >110dB A-weighted, >107dB unweighted, 22kHz BW

THD+N: 0.003% typical at +4dBu, 1kHz, 0dB gain

Frequency Response: 20Hz – 20kHz, +/- 0.5dB

Interchannel Crosstalk: >80dB typical

Crosstalk input to output: >80dB

Propagation Delay: 0.6 msec

Operating voltage: 100-240 VAC, 50/60Hz

Power Requirements: 27 Watts

BTU Rating: <92.13 BTU

Physical Dimensions:

Weight: 6.8 lbs / 3.1 kg Shipping Weight 8.8 lbs / 4 kg

Dimensions (H(U) x W x D): 1.75" (1U) x 19" x 7.75" (45mm x 483mm x 197mm)

Safety Agency Certifications: UL 60065, IEC 60065, E 60065, EN 55013

ZC-7

ZC-3

ZC-8

ZC-4

ZC-9

ZC-BOB

ZC-Fire

VISIONARY DESIGN

The Zone Controllers offer extended utility to the DriveRack® and ZonePRO families. The ten Zone Controllers use analog DC voltage to provide logic control ranging from zone source selection, volume and muting, to program or scene selection and fire safety muting. Wired with readily available and affordable CAT5 cable with universally accepted RJ-45 connectors at distances up to 1000 ft, the ZC Zone Controllers offer simple yet elegant solutions to the contractor.

REVOLUTIONARY ENGINEERING

The ZC-1 provides programmable remote volume control for the DriveRack 260, 220i and the ZonePRO products. The ZC-2 offers programmable volume and mute control for the DriveRack 220i, 260 and the ZonePRO products. The ZC-3 can function as a program selector for the DriveRack 260 and 220i; in addition it can be used for as a source selector, page steering control, or a scene selector for the ZonePRO products. The ZC-4 provides program change capability from contact closures for the DriveRack 220i and 260; it can also provide source selection, page steering, or scene selection for the ZonePro products. The ZC-6 is a programmable volume control for the ZonePRO products. The ZC-7 is a programmable push-to-talk page assignment controller for the ZonePRO devices. The ZC-8 provides both programmable source selection and volume control to the ZonePro products. The ZC-9 provides source selection for the ZonePRO 1260 and 1261. The ZC-BOB allows "home run" or parallel wiring to the DriveRack and ZonePro products. The ZC-FIRE is a dedicated fire safety interface for the ZonePRO products that allows selection of either system mute or scene selection upon being triggered by either a relay or control voltage from the fire safety system. For more information please visit www.driverack.com or www.dbxpro.com.

FEATURES

- **Programmable Volume Control**
- **Program or Scene Selection**
- **Programmable Contact Closure Interface**
- **Up to 1000 ft. on CAT 5 Cable**
- **Programmable Push-To-Talk Paging**
- **Programmable Source Selection**

ZC-Series

DriveRack® and ZonePRO™ Series Wall-Mounted Zone Controllers

SPECIFICATIONS

Connections:

ZC-1, ZC-2, ZC-3, ZC6, ZC-7, ZC-8 and ZC-9

Connectors: (2) RJ-45

ZC-4 Connectors: (1) RJ-45, (1) 6-pin Phoenix

ZC-BOB Connectors: (7) RJ-45

ZC-FIRE: (2) RJ-45, (2) 2-pin Phoenix

Series Wiring:

Maximum Cable Length varies with number of Zone Controllers.

For Example, Three Zone Controllers: 600 ft.

Six Zone Controllers: 300 ft.

Parallel Wiring:

Using a ZC-BOB:

Up to Six Zone Controllers: 1000 ft.

Cable:

CAT5 or CAT5E with 28.6 Ohm/M (Ohm/1000 ft.) nominal DCR and rated VW-1 or higher.

Safety Agency Certifications:

UL 60065, IEC 60065, EN 55013, E60065

Architects' and Engineers' Specifications:

ZC-1

The remote device shall provide computer programmable rotary potentiometer volume control for the dbx DriveRack 260, 220i and ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-1 remote controller.

ZC-2

The remote device shall provide computer programmable rotary potentiometer and push-button volume control and muting for the dbx DriveRack 260, 220i and ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-2 remote controller.

ZC-3

The remote device shall provide programmable rotary switch program selection for the dbx DriveRack 220i and 260 devices. The remote device shall also provide rotary switch programmable source selection, page assignment, or scene selection for the dbx ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-3 remote controller.

ZC-4

The remote device shall provide programmable program selection via contact closures for the dbx DriveRack 220i and 260 devices. The remote device shall also provide contact closure programmable source selection, page assignment, or scene selection for the dbx ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-4 remote controller.

ZC-6

The remote device shall provide computer programmable push-button up/down volume control for the dbx ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-6 remote controller.

ZC-7

The remote device shall provide programmable push-to-talk page assignment for the dbx ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-7 remote controller.

ZC-8

The remote device shall provide both programmable push-button up/down volume control, and programmable rotary switch source selection for the dbx ZonePro devices. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-8 remote controller.

ZC-9

The remote device shall provide programmable source selection for the ZonePro 1260 and 1261 devices. The remote shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-9 remote controller.

ZC-BOB

The remote device shall provide up to 6 RJ-45 input jacks for "Home Run" or parallel wiring configurations of the dbx ZC wall panel controllers, and one output RJ-45 jack for connection to the dbx DriveRack or ZonePro device. The device shall be a dbx ZC-BOB remote controller.

ZC-FIRE

The remote device shall provide either output muting or programmable scene selection for the dbx ZonePro devices. Connection to the fire safety system shall be either through a relay or directly to the control voltage output. The remote device shall have DIP switches allowing identification with connection to the processing device via CAT 5 cable on RJ-45 connectors. The device shall be a dbx ZC-FIRE remote controller.

dbx engineers are constantly working to improve the quality of our products. Specifications are, therefore subject to change without notice.

Net Weight	11.0 oz / 312 g (without battery)	3.0 oz / 85 g (without battery)

ADS48 UHF Antenna Distribution System

OVERVIEW

The Audix ADS48 is a wide range UHF antenna distribution system that combines up to four wireless systems to be able to run off a single pair of antennas and power supply. The ADS48 has an internal switching power supply which eliminates the need for the individual DC power supplies normally needed for each receiver. RF signals are internally amplified in order to compensate for any loss that may result from splitting the signal.

SUPPLIED ACCESSORIES

- 1 x ADS48 Antenna Distribution Unit with rack mount
- 2 x Antennas - (see photo A below)
- 1 x IEC power cable
- 4 x Power Jumper Cables to provide power to individual receivers - (see photo B below)
- 8 x BNC-to-BNC Coaxial Cables for pass through connection for up to 4 additional receivers (single or dual) - (see photo C below)
- 2 x Coaxial cables for front mounting antennas - (see photo D below)

SPECIFICATIONS

Frequency Range	470 - 900 MHz
RF Output Level (Gain)	0 dB d + or - 3 dB
Input Impedance	50 Ohm
Output Impedance	50 Ohm
Power Voltage	100 - 240 V AC 50 / 60 Hz
Output DC Voltage	+12 V DC, 800 mA maximum
Antenna Input DC Voltage	8 V, 150 mA maximum
Dimensions	19" (W) x 2" (H) x 10" (D) 480 mm (W) x 45 mm (H) x 250 mm (D)
Net Weight	16 oz / 2.15 kg

ADS48

SETTING UP THE DISTRIBUTION SYSTEM

FRONT MOUNTING ANTENNAS (Do this step before installing in rack)

- A.** Remove the hex nut from the threaded end of the front mount antenna cable.
- B.** Insert the end of the front mounting cable through the back side of the rack hole. Note that the hole is slotted on one side – it can only go in one way. Screw on the hex nut to secure.
- C.** Attach the antenna cable on the left side to antenna A INPUT and the cable on the right side of the unit to antenna B INPUT. Install the ADS48 into the rack. (See B and F below)

BACK OF ADS48

CABLE INSTRUCTION FOR ANTENNA DISTRIBUTION FOR

ADDITIONAL RECEIVERS: All cables are connected from the back side of the ADS48 to the back side of the additional receiver(s).

Using the BNC antenna coax cable, connect output Antenna A #1 from the ADS48 (see E above) to Antenna A on the Performance Series receiver and Antenna B #1 from the ADS48 (see C above) to Antenna B on the Performance Series receiver. Additional receivers are done in exactly the same way.

IMPORTANT: Antennas must be hooked up correctly A to A and B to B to work properly.

CABLE INSTRUCTION FOR POWER DISTRIBUTION:

All cables are connected from the back side of the ADS48 to the back side of the additional receiver(s).

Using the power jumper cables plug one side of the cable into DC Output #1 on the ADS48 (see D above) and the other end to the DCV Input on the Performance Series receiver. Additional receivers will be done in the same sequence.

Power Cable: Plug the provided IEC power cable into the back of the ADS48 and then plug into electrical outlet. (see A above)

Power up the ADS48 via the power switch on the front. The light will indicate that the unit is powered up. The ADS48 acts as the master power unit for all receivers in the chain. Receivers will not power up without the master power switch being on.

PRODUCT REGISTRATION: Please register your product online at www.audixusa.com/docs_12/about/product_registration.shtml.

SERVICE AND WARRANTY: This microphone is under warranty for a period of 1 year to be free of defects in material and workmanship. In the event of a product failure due to materials or workmanship, Audix will repair or replace said product at no charge with proof of purchase. Audix does not pay or reimburse shipping costs for warranty repairs or returns. The warranty excludes any causes other than manufacturing defects, such as normal wear, abuse, environmental damage, shipping damage or failure to use or maintain the product per the supplied instructions. No Implied Warranties: All implied warranties, including but not limited to implied warranties of merchantability and fitness for a particular purpose are hereby excluded. The liability of Audix, if any, for damages relating to allegedly defective products shall be limited to the actual price paid by Dealer for such products and shall in no event include incidental or consequential damages of any kind. Should your microphone fail in any way, please contact the Audix Service department at 503.682.6933. A Return Authorization is required before returning any product. **OTHER THAN THIS WARRANTY, AUDIX MAKES NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCTS, THE USE OF THE PRODUCTS, THE PERFORMANCE OF THE PRODUCTS. AUDIX SHALL NOT BE LIABLE FOR SPECIAL INCIDENTAL, CONSEQUENTIAL, INDIRECT OR SIMILAR DAMAGES ARISING FROM OR BASED ON THE SALE, USE, STORAGE OR DISPOSAL OF THE PRODUCTS, AUDIX'S SERVICE WORK, BREACH OF WARRANTY, BREACH OF CONTRACT. NEGLIGENCE, OR ANY OTHER THEORY OF LIABILITY, EVEN IF AUDIX HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.**

max TX™ SERIES TWISTED PAIR Model TX-TPR3A Format-A Three-Pair Receiver

- Three -10 dBV Unbalanced or +4 dBu Balanced Outputs
- Phono Jack and Detachable Terminal Block Outputs
- Audio Outputs for All Three Pairs (A, B and C)
- Utilizes All Three Format-A Pairs
- Powered Locally or Remotely through RJ45 Jack
- Local Power Feeds all Modules Connected to INPUT
- Wiring Fault Protection by Automatic Resetting Fuse
- Local Power Input on Terminal Block or dc Power Jack
- Blue LED Indicates Module is Powered
- Studio-Quality Precision Active Balanced Circuitry

The TX-TPR3A is a three-pair audio receiving module compatible with RDL Format-A twisted pair products. It is built in the versatile Max-TX series enclosure. The durable adhesives provided with the TX-TPR3A permit permanent or removable mounting. The TX-TPR3A may be rack or surface mounted with optional TX™ series accessories.

APPLICATION: The TX-TPR3A is a three-pair audio receiving module compatible with RDL Format-A twisted pair products. Three outputs are provided corresponding to the three signal pairs A, B and C. The audio signal received on each pair of the RJ45 INPUT jack feeds the corresponding -10 dBV unbalanced RCA phono jack output and the +4 dBu balanced detachable terminal block output. A studio-quality buffer amplifier feeds the outputs at the correct operating level.

The TX-TPR3A features bridging inputs, allowing it to be connected to the LOOP OUT jack of other receivers. The bridging input circuits used in all FORMAT-A twisted pair receivers allow connection of up to 10 receiver outputs for each cable pair. The possibility of multiple receiver locations adds enormous flexibility in the design of audio routing systems using RDL FORMAT-A products. The TX-TPR3A may be powered directly from a 24 Vdc power supply using either the power jack or the detachable terminal block. Local power connected to the module is also fed to all modules connected to the INPUT RJ45 jack.

The TX-TPR3A may be remotely powered through the twisted pair cable from any other module, signal distributor or RDL power inserter connected to the same twisted pair cable. Module power is indicated by a front-panel LED.

RDL FORMAT-A features superior audio performance that rivals or exceeds shielded wiring. Design simplicity, ease of installation, unsurpassed flexibility, automatic fused power, exceptional hum rejection, low noise, and low distortion provide designers and installers the optimum choice in economical twisted pair products.

max TX™ SERIES TWISTED PAIR

Model TX-TPR3A

Format-A Three-Pair Receiver

Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4
Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

STEP 1: Connect 24 Vdc to the **POWER** input (terminals or jack) if this module is not being powered through the twisted pair cable from another module, or if this module is located an excessive distance from the next powered module on the cable. Note: The front-panel power LED will be illuminated if this module is powered. If this module is powering other modules through the cable and if there is a wiring short, the short must be cleared then power must be turned off to this module for 10 seconds to reset the internal protection circuit.

STEP 2: Connect the **UNBAL OUT** jacks to -10 dBV equipment inputs, and/or connect the **BAL OUT** terminals to +4 dBu equipment inputs.

STEP 3: Connect the **INPUT** twisted pair cable coming from Format-A senders or distributors and mount the module.

NOTE: All six audio outputs may be used simultaneously. Each Format-A pair A, B and C provides two associated outputs: one balanced, one unbalanced.

Connection from Single-Pair, Two-Pair or Three-Pair Senders (direct, or via an RDL Twisted Pair Power Inserter)

or

Connection from Format-A Distributor

or

Connection from other Format-A Receivers

NOTE: Connect a 24 Vdc power supply to the module if power is not being supplied through a twisted pair cable from a connected module.

RJ45 Standard wiring

RJ45 conductor colors shown are for 568A standard. The 568B standard may be used if the connectors at both ends of the cable are wired identically.

TX™ SERIES Model TX-TP4PW Power Inserter / Signal Breakout

- Power Remote Senders and Receivers from Convenient Location
- 24 Vdc Power Input on dc Power Jack
- Blue Power LED Shows Module is Receiving Power
- Green LED Indicates Correct dc Output Voltage on RJ45s
- Four Associated RJ45 Jacks Provide Power Output
- Pairs A, B and C are Connected Between all Four RJ45 Connectors
- Power up to Three High-Current Format-A Receivers

The TX-TP4PW is part of the group of versatile TX series products from Radio Design Labs. TX modules feature the superior engineering and components common to RDL products. The durable adhesives provided with the TX-TP4PW permit permanent or removable mounting. The TX-TP4PW may be rack or surface mounted with optional TX series accessories.

APPLICATION: The TX-TP4PW is a power inserter compatible with RDL twisted pair products. The TX-TP4PW is powered from a 24 Vdc power supply using a dc power jack. Four RJ45 jacks are provided to connect remote twisted pair senders and receivers. The audio signals on pairs A, B and C are connected between all four RJ45 connectors.

When one RJ45 receives signals from twisted pair senders, the remaining three RJ45 jacks can each connect to a separate twisted pair receiver. Three jacks are provided so that three home runs to twisted pair receivers are possible. This is particularly useful for powering three high current receivers that cannot be daisy chained, such as D-PSP1A Powered Speakers.

The TX-TP4PW may also connect to three home runs from separate Format-A senders. A sender set to feed Pair A connects to one RJ45 on the TX-TP4PW. Senders feeding pairs B and C connect to two other RJ45s. The fourth RJ45 becomes an output with signals on all pairs A, B and C. This is useful in installations where daisy chaining senders is not practical.

Power is provided to all modules connected to the RJ45 jacks. Signal pairs feed through the associated RJ45s. Output voltage is protected by an automatically resetting fuse. The output power LED facilitates identification of wiring faults. Module power is indicated by a front-panel LED.

TWISTED PAIR FORMAT-A Models D SERIES-BT1A Wall-Mounted Bluetooth® Audio Format-A Interface

- Bluetooth Audio Input for Installed Sound System
- Intuitive Single Button Pairing with LED Status Indication
- Special Software Not Required for Module Setup
- Customize the Module ID Name and Programming Password through the Bluetooth Connection
- Sends Received Bluetooth Audio to RDL Format-A Receivers
- Mono Summed or Stereo Audio Input Mode is Switch-Selectable on Rear Panel
- Rear-Panel Switch Selects which RJ45 Pair (A, B or C) is Fed in Mono Summed Mode
- Daisy-Chain up to Three D SERIES-BT1A modules to One Format-A Receiver in Mono Mode
- Remotely Powered through Twisted Pair Cable
- Signal and Power Pair Pass-Through on RJ45 Jacks

The D SERIES-BT1A is part of the group of versatile wall-mounted products from Radio Design Labs. The standard mounting case can be directly fastened in North American electrical boxes or in RDL International wall boxes.

APPLICATION: The D SERIES-BT1A modules are Bluetooth audio receiving modules compatible with RDL® Format-A twisted pair receivers. When paired with a compatible Bluetooth enabled device, the module receives stereo audio from the Bluetooth source. The stereo signal is sent through two Format-A pairs to any RDL Format-A receiver. A stereo/mono switch set by the installer permits summed mono audio to be sent over one switch-selected pair to the Format-A receiver.

If set for stereo operation, an additional Format-A source (set to Pair A) may be daisy chained with the D SERIES-BT1A to a three-pair Format-A receiver. If set for mono operation, up to three D SERIES-BT1A modules may be daisy chained to a single three-pair Format-A receiver. Connections between Format-A modules and Format-A receivers use standard CATx cable with RJ45 connectors.

The D SERIES-BT1A modules are powered from the Format-A receiver. The installer can customize the module name and programming password through the Bluetooth connection using a smartphone, computer or tablet terminal program. These modules feature studio-quality circuits and analog filters to provide audio performance exceeding expectations from consumer interface technologies. High performance, simplicity of operation and efficiency of installation make RDL the best value in professional Bluetooth interfaces.

Sole EMC specifications provided on product package.
Specifications are subject to change without notice.

Instructions for Bluetooth pairing

These instructions are based on the default RDL unit identification as RDL_BT_FA. If the RDL unit has been renamed by the installer, substitute the new name for RDL_BT_FA in the following steps.

PAIRING

1) Press and hold the PAIR button until the blue LED on the RDL unit illuminates, then release.

Note: The blue LED flashes as long as the unit is available for pairing. If the blue LED stops flashing before the pairing process is completed, restart these steps.

2) While the blue LED is flashing, locate RDL_BT_FA on your device's Bluetooth settings and click PAIR DEVICE, following screen prompts to complete the pairing process.

Note: The blue LED glows steady while the RDL unit is paired.

UN-PAIRING

The RDL unit will unpair automatically 30 seconds after the user device leaves the area. The user device may be manually disconnected by pressing and holding the PAIR button on the RDL unit.

RE-PAIRING

1) Press and hold the PAIR button until the blue LED on the RDL unit illuminates, then release.

2) While the blue LED is flashing, locate RDL_BT_FA under Previously Connected Devices on your device's Bluetooth settings and click RDL_BT_FA, following screen prompts to complete the re-pairing process.

Note: If the re-pairing fails, click Forget Device on the user device and pair the RDL unit as a new device.

Upon successful pairing, the user device applications for audio playback through a Bluetooth interface may be used.

CONFIGURED FLOOR LOADED ENCLOSED RACK SERIES

18U-27U-42U

FULLY ASSEMBLED RACK SYSTEMS FOR AUDIO, VISUAL OR NETWORKING EQUIPMENT. DESIGNED WITH HEAVY-GAUGE STEEL AND MULTIPLE FEATURES SUCH AS PRE-INSTALLED COOLING FANS, CASTERS, ADJUSTABLE FEET AND REMOVABLE SIDE PANELS.

SPECIFICATIONS:

- Fully welded steel construction
- Weight capacity up to a 1,322 lb., depending on model
- Includes removable locking side panels
- 2 top-mounted DC UL Listed fans
- Includes locking, reversible and tinted glass door and locking rear access panel
- 4 pre-installed swivel casters (front casters lock) and leveling feet
- Each rack includes pre-installed shelves and blank panels

Bose Videobar VB1

all-in-one USB conferencing device

Product Overview

The Bose Videobar VB1 is an all-in-one USB conferencing device that brings premium audio and video to small meeting areas — from huddle spaces to medium-sized rooms. Be seen clearly. Be heard and understood fully. Six beam-steering microphones automatically focus on voices in the room and reject noise. A 4K ultra-HD camera with autoframing delivers crystal-clear video, helping remote participants feel like they're in the room. Proprietary Bose sound supports multimedia presentations, plays *Bluetooth*® audio, and ensures voices on the call sound natural. Single-cable connectivity means there's no need for separate audio and video cables at the table, reducing clutter. Whether it's a quick morning check-in or a full-afternoon workshop, the Bose Videobar VB1 helps you huddle up, see more, hear more, and work better.

Key Features

Bring the Bose experience to huddle spaces and medium-sized conference rooms with an all-in-one solution that requires minimal setup and delivers premium audio and video performance

Make conversation more natural with six beam-steering microphones that actively focus on voices and reject noise; and auto EQ that delivers optimized audio to all participants

Communicate and be seen more clearly — a 4K ultra-HD camera with autoframing allows everyone to see and understand the presenter, whiteboard, flipchart, or other in-room objects — and feel more like they're together in the same room

Bring enhanced video and audio performance to popular Unified Communications platforms such as Microsoft Teams, Google Meet, Zoom, and more

Support multimedia presentations with premium audio with Bose-proprietary transducers that deliver room-filling sound from a USB-connected laptop or wireless *Bluetooth* device

Clean up the conferencing experience with single-cable connectivity that eliminates clutter and an elegant low-profile design that complements the room and improves aesthetics

Mount easily in multiple ways with included table stand and wall-mount kit or optional mud ring and display mounting kit

Connect to existing network infrastructure, making installation and troubleshooting faster and allowing for remote updates, management, and monitoring

Configure easily with Bose Work Configuration software, available as an app or via web browser; and manage remotely with the Bose Work Management software which displays real-time status and allows for easy single-unit or system-wide changes

Control settings in real time from a smartphone using the Bose Work mobile app to easily adjust volume, mute, pan, tilt, zoom, zoom presets, and *Bluetooth* pairing

Easily connect a smartphone via *Bluetooth* connectivity to use as a standalone speakerphone or stream music

Bose Videobar VB1

all-in-one USB conferencing device

Technical Specifications

LOUDSPEAKER ARRAY	
Configuration	Stereo loudspeakers, ported enclosure
Amplifier Power	20 W per channel, < 0.3% distortion over frequency range
Frequency Response (-10 dB)	85 - 20,000 Hz
Maximum SPL @ 1 m	89 dB (IEC 60268-5, mono input, wall-mounted)
MICROPHONE ARRAY	
Configuration	6 microphones
Frequency Response (± 3 dB)	20 - 15,000 Hz
Pickup Range	6.0 m (19.7 ft)
Technology	Static and adaptive dynamic beam-forming, 3 exclusion zones, stereo acoustic echo cancellation (AEC), digital noise suppression
CAMERA AND VIDEO	
Field of View (FOV)	123° diagonal \times 115° horizontal \times 81° vertical
Image Sensor	8 MP
Focus Distance	0.5 m (1.6 ft) to ∞
Lens	Up to 5x digital zoom, detachable camera privacy cover (included)
Positioning	Autoframing capability or manual pan-tilt-zoom (PTZ) with 3 configurable presets (Home, 1, 2)
Processing	Automatic white balance, automatic brightness, digital noise reduction
USB Device Video Class (UVC)	v1.1
Supported Video Resolutions	UHD 2160p (4K), 1080p, 720p, 960 \times 480, 848 \times 480, 640 \times 480, 640 \times 360, 432 \times 240 (30 fps)
Video Encoding	H.264, M-JPEG
CONNECTIONS	
USB	USB Type-C® to host computer (with DisplayLink) (USB 3.0 UAC, UVC, HID)
Network	Wired: RJ-45, 1 Gbps Ethernet (IEEE 802.3) Wireless: Wi-Fi 802.11ac
<i>Bluetooth</i>	<i>Bluetooth</i> 4.2 HSP, A2DP, AVRCP, BLE
Display	HDMI 1.4b and 2.1 output (to display, from host computer)
Analog Audio	Stereo 3.5 mm ($\frac{1}{8}$ in) input
General Purpose	2-pin Euroblock general-purpose input
Power	Via external power supply with localized power cord (included) Input: 110 - 240 VAC, 50/60 Hz, 1.5 A max. Output: 24 VDC, 1.875 A
SOFTWARE APPLICATIONS	
Control/Configuration	Bose Work Configuration software (available for Windows and macOS or via web browser) Bose Work Management software (available for Windows) Bose Work mobile app (available for iOS and Android)
SYSTEM REQUIREMENTS	
Operating System	Windows 7, 8.1, or 10 macOS 10.10 or higher Chrome OS (Google Chromebook)

ClickShare CX-20

Easy wireless conferencing for small meeting rooms and huddle spaces

- **Entry-level wireless conferencing model**
- **Run video meetings from your laptop**
- **Iconic ClickShare Button for employees and guests**
- **100% secure, encrypted and cloud-managed**

ClickShare CX-20 enables wireless conferencing in small meeting spaces. When you walk into the meeting room, ClickShare automatically connects you to room devices like cameras, mics, speakers, sound bars and displays.

Start a meeting from your laptop within seconds, using your preferred video conferencing platform. Make hybrid meetings easy, with just one click on the ClickShare Button or the ClickShare App, both for employees and guests.

Product specifications

CLICKSHARE CX-20

General specifications

Operating system	Windows 10 and higher macOS 11 (BigSur) and higher Android v11 and higher (ClickShare App) iOS 14 and higher (ClickShare App)
System requirements	For a smooth experience with Microsoft Teams or Zoom Minimum: Intel i3 dual-core processor or AMD Ryzen 7 / 8GB RAM / OS: Windows 10 latest build or Mac OS Mojave latest build Recommended: Intel i5 4-core processor or AMD Ryzen 9 / 8GB RAM / OS: Windows 11 latest build or Mac OS latest build
Video outputs	4K UHD (3840*2160) @ 30Hz. HDMI™ 1.4b or USB-C DisplayPort 1.2 (only Gen2)
Audio output	USB, HDMI
USB	1 X USB-A, 1 X USB-C
ClickShare Buttons	1
ClickShare App	Desktop & Mobile
Native protocols	Airplay, Google Cast, Miracast
Maximum sources simultaneously on screen	1
Noise Level	Max. 25dBA @ 0-30°C Max. 30dBA @ 30-40°C
Authentication protocol	WPA2-PSK in stand alone mode WPA2-PSK or IEEE 802.1X using the ClickShare Button in network integration mode
Wireless transmission protocol	IEEE 802.11 a/g/n/ac and IEEE 802.15.1
Reach	Max. 30m (100 ft) between ClickShare Button and ClickShare Base Unit Frequency band 2.4 GHz and 5 GHz (DFS)
Frequency band	2.4 GHz and 5 GHz (DFS channels supported in select number of countries)
Connections	1x Ethernet LAN 1Gbit 1x USB-C 2.0 (front); 1x USB-A 2.0 (front) -only Gen2: 1x USB-C 3.0 (front); 1x USB-A 3.0 (front)
Temperature range	Operating: 0°C to +40°C (+32°F to +104°F) Max: 35°C (95°F) at 3000m Storage: -20°C to +60°C (-4°F to +140°F)
Humidity	Storage: 0 to 90% relative humidity, non-condensing Operation: 0 to 85% relative humidity, non-condensing
Anti-theft system	Kensington lock
Certifications	FCC/CE
Touch screen support & Interactivity	/
Wireless conferencing	via App or Button
Local view	Local view of the room display only
Network connection	LAN & WiFi
Management and reporting	Yes
Warranty	1 year standard. 5 years coverage upon registering via SmartCare
ClickShare Base Unit dimensions	
Dimensions (HxWxD)	34 mm x 135 mm x 135 mm
Power consumption	Operational: 5-10W, 24W Max
Power supply	Standard 110/220 V AC plug or USB-C (only Gen2)
Weight	900 gr

MEDIUM TILT MOUNT

NX-TM2460

EASY TO INSTALL WITH A LOW PROFILE TILTING DESIGN AND POST-INSTALL LEVELING. THE NX-TM2460 IS IDEAL FOR 24" - 60" PANELS WEIGHING UP TO 120 LBS.

SPECIFICATIONS:

- Fits 24" - 60" TVs up to 120lbs
- VESA 75 x 75 to 400 x 400 (W x H) (mm)
- Locking mechanism secures rails to wall plate
- Height adjustable for easy levelling
- Tilt up to 12° to reduce glare
- Simple to install and use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

BOX DIMENSIONS:

PART#: NX-TM2460
UPC: 840049303102
LENGTH: 5.9"
WIDTH: 21.3"
HEIGHT: 2.4"
WEIGHT: 5.8 LBS

VS-211X

2x1 4K HDR HDMI Auto Switcher

| HDMI

VS-211X is a high-performance 2x1 automatic switcher for 4K HDR, HDMI video signals. Offering priority and last-connected switching options, it automatically switches according to the selected switching scheme based on active video signal detection

FEATURES

Plug & Play Auto Switcher - Automatically plays the switched source signal on the connected display according to user-configured preferences, such as priority or last-connected input. When the user manually switches, by pressing a button, the auto switching is overridden

HDMI Signal Switching - HDCP 2.3 compliant, Supporting deep color, x.v.Color™, CEC, lip sync, HDMI uncompressed audio channels, Dolby TrueHD, DTS-HD, 2K, 4K, and 3D as specified in HDMI 2.0

Multi-channel Audio Switching - Up to 32 channels of digital stereo uncompressed signals for supporting studio-grade surround sound

I-EDIDPro™ Kramer Intelligent EDID Processing™ - Intelligent EDID handling, processing, locking and pass-through algorithm ensures plug & play operation for HDMI source and display systems

Audio De-embedding - The digital audio signal passing-through to the HDMI output, is de-embedded, converted to an analog signal and sent to the stereo unbalanced analog audio output. This enables playing the audio on locally connected speakers, in parallel to playing it on the speakers connected to the AV acceptor device (such as TVs with speakers)

Simple Switching Operation - Local buttons or remotely connected contact-closure buttons for flexible user input selection and switching control

Cost-Effective Maintenance - Status LED indicators for HDMI ports facilitate easy local maintenance and troubleshooting. Local firmware upgrade ensures lasting, field-proven deployment

Easy Installation - Compact DigiTOOLS® fan-less enclosure for user-reachable table mounting, or side-by-side mounting of 3 units in a 1U rack space with the recommended rack adapter

kramer

Commercial Attenuators

AT Series, E408 Series

AT10 / AT35 / AT100 Series

AT10 / AT35 / AT100 Series Face Plate Options
Attenuators are available in Classic Stainless
or Decora(Decora available in Ivory or White)

E408-100

RM Series

Features

- Models Feature a Range of Attenuation Steps (1.5dB or 3dB Steps) as Well as Continuous to Meet Application and Budget Requirements
- Wall Plates are Stainless Steel with Stamped and Filled or Screen Printed Dial Scale, and a Skirted Black Knob (White and Ivory Plastic Plates with Matching Skirted Knobs Also Available in Decora Style-D Series Only)
- Popular Rack Mount Attenuator Versions are Available on the AT and E408 Series for Mounting on to Blank Panels in Equipment Cabinets
- All AT Models Mount into Most 1-Gang E.O. Boxes. (2¾" Deep)
- AT and E408 Series are UL Listed

General Description

AT Series Industry Standard Auto Transformer. High-quality auto transformer series provides the advantages of excellent frequency response, low insertion loss and reliable performance for volume control application in 25V/70.7V systems. Attenuation is accomplished in ten make before break steps plus positive Off position. (No stop between maximum and Off position to prevent switch damage). Contacts are silver plated for noise-free operation. Features a removable terminal block. Includes stainless steel plate, with stamped and filled or screen printed dial scale and a skirted black knob. (White and ivory plastic plates with matching skirted knobs also available in Decora style-see AT model description chart).

E408 Auto Transformer with Precision Level Control. Specially designed for attenuation in masking and sound reinforcement systems where fine tuning of level control is required. Employs a ten-position, non-shorting rotary switch without stop. Attenuation rate is 1.5dB per step. (All other specifications are the same as the AT Series including the UL listing).

PA Series Priority Paging Option. Priority paging feature by-passes the effect of the attenuator to provide program level selection of individual emergency and paging signals at the amplifier. Option is available on all AT attenuators. The SPDT relay is operated with 24VDC at 10mA. Includes protective relay cover to ensure lasting trouble-free performance. Terminations to the relay and attenuator are made via a removable terminal block. (All other specifications except for dimensions are the same as selected AT models).

RM Series Rack Mount Option. For attenuation convenience of rack-mounted equipment in cabinets and consoles, the AT, E408 Series attenuators are available without mounting plate for rack panel installation. Attractive matte black polycarbonate dial scale overlay with adhesive backing replaces the mounting plate. Includes skirted black knob. Overlay size is 29 square (51mm). (To order, simply add RM after the selected attenuator model number. Example: AT10-RM or AT10-PARM.) (Dial scale overlays to retrofit existing installations are available, see Model HX23.)

PRO 2 SERIES
FULL SUN 1000 NIT
OUTDOOR TV

STRONGER BRIGHTER BETTER

Made to be one of the brightest and most durable TVs on the market, the SunBrite Pro 2 provides the ultimate viewing experience in active and high-traffic areas. From its incredibly brilliant tempered glass display to its weatherproof frame, the Pro 2 gives you a sleek looking TV that can handle the harshest environments.

CREATE AN OUTDOOR
EXPERIENCE TODAY

SunBriteTV.com

Super-Bright 4K Ultra HD with HDR

With TruVisionPro anti-glare technology and 1000 NITS of 4K Ultra HD with HDR clarity, you get a brilliant display on the brightest days. Indoor TVs only provide 100-300 NITS, which makes clear outdoor viewing impossible.

Built for Active Environments

With an impact-resistant display and EST technology to guard against isotropic blackout, the Pro 2 is perfect for active environments, including high-traffic bars and amusement parks, rambunctious poolside patios, and more.

Permanent Outdoor Installation

Featuring a weatherproof aluminum frame that keeps the elements out, and a weatherproof media bay with an innovative cable entry system, the Pro 2 provides year-round entertaining that's independently certified for safe outdoor use.

The TV ShieldTM PRO

The Ultimate Indoor & Outdoor TV & Display Protection

Protective
Enclosures
CompanyTM

TOUCH SCREEN AVAILABLE! Enclosures for 40-85" TVs & Displays

PEC enclosures protect TVs & digital displays in 23,000+ residential & commercial locations in 38+ countries worldwide.

Weather Protection

Damage Protection

Theft Protection

Our professional series enclosures are the perfect solution for integrating a TV or digital display into almost any outdoor space.

Features:

- 4 size ranges for TVs/displays from 40 inches to an industry-first 85 inches
- 5 year warranty for guaranteed peace of mind
- PEC's proprietary "Quick InstallTM" System that saves time and money
- Protection equal to IP-55 standards (IP-65 equivalency for the available touch frame)
- Paintable powder coated steel backplate & lightweight aluminum housing
- Filtered ventilation system with thermostatically controlled fans
- All hardware & components are stainless steel or powder coated (using our advanced chemical pre-wash system) for ultimate durability against harsh threats like saltwater air
- Includes standard (no up-charge), shatter-resistant *anti-glare* front shields (which is much more durable than the safety glass used in other available enclosures)
- Front shield opens with hydraulic gas shocks for direct viewing & back input access
- One-of-a-kind patent-pending, proprietary, sleek, beveled "picture frame" design
- Internal full motion swivel mount with depth & height adjustment for perfect placement of screen & rear input accessibility
- Dual chambered key lock system for optimum protection (rather than a screw or padlock)
- Proprietary "ExactSealTM" Triple Sealing System for superior dirt & water intrusion prevention
- All ventilation & cable pass-through systems are protected against bug & water intrusion
- Interior space for installation & protection of cable boxes, media players, amplifiers, etc.
- Can be used with any external standard VESA mount (floor, ceiling, wall, pole, cart) & can be flush mounted against (not in) the wall (with professional installation & separate hardware)
- Built in 4 outlet commercial-grade power strip with 12 ft. cord (grounded to housing)
- Outdoor touch screen available - make any standard TV a weatherproof touch screen TV

Weatherproof TV & Display Enclosure

Fits 40-85" Televisions & Digital Monitors

The TV Shield PRO™ is a weatherproof, secure and robust "hybrid" enclosure made with a combination of lightweight aluminum and steel for ultimate strength and durability. Designed for use with any standard indoor TV or digital display, it is ideal for residential, commercial and professional markets. Developed for outdoor areas, The TV Shield PRO's proprietary "Quick Install™" system is faster to install and maintain than other metal enclosures and effortlessly opens with gas shocks for easy access to the display and rear inputs. The entire unit is secured with dual high strength chambered key locks and comes with a thermostatically controlled and filtered air circulation system. The TV Shield PRO™ professional-grade TV and display enclosure includes standard anti-glare polycarbonate protective front shields or ultra-clear polycarbonate is available (rather than safety glass) and has larger size options up to an industry-first 85 inch enclosure.

ROBUST - The TV Shield PRO's standard anti-glare cover (shield) is manufactured using shatter-resistant polycarbonate. The rear case is built using highly durable, powder coated, steel and lightweight aluminum. The TV Shield PRO™ also offers some of the largest digital display and TV case sizes on the market (custom sizes are available).

SLEEK - Imagine a Ferrari with the durability of a Tank. The TV Shield PRO™ boasts strength, usability and aesthetic taste (and can even be painted custom colors), making it the most desirable high-end metal TV and digital signage case available.

UNIVERSAL - With the ability to fit almost any standard indoor TV or display, The TV Shield PRO™ can accommodate units from 40 inches up to 85 inches. Our proprietary patent-pending design mounts using any universal VESA mounting system.

FUNCTIONAL - The TV Shield PRO™ props open with gas shocks, allowing for easy access to the inside of the case. Even more innovative, this enclosure features a full motion internal mount, which allows for quick access to the back of the TV or display and rear inputs for maintenance. Whether in the open or closed position, you can enjoy watching television on your outdoor patio, pool deck or any residential or commercial setting.

MADE IN THE USA - The TV Shield PRO™ enclosure was designed, engineered and is manufactured by King Precision Solutions, in the USA, from top quality materials.

LIMITED PRODUCT WARRANTY

- 5 Year Limited Warranty** on housing.
- 3 Year Limited Warranty** on polycarbonate front cover/shield.
- 2 Year Limited Warranty** on product failure or QC defects.

- Fits Most 40" to 50" Displays
- MAX INTERIOR DIMENSIONS: 45.95" W x 27.95" H x 3.94" D
- EXTERIOR DIMENSIONS: 49.01" W x 31.01" H x 7.75" D
- WEIGHT: 88 LBS

The TV Shield PRO™ 55-60" DIMENSIONS

- Fits Most 51" to 60" Displays
- MAX INTERIOR DIMENSIONS: 55.95" W x 33.95" H x 3.94" D
- EXTERIOR DIMENSIONS: 59.01" W x 37.01" H x 7.75" D
- WEIGHT: 108 LBS

The TV Shield PRO™ 65-70" DIMENSIONS

- Fits Most 61" to 70" Displays
- MAX INTERIOR DIMENSIONS: 63.95" W x 38.95" H x 3.94" D
- EXTERIOR DIMENSIONS: 67.01" W x 42.01" H x 7.75" D
- WEIGHT: 128 LBS

The TV Shield PRO™ 75-85" DIMENSIONS

- Fits Most 71" to 85" Displays
- MAX INTERIOR DIMENSIONS: 74.95" W x 44.95" H x 3.94" D
- EXTERIOR DIMENSIONS: 78.01" W x 48.01" H x 7.75" D
- WEIGHT: 152 LBS

** Sizes are based on the outer frame dimensions of the TV or display. Please measure the outside dimensions of the unit, or the planned model, and compare to the inside dimensions listed to verify the appropriate fit.*

AVARRO™

LARGE CEILING MOUNT

NX-SCM125

COMPLETE CEILING MOUNT FOR 37" -80" PANELS WEIGHING UP TO 125 LBS. THE NX-SCM125 IS AN IDEAL SOLUTION FOR SECURELY MOUNTING YOUR TV WITH UP TO 18 DEGREES OF TILT

SPECIFICATIONS:

- Fits 37"- 80" TVs up to 125lbs
- VESA 200 x 100 to 600 x 400 (W x H) (mm)
- Wire management with included pipe
- Tilt up to 18°
- Simple to install and use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

BOX DIMENSIONS:

PART#: NX-SCM125
UPC: 840049303195
LENGTH: 17.2"
WIDTH: 33.1"
HEIGHT: 4.2"
WEIGHT: 16.0 LBS

LARGE FULL MOTION MOUNT

NX-FML4390

TILT, PAN, SWIVEL AND PULL YOUR TV AWAY FROM THE WALL WITH THE NX-FML4390. IT FITS MOST 43"-90" UP TO 120LBS, IS EASY TO INSTALL AND HAS MANY GREAT FEATURES LIKE CABLE MANAGEMENT AND POST-INSTALLATION LEVELING.

SPECIFICATIONS:

- Fits 43"- 90" TVs up to 120lbs
- VESA 200 x 100 to 600 x 400 (W x H) (mm)
- Arm design provides ample throw and nests on wall
- Tilt, pan, and swivel for maximum viewing flexibility
- Extends 25" from wall when in use and retracts to 2.6" when not in use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

BOX DIMENSIONS:

PART#: NX-FML4390
UPC: 840049303164
LENGTH: 12.9"
WIDTH: 29.9"
HEIGHT: 4.2"
WEIGHT: 25.6 LBS

TV Signage UR340C9 Series

LG UHD Signage for Live TV & Promotional Messaging

4K Ultra HD Resolution

Slim Design

Non Wi-Fi
Non Bluetooth

Easy Management

UR340C9 Series

Sizes	86" / 75" / 65" / 55" / 50" / 43"
-------	-----------------------------------

Screen Resolution	3,840 x 2,160 (UHD)
-------------------	---------------------

Operation Time	16 Hours / 7 Days
----------------	-------------------

Brightness	330 nits (86"/75")
	400 nits (65"/55"/50")
	300 nits (43")

Built-in Speakers	10 W + 10 W
-------------------	-------------

Ultra HD Resolution Delivers Superb Picture Quality

Ultra HD resolution is four times FHD for content that is vivid and highly detailed. In addition, the UR340C series supports HDR10 to deliver more intense color reproduction and deeper black levels that can improve image contrast.

Elegant Slim Design

The space-saving UR340C series is thinner than LG conventional* models making installation a breeze. In addition, its sophisticated ashed blue color can enhance the décor of the environment in which it's installed.

* 'LG Conventional' refers to the LG US340C series.

Advanced Welcome Screen

To provide a more personalized and welcoming experience, the UR340C series welcome screen features a broader range of programmable greeting messages. And if no input signal is present, preset content can be displayed, avoiding the conventional "No Signal" message.

Customized Time Scheduler

The UR340C series features a time scheduler that allows you to program when the display is powered on to conserve power and extend product life.

Display Power Management Support

For more efficient power management, Display Power Management (DPM) can be configured to be powered on only when a TV signal is present.

USB Data Cloning

USB data cloning improves the efficiency of managing multiple displays by allowing you to transfer the data of one display to the other UR340C series displays using a USB drive.

* USB is not provided by LG. FAT32 or NTFS formatting is recommended.

Crestron Connected® Certified

For more efficient meeting management, the UR340C series has been certified by Crestron Connected®, providing seamless integration and automated control* in Crestron Connected® meeting rooms.

* Network-based control

LG's SuperSign* Makes Signage Control More Efficient

LG's SuperSign control software allows you to manage up to 100 displays through a single account and server, giving you remote control over power, volume. Firmware updates are also supported.

* LG SuperSign Control needs to be purchased separately.

White Lake, MI 48383-2938

Subject: Letter of Interest for Low Voltage Installation & Audiovisual Procurement for Department of Public Safety

To Whom It May Concern:

Thank you very much for the opportunity to submit Metro Detroit Integrated Systems' (MDIS) proposal for the Low Voltage Installation and Audiovisual Work for White Lake Charter Township's new Department of Public Safety building.

This letter serves as an unequivocal expression of MDIS's interest in performing the low voltage and audiovisual work outlined in Exhibits C and D of the RFP for the new Department of Public Safety building. We are truly honored by the opportunity to contribute to a facility that will serve as the backbone for White Lake Charter Township's Police and Fire Departments. These brave and selfless first responders are the cornerstone of the community's safety and well-being, and it would be a privilege to support their critical work by playing a part in this project.

MDIS affirms that we have thoroughly reviewed the designs and specifications set forth in the RFP and that we understand the scope, complexity, and technical requirements of this project. MDIS is wholly confident in our ability to execute the requested services efficiently and effectively for White Lake Charter Township. MDIS is fully committed to meeting all the requirements outlined in the RFP and assures you of our competency, skills, and extensive experience in similar projects.

Furthermore, MDIS makes the following certifications:

1. All information provided in our submission is true, accurate, and complete.
2. MDIS understands and accepts that White Lake Charter Township reserves the right to select the solution that best fits its needs, which may include selecting multiple vendors, a non-lowest bidder, or no vendor at all.
3. MDIS warrants that it has no conflicts of interest that would impede White Lake Charter Township's impartial selection process.

4. MDIS will not charge White Lake Charter Township any sales tax, acknowledging the Township's tax-exempt status, and will rely on receiving a certificate of tax exemption upon award.
5. MDIS shall provide White Lake Charter Township a complete one-year warranty covering all systems, equipment, and workmanship from the date of occupancy. MDIS stands fully behind the quality of its design, equipment, installation, configuration, and training services.
6. MDIS understands that the final product and all related materials will become the sole property of White Lake Charter Township.
7. MDIS will provide the required Certificates of Insurance (COIs) in compliance with White Lake Charter Township's specifications for this project.
8. MDIS shall indemnify, defend, and hold harmless White Lake Charter Township, its officials, employees, and agents from all claims, damages, or expenses arising from MDIS's performance of work under the contract. This indemnification is primary and in addition to any required insurance coverage.
9. MDIS will secure a Performance Bond to White Lake Charter Township covering the full project value, as additional assurance for our timely and complete execution of the work.
10. MDIS certifies that it is in full compliance with the Iran Sanctions Act (Michigan Public Act 517 of 2012). We confirm that neither MDIS nor any of its parent companies, subsidiaries, or affiliates are in any way affiliated with Iran.
11. MDIS affirms that the proposed compensation outlined in our submission is sufficient for us to execute all phases of the required services.
12. MDIS confirms that our proposals will remain valid for a period of six months from the RFP submission deadline.

MDIS is ready to provide clarifications, revisions, or additional information as needed. Should you have any questions during the evaluation of our proposal, please do not hesitate to reach out, and we will happily assist you however we can.

Thank you for the privilege of submitting our proposal and for considering MDIS for this important project. We are enthusiastic about the opportunity to contribute to White Lake Charter Township's new Department of Public Safety building and look forward to the prospect of working together.

Warm regards,

Eric W. Hubers & Alex M. Hubers

Subject: Introduction to Metro Detroit Integrated Systems, LLC

Metro Detroit Integrated Systems (MDIS) is a **full**-service low voltage and technology systems integration firm that is headquartered in Royal Oak, Michigan. MDIS specializes in the design, prewiring, installation, configuration, training, and support of advanced, turn-key low voltage systems for municipalities and other businesses.

Founded in 2013, for over 11 years, MDIS has partnered with municipalities and businesses to deliver reliable, high-quality solutions designed to meet both current and future needs. At MDIS, we are driven by a commitment to uncompromising excellence. Our philosophy is simple: do it right the first time. We take immense pride in our meticulous installations, utilizing only high-end, proven equipment to ensure every project meets the highest standards of reliability and performance. From keeping all wiring “*sexy*” and organized, to carefully planning for long-term serviceability and scalability, at MDIS we have a culture of going the extra mile to deliver systems that stand the test of time. These principles have made MDIS a trusted partner of over 1,000 municipal and business customers, and have earned us a reputation for being a strong, dependable, and forward-thinking low-voltage firm. When you work with MDIS, you’re not just getting a system for today’s needs—you’re aligning yourself with a partner that’s ready to grow and evolve with you.

MDIS’s Core Services Include:

- **Data and Fiber Optic Cabling:** Designing and installing large-scale structured cabling systems for robust and efficient network infrastructures.
- **Audiovisual Systems:** Implementing advanced audio and video solutions for conference rooms, live broadcasting, multi-room audio setups, and digital signage.
- **Automation and Control:** Providing custom automation solutions that simplify the control of complex environments.
- **Paging and Intercom Systems:** Installing reliable communication systems for seamless information dissemination.
- **Wi-Fi Networking:** Designing and deploying wireless networks for consistent, high-performance connectivity.

- **Access Control and Video Intercom Systems:** Enhancing security with advanced access control measures and intercom installations.
- **CCTV Surveillance:** Offering high-definition analog and IP camera systems with DVR/NVR recording and remote monitoring capabilities.

At MDIS, we manage all our installations in-house, maintaining a high level of control over project execution. Our team is comprised of 20 experienced professionals who approach every project with precision and dedication, whether it's data cabling, fiber optic pathways, advanced security solutions, or audiovisual systems. At MDIS, we have a strong company culture based on a belief that every detail matters, and our work reflects our passion for delivering lasting solutions that help communities and organizations thrive.

We are genuinely excited about the opportunity to bring our expertise to White Lake Charter Township's Civic Center projects. We are confident that our approach, paired with our proven track record, will help create two state-of-the-art facilities that will serve your community for many years to come.

Warm regards,

Eric W. Hubers & Alex M. Hubers

WORK PROGRAM

Metro Detroit Integrated Systems, LLC (DBA: MDIS, LLC)

4921 Leafdale Blvd.
Royal Oak, MI 48073

Thursday, November 14, 2024

White Lake Charter Township

7525 Highland Road
White Lake, MI 48383

Subject: Work Program for White Lake Department of Public Safety

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to present our comprehensive work program for the structured cabling, audiovisual, and paging system installation package at the White Lake Department of Public Safety building. This framework represents a tried-and-true approach that MDIS has successfully deployed in thousands of low voltage installations across government and commercial projects. We have tailored this plan specifically to align with the unique needs of your Department of Public Safety, ensuring a clear understanding of the timeframe, milestones, and phases to guide the project to completion.

Project Initiation (ASAP)

- **Performance Bond Conversion:** Upon notification of the award, MDIS will convert the bid bond into a performance bond.
- **Kickoff Meetings:** Conduct numerous internal and external meetings with stakeholders to align on project scope, deliverables, and expectations.
- **Sales Orders and Project Creation:** Initiate sales orders and establish project frameworks with design and coordination teams.

Planning Phase (2 Weeks)

- **Design and Coordination:** Develop connection diagrams, punch lists, rack drawings, labeling schemes, and IP schemes internally, and in collaboration with township representatives, architects, electrical contractors, and VC3.
- **Site Walkthroughs:** Conduct comprehensive walkthroughs to assess current conditions and finalize logistical plans.
- **Permitting:** Obtain all required permits prior to commencing work.

Procurement Phase (6-8 Weeks)

- **Equipment Review and Ordering:** Confirm compatibility and accuracy of all equipment, ensuring budget compliance and adherence to design specifications.

Standard items will be ordered within 1-2 weeks; specialized items may require up to 6-8 weeks.

- Warehousing and Staging: Stage equipment at MDIS's secure warehouse.

Rough-In Phase (3 Weeks)

- Site Preparation: Plan and install cabling pathways, cable trays, and equipment enclosures, coordinating closely with other trades to avoid conflicts.
- Grounding and Bonding: Install 6AWG grounding cables and jumpers to ensure optimal equipment performance and protection against power fluctuations.

Pre-Wiring and Termination (6-8 Weeks)

- Cabling & Pre-Wiring: Pull, label, and route low-voltage cables (e.g., data, control, power, bundled access control, speaker) from IDF/MDF areas to endpoints. MDIS will follow BICSI-compliant wiring standards and create a detailed cable ID scheme for maintenance and servicing.
- Cable Termination: Terminate Cat6 cabling in wall plates, keystone jacks, and patch panels, labeling both ends with vinyl ID tags for easy identification.
- Fiber Installation: Install, splice, and certify fiber optic cabling for speed, reliability, and scalability.

Equipment Installation (6-8 Weeks)

- Initial Equipment Installation: Install cable management systems, patch panels, wall plates, speakers, mounts, and equipment racks.
- Paging System: Install and configure the building-wide paging system, ensuring seamless integration with the communication infrastructure.
- Audiovisual Systems: Install high-value audiovisual equipment such as TVs, speakers, microphones, broadcasting cameras, and touch panels. Each device will be mounted, connected, and preliminarily tested.

Configuration and Testing (2 Weeks)

- System Configuration: Program and configure all systems to meet RFP requirements and ensure seamless integration.
- Testing: Conduct in-depth tests of all installed systems, verifying performance and quality. Any identified issues will be promptly addressed.

Certification, Documentation, and Handoff (2-3 Weeks)

- Certification Testing: Perform compliance testing for all cabling and systems, submitting results to secure a manufacturer lifetime cabling warranty.

- **As-Built Documentation:** Provide comprehensive as-built drawings, IP address logs, test results, and user manuals for client reference.
- **User Training:** Deliver training sessions to designated personnel so they can operate and maintain the systems confidently going forward.

MDIS Warranty (1 Year from Occupancy)

- **Workmanship Guarantee:** Provide a one-year warranty on all workmanship, with options for extended service agreements upon request.

We are enthusiastic about the opportunity to contribute to this project and are confident in our ability to deliver timely and quality results.

This timeline serves as a preliminary plan, providing a structured framework for how MDIS intends to execute the scope of work efficiently and effectively. While it reflects our current understanding of the project requirements, it is subject to adjustments based on construction progress, coordination with other trades, and unforeseen variables. MDIS remains committed to maintaining open communication with all stakeholders and will promptly address any necessary updates to ensure the project stays on track and aligned with White Lake Township's goals.

Should you require additional information or clarification, please do not hesitate to contact us.

Warm regards,

Eric W. Hubers & Alex M. Hubers

Subject: Key Personnel List for Charter Township of White Lake Civic Center Projects

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to provide a comprehensive list of key personnel who will oversee and execute the scope of work for this project. Our team is structured to ensure a seamless blend of leadership and technical execution.

While the individuals listed below represent the managers and team leads for the project, additional tradespersons will work under their direct supervision to perform manual labor-intensive tasks, such as cabling, mounting, and equipment installation. All tradespersons are trained in-house to uphold MDIS's rigorous standards and are closely supervised to ensure the highest quality of work.

Administrative Team:

Eric William Hubers

- **Role:** President & CEO, Principal
- **Experience:** 15+ Years
- **Employment Status:** Full Time
- **Education:**
 - Oakland University
 - Media Dynamics (2009, Toronto): Comprehensive training in AV system design, integration, and installation
- **Certifications:**
 - CEDIA Level II Technology Professional
 - MECP Certified

Alexander Michael Hubers, Esq.

- **Role:** CFO & CLO, Principal
- **Experience:** 7+ Years in Accounting, Legal, and Business Strategy
- **Employment Status:** Full Time
- **Education:**
 - Doctor of Law (JD), University of Michigan Law School
 - Bachelor of Business Administration (BBA), Accounting and Finance, University of Michigan - Stephen M. Ross School of Business

Jason W. Hanse

- **Role:** Sales - Account Manager
- **Experience:** 6+ Years
- **Employment Status:** Full Time
- **Education:**
 - Bachelors in Business Management, Calvin College

Jeffrey H. Robinson

- **Role:** General Manager (Purchasing, HR, Warehouse)
- **Experience:** 10+ Years
- **Employment Status:** Full Time
- **Education:**
 - Western Michigan University

Karyl Duffy

- **Role:** Accounting (Invoicing, Accounts Receivable, & Bookkeeping)
 - **Experience:** 29 Years
 - **Employment Status:** Full Time
 - **Education:**
 - Bachelor of Science in Business Accounting, University of Phoenix
-

Operations Team:**Aaron Gates**

- **Role:** Project Manager
- **Experience:** 9+ Years
- **Employment Status:** Full Time
- **Certifications:**
 - PMP Certification for Project Management
 - NetSuite Project Management Training
 - CEDIA Certified Level I
 - Panduit Certified Installer

Justin Van Hecker

- **Role:** Foreman
- **Experience:** 8+ Years
- **Employment Status:** Full Time
- **Certifications:**
 - Axis Certified Professional
 - CEDIA Certified Level I
 - BICSI Certified Installer
 - Panduit Certified Installer

Kevin Stansky

- **Role:** Sr. Lead AV Integrator/Programmer
- **Experience:** 6+ Years
- **Employment Status:** Full Time
- **Education:** Graduate of College for Creative Studies
- **Certifications:**
 - QSYS Certified Technician
 - Atlona Certified Technician

- Unifi Level III Advanced Training
- ClearOne DSP Certified
- Harman Audio Architect Specialist

Mason Waldrip

- **Role:** Sound Engineer / AV Integrator
- **Experience:** 2+ Years
- **Employment Status:** Full Time
- **Education:** BS in Audio Production & Technology, Michigan Technological University
- **Certifications:**
 - Dante Level 2 Certified
 - QSYS Certified Technician
 - Atlona Certified Technician
 - ClearOne DSP Certified
 - Harman Audio Architect Specialist
- **Expertise:** Sound system design, live sound, AutoCAD, and mixing

John Burnell III

- **Role:** Advanced Network Specialist & Support Specialist
- **Experience:** 5+ Years
- **Employment Status:** Full Time
- **Certifications:**
 - Unifi Level III Advanced Training
 - Avigilon Certified Professional
 - Axis Communications Certified Installer
 - ICT GX Certified Professional
 - Bosch Certified Professional

Blake Van Tiem

- **Role:** Installations Team Lead
- **Experience:** 4+ Years
- **Employment Status:** Full Time
- **Certifications:**
 - CEDIA Certified Level I
 - Axis Certified Professional

With the aforementioned team, MDIS will ensure that all tasks needed for the Charter Township of White Lake Civic Center Projects —both managerial and operations— are handled with precision and professionalism. Should you require any additional information or further clarification, please do not hesitate to reach out.

White Lake Charter Township

7525 Highland Road
White Lake, MI 48383

Subject: List of Client References for Charter Township of White Lake

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to provide a list of client references. Below, you'll find a list of a few of our clients and examples of MDIS's recently completed and ongoing government/municipality projects, highlighting our expertise in delivering comparable services. These projects showcase our firm's capabilities in providing innovative low-voltage solutions, including structured cabling, security/access control, paging/sound masking, digital signage, and complex audio-visual systems. They also demonstrate our ability to meet the unique needs of government and municipal clients through meticulous planning, professionalism, and the integration of cutting-edge technology. Included is a list of clients, a brief scope of work detailing services performed, total revenue of the projects, and points of contact.

CITY OF HAMTRAMCK

Project Dollar Amount: \$287,772.00

Project Completed: 2023

Services Provided: Multi-site CCTV, Access Control, Intercom, Jail Cell Monitoring, Cabling Projects, and Dispatch AV Installation.

MDIS has established itself as a reliable partner for the City of Hamtramck, offering a comprehensive range of services to enhance safety and security. In this project, MDIS installed over 70+ Axis Communications IP surveillance cameras at key locations such as Hamtramck City Hall, PD, Parks, Fire Department, and remote ballot box camera locations, ensuring thorough coverage and effective monitoring capabilities. The team also integrated a total of 43 Access Control Doors at multiple sites with cutting-edge IP access control and intercom solutions, enhancing security with secure entry systems, access control cards, and fobs. Additionally, MDIS successfully planned, subcontracted, and facilitated the installation of multiple motorized commercial gates, high-voltage electrical systems, concrete camera pole and pedestal installations, asphalt paving/repair, and directional boring, as required by our customers for these projects completed in 2023. This ensured the smooth facilitation of these challenging services on their behalf and seamless integration of these systems with our IP Access Control and

Card Readers/IP Intercom. Furthermore, MDIS executed installations of Cat 6 structured cabling projects to establish reliable infrastructure supporting various systems and operations. Demonstrating our commitment to meeting diverse needs, MDIS supplied and installed specialized equipment, including microphones, audio systems, on-air lights for broadcasting needs, and microphone toggle switch solutions for the Treasurer's Office. Furthermore, MDIS designed and implemented a unique jail cell monitoring alert system, incorporating Axis strobe lights, proximity sensors, and officer alerts to ensure regular inmate checks for their safety. These initiatives highlight MDIS's dedication to delivering innovative solutions tailored to the city's specific requirements.

CITY OF ECORSE

Project Dollar Amount: \$269,014.77

Project Completed: 2022

Services Provided: Multi-Site CCTV & Access Control, Intercom, License Plate Capture Cameras, Cat 6 Cabling & WiFi Upgrades, and Dispatch AV Installation.

MDIS successfully completed several major projects with the City of Ecorse during the latter part of the COVID-19 pandemic, navigating health and hygiene protocols while finishing projects under budget and ahead of schedule. MDIS provided a range of IP solutions to enhance safety and surveillance, including installing Axis CCTV Surveillance and access control systems at key city sites like City Hall, Court, PD, Fire, Library, Water Pump Sites, Parks & more. MDIS also implemented surveillance at Dingell Park, installed CCTV at Bernard Popp Park, and provided additional Axis Communications equipment licenses. Additional cameras were installed at the Senior & Community Center, Public Library, and boat ramp along the Detroit River bordering Canada, improving surveillance coverage. These solutions used a mix of on-premise and remote servers, existing network and fiber backbone, and wireless bridging technology. MDIS also assisted with structured cabling, uplink, and rack overhauls at multiple MDF and IDF locations in the building, adhering to local codes and minimizing disruptions to operations by closely collaborating with city staff. These efforts highlight MDIS's commitment to delivering innovative solutions tailored to the City of Ecorse's specific needs.

Address: 3869 W Jefferson Ave, Ecorse, MI 48229

CITY OF CENTER LINE

Project Dollar Amount: \$210,769.90

Project Completed: 2022

Services Provided: Live Broadcasting and Distributed AV System in Courtroom, Citywide CCTV, Access Control, Intercom, Jail Cell Monitoring, Cabling Projects, and Dispatch AV Installation.

MDIS collaborated with the City of Center Line on significant courtroom AV upgrades and distributed IP video setup and control. We installed multiple HD PTZ video conferencing cameras, Shure wired/wireless microphones with Shure antenna distribution systems for local speech reinforcement, beamforming ceiling-mounted microphones, commercial confidence monitors for courtroom staff to review case information and camera angles, Barco USB-C wireless casting, and an Atlona IP automation system. These systems are CLEMIS-compliant, recording audio and video for review and record-keeping, with MDIS providing setup instructions and training. This project enabled the City to continue operations and court cases during COVID-19, all within budget.

Additionally, MDIS collaborated with the City's Police Chief to design a comprehensive RFP for a city-wide IP video surveillance system. Awarded to MDIS, this project involved installing dozens of strategically placed IP cameras, fisheye cameras, multisensory cameras, and LPR cameras, feeding back to the City's PD and City Hall from various locations. The installation required WAN internet, wireless bridging, and the city's fiber backbone, necessitating planning and coordination of various tasks. Despite not being the cheapest option, MDIS won the bid because the city believed MDIS best met their needs and provided the best value. We are honored to continue working with Center Line as their AV and security needs evolve.

CHARTER TOWNSHIP OF REDFORD

Project Dollar Amount: \$634,078.85

Project Timeline: Started 2024 – Current (*Work In Progress*)

Services Provided: Axis Communications Security Cameras, ICT Protege Access Control, Alarm Systems, Panduit Structured Cabling, Unifi Enterprise Network, Harman Distributed Audio, Sharp NEC Display Solutions, and QSYS Control/Automation Solutions.

MDIS is proud to have been awarded the ‘entire low-voltage package’ for the new \$25 million Wellness and Community Center in Redford Township. This state-of-the-art facility will include basketball courts, an overhead mezzanine running track, gym areas, an auditorium, pools, and much more—becoming a key resource for the community.

MDIS is responsible for everything from the resale and warranty of all equipment to prewiring all low-voltage systems, physical installation, cabling, programming/configuration, and documentation. For this project, we’re installing 52 Axis Communications IP security cameras, 38 ICT Protege access control doors with electrified hinges and motorized commercial mortise door handles, a building-wide QSYS paging system, 600+ Cat6/6A data drops with Panduit structured cabling, APC Lithium UPS battery backup solutions, and Chatsworth racks, cabinets, and cable tray systems.

Additionally, MDIS is installing 25 Sharp NEC 4K 500-NIT commercial 24/7 displays on a mix of fixed, tilt, and articulating mounts throughout the building. These will serve as security camera viewing monitors, digital signage screens, displays for cable TV in fitness areas, and BYOD (Bring Your Own Device) entertainment in community rooms. The administrative meeting room areas will be set up with Microsoft Teams video conferencing systems to improve communication.

In total, we’re installing 86 commercial 70V speakers from JBL/Harman, including a variety of styles and colors to blend seamlessly with the building’s decor—ceiling, pendant, and line array models. These will power distributed audio-visual systems integrated with QSYS control and automation solutions. The auditorium will feature dual motorized projector screens, projectors, multiple pairs of line array speaker systems, and a QSYS automation system to control the entire complex, with a divisible space setup managed through touchscreens.

All of this work, except for the alarm system, is being handled in-house by MDIS’s skilled team. The alarm system for the building—covering panic buttons, motion sensors, and all doors and windows—is being installed by a trusted subcontractor, ensuring full compliance with the RFP.

The Charter Township of Redford has been a longstanding customer of MDIS. Over the past decade, we’ve successfully completed dozens of projects together at over 11 different sites. We’ve built a close, ongoing working relationship, consistently delivering innovative solutions that meet the township’s unique needs.

TIMEFRAME FLOW
CHART

Metro Detroit Integrated Systems, LLC (DBA: MDIS, LLC)
4921 Leafdale Blvd.
Royal Oak, MI 48073

Thursday, November 14, 2024

White Lake Charter Township
7525 Highland Road
White Lake, MI 48383

**Subject: Timeframe Flow Chart for Charter Township of White Lake
Department of Public Safety building**

To Whom It May Concern:

Metro Detroit Integrated Systems (MDIS) is pleased to present a tentative timeframe flow chart for the White Lake Township's Department of Public Safety project.

This Gantt chart provides an estimated project timeline, assuming a start date at the start of Q2 in 2025. It aligns with the "Work Program" section provided earlier and serves as a visual representation of the project's phases and milestones.

This timeline is subject to change based on potential delays from other trades or adjustments in the overall construction schedule. MDIS remains highly flexible and adaptable to ensure project success. If acceleration is required, we can allocate additional personnel to expedite specific phases. Conversely, if delays occur, our team is ready to pause and adjust, maintaining alignment with the larger construction effort.

PLEASE REFERENCE THE GAANT CHART ON THE FOLLOWING PAGE

As experienced professionals, MDIS is well-versed in working within general contracting frameworks and ensuring smooth coordination with other trades. We take pride in delivering quality work that integrates seamlessly into larger construction timelines.

If you have any questions, need further information, or require any adjustments, please don't hesitate to contact us. We are always happy to assist and ensure the project's success.

Warm regards,

Eric W. Hubers & Alex M. Hubers

(9) GROUNDING AND BONDING FOR COMMUNICATIONS SYSTEMS -
INSTALLATION

Category	Installation Description	Amount	Is Taxable
Installation	Conductor connections to the TMGB or TGB shall be made with two-hole bolt-on, double irreversible compression lugs sized to fit the busbar and the conductors. Each lug shall be attached with stainless steel hardware after preparing the bond according to manufacturer recommendations and treating the bonding surface on the busbar with antioxidant to help prevent corrosion at the bond. The wall-mount busbar shall be bonded to ground as part of the overall Telecommunications Bonding and Grounding System. MDIS to connect the TMGB to the building main ground using minimum of a #4 or larger insulated copper wire per the electrical diagram riser. MDIS to connect the TGB to the TER TMGB with a minimum of a #6 or larger insulated copper wire and to the electrical panel serving the room per the electrical diagram riser. MDIS will ground the cable runway to the TMGB using #6 or larger insulated copper wire. Abrade the finish on the cable runway where the ground wire is attached, and bond all cable runway junctions.	\$3,825.00	False

Subtotal: **\$3,825.00**

iv) POLICE DEPARTMENT PAGING SOLUTION (a) PAGING SYSTEM - INSTALLATION

Category	Installation Description	Amount	Is Taxable
Installation	MDIS to install a complete commercial paging system. The primary purpose of this system is to allow for the police department or other verified users to be able to page, play presets, and tie into emergency alert systems over the (8) wall-baffle speakers. MDIS will supply control equipment, signal generation & processing, amplification, speakers, cabling, software, as well as labor for system installation & configuration. The system will be driven by a 70 Volt amplifier; exact speaker placement will match the locations on the schematic drawing as marked. The control equipment will be installed within the designated IT room. MDIS to connect networkable equipment to MSP provided separate VLAN. All cabling and devices in plenum spaces will meet code requirements. All equipment will be installed in compliance with the manufacturer's recommendations. MDIS will provide training to White Lake Township staff on how to control the system and connect to it.	\$7,650.00	False

Subtotal: **\$7,650.00**

Terms & Conditions

Payment Terms

- See detailed document outlining [MDIS's Payment Terms - "The 50/50/50/50"](#)

Terms & Conditions

- Interest at 1.25% per month will be charged on overdue balances.
- 25% restock fee may apply.
- No returns on special order items.
- Additional add-ons will be billed as parts and labor @ \$150 hour.
- Quote sub components are interdependent and not severable without approval by MDIS.

Note to Recipient

- Please mail all payments to **4921 Leafdale Blvd. Royal Oak, MI 48073-1020**
- 3.5% Processing Fee will be added if paying by credit card.
- Thank you for choosing MDIS!

SECTION 8:
PAYMENT TERMS

MDIS Payment Terms - *“The 50/50/50/50”*

MDIS shall, as a condition precedent to its right to receive any payment, submit to the Charter Township of White Lake an application for payment along with all necessary receipts, vouchers, and other documentation to establish payment for labor and materials and to confirm the absence of any liens or other claims on the property, work, or funds related to the Work.

Required documentation may include:

1. MDIS’s sworn statement.
2. MDIS’s partial or final waiver of lien.

PAYMENT SHALL FOLLOW THE TERMS OUTLINED BELOW:

For **Equipment**:

- The **first 50%** of the total equipment cost shall be due upon contract execution. This deposit enables MDIS to procure and allocate the necessary materials to begin the project.
- The **final 50%** shall be due upon MDIS’s receipt of and secure storage of all equipment, supported by documentation such as proof of insurance, receipts, bills of lading, photographs, and other items necessary to confirm delivery and proper storage.

For **Labor**:

- The **first 50%** of the total labor cost shall be due thirty (30) days prior to the start of onsite installation.
- The **final 50%** shall be due upon project completion, which includes the successful resolution of any punch list items, delivery of as-built documentation, training provided to the owner, and receipt of the Owner’s written approval confirming system handoff.

FULL CREDIT FOR MDIS DESIGN SERVICES (IF APPLICABLE)

Clients who have purchased MDIS design services, will be eligible for **FULL 100% CREDIT FOR ALL DESIGN SERVICES RENDERED**, applied as a discount to their final invoice, if the project is awarded to MDIS.

CONDITIONS FOR PAYMENT:

Payment by the Charter Township of White Lake shall be contingent upon:

- Submission of required documentation, including lien waivers, as outlined above.
- Inspections conducted to verify the Work has been completed according to contract specifications.
- Approval of Work by the Owner.

Payments do not constitute a waiver of any defects or relieve MDIS from their obligation to correct defective Work. Issuance of the final payment does not waive the Township's rights to address any defects or incomplete Work discovered after payment.

The final payment for Work shall be made only after:

1. MDIS has fully performed all obligations under the contract.
2. All Work has been inspected and approved by the Charter Township of White Lake.
3. All required waivers and documentation have been submitted.

RIGHT TO WITHHOLD PAYMENTS:

The Charter Township of White Lake reserves the right to withhold any payment if reasonably necessary to address:

- Defective or non-conforming Work.
- Claims, liens, or disputes with subcontractors or third parties.
- Damage or liabilities caused by MDIS.
- MDIS's failure to meet contractual obligations.

Funds withheld may be applied to offset costs, damages, or liabilities incurred by the Township as a result of MDIS's actions or omissions.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**ADDITIONAL INSURED – OWNERS, LESSEES OR
CONTRACTORS – SCHEDULED PERSON OR
ORGANIZATION**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name of Person or Organization:

ANY PERSON OR ORGANIZATION THAT YOU ARE
REQUIRED TO ADD AS ADDITIONAL INSURED TO
THIS POLICY BY WRITTEN CONTRACT OR AGREEMENT

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

Who Is An Insured (Section II) is amended to include as an insured the person or organization shown in the Schedule, but only with respect to liability arising out of your ongoing operations performed for that insured.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED – OWNERS, LESSEES OR CONTRACTORS – COMPLETED OPERATIONS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location And Description Of Completed Operations
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED TO ADD AS ADD'L INS TO THIS POLICY BY WRITTEN CONTRACT OR AGRMT	
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. Section II – Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the Schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable Limits of Insurance shown in the Declarations;

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

CHANGES - AMENDMENT OF CANCELLATION PROVISIONS

This endorsement modifies insurance provided under the following:

Broad Form Named Insured	Included	3
Broad Form Property Damage	\$25,000 Per Occurrence	2
Broad Knowledge / Notice of Occurrence	Included	6
Damage To Premises Rented to You	\$300,000 Any One Premises	2
Incidental Medical Malpractice Liability	Included	6
Liberalization	Included	7
Medical and Dental Payments	\$10,000 Medical Expense Limit	2
Mental Anguish	Included	6
Mobile Equipment	Included	6
Newly Acquired Organizations	Included	3
Non-Owned Watercraft	51 feet	1
Personal Injury and Advertising Injury Redefined	Included	7
Property Damage Liability - Borrowed Equipment	\$25,000 Occurrence / \$50,000 Aggregate	3
Property Damage Liability - Elevator and Sidetrack Agreement	Included	2
Supplementary Payments Increased Limits		
Bail Bonds	\$2,500	2
Loss of Earnings per Day	\$1,000	2
Waiver of Transfer of Rights Of Recovery Against Others to Us	Included	6

The terms and conditions of this policy are amended as indicated below:

I. Non-Owned Watercraft

SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE, Exclusion **2.g.(2)** is revised as follows:

This exclusion does not apply to:

(2) A watercraft you do not own that is:

(a) Less than 51 feet long; and

(b) Not being used to carry persons or property for a charge;

This provision applies to any person, who with your expressed or implied consent, either uses or is responsible for the use of the watercraft.

This provision does not apply if the insured has any other insurance for "bodily injury" or "property damage" liability that would also be covered under this provision, whether the other insurance is primary, excess, contingent or on any other basis. In that case, this provision does not provide any insurance.

II. Damage To Premises Rented To You

Under **SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE**, the last paragraph of **2.** is deleted and replaced with the following:

Exclusions **c.** through **n.** do not apply to "Property Damage" to the premises while rented to you or temporarily occupied by you with permission of the owner. A separate Damage To Premises Rented To You Limit of Insurance applies to this coverage which is the greater of:

- a. The Damage To Premises Rented To You Limit for Each Occurrence shown in the Declarations; or
- b. \$300,000

Under **Section III - LIMITS OF INSURANCE**, paragraph **6.** does not apply.

III. Supplementary Payments

SECTION I - COVERAGES, SUPPLEMENTARY PAYMENTS - COVERAGES A & B, is revised as follows:

1. In paragraph **2.**, the limit of \$250 for bail bonds is increased to \$2,500.
2. In paragraph **4.**, the limit of \$250 for daily loss of earnings is increased to \$1,000.

IV. Medical And Dental Payments

Under **SECTION I - COVERAGES, COVERAGE C. MEDICAL PAYMENTS**, if **COVERAGE C. MEDICAL PAYMENTS**, is not otherwise excluded from this Coverage Part:

1. The Medical Payments Limit is changed to the greater of:
 - a. \$10,000; or
 - b. The Medical Expenses Limit shown in the Declarations of this Coverage Part.
2. The provision, in **C. 1.a.(2)** that the expenses must be incurred and reported to us within one year of the date of the accident, is increased to three years.

V. Broad Form Property Damage

Under **SECTION I - COVERAGE A**, Exclusion **2.j.** is amended as follows:

1. Paragraph **(3)** does not apply.
2. Paragraphs **(4)** and **(6)** do not apply to customer's property at your described premises.

We do not cover any property:

1. Subject to motor vehicle registration; or
2. While being used to perform construction operations.

Our limit for any one "occurrence" under this coverage provision is \$25,000.

The insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to the insured, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4.** Other Insurance is changed accordingly.

VI. Property Damage Liability - Elevators And Sidetrack Agreements

The following is added under **SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY**:

1. Exclusions **j. (3), (4)** and **(6)** do not apply to the use of elevators.
2. Exclusion **k.** does not apply to:
 - a. The use of elevators; or
 - b. Liability assumed under a sidetrack agreement.

The insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to the insured, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4. Other Insurance** is changed accordingly.

VII. Property Damage Liability - Borrowed Equipment

The following is added to Exclusion **j.** under **Coverage A.** (Section I):

Paragraph (4) of this exclusion does not apply to equipment which you borrow unless the "property damage" occurs while such equipment is being used by an insured at a job site.

Subject to all of the terms of **SECTION III - LIMITS OF INSURANCE**, the maximum limit in any one occurrence is \$25,000 and an annual aggregate of \$50,000.

This insurance afforded by reason of this provision is excess over any valid and collectible property insurance (including any deductible) available to you, and **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS 4**. Other Insurance is changed accordingly.

VIII. Broad Form Named Insured

The following is added under **SECTION II - WHO IS AN INSURED**:

- 1.e. An organization other than a partnership, joint venture or limited liability company, any of your subsidiary companies or any company over which you exercise control and actively manage and to which other insurance does not apply are an insured.

IX. Newly Acquired Organizations

Under **SECTION II - WHO IS AN INSURED, 4**, is deleted and replaced with the following:

1. If you are an organization other than a partnership, joint venture, or limited liability company, any organization you newly acquire or form over which you maintain ownership or majority interest, exercise control and actively manage and to which no other similar insurance is available is a named insured. However:
 - a. Coverage A does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and
 - b. Coverage B does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

X. Additional Insureds By Written Contract

A. SECTION II - WHO IS AN INSURED is amended to include as an additional insured any person or organization that you are required to add as an additional insured to this policy by a written contract or written agreement that is:

1. Currently in effect or becoming effective during the term of this policy; and
2. Executed prior to the "bodily injury", "property damage", "personal and advertising injury".

B. The insurance provided to the additional insured applies as follows:

1. That person or organization is only an additional insured with respect to liability caused by your negligent acts or omissions at or from:
 - (a) Premises you own, rent, lease, or occupy or
 - (b) Your ongoing operations performed for the additional insured at the job indicated by written contract or agreement.
2. The limits of insurance applicable to the additional insured are those specified in the written contract or agreement or in the Declarations of this policy whichever is less. These limits of insurance are inclusive of and not in addition to the limits shown in the Declarations.

C. Section IV - COMMERCIAL GENERAL LIABILITY CONDITIONS, under 4. other insurance, is amended as follows:

The following is added to this provision:

1. Regardless of whether other insurance is available to an additional insured on a primary basis, this insurance will be primary and noncontributory if a written contract between you and the additional insured specifically requires that this insurance is primary.

D. With respect to the insurance afforded these additional insureds, the following additional insured exclusion applies:

1. If the additional insured is an architect, engineer, or surveyor, this insurance does not apply to "bodily injury", "property damage", "personal and advertising injury" arising out of the rendering of or the failure to render any professional services by or for you, including:
 - (a) The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings, designs or specifications; or
 - (b) Supervisory, inspection, architectural or engineering activities.
2. The insurance afforded the additional insured does not apply to:
 - (a) "Bodily injury" or "property damage" occurring after:
 - (1) All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on the behalf of the additional insured(s) at the site of the covered operations has been completed; or
 - (2) That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than the contractor or subcontractor engaged in performing operations for a principal as part of the same project.

XI. Additional Insured - State or Political Subdivisions - Permits

The following is added to **SECTION II - WHO IS AN INSURED**:

1. Any state or political subdivision which has issued a permit to you, subject to the following provisions:
 - a. This insurance applies only with respect to operations performed by you or on your behalf for which the state, governmental agency or political subdivision has issued a permit or authorization.
 - b. This insurance does not apply to:
 - (1) "Bodily injury", "property damage", "personal and advertising injury" arising out of operations performed for the federal government, state or municipality; or
 - (2) "Bodily injury" or "property damage" included within the "products-completed operations hazard".

XII. Additional Insured - Managers Or Lessors of Premises

The following is added to **SECTION II - WHO IS AN INSURED**:

1. Any manager or lessor of premises shown in the Declarations is also an insured, but only with respect to liability arising out of the ownership, maintenance or use of that part of the premises leased to you and shown in the Declarations and subject to the following additional exclusions:

The following exclusions are added:

1. This insurance does not apply to:
 - a. Any "occurrence" which takes place after you cease to be a tenant in that premises.
 - b. Structural alterations, new construction or demolition operations performed by or on behalf of any manager or lessor of premises shown in the Declarations.

XIII. Additional Insured - Lessor of Leased Equipment

The following is added to **SECTION II - WHO IS AN INSURED**:

1. The person(s) or organization(s) who leases equipment to you for use in your business is also an insured, but only with respect to liability for "bodily injury", "property damage", "personal and advertising injury" caused, in whole or in part, by your maintenance, operation or use of equipment leased to you by such person(s) or organization(s).

With respect to the insurance afforded to these additional insureds, this insurance does not apply to any "occurrence" which takes place after the equipment lease expires.

XIV. Additional Insured - Broad Form Vendors

The following is added to **SECTION II - WHO IS AN INSURED**:

1. Any person(s) or organization(s) (referred to below as vendor) with whom you agreed, because of a written contract or agreement to provide insurance is also an additional insured, but only with respect to "bodily injury" or "property damage" arising out of "your products" which are distributed or sold in the regular course of a vendor's business, subject to the following additional exclusions:

- a. The insurance afforded the vendor does not apply to:
 - (1) "Bodily injury" or "property damage" for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that the vendor would have in the absence of the contract or agreement;
 - (2) Any express warranty unauthorized by you;
 - (3) Any physical or chemical change in the product made intentionally by the vendor;
 - (4) Repackaging, except when unpacked solely for the purpose of inspection; demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
 - (5) Any failure to make such inspections, adjustments, tests, or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
 - (6) Demonstration, installation, servicing or repair operations, except such operations performed at the vendor's premises in connection with the sale of the product.
 - (7) Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or
 - (8) "Bodily injury" or "property damage" arising out of the sole negligence of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf. However, this exclusion does not apply to:
 - (a) The exceptions contained in Sub-Paragraphs (4) or (6); or
 - (b) Such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products.
- b. This insurance does not apply to any insured person or organization, from whom you have acquired such products, or any ingredient, part or container, entering into, accompanying or containing such products.
- c. This provision does not apply to any vendor included as an insured by an endorsement issued by us and made part of the Coverage Part.
- d. This provision does not apply if "bodily injury" or "property damage" included within the "products-complete hazards" is excluded either by the provisions of the Coverage Part or by endorsement.

XV. Additional Insured - Volunteers

- A. Under **SECTION II - WHO IS AN INSURED** is amended to include as an insured any person(s) who are "volunteer worker(s)" for you only while performing duties related to the conduct of your business.

However, no "volunteer worker(s)" are insureds for:

- (1) "Bodily injury," "property damage," "personal and advertising injury" arising out of rendering or the failure to render professional services by a "volunteer worker".
 - (2) "Bodily injury", "personal and advertising injury":
 - (a) To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a "employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to other "volunteer worker(s)" while performing duties related to the conduct of your business;
 - (b) To the spouse, child, parent, brother or sister of that "employee" or "volunteer worker" as a consequence of paragraph (2)(a) above; or
 - (c) For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraphs (2)(a) or (b) above.
 - (3) "Property damage" to property:
 - (a) Owned, occupied or used by,
 - (b) Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by you, any of your "employees", "volunteer workers", any partner or member (if you are a partnership or joint venture), any member (if you are a limited liability company).
- B. Exclusion 2. a. of Coverage C (Section I) is replaced by the following:
 - 2. a. To any insured, except "volunteer workers".

- C. "Volunteer worker(s)" means a person(s) who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

XVI. Incidental Medical Malpractice Liability

SECTION II - WHO IS AN INSURED is amended to add the following paragraph:

However, Part **2.a.(1)(d)** does not apply to employed nurses or other employees, excluding physicians or medical doctors, who provide incidental health care services within the scope of their employment by you.

XVII. Broad Knowledge/Notice Of Occurrence

The following is added under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**:

The requirement in condition **2.a.** that you must see to it that we are notified of an "occurrence" or offense applies only when the "occurrence" or offense is known to:

1. You, if you are an individual;
2. A partner, if you are a partnership;
3. A member, if you are a joint venture;
4. An "Executive Officer" or insurance manager, if you are a corporation; or
5. A member, if you are a limited liability company.

The requirement in condition **2.b.** that you must see to it that we receive notice of a claim or "suit" will not be considered breached unless the breach occurs after such claim or "suit" is known to:

1. You, if you are an individual;
2. A partner, if you are a partnership;
3. A member, if you are a joint venture;
4. An "Executive Officer" or insurance manager, if you are a corporation; or
5. A member, if you are a limited liability company.

If you report an accident to your Workers' Compensation insurance carrier which later develops into a liability occurrence, coverage for which is provided by this policy, failure to report such occurrence to us at the time of the accident shall not be a violation of the notification of loss condition in this policy (**Condition 2. in Section IV**). It is understood and agreed, however, that you shall give notification of such occurrence to us as soon as you are made aware of the fact that the particular accident has developed into a liability claim.

XVIII. Waiver Of Transfer Of Rights Of Recovery Against Others To Us

Under **SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS**, the paragraph **8. Transfer of Rights of Recovery Against Others To Us** condition is amended by the addition of the following:

We waive any right of recovery we may have against a person or organization because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under a contract with that person or organization and include in the "products - completed operations hazard" when you have waived such right of recovery under a written contract with that person or organization. Such written contract must be:

1. Currently in effect or becoming effective during the term of this policy; and
2. Executed prior to the "bodily injury", "property damage", "personal and advertising injury"; or
3. Executed after "bodily injury", "property damage", "personal and advertising injury" if:
 - a. The terms and conditions of the written contract or written agreement had been agreed upon prior to the "bodily injury", "property damage", "personal and advertising injury"; and
 - b. The insured can definitively establish that the terms and conditions of the written contract or written agreement ultimately executed are the same as those which had been agreed upon prior to the "bodily injury", "property damage", "personal and advertising injury".

XIX. Mental Anguish

The definition of "bodily injury" in **SECTION V - DEFINITIONS** is replaced by the following:

3. "Bodily injury" means bodily injury, sickness or disease sustained by a person, including mental anguish or death resulting from any of these at any time.

XX. Mobile Equipment

The following is added under **SECTION V - DEFINITIONS, 12. "Mobile Equipment"**:

Paragraph **f.(1)** does not apply to self-propelled vehicles of less than 1,000 pounds gross vehicle weight.

XXI. Personal and Advertising Injury

SECTION V - DEFINITIONS, "Personal and advertising injury" **d.** & **e.** are deleted and replaced by the following:

- d.** Oral or written publication, in any manner, of material that slanders or libels a person or organization or disparages a person's or organization's goods, products or services;
- e.** Oral or written publication, in any manner, of material that violates a person's right of privacy;

XXII. Liberalization

With respect to coverage provided by this endorsement, if we adopt any revisions that would broaden the coverage under this endorsement without additional premium, the broadened coverage will apply to this policy. It will apply when the change becomes effective in your state.

All policy provisions not in conflict with this endorsement shall continue to apply. This endorsement is a valid part of the policy when the form number is shown on the declarations.

SECTION 10:

BID BOND

Bond No. N/A

BID BOND
The American Institute of Architects,
AIA Document No. A310 (February, 1970 Edition)

KNOW ALL MEN BY THESE PRESENTS, that we Metro Detroit Integrated Systems, LLC
4921 Leafdale Blvd.
Royal Oak, MI 48073

as Principal hereinafter called the Principal, and Old Republic Insurance Company
a corporation duly organized under the laws of the state of Pennsylvania as Surety, hereinafter called the Surety,
are held and firmly bound unto White Lake Township
7525 Highland Road
White Lake, MI 48383

as Obligee, hereinafter called the Obligee, in the sum of Five Percent of the Attached Bid*****

Dollars (\$ 5% of attached bid***), for the payment of which sum well and truly to be made, the said Principal and the said Surety, bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has submitted a bid for White Lake Public Safety Building
Low Voltage: Data/Fiber Cabling & Audio-Visual Services

NOW, THEREFORE, if the Obligee shall accept the bid of the Principal and the Principal shall enter into a Contract with the Obligee in accordance with the terms of such bid, and give such bond or bonds as may be specified in the bidding or Contract Documents with good and sufficient surety for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or in the event of the failure of the Principal to enter such Contract and give such bond or bonds, if the Principal shall pay to the Obligee the difference not to exceed the penalty hereof between the amount specified in said bid and such larger amount for which the Obligee may in good faith contract with another party to perform the Work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect.

Attorney-in-Fact

OLD REPUBLIC INSURANCE COMPANY

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That OLD REPUBLIC INSURANCE COMPANY, a Pennsylvania stock insurance corporation, does make, constitute and appoint:

BARRY W. BERMAN CHERYL HUGHES

of NOVI, MI

its true and lawful Attorney(s)-in-Fact, with full power and authority for and on behalf of the Company as surety, to execute and deliver and affix the seal of the Company thereto (if a seal is required), bonds, undertakings, recognizances or other written obligations in the nature thereof, (other than self-insurance workers compensation bonds guaranteeing payment of benefits, or black lung bonds), as follows:

ALL WRITTEN INSTRUMENTS

and to bind OLD REPUBLIC INSURANCE COMPANY thereby, and all of the acts of said Attorneys-in-Fact, pursuant to these presents, are ratified and confirmed. This appointment is made under and by authority of the board of directors at a meeting held on December 10, 2019. This Power of Attorney is signed and sealed by facsimile under and by the authority of the following resolutions adopted by the board of directors of the OLD REPUBLIC INSURANCE COMPANY on December 10, 2019.

RESOLVED FURTHER, that the chairman, president or any vice president of the Company's surety division, in conjunction with the secretary or any assistant secretary of the Company, be and hereby are authorized and directed to execute and deliver, to such persons as such officers of the Company may deem appropriate, Powers of Attorney in the form presented to and attached to the minutes of this meeting, authorizing such persons to execute and deliver and affix the seal of the Company to bonds, undertakings, recognizances, and suretyship obligations of all kinds, other than bail bonds, bank depository bonds, mortgage deficiency bonds, mortgage guaranty bonds, guarantees of installment paper and not guaranty bonds. The said officers may revoke any Power of Attorney previously granted to any such person.

RESOLVED FURTHER that any bond, undertaking, recognizance, or suretyship obligation shall be valid and binding upon the Company

- (i) when signed by chairmen, president or any vice president of the Company's surety division and attested and sealed (if a seal be required) by any secretary or assistant secretary; or
- (ii) when signed by a duly authorized Attorney-in-Fact and sealed with the seal of the Company (if a seal be required).

RESOLVED FURTHER, that the signature of any officer designated above, and the seal of the Company, may be affixed by facsimile to any Power of Attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually affixed.

IN WITNESS WHEREOF, OLD REPUBLIC INSURANCE COMPANY has caused these presents to be signed by its proper officer, and its corporate seal to be affixed this 3rd day of October, 2023

Karen J. Haffner
Assistant Secretary

OLD REPUBLIC INSURANCE COMPANY

Alan Pavlic
Vice President

STATE OF WISCONSIN, COUNTY OF WAUKESHA - SS

On this 3rd day of October, 2023, personally came before me, Alan Pavlic and Karen J. Haffner, to me known to be the individuals and officers of the OLD REPUBLIC INSURANCE COMPANY who executed the above instrument, and they each acknowledged the execution of the same, and being by me duly sworn, did severally depose and say: that they are the said officers of the corporation aforesaid, and that the seal affixed to the above instrument is the seal of the corporation, and that said corporate seal and their signatures as such officers were duly affixed and subscribed to the said instrument by the authority of the board of directors of said organization.

Kathryn R. Pearson
Notary Public

My Commission Expires: September 28, 2026

(Expiration of notary's commission does not invalidate this instrument)

CERTIFICATE

I, the undersigned, assistant secretary of the OLD REPUBLIC INSURANCE COMPANY, a Pennsylvania corporation, CERTIFY that the foregoing and attached Power of Attorney remains in full force and has not been revoked; and furthermore, that the Resolutions of the board of directors set forth in the Power of Attorney, are now in force.

SECTION 11:
PRODUCT
DATASHEETS

specifications

FlexFusion Cabinets shall consist of a welded and assembled steel frame construction available in 600mm, 700mm, and 800mm widths, 1070mm and 1200mm depths and 42 RU, 45 RU, 48 RU, and 52 RU heights. The top of cabinet shall be available with either molded edge protection and snap-in covers for CoolBoot® Grommet Cable Seal or brush cable seal and rear lift-up lid for PDU cable lay-in. Fully adjustable front and rear cage nut equipment rails. Available options includes front single hinged door and rear split-hinged doors with 80% open perforation, horizontally split side panels, cable management fingers, vertical cable manager bracket, PDU mounting bracket and casters. The entire cabinet shall be electrically bonded without the use of bonding wires. Cabinet shall have a 1591kg (3500 lbs.) static load rating and 1136kg (2500 lbs.) rolling load rating.

technical information

Available cabinet sizes:	Height	42, 45, 48, or 52 RU
	Width (mm)	600, 700, or 800
	Depth (mm)	1070 or 1200
Material:	Steel with durable Black or White polyester epoxy powder coat finish	
Compliance:	EIA/ECA-310-E, TIA/EIA-942, UL2416	
Packaging:	Cabinets ships assembled, one per pallet	

key features and benefits

Performance	Best-in-class static load rating of 3,500 lbs. and 2,500 lbs. rolling load is the result of a sturdy and robust cabinet design that safely allows housing of heavier and high-density equipment. 80% open perforated doors assures maximum airflow thru the cabinet for high thermal application.
Rapid Deployment	Easy to adjust equipment rails with choice of time saving tool-less or standard hardware fastener, tool-less vertical cable manager bracket, and tool-less top cap rear entry allows for a faster cabinet installation time than other cabinets
Versatility	Cabinet is available in wide range of sizes and options for hot aisle/cold aisle or thermal containment deployment
Scalability	Configure to order platform to achieve the cabinet to your specification and save time and reduce Capex in your network deployment
Bonding	Cabinets and accessories are integrally bonded without the use of grounding wires to provide a safe and reliable network while reducing installation costs
Durable coating	Cabinets are powder coated in a durable, low maintenance polyester epoxy paint available in Black (RAL9005) or White (RAL9003)

applications

FlexFusion Cabinets are ideal for network or server equipment that provides maximum flexibility and the capacity to manage high cable density in data center, enterprise or co-location deployment. Safely

houses 19" rack mount IT equipment in an indoor environment, provides extensive cable management options and thermal efficient cabinet.

cabinet options

Features	Options to Choose From
Equipment Rails (cage nut)	Tool-less or hardware fastener
Top Cap Seal	Brush Seal or CoolBoot® Cover

accessories

Replacement Door				
Series	Type	Width	Height	Color
XG-DR	SH = Single Hinged Perforated SP = Split-Hinged Perforated	6 = 600mm	42 = 42 RU	B = Black W = White
		7 = 700mm	45 = 45 RU	
		8 = 800mm	48 = 48 RU	
			52 = 52 RU	

Examples:

XG-DRSH642W is a single door kit for 600mm wide, 42 RU, White cabinet.

XG-DRSH845B is a single door kit for 800mm wide, 45 RU, Black cabinet.

XG-DRSP845B is a split-hinged door kit for 800mm wide, 45 RU, Black cabinet.

Side Panels				
Series	Type	Height	Depth	Color
XG-SP	FS = Full Set, 1 side	42 = 42 RU	1 = 1070mm 2 = 1200mm	B = Black W = White
		45 = 45 RU		
		48 = 48 RU		
		52 = 52 RU		

Examples:

XG-SPFS421W is a side panel kit for 42 RU, 1070mm deep, White cabinet.

XG-SPFS452B is a side panel kit for 45 RU, 1200mm deep, Black cabinet.

XG-SPFS482W is a side panel kit for 48 RU, 1200mm deep, White cabinet.

PDU Mounting Bracket		
Part Number	Color	
XG-PBRB	B = Black	
XG-PBRW	W = White	

Vertical Cable Management Panel			
Series	Height	Color	
XG-VCM	42 = 42 RU	B = Black W = White	
	45 = 45 RU		
	48 = 48 RU		
	52 = 52 RU		

Examples:

XG-VCM42B is a vertical cable management panel for 42 RU, Black cabinet.

XG-VCM45B is a vertical cable management panel for 45 RU, Black cabinet.

XG-VCM48W is a vertical cable management panel for 48 RU, White cabinet.

Cable Management Finger				
Series	Length	Cabinet Height	Color	
XG-FM	S = Short (4 in.) L = Long (6 in.)	45 = 42 and 45 RU	B = Black W = White	
		48 = 48 RU		
		52 = 52 RU		

Examples:

XG-FMS45B is a cable management finger kit for 42 RU and 45 RU, 4 in. long, Black color.

XG-FML45B is a cable management finger kit for 42 RU and 45 RU, 6 in. long, Black color.

XG-FML48W is a cable management finger kit for 48 RU, 6 in. long, White color.

Air Dam Seal Kit			
Series	Width	Color	
XG-ADS	6 = 600mm	B = Black W = White	
	7 = 700mm		
	8 = 800mm		

Examples:

XG-ADS7W is a air dam seal kit for 700mm wide, White color cabinet.

XG-ADS8B is a air dam seal kit for 800mm wide, Black color cabinet.

Front to Back Cable Management Trough		
Part Number	Color	
XG-FTBB	B = Black	
XG-FTBW	W = White	

This kit is for either 700 or 800mm wide cabinets.

FlexFusion™ Cabinets

All cabinets include:

- Adjustable front and rear equipment rails
- Rail position markers
- Heavy-duty leveling legs
- Ganging brackets
- Standard floor mounting brackets
- 25 each M6 cage nuts and screws

cabinet dimensions

Dimension A	Dimension B	Dimension C*	Dimension D
1070mm (42.0")	1104mm (43.5")	42 RU - 2022mm (79.6")	600mm (23.6")
1200mm (48.0")	1254mm (49.4")	45 RU - 2157mm (84.9")	700mm (27.5")
		48 RU - 2289mm (90.1")	800mm (31.4")
		52 RU - 2443mm (96.2")	

*Cabinet height includes caster. Height of cabinet without caster and leveling legs fully retracted is 24mm (0.94") less.

**Casters are not included on 52 RU height cabinets. 52 RU height dimensions is without caster.

2-Post Standard Equipment Rack

specifications

The data equipment rack shall meet EIA-310E standards and be constructed of extruded aluminum or steel capable of accepting 19" wide EIA equipment. The telecommunications rack shall be constructed of extruded aluminum and capable of accepting 23" wide telecommunications equipment. Rack construction method shall ensure an electrically-bonded structure for ease of grounding. The 3" channel rack shall be UL listed for 1000 lbs. load rating and the 6" channel rack shall be UL listed for 1500 lbs. load rating. The equipment mounting rails shall be double-sided #12-24 EIA universal mounting hole spacing. The equipment mounting rails shall include printed rack space identification on the front and back and be numbered up. The channel of the rack shall be capable of mounting NetRunner™ or PatchRunner™ 2 Vertical Cable Managers. 24 #12-24 mounting screws shall be included with the rack.

technical information

Dimension:		Part Number	RU	Height In. (mm)	Width In. (mm)	Depth In. (mm)
		R2P^	45	84.0 (2134)	20.3 (514)	3.0 (76)
		R2P48	24	48.0 (1219)	20.3 (514)	3.0 (76)

		R2P6S96	52	96.1 (2441)	20.3 (514)	6.0 (152)

Packaging: Includes right and left mounting rack channels, top and bottom brackets, assembly hardware with paint piercing washers and anti-oxidizing paste for complete rack bonding

key features and benefits

Rack spaces:	The 8' rack with 52 RUs allows more equipment in the same footprint to maximize real estate for lowest cost of ownership
Extruded aluminum construction:	Designed to be lightweight and durable for easier deployment and reduced transportation costs; UL listed for 1000 lbs.
Heavy duty steel construction:	6" channel rack designed for higher weight capacity for large equipment; UL listed for 1500 lbs.
Printed rack space identification:	Allows for quick location of rack mounted equipment for faster installation and less rework; see individual customer drawings for specific rack RU numbering
Paint piercing washers:	Fully electrically bonds rack components to simplify grounding process for improved network reliability
Double-sided #12-24 mounting holes:	Provides ability to mount equipment on both sides of the rack channel for improved system flexibility
Multiple mounting hole locations:	Provides flexibility to mount to floor using any of three hole locations. Note: Utilizing holes closest to the vertical uprights will minimize deflection
J-bolt accessibility:	J-bolt can be attached to top bracket without violating top RU space for added stability

applications

2-Post standard equipment rack provides a reliable foundation for mounting telecommunication and data center equipment. The rack can be used to manage high performance copper and fiber patch cables. This modular rack system is compatible with horizontal and vertical cable managers. The 2-Post standard equipment rack is part of a complete rack and cable management system that manages, protects, and showcases your network investment.

GenSPEED® 6 Category 6 Cable

Standards-Compliant Extended Frequency

Features and Benefits

- Unique separator design engineered for consistent electrical performance
- Performance guaranteed to 350 MHz
- TRU-Mark® print legend contains footage markings from 1000' to 0'
- Third-party verified for guaranteed performance
- Made in U.S.A.

Applications

- IEEE 802.3: 1000 BASE-T, 100 BASE-TX, 10 BASE-T, PoE, PoE+
- ANSI/TIA 854: 1000 BASE-TX
- CDDI, Token Ring, ATM
- Digital Video
- Broadband and Baseband Analog Video

Standard Compliances

- ANSI/TIA 568-C.2
- NEC/CEC Type CMR (UL 1666) for Non-Plenum
- NEC/CEC Type CMP (NFPA 262) for Plenum
- UL 444
- RoHS Compliant Directive 2011/65/EU
- ANSI/TIA 862 (Building Automation)
- ICEA S-116-732
- ICEA S-102-700
- ISO/IEC 11801 Ed. 2.0 (Class E)

CONSTRUCTION

Conductors

- 23 AWG solid bare annealed copper

Insulation

- Non-Plenum: Polyolefin
- Plenum: Fluoropolymer

Color Code

- Pair 1: Blue-White/Blue
- Pair 2: Orange-White/Orange
- Pair 3: Green-White/Green
- Pair 4: Brown-White/Brown

Separator

- Divider

Rip Cord

- Applied longitudinally under jacket

Jacket

- Non-Plenum: Flame-Retardant PVC
- Plenum: Low-Smoke, Flame-Retardant PVC

PHYSICAL DATA

	CMR (Non-Plenum)	CMP (Plenum)

NetKey® Category 6 Punchdown Jack Modules

SPECIFICATIONS

Category 6/Class E, 8-position keystone jack module terminates unshielded twisted 4-pair, 22 – 26 AWG, 100 ohm cable. Punchdown tool properly terminates each conductor for optimum performance. Universal label is color coded T568A and T568B wiring schemes.

TECHNICAL INFORMATION

Category 6/Class E channel and component performance:	Exceeds ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E channel requirements at swept frequencies up to 250 MHz Exceeds ANSI/TIA-568.2-D and ISO 11801 Category 6 component requirements at swept frequencies up to 250 MHz
FCC and ANSI compliance:	Meets ANSI/TIA-1096-A; contacts plated with 50 microinches of gold for superior performance
IEC compliance:	Meets IEC 60603-7 and IEC 60512-99-002
PoE and PoH compliance:	Meets IEEE 802.3af/802.3at and 802.3bt type 3 and type 4 Supports Power over HDBaseT up to 100 watts
c(UL)us Listed:	UL 1863 (Use as communications circuit accessory); CSA standard C22.2 UL 2043 (Suitable for use in air-handling spaces)
Operating temperature:	14°F to 167°F (-10°C to 75°C)
RoHS compliance:	Compliant

KEY FEATURES AND BENEFITS

100% performance tested:	Confidence that each jack module delivers the specified performance
110 style punchdown termination:	Utilizes industry standard termination style and includes a wire retention cap
Modular:	Universal keystone jack modules snap in and out of all NetKey Faceplates, Modular Patch Panels, and Surface Mount Boxes for fast moves, adds, and changes
Individually serialized:	Marked with quality control number for traceability
Bulk packaging (optional):	25 jacks packaged in one easy to open container, eliminating the time to open each individual package and reducing on-site waste; ideal for high volume installations

APPLICATIONS

Applications include:

- Ethernet 10BASE-T, 100BASE-T (Fast Ethernet), and 1000BASE-T (Gigabit Ethernet)
- Voice over Internet Protocol (VoIP)

TX6™ Performance 28 AWG UTP Patch Cords

SPECIFICATIONS

Category 6/Class E, UTP, small diameter patch cords shall be constructed of 28 AWG, unshielded, twisted pair, stranded copper (dual-rated CM/LSZH) cable with high performance RJ45 modular plugs. Patch cords shall be offered in multiple lengths and colors for design flexibility.

TECHNICAL INFORMATION

Category 6/Class E channel and component performance:	Exceeds all ANSI/TIA-568V.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz \diamond Note: 28 AWG patch cords have attenuation de-rating value of 1.9. Supports 96 meter channels that include 90 meter permanent links. Supports 93 meter channels with 10 meters of patch cords included in the channel
FCC and ANSI compliance:	Meets ANSI/TIA-1096-A (formerly FCC Part 68)
IEC compliance:	Meets IEC 60603-7
PoE compliance:	Supports IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications
c(UL)us compliance:	UL 1863 and CAN/CSA-C22.2 (UL File E129886)
RoHS compliance:	Compliant
Cable diameter:	0.15 in. (3.8mm) nominal
Operating temperature:	14°F-167°F (-10°C-75°C)
Storage temperature:	-40°F-158°F (-40°C-70°C)
Plug housing:	UL94V-0 rated clear Polycarbonate
Contacts:	Gold plated phosphor bronze: contacts plated with 50 microinches of gold for superior performance
Flammability rating:	CM/LSZH dual-rated

KEY FEATURES AND BENEFITS

100% Performance tested for wire map, NEXT, and return loss:	Confidence that each patch cord delivers critical electrical component-level performance. Centered de-embedded plug performs in center of ANSI/ TIA-568.2-D Category 5e component range, ensuring interoperability and optimum performance
Smaller diameter, flexible cable design:	Tight bend radius enables improved cable routing and management in high density applications. Smaller cable diameter allows twice the number of cords to be routed through cable managers and pathways compared to traditional Category 5e patch cords. Reduced cable diameter facilitates improved air flow, cooling, resulting in lower operating costs than traditional Category 5e patch cords
Integral pair manager:	Immediate compatibility with the most common Mini-Com UTP and shielded jacks
Patented tangle-free latch:	Prevents snags and provides easy release, saving time on frequent moves, adds, and changes
Robust construction:	Plug contact plated with 50 microinches of gold and rated to 2500 mating cycles
Flexible stranded cable:	U/UTP stranded 28 AWG copper cable with a nominal diameter of 0.149 in. (3.8mm) allows for high density installations and superior panel cable management

Category 6 28 AWG Patch Cords

Feet lengths:	UTP28SP [^] [^]
Meter lengths:	UTP28SP ^{**} M [^]
Inches lengths:	UTP28SP ^{***} [^]

^{*}Foot lengths: 1 - 50 feet (every 1 foot)
55 - 130 feet (every 5 feet)

^{**}Meter lengths: 0.5 - 10 meters (every 0.5 meters)
11 - 20 meters (every 1 meters)
15 - 40 meters (every 5 meters)

^{***}Inch lengths: 6 and 8 inches
[^]Colors other than Off White: BU (Blue), BL (Black), GR (Green), RD (Red), OR (Orange), YL (Yellow), GY (Gray), or VL (Violet)

\diamond Lengths 1 meter to 15 meters or 6 inches to 49 feet are guaranteed to meet TIA and ISO component and channel requirements. Lengths greater than 15 meters or 49 feet are guaranteed to meet ISO component and both TIA and ISO channel requirements.

TX6™ Performance 28 AWG UTP Patch Cords are pre-labeled with the RapidID™ Network Mapping System to enable faster tracing, placing, and network documentation.

Learn more: www.panduit.com/rapid-id

All listed part numbers are compliant with the U.S. Trade Agreements Act (TAA) for purchases shipped to customers in the United States.

TX6™ Performance 28 AWG UTP Patch Cords

APPLICATIONS

Category 6 Performance 28 AWG UTP Patch Cords support the following applications:

- 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet)
- 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM
- Digital video and broadband/baseband analog video
- Voice/data systems
- Voice over Internet Protocol (VoIP)

LMR[®]-400 Flexible Low Loss Communications Coax

Ideal for...

- Drop-in replacement for RG-8/9913 Air-Dielectric type Cable
- Jumper Assemblies in Wireless Communications Systems
- Short Antenna Feeder runs
- Any application (e.g. WLL, GPS, LMR, WLAN, WISP, WiMax, SCADA, Mobile Antennas) requiring an easily routed, low loss RF cable
- **NEW!** Times Protect[®] LP-18-400 protector-series

Part Description					Stock
Part Number	Application	Jacket	Color	Code	
LMR-400	Outdoor	PE	Black	54001	
LMR-400-DB	Outdoor/Watertight	PE	Black	54091

TIMES MICROWAVE

Attenuation vs. Frequency (typical)

Frequency (MHz)	30	50	150	220	450	900	1500	1800	2000	2500	5800	8000
Attenuation dB/100 ft	0.7	0.9	1.5	1.9	2.7	3.9	5.1	5.7	6.0	6.8	10.8	13.0
Attenuation dB/100 m	2.2	2.9	5.0	6.1	8.9	12.8	16.8	18.6	19.6	22.2	35.5	42.7
Avg. Power kW	3.33	2.57	1.47	1.20	0.83	0.58	0.44	0.40	0.37	0.33	0.21	0.17

Calculate Attenuation =

$(0.122290) \cdot \sqrt{\text{FMHz}} + (0.000260) \cdot \text{FMHz}$ (interactive calculator available at http://www.timesmicrowave.com/cable_calculators)

Attenuation:

VSWR=1.0 ; Ambient = +25°C (77°F)

Power:

VSWR=1.0; Ambient = +40°C; Inner Conductor = 100°C (212°F); Sea Level; dry air; atmospheric pressure; no solar loading

LMR[®]-400

Replacement Blade Kit	RB-CST	3192-086	Replacement blade kit for all CST strip tools

Certified Premium High Speed HDMI® Cables with Ethernet

- Enables transmission of High Dynamic Range (HDR) video
- Full 18Gbps bandwidth
- UltraHD, 4K@60 2160p
- EMI tested to ensure cables minimize interference with wireless signals
- Up to 32 audio channels with ARC for a multi-dimensional immersive audio experience
- Support for the wide angle theatrical 21:9 video aspect ratio
- Certified Premium HDMI ensures installations are ready for today's 4K/UltraHD environment and are future-proofed
- UL Listed, CL3 Rated

Aquaseal® Communication Cables

2833 West Chestnut Street
 Washington, PA 15301
 Toll Free: (800) 245-4964
 Fax: (724) 222-6420
 www.westpenn-wpw.com

PART NUMBER:	AQC369
DESCRIPTION:	22/6 Solid bare copper conductor, unshielded/shielded, with an Aquaseal tape and overall jacket.
NEC RATING:	CM or CL3, NEC Article 800 and 725
APPROVALS:	(UL) C(UL) Listed, (ETL)us Listed
APPLICATION:	Materials suitable for outdoor use, and indoor trays, allows a variety of uses for (Intercom, Security, Sound, Audio, Background music)

Construction Parameters:

Conductor	22 AWG Bare Copper
Stranding	Solid
Insulation Material	PVC
Insulation Thickness	0.010" Nom.
Number of Conductors (2 Shielded)(4 Unshielded)	6
Shield	100% Aluminum Polyester Foil
Drain	Solid Tinned Copper
Water-Blocking Tape	Internal and Overall 2 ply water swellable tape
Jacket Material	Sunlight/Moisture Resistance PVC
Jacket Thickness	0.025" Nom.
Overall Cable Diameter	0.240" Nom.
Approximate Cable Weight	30 Lbs/1M' Nom.
Flame Rating	UL 1685 Vertical Tray

Electrical & Environmental Properties:

Temperature Rating	-20deg C to 60deg C
Operating Voltage	300 V RMS
Max.Capacitance Between Conductors @ 1 KHz	54 pf/ft Nom.
Capacitance Between Conductors to Shield @ 1 KHz	97 pf/ft Nom.
DC Resistance per Conductor @ 20deg C	17.5 Ohms/1M' Nom.
Insulation Colors	Black, Red, White, Green, Brown, Blue
Jacket Color	Gray
RoHS Compliant	--
TIA455-82B Water Infiltration Test Compliant	Yes
UL 444 & 13 Compliant	Yes

Mechanical Properties:

Max. Recommended Pull Tension	69 lbs.
Min. Bend Radius (Install)	2.4"

Specification Issue Date: 7/06

This document is the property of West Penn Wire. The information contained herein is considered Proprietary and not to be reproduced by any means Without written consent of West Penn Wire

Standard Lengths are 1000ft.
 The Jacket is sequentially footmarked.

PART NUMBER:	224
DESCRIPTION:	18/2 STRANDED BARE COPPER CONDUCTORS, UNSHIELDED WITH AN OVERALL JACKET
NEC RATING:	CMR, NEC Article 800
APPROVALS:	(UL) C(UL) Listed or c(ETL)us Listed
APPLICATION:	Indoor for: Intercom, Security, Sound, Audio, Background Music, and Power Limited Control Circuits

Construction Parameters:

Conductor	18 AWG Bare Copper
Stranding	7x26
Insulation Material	PVC
Insulation Thickness	0.008" Nom.
Number of Conductors	2
Shield	None
Drain	None
Jacket Material	PVC
Jacket Thickness	0.017" Nom.
Overall Cable Diameter	0.156" Nom.
Approximate Cable Weight	16.1 Lbs/1M' Nom.
Flame Rating	UL 1666 Riser Flame Test

Electrical & Environmental Properties:

Temperature Rating	-20°C To +60°C
Operating Voltage	300 V RMS
Max.Capacitance Between Conductors @ 1 KHz	30 pf/ft Nom.
DC Resistance per Conductor @ 20deg C	6.2 Ohms/1M' Nom.
Insulation Colors	Black ,Red
Jacket Color	Gray, Black, Brown, White
RoHS Compliant	Yes

Mechanical Properties:

Max. Recommended Pull Tension	42 lbs.
Min. Bend Radius (Install)	1.6"

4112704/10 | 2227V WHRL RG6 QD 1000

RG 6 Type Quad Shield Plenum Video Coaxial Cable, white jacket, 1000 ft (305 m) reel

Product Classification

Regional Availability	Asia Australia/New Zealand EMEA Latin America North America
Portfolio	CommScope®
Product Type	Coaxial video cable

General Specifications

Product Number	2227V
Cable Type	Series 6
Center Conductor Type	Solid
Construction Type	Non-armored
Jacket Color	White
Supported Application	Video

Dimensions

Cable Length	304.8 m 1000 ft
Diameter Over Center Conductor, specific	0.0403 in per 1 strand
Diameter Over Dielectric	4.318 mm 0.17 in
Diameter Over Inner Shield (Braid)	5.131 mm 0.202 in
Diameter Over Jacket, nominal	6.604 mm 0.26 in
Diameter Over Jacket Tolerance	±0.006 in
Diameter Over Outer Shield (Braid)	5.74 mm 0.226 in
Jacket Thickness	0.406 mm 0.016 in
Jacket Thickness, minimum spot	0.33 mm 0.013 in
Center Conductor Gauge	18 AWG
Inner Shield (Braid) Gauge	34 AWG
Outer Shield (Braid) Gauge	34 AWG

Electrical Specifications

4112704/10 | 2227V WHRL RG6 QD 1000

Capacitance	50.853 pF/m 15.5 pF/ft
Characteristic Impedance	75 ohm
Characteristic Impedance Tolerance	±3 ohm
Conductor dc Resistance	93.832 ohms/km 28.6 ohms/kft
Dielectric Strength, conductor to shield	2000 Vdc
Jacket Spark Test Voltage	2500 Vac
Nominal Velocity of Propagation (NVP)	84 %
Shield dc Resistance	17.388 ohms/km 5.3 ohms/kft
Structural Return Loss	15 dB @ 1000–3000 MHz 20 dB @ 5–1000 MHz
Structural Return Loss Test Method	100% Swept Tested

Attenuation

specifications

NetKey faceplates shall be available in 1, 2, 3, 4, and 6-port single gang for vertical applications and 2-port and 4-port single gang for horizontal applications. Faceplates shall accept all NetKey modules for UTP, STP, fiber-optic, and audio/video applications. Faceplates shall be available in a flush or sloped design, and available with or without labels. Sloped design shall increase wall depth to improve the bend radius control.

technical information

Mounting options:	Screw holes with retention tabs, spaced for single gang openings; compatible with wall board adapter
Packaging:	Supplied with two 1" long, #6 – 32 slotted head screws; select styles include labels and label covers; faceplates without labels include matching mounting screws to match the faceplate; faceplates packaged one per bag, ten per box.

key features and benefits

Modular	Accepts all NetKey modules which snap in and out for easy moves, adds, and changes
Identification	Choice of adhesive labeling or dedicated label pocket for easy identification
Various port densities	Provides design flexibility
Sloped design	Allows proper bend radius control

applications

NetKey faceplates mount to any standard size single gang junction box and can also mount to a wall board adapter or raceway mounting brackets. When using NetKey faceplates with surface raceway, color matching is guaranteed. NetKey faceplates with label and label cover offer a quick and easy way to identify the ports. Mounting screw colors match the faceplate for a clean, consistent look.

Dedicated sloped faceplates provide additional room for bend radius control to help comply with standards.

specifications

Horizontal cable managers shall be capable of managing cables on the front and rear of any 19" EIA rack. The manager shall consist of a 1-piece construction that is molded out of plastic. Horizontal managers shall have pass through holes that incorporate integral bend radius control as well as fingers with rounded edges. The manager shall have rigid end fingers that incorporate integral bend radius control. Hinged covers shall allow access to the cable pathway without having to completely remove the cover from the manager.

technical information

Dimensions:	WMPH2E:	3.5"H x 19.0"W x 8.9"D (88.9mm x 482.6mm x 225.5mm)

	WMP1FSE:	1.7"H x 19.0"W x 2.7"D (44.1mm x 482.6mm x 69.1mm)

Packaging: Cable managers include hinged cover(s), mounting hardware, and wire retainers

key features and benefits

Integral bend radius control	Maintains bend radii as cables transition to and from horizontal and vertical pathways
Dual hinged cover	Opens upward or downward to provide easy access to cables in horizontal pathway without having to completely remove cover
Increased finger spacing	Provides larger area for high performance Category 6 cables
One piece, plastic construction	Provides durability and easy installation
Flexible fingers	Provide for easy installation and organizes cables simplifying moves, adds, and changes
Rounded edges on fingers	Protect cables from snags and damage to cable
Cable pass through holes	Provide ease of installation and cable maintenance
Wire retainers	Snap on finger to keep cables in place during moves, adds, and changes

applications

Panduit® PatchLink™ Horizontal Cable Managers provide a neat and efficient way to manage patch cables on any EIA 19" rack. They can be used in multimedia applications to manage copper, fiber optic, and coax cables. Flexible fingers organize the patch cords simplifying moves, adds, and changes while the integral bend radius control and "closed" design protects the patch cables in the pathway. All of these features combine to

provide the user with a horizontal cable management solution that simplifies cable routing in a finished, professional appearance. When used with the Panduit® Mini-Com® patch panels, patch cords, vertical cable managers, and racks, the user receives a total system that satisfies functional and aesthetic requirements for telecommunications rooms.

NetKey® Modular Patch Panels with Faceplates

specifications

Modular patch panels shall consist of a metal panel with molded snap-in faceplates which can be front releasable. Patch panels shall accept all NetKey Modules for UTP, fiber, or A/V applications and shall mount to standard 19" racks. Patch panels shall be available in 24 and 48-port standard density. Angled patch panels shall be designed at an optimum angle to help route the cable.

technical information

Mounting options:	Mounts to standard EIA 19" racks or 23" racks with optional extender brackets
Material:	Stamping is CRS and faceplate is ABS
Packaging:	Packaged with appropriate pre-installed snap-in faceplates, a set of mounting screws (#12-24), and label/label cover where applicable

key features and benefits

Removable faceplates:	Allow front accessibility to installed modules for easy moves, adds, and changes
Modular:	Accepts all NetKey Modules to mix and match media types in the same panel
Angled design:	Allows cable to flow to each side of the rack and minimizes the need for horizontal cable managers by enabling patch cords to be routed directly into vertical cable managers which leads to increased closet density
Optional label:	Available with and without labels to accommodate various needs
Optional strain relief bars:	Help support and manage cables
Optional filler panels:	Fill unused rack openings to provide a clean and consistent look

applications

NetKey Modular Patch Panels are ideal for multi-media applications. They accept all NetKey Modules which can be accessed through the front of the panel to snap in and out for easy adjustments. Various styles and port densities available to fit most needs with a labeling feature available on select styles. Angled patch panels are available for applications where rack space is limited. The design allows cable to flow to each side of the rack, minimizing the need for horizontal cable managers and increasing the density of the rack space.

Poly Pull Line with Orange Tracer 6500-Foot

The Poly Pull Line with Orange Tracer provides a high-quality solution for wire pulling. Its unique orange tracer line makes identification easier. When used with other products from Klein Tools' complete line of wire pulling and conduit tools, professionals can get the job done quicker while saving time, effort and materials.

Specifications

Application:	Light Duty Cable or Rope Pulling	Special Features:	Rot and Mildew Resistant Line
Container:	Five-Gallon Bucket	Overall Length:	6500' (2 km)
Tensile Strength:	210 lb (95.2 kg)	Material:	Polypropylene
Weight:	11.0 lb (5.0 kg)	Color:	Orange/White

G6 Intelligent Power Distribution Unit (iPDU)

USGv6 Certified

PANDUIT[®]
SPECIFICATION SHEET

OVERVIEW

The best just got better. The G6 iPDU is more than a power distribution unit and energy monitoring device. These iPDU's monitor the data center power and environment (at the rack or cabinet level), by continuously scanning for electrical circuit overloads, and physical environmental conditions that place critical IT equipment at risk. The iPDU's provide comprehensive, accurate, energy measurement data to efficiently use power resources, make informed capacity planning decisions, improve uptime, measure PUE (power usage effectiveness), and drive green data center initiatives to save energy and money.

Making the right choice in IT equipment is essential for a safe, efficient data center operation. Panduit's full range of G6 iPDU's, environmental sensors, and dual locking power cords are the key to fulfilling mission-critical data center needs.

TECHNICAL INFORMATION

<i>Dimensions:</i>	Width In. (mm)	Depth In. (mm)	Height In. (mm)
0U HALF:	2 (52)	2.1 (53)	36.1 (917)
0U MID:	2 (52)	2.1 (53)	58.6 (1490)
0U FULL:	2 (52)	2.1 (53)	69 (1750)
0U FULL Wide:	3.3 (85)	2.1 (53)	69 (1750)

Mounting: Vertical units provide up to 48 outlets without encroaching on the EIA space.

KEY FEATURES AND BENEFITS

Combination outlets¹:	Combination outlets provide the ultimate in flexibility by allowing a customer to use an outlet as either an C13/C15 outlet or a C13/C15/C19/C21 outlet respectively. All combination outlets also accept the Panduit dual locking power cords to eliminate accidental disconnects.
Dual rated PDUs:	Simplify your supply chain by selecting a Dual Rated PDU. Dual rated PDUs have ratings and NRTL approvals for both North American & EMEA on the same part number.
HotSwappable controller:	Replace the controller and display module without having to power down the rack
Redundant network access:	Specifically designed for Landlord/Tenant (Co-Lo's) allowing for remote access of real-time, vital statistics and operating information on two separate, secure networks
Hardened security:	NMP v3, TLS, Encrypted Security; allows for Panduit PDUs to pass standard popular industry certified security scans. USGv6 Certified IPv6 Stack
Dual 1GB Ethernet:	Reduces deployment time by auto-negotiating with data center level network switches and can daisy chain up to 32 iPDU's on a single IP address using only one network switch port
Plug & play sensors:	Digital sensors not only allow for multiple sensors on the same bus; but also identify themselves to the controller to simplify setup and commissioning
Multi-color PDUs:	Different color PDUs simplify power feed identification in redundant power schemes
Mobile & desktop friendly web GUI:	Enhanced web interface that detects the type of device that you are on (laptop, tablet or smart phone); and automatically adjusts the screen for an optimal experience
Mobile and desktop friendly web GUI:	Enhanced web interface that detects the type of device the user is on (laptop, tablet, or smart phone), and automatically adjusts the screen for an optimal experience
Outlet density:	Meets demands of densely packed IT equipment in rack or cabinet space
Form factor:	Optimal form factor enables efficient rack space utilization and airflow
Operating temperature:	60°C ambient at full load for operational reliability in high temperature areas
Cable retention:	Innovative cable tie accepting outlets allow for secure cord retention (C13 & C19 only) using a cable tie for added safety and security. (Panduit part number: PLT21-C0)
Circuit breakers:	Protects data center equipment for increased reliability by interrupting potentially hazardous circuit over-current conditions*
Color coded circuits²	Easily identify phase to outlet banks to aid in fault isolation or load balancing
External chassis ground:	Meets NEC requirements and installation guidelines for IT equipment
Load balancing:	Monitored through visual display on oLED (for three-phase units only)
Multiple input plug options:	A full breadth offering to seamlessly interoperate with existing building power wiring schemes
Multiple mounting options:	Enables simple out of the box commissioning and flexibility with Panduit cabinets and industry standard mounting features enabling installation into third party cabinets
Mounting buttons:	Allows tool-less mounting of rack PDUs for faster installations on vertical 0U units
Supported metering:	Frequency, VA, PF, plus aggregate and per phase Amperage, Voltage, Wattage, and Kilowatts per hour

1 Applies to products outfitted with combination outlets

2 Applies to products outfitted with circuit breakers

G6 Intelligent Power Distribution Unit (iPDU) USGv6 Certified

iPDU PRODUCT FAMILIES

MI series:	Rack PDUs that have the ability for aggregate power monitoring to quickly identify potential power issues, and reclaim available or under-utilized power capacity.
MS series:	Rack PDUs that have the ability for aggregate power monitoring and outlet level switching capabilities for individual outlets or a group of outlets. Enabling power sequencing, rebooting equipment or restrict unauthorized use of individual outlets.
MPO series:	Rack PDUs that have the ability for outlet level (and aggregate) power monitoring to quickly identify potential power issues, and reclaim available or under-utilized power capacity at the outlet level enabling the redeployment or decommissioning of individual servers to reclaim available or under-utilized power capacity.
MSPO series:	Rack PDUs that have the ability for outlet level (and aggregate) power monitoring and outlet level switching capabilities for individual outlets or a group of outlets. Power monitoring at the individual outlet level provides actionable management data on the power consumption of each connected IT device enabling the redeployment or decommissioning of individual servers to reclaim available or under-utilized power capacity. Ideal for remote power reset, and cabinet power on sequencing and restrict unauthorized use of individual outlets.

CABINET COMPATIBILITY

Intelligent PDUs can be easily installed into Panduit (or third-party cabinets) by utilizing the installed mounting buttons (18.4mm diameter). Where necessary, a small diameter (14.5mm) mounting button is available (sold separately, P/N: MA018). Panduit PDUs feature threaded inserts on the back and both sides for the ultimate in mounting flexibility. They safely and efficiently manage and distribute power to multiple devices through a single input power connector, per PDU, to enhance scalability of network build outs.

Painted Cable Hooks

- Powder coated cable hooks are available in a range of colors to help meet your cable identification requirements.
- Standard riveted assemblies are available with painted cable hooks.
- Part numbers can be made by adding the paint color suffix after the cable hook part number.
- Minimum order quantity 500 pieces.
- Standard lead time is 5-10 working days.

Universal Cable Runway

Universal Cable Runway

Our most popular cable runway is designed for value conscious customers. The Universal Cable Runway offers the industry standard features you've come to expect. With the runway supported every 5' (1.5 m), maximum load with minimal deflection is 132 lb/ft (59.9 kg).

- Made of 3/8" x 1-1/2" x .065" (9.53 mm x 38 mm x 1.65 mm) wall rectangular steel tubing
- Cross members welded at 12" (300 mm) intervals
- Individually boxed to prevent scratches and damage
- Standard length is 9'-11 1/2"/119.5" (3035 mm)
- Installation Best Practices includes Runway Elevation Kit
- U.L. classified for suitability as an equipment grounding conductor (must remove paint from side stringers or use grounding strap)
- 11301 Butt-Splice Kit Installation Instructions [chatsworth.com](https://www.chatsworth.com)

NOTE: CPI 10250, 11252, 11275 and 14300 cable runway systems are listed under UL E138966 and tested to the requirements in the Standard for Safety for Metal Cable Tray Systems, NEMA VE 1-2017 and ANSI/NFPA 70.

Cable Runway Load-Span Table

Maximum load with minimal deflection is 132 lb/ft when the runway is supported every 5'.

Load-Span Table, CPI Cable Runway

Safety Factor	Span (ft)	4	5	6	7	8	9
1.5	Maximum Load (lb/ft)	206	132	92	67	52	41
	Deflection (in)	0.41	0.64	0.92	1.25	1.62	2.03
2.0	Maximum Load (lb/ft)	154	99	69	50	39	31
	Deflection (in)	0.31	0.48	0.68	0.93	1.21	1.531
	K factor	0.002	0.005	0.010	0.019	0.032	0.050

CPI recommends supporting cable runway runs every 5 feet.

To calculate deflection for loads lighter than maximum loads listed in table, multiply load for which deflection is desired by K factor listed in table for cable runway support span utilized.

Example: To calculate maximum deflection using a safety factor of 1.5 for a length of cable runway supported every 5' and loaded with 80 pounds per foot:

$$\text{Deflection} = (80) (0.005) = 0.40''$$

NOTE: CPI 10250, 11252, 11275 and 14300 cable runway systems are listed under UL E138966 and tested to the requirements in the Standard for Safety for Metal Cable Tray Systems, NEMA VE 1-2017 and ANSI/NFPA 70.

Cable Runway Center Support Kit

Cable Runway Center Support Kit

This kit has been designed to make installation of cable runway in the ceiling even easier by using just a single point of attachment. The center attachment design not only makes installation easy, but also provides quick and simple cable routing with no need to thread the cable between the runway supports. The support kit securely attaches to the cable runway stringer, eliminating possible dislocations.

- Made of steel
- Provides an "open" support system with quick and simple cable routing
- Threaded rod cover protects cable insulation from damage
- Compatible with Adjustable Cable Runway

Kit includes:

- (1) support bracket
- (1) reinforcement bar
- (2) 5/8-11 hex nuts;
- (1) 5/8 split lock washers
- (1) 12" L (300 mm) threaded rod cover
- (1) J-bolt kit (2 J-bolts; 2 nuts; 2 washers)

The Cable Runway Center Support Kit is available in sizes to support 6" to 24"W (150 mm to 610 mm) cable runway. Not included: Threaded Rod (P/N 11440-00X) and Ceiling Support Bracket (P/N 11406-002).

Triangular Support Bracket, Steel

Triangular Support Bracket, Steel

Triangular Support Bracket provides wall support for Cable Runway. Made of cold rolled steel. Load rating is 400 lb (181.4 kg).for cable runway.

- Compatible with Adjustable Cable Runway

Kit includes:

- (1) vertical wall-mounting bracket
- (1) runway support channel
- (1) angle support channel
- (3) clevis pins (5/16" diameter) & cotter pins
- (2) 5/16-18 x 2 1/4" J-bolts
- (2) 5/16-18 hex nuts & 5/16 lock washers

EZ-PATH® SERIES 44+ FIRE RATED PATHWAY

APPLICATIONS

EZ-PATH® Series 44+ Fire Rated Pathway is designed for easy installation in floors and walls. Tested and approved cable capacities range from 0 to 100% visual fill. EZ-PATH® Series 44+ Fire Rated Pathway when installed with available single wall plates is designed for new cable installations. In these installations, the device does not require mechanical attachment to either the wall or the wall framing and must be installed after the wallboard has been installed. Split floor plates and multi-gang wall and floor brackets permit installation around previously installed cables if so desired. These installations require mechanical attachment to the barrier. A list of available accessories along with their intended use is shown on page 2 under available components.

EZ-PATH® Series 44+ Fire Rated Pathway Fire Rated Pathway provides exceptional cable capacity. A single unit installed in a wall exceeds the cable carrying capacity of a 6" (152 mm) sleeve utilizing typical putty firestop systems (35% cable loading). Multiple ganged pathways utilizing available wall bracket kits provide additional capacity or segregation of cables by use, type, installer or vendor as desired.

PRODUCT DESCRIPTION

The EZ-PATH® Series 44+ Fire Rated Pathway is a pathway device designed to allow cables to penetrate fire-rated walls and floors without the need for firestopping. This device features a built-in fire and smoke sealing system that automatically adjusts to the amount of cables installed. Once installed in a fire barrier, cables can be easily added or removed at any time without the need to remove or reinstall firestopping materials.

The EZ-PATH® Series 44+ Fire Rated Pathway consists of an enclosed heavy gauge galvanized steel pathway lined with intumescent material engineered for rapid expansion when exposed to fire or high temperatures, quickly sealing the pathway and preventing the passage of flames and smoke. EZ-PATH® Series 44+ Fire Rated Pathway is painted safety orange for easy identification. Its compact square profile allows a maximum number of cables to be installed in a relatively small area. The pathway measures approximately 4" x 4 5/8" and is 14" long (102 x 118 x 356 mm) and can be increased by 6" (152mm) for every Series 44+ Extension module (EZD44ES) installed..

PERFORMANCE

EZ-Path® Series 44+ Fire Rated Pathway is UL Tested and Classified in accordance with ASTM E814 (UL1479) & CAN/ULC-S115. Systems are available for common floor and wall constructions with ratings up to and including 4 hours.

SPECIFICATIONS

All data, video, and communications cable bundles shall utilize an enclosed fire rated pathway device wherever said cables penetrate rated walls and floors. The fire-rated pathway shall contain a built-in fire sealing system sufficient to maintain the hourly fire rating of the barrier being penetrated. The self-contained sealing system shall automatically adjust to the installed cable loading and shall permit cables to be installed, removed, or retrofitted without the need to remove or reinstall firestop materials. The pathway shall be UL Classified and/or FM Systems Approved and tested to the requirements of ASTM E814 (UL1479) & CAN/ULC-S115.

FEATURES & BENEFITS

- Easy to install.
- No firestopping required.
- Firestopped at all stages of use.
- UL Tested - Low Leakage!
- Acoustically Tested
- UL Classified for the complete range of its capacity.
- Interlocking design for easy gang installations.
- Permits cable segregation by use, type, vendor.
- More than TWICE the capacity of Standard EZ-Path 33.

SPECIFIED DIVISIONS

DIV. 7	07 84 00	Penetration Firestopping
DIV. 26	26 00 00	Electrical
DIV. 27	27 00 00	Communications

INSTALLATION INSTRUCTIONS

EZ-Path® Series 44+ Fire Rated Pathway is designed for use in all common constructions. Single pathways and mounting hardware may be purchased separately or in complete kits. For multi-gang installations, pathways and appropriate mounting hardware must be purchased separately. Single pathways may be installed in either square or round openings. Ganged pathways are designed to be installed in either square or rectangular openings appropriately sized for the number of units desired (See Installation Instructions). In gypsum board walls where pathways are ganged, wall plates must be secured to the wall's internal studs.

CABLE INSTALLATION

Cables may easily be added or removed at any time without removing or reinstalling the fire seal. Cables may be added individually or in bundles. Wrapping ends with a low-friction tape facilitates cable insertion. Avoid any sharp or exposed conductors that can potentially damage interior pads. A self-adjusting cable throat automatically adjusts to accommodate the cable bundle as it passes through the pathway. Installation of a pulling line will facilitate future cabling additions.

MAINTENANCE

No maintenance of the pathway is normally required.

TECHNICAL SERVICE

Technical information including Product Data Sheets, Installation Instructions, applicable UL Classified Systems, Certificates of Conformance, and suggested specifications are available at the company's web site (www.stifirestop.com). For all other information, contact the manufacturer directly by dialing (800) 992-1180.

PRECAUTIONARY INFORMATION

The use of this device is subject to local, regional and national codes. Consult the local Building Code Official or Authority Having Jurisdiction regarding any regional or local requirements that might influence the selection or use of this product.

AVAILABILITY

See Ordering Information below. EZ-PATH® Fire-Rated Pathway Products are available from designated authorized STI distributors. Consult the factory or visit the web site (www.stifirestop.com) for the names and locations of the nearest sales representatives or distributors.

ORDERING INFORMATION

Catalog Number	Description
EZDP44S2	EZ-Path Series 44+ Fire-Rated Pathway Kit Full Kit with device, wall plates & labels
EZDP144FKS2	EZ-Path Series 44+ Fire-Rated Pathway Floor Kit Full Kit with device, floor plate & labels
EZP144W	One Pair (2) 44 single wall plate pack
EZP544W	EZ-Path Series 44+ 5 gang wall plate brackets
EZP144F	EZ-Path Series 44+ Split floor plate pack
EZD44S2	EZ-Path Series 44+ Device
EZD44ES	EZ-Path Series 44+ Extension Module
EZDG444S2	Single Bank Floor Grid - Four (4) Devices with floor frame
EZDG844S2	Multi-slot Frame Kit for 8 Pathways - (Includes eight (8) Series 44 devices with EZG844)
EZDG1644S2	Multi-slot Frame Kit for 16 Pathways - (Includes sixteen (16) Series 44 devices with EZG1644)
EZG444	Multi-Slot Frame for Four (4) Pathways
EZG444CP	Splice Plate for Floor Grid
EZG844	Multi-Slot Frame for Eight (8) Pathways
EZG1644	Multi-Slot Frame for Sixteen (16) Pathways

EZDP144RS2	(EZ-Path Series 44+ Fire-Rated Pathway Retrofit Kit Full Kit with device, wall plates & labels)

PHYSICAL PROPERTIES

Dimensions:	4" w x 4 5/8"H x 14" L (102 x 118 x 356 mm)
Shell Composition:	0.059" (1.5 mm) thick galv. steel
Cable Loading Area:	3 3/8" x 3 3/4" (86 x 95 mm)
Allowable Cable Fill:	0 to 100% visual fill
Fire Ratings:	1, 2, 3 or 4 hours
Expansion Begins:	350°F (177°C)
Volume Expansion:	800%
Sample Cable Volume:	210 (Cat6 0.236" OD)
In-Service Temperature:	Not to exceed 120°F (49°C)
Shelf Life:	No Limit

IMPORTANT NOTICE: All statements, technical information, and recommendations contained herein are based upon testing believed to be reliable, but the accuracy and completeness thereof is not guaranteed.

LIMITED WARRANTY: STI warrants that its products will be free of defects for one year from the date of purchase. In the event a product does not conform to this warranty, the sole and exclusive remedy is, at STI's option, replacement of the product or refund of the purchase price. The warranty provided herein shall be void and of no effect in the event that the product is not installed in accordance with STI's published instructions, listed systems and applicable building and safety codes. THIS WARRANTY IS IN LIEU OF ALL OTHER REPRESENTATIONS AND EXPRESSED OR IMPLIED WARRANTIES (including the implied warranties of merchantability or fitness for a particular use) AND UNDER NO CIRCUMSTANCES SHALL STI BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES, INCLUDING, WITHOUT LIMITATION, ANY LOSS OF REVENUE, PROFIT OR USE. Prior to use, the user shall determine the suitability of the product for its intended use, and the user assumes all risks and liability for subsequent use. No person other than an officer of STI is authorized to bind STI to any other warranty for any product for which this warranty is issued.

StructuredGround™ Telecommunications Room Grounding and Bonding Kits for TIA-607-C Compliance

specifications

Grounding and bonding kits shall bond each rack to Secondary Bonding Busbar (SBB) also known as Telecommunications Grounding Busbar (TGB) using Telecommunications Equipment Bonding Conductor (TEBC). Hardware kit shall bolt TEBC to SBB/TGB with 1/4" stainless steel hardware. Each bolt requires a nut, flat washer on both sides, and a Belleville washer on the bolt side of the stack up. TEBC shall be bolted to rack with #12-24 thread-forming screws. Abrasive cleaning pad shall remove oxidation from lug and mounting surfaces. Copper to copper joint compound shall also be utilized to prep lug mounting surfaces. The front and back of each rack requires one ESD Port Kit and ESD wrist strap. Bond SBB/TGB to electrical panel serving equipment in telecommunications room.

kit information

TEBC Kits:
Pre-terminated jumper on both ends – #6 AWG jumper with 45° bent lug on rack side to straight lug on SBB/TGB.

Part Number	Length In.
GJ672UH	72
GJ696UH	96
GJ6120UH	120
GJ6144UH	144
GJ6168UH	168
GJ6192UH	192

GJ6240UH	240
GJ6264UH	264
GJ6288UH	288

TEBC Kits:
Pre-terminated jumper on one end only – #6 AWG jumper with 45° bent lug for bonding to rack.

Part Number	Length In.
GJS660U	60
GJS696U	96
GJS6120U	120
GJS6180U	180

SBB/TGB Kits:
Pre-assembled with brackets and insulators – bar size 1/4" x 2".

Part Number	Bar Length In.	1/4" Stud Hole with 5/8" Hole Spacing	3/8" Stud Hole with 1" Hole Spacing
GB2B0304TPI-1	10	4	3
GB2B0306TPI-1	12	6	3
GB2B0312TPI-1	20	12	3

Compression Lugs for SBB/TGB:
Two-hole straight tongue compression lug with window.

Part Number	Copper Conductor Size	Stud Hole Size In.	Stud Hole Spacing In.
LCC6-14JAW-L	#6 AWG	1/4	0.50 – 0.63
LCC2-14AW-Q	#2 AWG	1/4	0.63
LCC1/0-14AW-X	1/0 AWG	1/4	0.63
LCC3/0-38DW-X	3/0 AWG	3/8	1.00
LCC4/0-38DW-X	4/0 AWG	3/8	1.00

Armored Fiber Cable Grounding Kits:
Pre-terminated jumper on both ends – straight lug and terminal. Provided with mechanical clamp and cover for terminal and two each #12-24 and M6 hex head thread-forming screws.

Part Number	Armored Cable Diameter In.	Grounding Cable Length In.
ACG24K	Up to 0.84	24
ACG24K-500	0.84 to 1.03	24

applications

StructuredGround™ Telecommunications Room Grounding and Bonding Kits deliver a complete grounding solution, designed to exceed industry standards for ensured electrical continuity and ease of installation. Bonding of rack and equipment to SBB/TGB and proper ESD protection is critical to the reliability and safety needs of the physical infrastructure. Integrated

technology from Panduit addresses comprehensive grounding and bonding needs to protect systems, equipment, and personnel for optimum availability of services and lower operational costs. As solution architecture, a range of installation tooling, design software, and services complement StructuredGround™ Grounding System.

For the complete StructuredGround™ Grounding System offering, refer to www.panduit.com/dcgrounding.

TV Signage UR340C9 Series

LG UHD Signage for Live TV & Promotional Messaging

4K Ultra HD Resolution

Slim Design

Non Wi-Fi
Non Bluetooth

Easy Management

UR340C9 Series

Sizes	86" / 75" / 65" / 55" / 50" / 43"
Screen Resolution	3,840 x 2,160 (UHD)
Operation Time	16 Hours / 7 Days
Brightness	330 nits (86"/75")
	400 nits (65"/55"/50")
	300 nits (43")
Built-in Speakers	10 W + 10 W

Ultra HD Resolution Delivers Superb Picture Quality

Ultra HD resolution is four times FHD for content that is vivid and highly detailed. In addition, the UR340C series supports HDR10 to deliver more intense color reproduction and deeper black levels that can improve image contrast.

Elegant Slim Design

The space-saving UR340C series is thinner than LG conventional* models making installation a breeze. In addition, its sophisticated ashed blue color can enhance the décor of the environment in which it's installed.

* 'LG Conventional' refers to the LG US340C series.

Advanced Welcome Screen

To provide a more personalized and welcoming experience, the UR340C series welcome screen features a broader range of programmable greeting messages. And if no input signal is present, preset content can be displayed, avoiding the conventional "No Signal" message.

Customized Time Scheduler

The UR340C series features a time scheduler that allows you to program when the display is powered on to conserve power and extend product life.

Display Power Management Support

For more efficient power management, Display Power Management (DPM) can be configured to be powered on only when a TV signal is present.

USB Data Cloning

USB data cloning improves the efficiency of managing multiple displays by allowing you to transfer the data of one display to the other UR340C series displays using a USB drive.

* USB is not provided by LG. FAT32 or NTFS formatting is recommended.

Crestron Connected® Certified

For more efficient meeting management, the UR340C series has been certified by Crestron Connected®, providing seamless integration and automated control* in Crestron Connected® meeting rooms.

* Network-based control

LG's SuperSign* Makes Signage Control More Efficient

LG's SuperSign control software allows you to manage up to 100 displays through a single account and server, giving you remote control over power, volume. Firmware updates are also supported.

* LG SuperSign Control needs to be purchased separately.

MEDIUM TILT MOUNT

NX-TM2460

EASY TO INSTALL WITH A LOW PROFILE TILTING DESIGN AND POST-INSTALL LEVELING. THE NX-TM2460 IS IDEAL FOR 24" - 60" PANELS WEIGHING UP TO 120 LBS.

SPECIFICATIONS:

- Fits 24" - 60" TVs up to 120lbs
- VESA 75 x 75 to 400 x 400 (W x H) (mm)
- Locking mechanism secures rails to wall plate
- Height adjustable for easy levelling
- Tilt up to 12° to reduce glare
- Simple to install and use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

BOX DIMENSIONS:

PART#: NX-TM2460
UPC: 840049303102
LENGTH: 5.9"
WIDTH: 21.3"
HEIGHT: 2.4"
WEIGHT: 5.8 LBS

AVARRO™

LARGE TILT MOUNT

NX-TL4290

EASY TO INSTALL WITH A LOW PROFILE TILTING DESIGN AND POST-INSTALL LEVELING. THE NX-TL4290 IS IDEAL FOR 42" - 90" PANELS WEIGHING UP TO 175 LBS.

SPECIFICATIONS:

- Fits 42"- 90" TVs up to 175lbs
- VESA 100 x 100 to 700 x 400 (W x H) (mm)
- Locking mechanism secures rails to wall plate
- Height adjustable for easy levelling
- Tilt up to 12° to reduce glare
- Simple to install and use
- Includes complete hardware kit
- Warranty: 5 years
- For commercial and residential applications

ClickShare C-5

Simple, one-click wireless presentation for huddle spaces

- **Entry-level wireless presentation model**
- **Content sharing with the ClickShare App and native BYOD**
- **100% secure, encrypted and cloud managed**

Product specifications

CLICKSHARE C-5

General specifications

Operating system	Windows 10 and higher macOS 11 (BigSur) and higher Android v9 and higher (ClickShare App)* iOS 12 and higher (ClickShare App)*
System requirements	For a smooth experience with Microsoft Teams or Zoom Minimum: Intel i3 dual-core processor or AMD Ryzen 7 / 8GB RAM / OS: Windows 10 latest build or Mac OS Mojave latest build Recommended: Intel i5 4-core processor or AMD Ryzen 9 / 8GB RAM / OS: Windows 11 latest build or Mac OS latest build
Video outputs	4K UHD (3840*2160) @ 30Hz. HDMI™ 1.4b or USB-C DisplayPort 1.2 (only Gen2)
Audio output	HDMI
USB	1 X USB-A, 1 X USB-C
ClickShare Buttons	0
ClickShare App	Desktop & Mobile
Native protocols	Airplay, Google Cast, Miracast
Maximum sources simultaneously on screen	1
Noise Level	Max. 25dBA @ 0-30°C Max. 30dBA @ 30-40°C
Authentication protocol	WPA2-PSK in stand alone mode WPA2-PSK or IEEE 802.1X using the ClickShare Button in network integration mode
Wireless transmission protocol	IEEE 802.11 a/g/n/ac and IEEE 802.15.1
Reach	Adjustable with signal strength modulation; max. 30m (100 ft) between ClickShare Button and ClickShare Base Unit Frequency band 2.4 GHz and 5 GHz
Frequency band	2.4 GHz and 5 GHz (DFS channels supported in select number of countries)
Connections	1x Ethernet LAN 1Gbi 1x USB-C 2.0 (front); 1x USB-A 2.0 (front) -only Gen2; 1x USB-C 3.0 (front); 1x USB-A 3.0 (front)
Temperature range	Operating: 0°C to +40°C (+32°F to +104°F) Max: 35°C (95°F) at 3000m Storage: -20°C to +60°C (-4°F to +140°F)
Humidity	Storage: 0 to 90% relative humidity, non-condensing Operation: 0 to 85% relative humidity, non-condensing
Anti-theft system	Kensington lock
Certifications	FCC/CE
Touch screen support & Interactivity	/
Room Dock (peripheral support)	No
Local view	Local view of the room display only
Network connection	LAN & WiFi
Management and reporting	Yes
Warranty	1 year standard. 5 years coverage upon registering via SmartCare
*	* depends on configuration, available in future firmware updates
ClickShare Base Unit dimensions	
Dimensions (HxWxD)	34 mm x 135 mm x 135 mm
Power consumption	Operational: 5-10W, 24W Max
Power supply	Standard 110/220 V AC plug or USB-C (only Gen2)
Weight	900 gr

VS-211X

2x1 4K HDR HDMI Auto Switcher

| HDMI

VS-211X is a high-performance 2x1 automatic switcher for 4K HDR, HDMI video signals. Offering priority and last-connected switching options, it automatically switches according to the selected switching scheme based on active video signal detection

FEATURES

Plug & Play Auto Switcher - Automatically plays the switched source signal on the connected display according to user-configured preferences, such as priority or last-connected input. When the user manually switches, by pressing a button, the auto switching is overridden

HDMI Signal Switching - HDCP 2.3 compliant, Supporting deep color, x.v.Color™, CEC, lip sync, HDMI uncompressed audio channels, Dolby TrueHD, DTS-HD, 2K, 4K, and 3D as specified in HDMI 2.0

Multi-channel Audio Switching - Up to 32 channels of digital stereo uncompressed signals for supporting studio-grade surround sound

I-EDIDPro™ Kramer Intelligent EDID Processing™ - Intelligent EDID handling, processing, locking and pass-through algorithm ensures plug & play operation for HDMI source and display systems

Audio De-embedding - The digital audio signal passing-through to the HDMI output, is de-embedded, converted to an analog signal and sent to the stereo unbalanced analog audio output. This enables playing the audio on locally connected speakers, in parallel to playing it on the speakers connected to the AV acceptor device (such as TVs with speakers)

Simple Switching Operation - Local buttons or remotely connected contact-closure buttons for flexible user input selection and switching control

Cost-Effective Maintenance - Status LED indicators for HDMI ports facilitate easy local maintenance and troubleshooting. Local firmware upgrade ensures lasting, field-proven deployment

Easy Installation - Compact DigiTOOLS® fan-less enclosure for user-reachable table mounting, or side-by-side mounting of 3 units in a 1U rack space with the recommended rack adapter

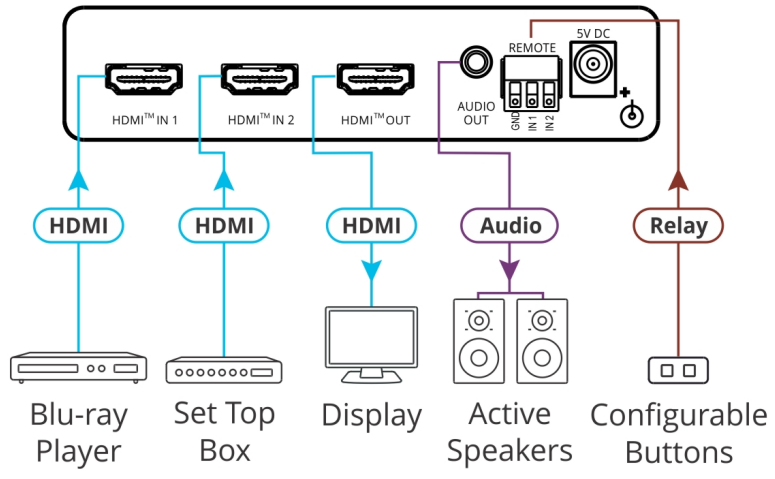

kramer

TECHNICAL SPECIFICATIONS

Inputs	2 HDMI: On a female HDMI connector
Outputs	1 HDMI: On a female HDMI connector 1 Unbalanced Stereo Audio: On a 3.5mm mini jack
Ports	Remote Contact Closure: On a 3-pin terminal block connector
Video	Max Data Rate: 17.82GBPS (5.94Gbps per graphic channel) Max Resolution: 4K@60 (4:4:4) Compliance: HDR10 as specified in HDMI 2.0, HDCP 2.2
Power	Source: 5V DC, 2A Consumption: 500mA
User Interface	Controls: Input selection buttons. DIP-switches for configuring switching mode and EDID mode
Enclosure	Size: DigiTOOLS® Type: Aluminum Cooling: Convection ventilation
Environmental Conditions	Operating Temperature: 0° to +40°C (32° to 104°F) Storage Temperature: -40° to +70°C (-40° to 158°F) Humidity: 10% to 90%, RHL non-condensing
REGULATORY	Health, Safety, Environmental: RoHs, WEEE, CE
Product Dimensions	12.00cm x 7.15cm x 2.44cm (4.72" x 2.81" x 0.96") W, D, H
Product Weight	0.2kg (0.5lbs) approx
Shipping Dimensions	49.00cm x 18.60cm x 58.80cm (19.29" x 7.32" x 23.15") W, D, H
Shipping Weight	0.7kg (1.5lbs) approx

4K HDMI® Audio Extractor

DEAR CUSTOMER

Thank you for purchasing this product.

For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference.

FEATURES

- Extracts audio signals from an HDMI source
- Passes 4K @ 60Hz and 4:4:4 chroma subsampling
- Supports HDR (High Dynamic Range)
- Supports Full 18 Gpbs Bandwidth
- HDCP 2.2 compliant
- Allows simultaneous output of HDMI audio, multi-channel optical (SPDIF), and L/R analog audio in 2CH mode
- Optical audio supports LPCM 2CH, Dolby Digital 2/5.1CH, DTS 2/5.1CH
- Supports uncompressed audio LPCM (Linear Pulse Code Modulation)
- Supports compressed audio DTS Digital, Dolby Digital (DTS-HD and Dolby True HD)
- Power Supply: 5V DC, UL Listed
- Dimensions: 2.75" W x .75" H x 2.378"

PACKAGE CONTENTS

Before attempting to use this unit, please check the packaging and make sure the following items are contained in the shipping carton:

1. Main unit (4K HDMI® Audio Extractor)
2. 5V DC Power Supply
3. User's Manual

CONNECT AND OPERATE

1. Connect the input of this product to HDMI Source.
2. Connect the output of this product to HDMI Display.
3. Connect SPDIF or Stereo port to Amplifier Receiver
4. Select the Audio output you want through moving the switch to TV, BITSTREAM, or 2CH position.
5. Insert the DC side of 5V power supply into the unit and then connect the AC side of the power supply into the wall outlet.

SPECIFICATIONS

HDMI Compliance	HDMI 2.0b
HDCP Compliance	HDCP 2.2 and HDCP 1.4
Video Bandwidth	18 Gbps
Video Resolutions	up to 4K2K@50/60Hz(YUV4:4:4)
Color Space	RGB, YCbCr 4:4:4, YCbCr 4:2:2
Color Depth	10-bit, 12-bit
HDMI Audio (Pass-through)	LPCM 2/5.1/7.1CH, Dolby Digital, DTS 5.1, Dolby Digital+, Dolby TrueHD, DTS-HD Master Audio, Dolby Atmos, DTS:X
Optical Audio Formats	LPCM 2CH, LPCM 5.1, Dolby Digital 2/5.1CH, DTS 2/5.1CH
L/R Audio Formats	Analog Stereo 2CH
ESD Protection	Human body model — ±8kV (air-gap discharge) & ±4kV (contact discharge)
Dimensions	2.75" W x .75" H x 2.378"
Weight	130g
Power Supply	Input: AC100 - 240V 50/60Hz
Output:	DC 5V/1A (US/EU standards, CE/FCC/UL certified)
Power Consumption	1W (Max)
Operation Temperature	32 - 104°F / 0 - 40°C
Storage temperature	-4 - 140°F / -20 - 60°C
Relative Humidity	20 - 90% RH (no condensation)

PANEL DESCRIPTION

1. DC/5V: Connect this port to power adapter.
2. Power LED: System Power Indicator
3. TV/Bitstream/2CH Switch: Allows user to select the desired audio format
4. HDMI In: Connect to HDMI source device
5. Link LED: HDMI input signal indicator
6. HDMI Out: Connect this port to HDMI Display.
7. L/R Out: Connect to amplifier or TV L/R audio input port
8. Optical Out: Connect to audio amplifier or sound bar optical audio port

Nature loves us. You will too.

JBL Commercial is committed to making the world a better-sounding place, while leaving a smaller footprint behind.

That's why we manufacture our new line of high-performance 1U mixer-amplifiers under

HARMAN's GreenEdge™ environmental initiative. Plus, the entire line features a fanless, space-saving design.

It also delivers unsurpassed reliability, thermal management and power efficiency, thanks to Crown's exclusive DriveCore™ Technology.

Being "green" never sounded so good.

JBL® COMMERCIAL MIXER-AMPLIFIERS

JBL® Commercial Mixer-Amplifiers

Ideal for commercial and industrial use, our new line of lightweight mixer-amps leverages high-efficiency DriveCore™ Technology and GreenEdge™ environmentally conscious manufacturing so they quickly pay for themselves in energy savings.

With a sleek industrial look and a clean front panel featuring only volume controls for each channel, they offer you an easy-to-use professional tool with uncompromised performance.

Standard Features

- Fanless, space-saving 1U design
- Illuminated rings make them easy to see and operate
- Euro-block type mic/line input and output connectors
- Independent bass and treble controls for each output channel
- Supports 70V and 100V distributed audio systems without needing a separate transformer
- Remote volume control capability using JBL CSR-V module and standard Ethernet cable
- Phantom power
- Priority muting
- Configurable output routing
- Universal power supply accepts AC voltages from 100 to 240 VAC, 50/60Hz
- Three-year, no-fault fully transferable warranty

DriveCore™ Technology

Combining hundreds of parts into one fingertip-sized chip, DriveCore provides:

- More operating efficiency and reliability by using fewer parts
- Significantly reduced power consumption
- Greater accuracy and best-in-class signal-to-noise performance
- A proprietary hybrid analog-digital integrated circuit

GreenEdge™ by HARMAN

Manufactured under HARMAN's GreenEdge™ initiative, JBL Commercial mixer/amps:

- Conform to lead-free ROHS standards
- Use recycled copper, aluminum, and steel from factory processes
- Are lighter in weight leading to less freight and reduced emissions
- Require less power and produce less heat
- Include a low-energy powder coat that uses 33% less energy

CEILING SPEAKERS

Control 24C Micro Shallow-Depth Ceiling Speaker

Components:	4.5" Woofer, .5" Tweeter
Frequency Range:	85 Hz – 25 kHz
Power Capacity:	30 Watts Continuous Program 15 Watts Continuous Pink Noise
Sensitivity:	86 dB, 1W, 1m
Coverage:	150°
Nominal Impedance (C24C Micro):	8Ω
70V/100V Taps (C24CT Micro):	8W, 4W, & 2W, & 1W, (plus 0.5W at 70V)
Termination:	Screw-down barrier strip
Dimensions (H x Dia):	106 x 195 mm (4.2 x 7.7 in)

C24CT MicroPlus High Output Shallow-Depth Ceiling Speaker

Components:	4" Woofer, .5" Titanium Tweeter
Frequency Range:	80 Hz – 25 kHz
Sensitivity:	85 dB, 1W, 1m
Coverage:	150°
70V/100V Taps:	25W & 12W, (plus 6W at 70V)
Termination:	Screw-down barrier strip
Dimensions (H x Dia):	106 x 195 mm (4.2 x 7.7 in)

Control 24C Compact Ceiling Speaker

Components:	4" Woofer, .75" Titanium Tweeter
Frequency Range:	80 Hz – 20 kHz
Power Capacity:	80 Watts Continuous Program 40 Watts Continuous Pink Noise
Sensitivity:	86 dB, 1W, 1m
Coverage:	130°
Nominal Impedance (C24C):	16Ω
70V/100V Taps (C24CT):	30W, 15W, & 7.5W, (plus 3.7W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	200 x 195 mm (7.9 x 7.7 in)

Control 26C High Output Ceiling Speaker

Components:	6.5" Woofer, .75" Titanium Tweeter
Frequency Range:	75 Hz – 20 kHz
Power Capacity:	150 Watts Continuous Program 75 Watts Continuous Pink Noise
Sensitivity:	89 dB, 1W, 1m
Coverage:	110°
Nominal Impedance (C26C):	16Ω
70V/100V Taps (C26CT):	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	210 x 252 mm (8.3 x 9.9 in)

Control 26-DT Driver Assembly

Components:	8" Compatible Woofer, .75" Titanium Tweeter
Frequency Range:	70 Hz – 20 kHz
Sensitivity:	89 dB, 1W, 1m
Coverage:	90°
70V/100V Taps:	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Screw locking barrier strip
Dimensions (H x Dia):	Standard 8" driver mounting, 120 mm (4.8 in) deep

Control 19CS In-Ceiling Subwoofer

Components:	8" Low Frequency Driver
Frequency Range:	42 Hz – 200 kHz
Power Capacity:	200 Watts Continuous Program 100 Watts Continuous Pink Noise
Sensitivity:	95 dB, 1W, 1m
Nominal Impedance (C19CS):	8Ω
70V/100V Taps (C19CST):	60W, 30W, & 15W, (plus 7.5W at 70V)
Termination:	Removable locking terminals in sealed compartment with cable strain relief
Dimensions (H x Dia):	345 x 345 mm (13.6 x 13.6 in)

* Medium and Large Format Ceiling Speakers are not listed on this spec page.

Please refer to JBL's Control 200 and Control 300 brochures for specific models and specifications.

IN-WALL SPEAKERS

Control 126W

Components:	6.5" Woofer, 1" Tweeter
Frequency Range:	38 Hz – 20 kHz
Power Capacity:	100 Watts Continuous Program 50 Watts Continuous Pink Noise
Sensitivity:	88 dB, 1W, 1m
Nominal Impedance:	8Ω
Termination:	Screw-down Euroblock
Dimensions (H x W x D):	280 x 215 x 105 mm (11 x 8.5 x 4.1 in)

Control 128W

Components:	8" Woofer, 1" Tweeter
Frequency Range:	30 Hz – 20 kHz
Power Capacity:	120 Watts Continuous Program 60 Watts Continuous Pink Noise
Sensitivity:	90 dB, 1W, 1m
Nominal Impedance:	8Ω
Termination:	Screw-down Euroblock
Dimensions (H x W x D):	334 x 257 x 110 mm (13.1 x 10.1 x 4.3 in)

MERIT X SERIES POWER CONDITIONERS

A Merit Series Power Conditioner is the perfect low-cost AC power solution for any rack mount system. Install an M-8x², M-8Lx, or M-8Dx in to the top slot of your rack, and the eight switched outlets in the rear panel will power up and protect all your equipment up to a 15-amp load. The M-8Lx and M-8Dx feature two slide out, swiveling light fixtures to provide discreet illumination of your equipment on stages, in studios, and in other dark places. A dimmer knob lets you adjust the lamp brightness to just the right level. The M-8Dx adds a bright red, three-digit LED voltmeter that displays incoming voltage. The M-8x² is designed for applications where lights are not required.

FURMAN

THE SOLUTION TO POWER YOUR APPLICATION...

INSTRUMENT RIGS

You've got a rack for your effects, preamps, tuner...You're going to plug that into the wall? One big spike and your rig is up in smoke. Furman's standard level surge/spike protection defends your gear from the spikes and surges that are so common at gigs and practice spots. With Furman's standard level RFI/EMI filtration, you'll get a quieter tone without pops, crackles, and the local radio station coming out of your amp. Plus, dual pull-out lamps (M-8Lx/M-8Dx) let you see your rack without turning the house lights on, while the digital voltmeter (M-8Dx) lets you monitor incoming voltage.

RECORDING

Can't track down where that noise is coming from? Your mix sounding flat? With Furman's standard level RFI/EMI filtration you'll lower the noise floor caused by the dirty AC power coming into your console or DAW. Furman's standard level surge and spike protection keeps your sensitive digital equipment from acting funny or burning up due to everyday spikes and surges. You can even monitor voltage changes, as the digital meter (M-8Dx) allows you to keep an eye on the incoming line voltage. With a 15A capacity and nine total outlets, it's enough to power your whole home studio.

DJ EQUIPMENT

Bars, clubs and other event venues have some of the worst power out there - from air compressors turning on and off to light shows pulling current loads up and down, the AC power can be a strain on the circuits in your rig. Furman's standard level protection and filtration keeps the bad stuff out and the digital voltmeter (M-8Dx) lets you monitor the incoming line voltage. The dual pull-out front panel lights (M-8Lx/M-8Dx) let you discreetly see your board and gear without distracting from the show on the dance floor.

PRO AUDIO

When you're out there gigging, you never know what kind of power you're going to get. The wear and tear on mobile rigs eventually takes it toll - that's why it's smart to plug into Furman's standard level protection and RFI/EMI filtration. It keeps your equipment safe and sounding clean, while the digital voltmeter (M-8Dx) lets you monitor incoming voltage. Whether you're setting up a show at the local club or powering up the church band for their next service, make sure you give them power they can trust.

MERIT X SERIES SPECIFICATIONS

Maximum Output Current
15 Amps

Line Cords
6 ft. captive, 14 AWG, with 3-conductor Edison Plug

Lamps (M-8Lx/M-8Dx)
Two 120V incandescent bulbs, 4 watts each

Operating Voltage
120VAC 60Hz

Spike Protection Mode
Line to neutral

Energy Dissipation
150 Joules

Peak Impulse Current
12,000 Amps

Maximum Continuous Operating Voltage
130 VAC RMS

Noise Attenuation (Transverse Mode)
M-8x²: Greater than 23db, 200Khz to 10MHz
M-8Lx: Greater than 26db, 200Khz to 10MHz
M-8Dx: Greater than 26db, 200Khz to 10MHz

Dimensions
1.75" H x 19" W x 3.75" D (M-8x²)
1.75" H x 19" W x 7.5" D (M-8Lx/M-8Dx)

Weight
M-8x²: 4.9 lbs. (2.2 kg)
M-8Lx/M-8Dx: 6 lbs. (2.7 kg)

Three Year Limited Warranty
Merit Series units are protected by a limited three year warranty covering defects in materials and workmanship.

CONFIGURED WALL MOUNTED ENCLOSED RACK SERIES

6U-12U

FULLY ASSEMBLED RACK SYSTEMS TO MANAGE COMPONENTS FOR NETWORKING, AUTOMATION, HI-FI AND HOME THEATER APPLICATIONS. DESIGNED WITH HEAVY-GAUGE STEEL AND MULTIPLE FEATURES SUCH AS REMOVEABLE SIDE PANELS AND REVERSIBLE LOCKING HINGED DOORS

SPECIFICATIONS:

- Fully welded steel construction
- Weight capacity up to a 132lb.
- Removable locking side panels (locks not included)
- Lockable tempered-glass door (option to reverse door)
- Vented top and bottom
- Heavy-duty hinges support rack and equipment
- Swing-out rack opens to the left
- Rear cable-routing knockouts

For more information please call 1-833-574-9124
or email AVARRO@adiglobal.com

To learn more about AVARRO products visit
avarro.adiglobaldistribution.us

RK-ERW6U (6 Unit Space)

- Max Weight Capacity: 132lbs
- Dimensions of rack: 23.63" x 23.63" x 14.65"
- Box Dimensions: 26.38" x 26.38" x 22.05"
- UPC: 840049305663

RK-ERW12U (12 Unit Space)

- Max Weight Capacity: 132lbs
- Dimensions of rack: 23.63" x 23.63" x 25.16"
- Box Dimensions: 26.38" x 26.38" x 32.68"
- UPC: 840049305670

For more information please call 1-833-574-9124
or email AVARRO@adiglobal.com

To learn more about AVARRO products visit
avarro.adiglobaldistribution.us

Expanded View and Parts

- 1 Frame (side that mounts to wall)
- 2 Mounting Rail
- 3 Hinges
- 4 Swing-out rack opens to the left
- 5 Cable Management Cover
- 6 Front Glass Door (option to reverse door)
- 7 Vented Top and Bottom (fans not included)

For more information please call 1-833-574-9124
or email AVARRO@adiglobal.com

To learn more about AVARRO products visit
avarro.adiglobaldistribution.us

Dimensions

Usable Space Inside Rack in Red

dims of the usable space :450(17.72")width,474(18.66")depth

For more information please call 1-833-574-9124 or email AVARRO@adiglobal.com

UHD Signage UH5J-H

New High Haze UHD Standard Signage

 Proper Display Brightness

 webOS Smart Platform

 Mobile Content Management

 Meeting Room Solution

UH5J-H	
Screen Size	98" / 86" / 75" / 65" / 55" / 49" / 43"
Native Resolution	3,840 × 2,160 (UHD)
Bezel Color	Black
Brightness	500 nits (Typ.)
Bezel	98" / 75": 14.9 mm (Even bezel) 86": 14.3 mm (Even bezel) 65" / 55" / 49": 9.9 mm (T/R/L), 14.4 mm (B) 43": 8.4 mm (T/R/L), 14.4 mm (B)
Depth	98": 86.1 mm 86": 60.6 mm 75": 57.9 mm 65" / 55" / 49" / 43": 39.9 mm

Appropriate Display Brightness

With a brightness of 500 nits, the UH5J-H series clearly delivers content and can attract attention, making it suitable for displaying presentations and marketing communications in meeting rooms, retail spaces, airports, shopping malls and more.

* Actual images available may differ from the example images shown.

High-Performance with webOS

The built-in System on Chip can execute several tasks at once while providing smooth content playback without the need for a media player. Also, the LG webOS Signage platform provides an intuitive, TV-style remote controlled user interface that is easy to learn and consistent across many LG products.

Conformal Coating

In various places your signage may be unable to avoid exposure to environments containing dust or humidity which may hamper performance over time. The conformal coating on power board helps protect UH5J-H series circuit boards from external particles.

Mobile Content Management

Using the free, downloadable* signage app Promota, users can create custom templates from recommendations on the app to easily promote content on their signage. Visit <https://www.promota.net> for details.

* LG Promota is can be downloaded from the App Store and Google Play store.

IP5x Certified Design

The IP5x Certification ensures that the product is protected from dust, reducing the risk of performance degradation.

Compatible with AV Control System

The UH5J-H has been certified Crestron Connected® for high compatibility with professional AV controls to achieve virtually seamless integration and automated, network-based control.

SONY

VPL-PHZ61/51

3LCD Laser projectors

Beautifully slim and light with the smallest body in its class, the VPL-PHZ61/51 laser projectors combine outstanding picture performance with up to 7,000lm* center brightness and impressive reliability. With flexible installation options, minimal maintenance, and 4K 60P input support, these projectors are an ideal choice for today's integrated AV environments. *VPL-PHZ61

Enhanced viewing experience

Sony's Intelligent Settings feature optimizes brightness, cooling system, and other projector settings to suit four usage environments. In addition, with Ambiance, our new built-in ambient light sensor, the projector measures a room's brightness and automatically adjusts color gain, Bright View mode, and Reality Creation settings to match the environment and enhance the viewing experience.

Ambiance includes an ambient light sensor

Enjoy optimum pictures while saving energy

The VPL-PHZ61/51 make sound business sense, helping you reduce running costs in corporate and educational environments. A new Auto Light Output feature works in conjunction with Ambiance, optimizing image quality and maintaining high visibility while reducing power consumption.

Auto Light Output : Off

Auto Light Output : On

*The feature works in conjunction with Ambiance, optimizing image quality and maintaining high visibility while reducing power consumption.

4K 60P input support

Support for 4K 60P input signals makes life simpler when you're using the VPL-PHZ61/51 in multi-screen set-ups with flat panel sub-screens. Just split the same 4K signal to drive all your display devices with no conversion needed. There's also a high-performance image scaler that effortlessly converts 4K input signals to WUXGA resolution while achieving close to 4K image quality. Now optimized for 4K60P signals, Reality Creation is Sony's unique picture enhancement feature that gives projected images even greater crispness and depth. There's also support for devices with content protection such as 4K UHD players.

Smart, installation friendly design

Enjoy flexible installation options with a generous +55% vertical lens shift range, making it easy to achieve perfectly-proportioned pictures without long pole mounts or keystone correction when the projector is ceiling mounted. We've also widened the throw ratio range, simplifying replacement of a previously installed projector without the hassle of re-positioning an existing ceiling mount.

Brighter for longer with less maintenance

Designed with intelligence

Intelligent Settings simplifies installation and maximizes performance based on usage, image detail, color richness and fidelity, light output, cooling level and output noise. The Meeting/Classroom function controls laser output to keep brightness as high as possible for years of real-world use.

Keep dust out of the picture

The projector's laser light source is sealed to prevent dust accumulation and eliminate reduced brightness. The dedicated cooling duct structure for the projector's 3LCD panels is covered with an air filter to prevent dust from entering.

Hassle-free filter care

Focus on great-looking images instead of time-consuming maintenance. A new filter material makes routine filter changes unnecessary for general use in classrooms and meeting rooms.* For heavier use in dusty environments there's a new clogging sensor to advise when filter replacement is needed.

* Dust density < 0.03mg/m3 and operating time < 10,500 hours. (1,500 hours/year over 7 years.)

Other Features

Data Cloning

Settings for one projector can be copied to other projectors using a USB memory drive. This greatly simplifies installation and set-up of multiple projectors.

Auto Input Select

The Auto Input Select feature automatically selects an active signal input, so there's no need to change input each time a device is connected to the projector.

Auto Power on

Connect the VPL-PHZ61/51 to a switched-on computer, and the projector turns on automatically, without having to operate the power button.

Introduction

The Atлона AT-VGW-HW-3, AT-VGW-HW-10, and AT-VGW-HW-20 are Atлона Velocity™ System server gateways for AV system control, plus room scheduling and AV asset management. These gateways feature a compact enclosure that easily installs into a rack. With a simple network connection and web browser access, an integrator, tech manager, or technician can quickly begin configuration and deployment of AV control systems, room scheduling touch panels, and AV devices such as matrix switchers. Velocity VGW-HW server gateways support industry-standard, secure data communications, and feature dual Gigabit Ethernet ports for isolating an AV device LAN from a facility or corporate network. An innovative, network-based system architecture allows full redundancy and failover with two gateways in operation, maximizing AV system reliability while preventing downtime in mission-critical applications.

Unit Capabilities

SKU	AV Control	Room Scheduling	IP Device Capacity
AT-VGW-HW-3	Up to 3 rooms	Up to 6 rooms	250 simultaneous IP connections
AT-VGW-HW-10	Up to 10 rooms	Up to 20 rooms	250 simultaneous IP connections
AT-VGW-HW-20	Up to 20 rooms	Up to 40 rooms	500 simultaneous IP connections

A room can include AV control, room scheduling, or both. For example, with the AT-VGW-HW-10 there can be a total of 6 rooms with AV control only, 4 rooms for control and scheduling, and 16 rooms with scheduling only.

Key Features

Velocity AV system control

- Flexible scalability for integrating one or several AV systems over a network.
- Fast, agile, and highly intuitive control system configuration – set up a room AV system in minutes.
- Configurations can easily be duplicated across devices, rooms, and sites.
- Make control system modifications in just minutes, including AV equipment changes
- Control system redundancy with automatic failover, available via primary and backup VGW-HW processors
- Velocity Command Converters available for IP conversion to RS-232, IR, and relay / sensor; IP to RS-232 available through Atlona AV devices

Velocity room scheduling

- Easy to install and configure for integrators.
- Compatible with G Suite™ and Microsoft® Office 365™.
- Simple to access for meeting participants through Velocity touch panels
- User-friendly GUI for viewing meeting room availability status, browsing for available rooms, and scheduling a meeting or event time
- Ability to extend meetings and initiate ad hoc meeting sessions
- Can be configured with AV system control to automatically trigger AV functions and macros whenever a meeting begins or ends

Velocity Cloud Lite remote configuration and management

- Online resource for creating and centrally managing Velocity control and room scheduling systems for multiple clients and sites.
- Remotely configure a new Velocity control system from scratch, or modify an existing system in minutes.
- Continuous system monitoring – quickly assess system and device status
- Automate Velocity system backups to the cloud at defined intervals
- Easy system restoration by accessing any time-stamped backup

Atlona Management System (AMS)

- Centralized, network-based configuration and management of Atlona IP-controllable products and systems.
- Manage configuration and firmware updates for AV devices spanning a facility, building, enterprise, or residence.
- Automatically discovers Atlona devices on the network and adds them to the system configuration
- Organize Atlona device installations by room, floor, building, and site or campus
- Back up device configurations, duplicate configurations to identical Atlona products on the network, and restore configurations when devices are replaced
- Pre-configure Atlona devices prior to on-site installation and commissioning
- Manage firmware updates including the ability to push to multiple devices at once, and schedule updates at a convenient date and time
- Continuous system monitoring – quickly assess system and device status

Features

Hardware server gateways for AV system control, room scheduling, and AV asset management

Access from a web browser for setup and management

Simplify system or device configuration, deployment, and management with the interactions, flow, and visual elements of a web or mobile app GUI

Create role-based accounts for integrator, client, and AV/IT staff members, each with clearly defined access privileges

Dual Gigabit Ethernet ports for isolating a dedicated AV LAN from the facility or corporate network

Supports industry-standard, secure data communications through HTTP/2, HTTPS, SSH, SFTP, and WebSockets with TLS and AES-128 encryption

USB 3.0 and USB-C ports, plus HDMI® and Mini DisplayPort outputs for future expansion

Rack-mountable 1U, half rack width enclosure

Includes installation guide, rack mounting brackets, and external universal power supply

Introduction

The Atlona **AT-OME-PS62** is a 6x2 matrix presentation switcher with HDMI, USB-C, and HDBaseT inputs, plus HDMI and HDBaseT outputs. Part of the Omega™ Series of integration products for modern AV communications and collaboration, the OME-PS62 features HDBaseT extension for video up to 4K/60 4:2:0, plus embedded audio, control, Ethernet, and USB over distances up to 330 feet (100 meters). The HDMI and USB-C ports support video up to UHD/60 4:4:4. The OME-PS62 is HDCP 2.2 compliant and features 4K/60 4:4:4 upscaling and downscaling for the HDMI output. The integrated USB extension addresses the challenge of connecting between USB devices at remote locations, and is ideal for software video conferencing and touch or interactive displays. The OME-PS62 includes USB 3.0 and USB-C interfaces for three host PCs, plus two peripheral devices such as a camera, microphone, speaker phone, or keyboard and mouse. The OME-PS62 is ideal for a wide range of 4K presentation applications with Omega Series transmitters and receivers.

Applications

- Meeting rooms and conference rooms**
 The OME-PS62 can serve as an AV integration centerpiece in a credenza, with interfacing into sources in the rack, plus remote AV and USB connectivity from wall, table, and display locations.
- Video conferencing and USB data**
 With compatible Omega Series endpoints, this presentation switcher provides interfacing for local and remote USB devices for soft codec conferencing, with video and USB switched together between host PCs. As a matrix switcher with scaling, the OME-PS62 is also ideal for hardware-based video conferencing, with the ability to route and optimize any source content to the codec far-end.
- Auditoriums and lecture halls**
 The HDBaseT output of the OME-PS62 can be used to extend 4K video to a projector, while the HDMI output serves to optimize for a 1080p or 4K confidence monitor. Also available is a microphone input and mixing with program audio.
- Active learning classrooms**
 In education applications, the OME-PS62 can be installed below each student table, with the HDMI output feeding a local display, and the HDBaseT output used to send content to the main classroom AV switcher and display.
- Lecture capture**
 The secondary, HDMI output can also be used to feed into a lecture capture or streaming video system, with video scaled as appropriate for the application.

Key Features

6x2 AV matrix switcher with HDBaseT, HDMI, and USB-C inputs

- Features two HDBaseT and three HDMI inputs, plus a USB-C input.
- Delivers flexible BYOD capability, as well as integration versatility for local and remote AV sources.

USB-C input for AV, data, and device charging

- Provides immediate compatibility with laptops and tablets with USB-C ports supporting AV output.
- Allows clutter-free, single cable connectivity to a PC for video conferencing and collaboration.

HDBaseT and HDMI outputs with selectable AV switching modes

- Enables simple configuration and effortless user operation, tailored to the specific AV application.
- Three selectable switching modes, including mirrored HDMI and HDBaseT outputs, matrixed outputs (default), and a special mode with one input fixed to one of the outputs.

4K/UHD downscaling and upscaling for HDMI output

- Preserves color and spatial detail when down-converting 4K content to 1080p or vice versa. Ideal for presentation applications where content is to be viewed on 4K and HD displays.
- Also ideal for downscaling to 1080p for hardware video conferencing codecs and lecture capture systems.

USB 3.0 interface and extension up to 330 feet (100 meters)

- Two USB type B interfaces for connection to a host PC, plus two USB type A ports for peripheral devices such as cameras, soundbars, or touch displays. USB-C input is also available for data connection to a host PC or USB peripheral.
- Provides an ideal USB integration solution for software video conferencing and other applications. A maximum data rate of 120 Mbps is supported over HDBaseT.

Comprehensive audio integration features

- Audio embedding and de-embedding, microphone/line level input with 48 volt phantom power and automatic ducking, audio output matrix mixing, and volume, mute, and five-band EQ for each output.
- Integrated audio processing and optimization features without the need for additional equipment.

Power over Ethernet (PoE) for transmitters and receivers

- Supplies industry standard IEEE 802.3af PoE over HDBaseT to Omega Series and other compatible transmitters and receivers.
- Allows convenient endpoint installation at remote locations without the need for local AC power.

Display control

- Supports CEC and bidirectional RS-232 to control local and remote displays.
- Bidirectional conversion of control data from TCP/IP to and from RS-232.

Introduction

The Atlona AT-OME-RX11 is an HDBaseT receiver for video up to 4K/60 4:2:0, plus embedded audio, control, and Ethernet over distances up to 330 feet (100 meters). Part of the Omega™ Series of integration products for modern AV communications and collaboration, the OME-RX11 is HDCP 2.2 compliant and receives RS-232 and IP control signals. Additionally, this receiver features two-channel audio de-embedding to a balanced analog audio output. The OME-RX11 is locally powered, and can deliver Power over Ethernet (PoE) over HDBaseT to an Atlona Omega Series, HDVS-200 Series, or AT-UHD-EX-100CE-TX-PD transmitter.

The OME-RX11 incorporates many popular integration convenience features, while delivering excellent performance and value for 4K presentation applications. The Ethernet port on the OME-RX11 is for IP pass-through with the transmitter.

Applications

- **Complete system integration**
The OME-RX11 and an Omega Series switcher together provide a comprehensive and cost-effective integration solution for meeting rooms and other AV presentation spaces..
- **Larger system applications**
The OME-RX11 offers a new option for legacy Atlona transmitters and switchers with HDBaseT outputs, to provide audio de-embedding for feeding into an amplifier and speakers.

Key Features

Video, audio, power, and data over category cable utilizing HDBaseT technology

- Receives up to 330 feet (100 meters) @ 1080p with CAT5e/6 or 4K/UHD using CAT6a/7 cable.
- Uses easy-to-integrate category cable for low-cost, reliable system installation.

4K/UHD capability @ 60 Hz with 4:2:0 chroma subsampling

- Compatible with sources up to 4K/60 4:2:0 and 4K/30 4:4:4.
- Supports HDMI data rates up to 10 Gbps from PCs, media players, and Ultra HD Blu-ray players.

HDCP 2.2 compliant

- Adheres to latest specification for High-bandwidth Digital Content Protection.
- Allows protected content stream to pass between authenticated devices.

Local AC powering – PoE (Power over Ethernet) source

- Supplies industry standard IEEE 802.3af PoE over HDBaseT to an Omega Series, HDVS-200 Series, or AT-UHD-EX-100CE-TX-PD transmitter.
- Allows convenient transmitter installation at any remote location, without the need for local AC power.

Audio de-embedding

- De-embeds two channel PCM audio to a balanced, analog audio output.
- Deliver audio to an amplifier and speakers for sound reinforcement.

Front panel power and signal status LEDs

- LED indicators provide power and HDBaseT link status information.
- Provides convenient setup and troubleshooting.

Low-profile, 1.02 inch (26 mm) high enclosure

- Easy installation into confined spaces below tables, in furniture, and behind or above displays.
- Includes mounting hardware for installation onto surfaces.

Introduction

The Atlona **AT-OME-TX11-WP** is an HDBaseT transmitter for video up to 4K/60 4:2:0, plus embedded audio over distances up to 330 feet (100 meters). It features a US one-gang, wallplate form factor, and includes interchangeable black and white wallplates and faceplates. Part of the Omega™ Series of integration products for modern AV communications and collaboration, the OME-TX11-WP is HDCP 2.2 compliant and is remotely powered over HDBaseT. This transmitter is ideal for use with Omega Series receivers as well as switchers with HDBaseT inputs.

Applications

- **Collaboration and gathering spaces**
The OME-TX11-WP and OME-RX11 together serve as a basic but effective AV solution with a convenient wall or table HDMI connection for a presenter. The de-embedded audio output at the OME-RX11 offers the opportunity to add sound reinforcement.
- **Classrooms and auditoriums**
This wallplate transmitter can provide an auxiliary HDMI input into the main switching system, such as the OME-PS62 presentation switcher. The OME-TX11-WP can be installed wherever designated for a student to connect a laptop and share content with the class.

Key Features

US one-gang enclosure for wallplate openings – interchangeable black or white trim kits

- Allows inconspicuous installation on a wall, in furniture, or in a floor box. Includes black and white wallplates and faceplates.
- Meets end user requirements for conveniently accessible yet discreet AV connectivity.

Video, audio, and power over category cable utilizing HDBaseT technology

- Transmits 4K/UHD video up to 330 feet (100 meters) with CAT6/6a/7 cable, or up to 295 feet (90 meters) using CAT5e cable.
- Uses easy-to-integrate category cable for low-cost, reliable system installation.

4K/UHD capability @ 60 Hz with 4:2:0 chroma subsampling

- Compatible with sources up to 4K/60 4:2:0 and 4K/30 4:4:4.
- Supports HDMI data rates up to 10 Gbps from PCs, media players, and Ultra HD Blu-ray players.

HDCP 2.2 compliant

- Adheres to latest specification for High-bandwidth Digital Content Protection.
- Allows protected content stream to pass between authenticated devices.

Remote powering over HDBaseT

- Industry standard IEEE 802.3af PoE is supplied by an Atlona receiver or switcher over HDBaseT.
- Allows convenient wall, floor box, or furniture installation without the need for local AC power.

Introduction

The Atlona AT-VTP-1000VL is a Velocity System 10" touch panel with integrated surround LED lighting. It features contemporary, refined styling with 1280×800 native resolution, and a capacitive glass surface that supports multi-touch. The large 10" touch panel provides additional space for more complex user control of video walls, high density matrix switchers, audio DSP's, or other applications that have greater control function requirements. Bright LED lighting surrounding the edge of the panel is ideal for providing a visual representation of room status in scheduling applications or for adding emphasis to AV control functions. The panel ships with a dual-purpose one-gang wall/glass mount kit, that is a standard VESA 75 pattern to provide compatibly with a wide variety of other options. The VTP-1000VL features Power over Ethernet (PoE), enabling a single network connection for data and power. Setting up the touch panel is easy, with room scheduling and AV control GUIs automatically uploaded from the Velocity System hardware or software server gateway during system configuration.

Applications

- Ideal for large meeting rooms, board rooms, lecture hall, or video wall locations where more complex control functionality is required
- Ideal for lobbies, hallways, or outside of any meeting space that requires a quick and easy visual means of displaying room availability.

Key Features

10" touch panel

- More graphical user interface area.
- Supports complex applications that require a greater number of user controls.

Room scheduling and AV control touch panels

- Single, flexible touch panel platform that can be used for a variety of applications.
- Only need to stock a single panel to satisfy multiple requirements.

Surround LED lighting

- Lights on the entire outer frame of the touch panel can be configured for room scheduling or AV control functions.
- LED's can be easily seen from the side in either landscape or portrait orientation.

Fast streamlined setup

- Automatic network discovery and configuration by a Velocity System Gateway.
- Room scheduling and AV control GUIs are automatically loaded by a single configuration tool.

Contemporary styling

- Refined aesthetics.
- Modern appearance matches any environment.

Flexible mounting

- Dual-purpose one-gang wall/glass mount kit included.
- Standard VESA 75 pattern for compatibility with third party mounts.
- Optional AT-VTP-VTM tabletop mounting kit for placement on a meeting table or lectern.

PoE

- Remotely powered via Power over Ethernet.
- Single cable network connection for data and power.

Introduction

The Atlona **AT-VCC-RELAY-KIT** is an accessory for the Atlona Velocity™ Control System that provides conversion between IP control commands and relay / sensor signals. This Velocity Control Converter is very compact and can be placed anywhere a device requires control and is not IP-capable. The VCC-RELAY-KIT is remotely powered through Power over Ethernet (PoE), or locally from a USB power source. The primary unit installs onto any surface via a convenient mounting dock. A simple “click” locks it into place for a secure, reliable installation. The control port module supports DIN rail installation, and features four relay outputs plus four sensor inputs. The inputs and outputs are both configurable for various operating modes.

Key Features

- Provides conversion between IP and relay / sensor control signals for the Velocity Control System
- Compact form factor – inconspicuous and easily concealable
- Easy to set up and configure using the Velocity Control Suite
- Remotely powered via PoE (Power over Ethernet)
- Also can be powered through USB from a nearby USB power source
- Primary unit installs onto any surface via a convenient mounting dock – simple “click” locks device into place
- Control port module includes four relay outputs and four sensor inputs
- Relay outputs configurable to support common relay types – Single Pole Single Throw (SPST), Single Pole Double Throw (SPDT), and Double Pole Double Throw (DPDT)
- Sensor inputs can be configured to support voltage or contact closure sensing
- Push-in terminal blocks for relay and sensor connections
- 4.5 foot (1.4 meter) cable
- Control port module supports DIN rail installation
- Award-winning 10 year limited product warranty

CONVERGE Pro 2 is the industry's most advanced professional audio DSP platform for conferencing and sound reinforcement applications. It outperforms in any size room, audio environment, and application.

The 48VT model mixer has 4 inputs with AEC, 8 outputs, built-in VoIP/Skype for Business interface, Telco, USB audio; GPIO, RS232, IP control interfaces; and P-Link and C-Link expansion buses.

CONVERGE Pro 2 is optimized to work with the new Beamforming Mic Array 2 and DIALOG® 20 2-Channel Wireless Microphone System through its native connection.

Powerful Architecture

- + 4 Mic/Line inputs with AEC
- + Built-in VoIP: 5 lines
- + Built-in Skype for Business Client
- + Built-in Telco with ClearEffect™ processing
- + Separate ports for VoIP/Skype for Business and Ethernet
- + Built-in USB for PC-based conferencing
- + Reduced footprint and power consumption

Scalable Connectivity

- + Standalone and daisy-chained system
- + Stack up units up to 144 Mic/Line inputs
- + Expansion bus "C-Link" with 64 channels
- + "P-Link" bus to connect peripheral devices

Configuration & Management

- + New CONSOLE® software
- + Auto-discovery of devices
- + MatrixView™ for entire system
- + FlowView™ for visualized audio signal paths
- + System monitoring and troubleshooting

Audio Signal Processing

- + ClearPath™ architecture for guided work-flow and processing
- + Next-gen Acoustic Echo Cancellation processing
- + Distributed Echo Cancellation® on every mic input
- + Noise Cancellation with Adaptive-Ambience
- + Acoustic Intelligence with faster convergence
- + DARE™ feedback elimination
- + Advanced microphone gating

Applications

- + POTS conferencing
- + VoIP conferencing
- + PC-based conferencing & Unified Communications
- + Microsoft Skype for Business audio conferencing

Flexible Control Options

- + Dialer app for Windows, Mac, iOS, Android
- + Touch Panel Controller with tabletop and wall mount options
- + 3rd-party™ control modules

PRODUCT SPECIFICATIONS

Unless otherwise specified, all measurements are performed with a 20Hz to 22kHz BW (no-weighting).

MIC/LINE INPUTS & OUTPUTS

Inputs: Balanced audio inputs, 3.81mm Orange color Phoenix/Euroblock type male header, Push-on mini-terminal block

Outputs: Balanced audio outputs, 3.81mm Black color Phoenix/Euroblock type male header, Push-on mini-terminal block

Frequency Response:

20Hz – 22kHz @ +4dBu, +/- 0.5dBu

EIN (Equivalent Input Noise):

20kHz BW, max gain, $R_s = 150\Omega$, -126dBu

THD + N (Total Harmonic Distortion + Noise):

- 20Hz – 22kHz @ +4dBu, line level, 0.006%
- 20Hz – 22kHz @ -56dBu, mic level, <0.04%

Dynamic Range:

20Hz – 20kHz @ 0dB, >105dB

Crosstalk (Mic/Line):

Channel to Channel, stimulus at 20dBu to receptor at -56dBu, 1kHz, < -98dB

Input Impedance:

Balanced (line to ground), 2.2k Ω , 1%

Nominal Input Level:

Adjustable -56dB to 0dB, 7dB step coarse gain

Maximum Input Level:

-65dBu to 20dBu

Phantom Power:

48V, Impedance 6.81k Ω

Output Impedance:

Balanced (line to ground), 95 Ω , 1%

Output Level:

0dBu (Nominal), 20dBu (Max), -40dBu (Selectable)

USB AUDIO

Port Type: USB-B connector

Audio: Digital Audio, 2 x 2 bidirectional channels

Sample Rate: 48kHz

Sample Bit Depth: 24-Bit

Compatible:

- USB 2.0
- USB 3.0

TELEPHONE

Port Type: RJ11

Frequency Response:

- Mic/Line Input to Telephone Out: 250Hz – 3.4kHz, +/- 2dB, 4dBu
- Telephone In to Mic/Line Out: 250Hz – 3.4kHz, +/- 2dB, -15dBu

THD + N:

- Mic/Line Input to Telephone Out: <0.1% @ 4dBu
- Telephone In to Mic/Line Out: <0.3% @ -15dBu

Dynamic Range:

- Mic/Line Input to Telephone Out: >67dBu
- Telephone In to Mic/Line Out: >87dBu

REN:

Ring Equivalent Number 0.2

Transhybrid Balance:

30dB (1kHz, all AC terminations)

VOIP

Port Type:

RJ-45, 10/100Mbps Ethernet Network, Auto Negotiation

Audio:

5 Lines

Number of Lines	Maximum Number of Calls/Line
1	5
2	5
3	4
4	3
5	2

Codec:

- G.711 uLaw
- G.711 ALaw
- G.722

Skype for Business (S4B):

- Microsoft Skype for Business support (1 client)
- Choose either regular VoIP or S4B through configuration

ETHERNET

Port Type:

RJ-45, 10/100Mbps Ethernet Network, Auto Negotiation
IP address: IPv4 (IPv6 upgradeable through future s/w, f/w upgrade)

AMPLIFIER OUTPUT

Speaker Output Port: Dual binding posts

Audio: 2 Channels

Output Power: 10W Max, 8 Ω load

Frequency Response:

20Hz – 22kHz @ +10dBu, +/- 0.5dBu

THD + N: 20Hz – 22kHz @ +10dBu, 1W, <0.3%

Dynamic Range:

20Hz – 22kHz @ 20dB, >102dB,

with 20kHz digital low pass filter

Crosstalk:

Channel to Channel, stimulus at 20dBu, 10W output to receptor 8 Ω load, 20Hz – 22kHz, < -70dB

C-LINK EXPANSION BUS

Ports Type: RJ-45 (Cat5e or Cat6)

C-Link In & Out: Proprietary Expansion Bus

Audio: 64 Expansion channels

Cable: Solid core, factory terminated Cat 5e or 6 cable

Distance: Up to 150' (45M)

P-LINK PERIPHERAL BUS

Ports Type: RJ-45 (Cat5e or Cat6)

P-Link In & Out: Proprietary Peripheral Bus

PoE In:

- P-Link In Port
- PoE 802.3af Mode B, Midspan
- Power on "spare pairs" 4,5 and 7,8
- Input voltage range: 48V to 56V

Audio: Up to 3 Beamforming Microphone Array 2 units + up to 3 DIALOG 20 Wireless Receiver units + Up to 3 USB Expander units + Up to 3 GPIO Expander units

Cable: Solid core, factory terminated Cat 5e or 6 cable

Distance: Up to 200' (60M)

Long Distance P-Link:

- Increases P-Link distance from 200 Ft to 650 Ft
- 650 Ft (200M) maximum cable distance between any two units
- Cat6, 550 MHz, 23 AWG, solid conductor cable
- Do not use Copper Clad Aluminum (CCA) cable
- Available only for BFM2 peripheral units
- 48V PoE Midspan Mode B power injector for 1 BFM2 unit
- 56V PoE Midspan Mode B power injector for 3 BFM2 units

RS232

Port Type: DB9 Female

Settings: 9600/19200/38400/57600/115200 Baud; Serial Echo; Flow Control

Support: Serial commands

GPIO

Port Type:

5.08mm Green color Phoenix/Euroblock type male header

Support: Control, Status, Variable Voltage Control

Power Pin: 5V DC @ 350mA Power Source

Pin 1 to 4:

- Open Collector Outputs: 40VDC @ 250mA
- Active Outputs (Source/Sink): 5VDC @25mA
- Logic Inputs: 40.2k Ω pull up
- Variable Voltage Control Inputs: 5VDC max

Ground Pin: GND

USB CONTROL

Port Type: USB-B connector

Location: Front Panel

Compatible:

- USB 2.0
- USB 3.0

LEDs

Location: Front Panel

Status LED:

- Off: Unit still initializing

- Blue - Fast Blinking: Stack Syncing in progress
- Blue - Slow Blinking: Unit not configured
- Blue - Solid: Configured unit
- Red - Fast Blinking: Stack Sync error

Locate LED:

Blue - Blinking: Unit "Locate" command received

Power LED:

Blue - Solid: Unit is powered on

TOUCH SENSOR

Sensor Type: Capacitive Touch Button

Location: Front Panel

POWER & THERMAL

Port Type: AC Inlet

Mains Voltage: 100-240V AC, 50/60Hz

Power Consumption: 50 Watts Typical

Thermal: 170 BTU/Hr Typical

Operating Temperature:

14°F (-10°C) to 104°F (40°C) Ambient Temperature

DIMENSION & WEIGHT

RU size: 1 RU

Width x Depth x Height:

ADS48 UHF Antenna Distribution System

OVERVIEW

The Audix ADS48 is a wide range UHF antenna distribution system that combines up to four wireless systems to be able to run off a single pair of antennas and power supply. The ADS48 has an internal switching power supply which eliminates the need for the individual DC power supplies normally needed for each receiver. RF signals are internally amplified in order to compensate for any loss that may result from splitting the signal.

SUPPLIED ACCESSORIES

- 1 x ADS48 Antenna Distribution Unit with rack mount
- 2 x Antennas - (see photo A below)
- 1 x IEC power cable
- 4 x Power Jumper Cables to provide power to individual receivers - (see photo B below)
- 8 x BNC-to-BNC Coaxial Cables for pass through connection for up to 4 additional receivers (single or dual) - (see photo C below)
- 2 x Coaxial cables for front mounting antennas - (see photo D below)

A

B

C

SPECIFICATIONS

Frequency Range	470 - 900 MHz
RF Output Level (Gain)	0 dB d + or - 3 dB
Input Impedance	50 Ohm
Output Impedance	50 Ohm
Power Voltage	100 - 240 V AC 50 / 60 Hz
Output DC Voltage	+12 V DC, 800 mA maximum
Antenna Input DC Voltage	8 V, 150 mA maximum
Dimensions	19" (W) x 2" (H) x 10" (D) 480 mm (W) x 45 mm (H) x 250 mm (D)
Net Weight	16 oz / 2.15 kg

ADS48

SETTING UP THE DISTRIBUTION SYSTEM

FRONT MOUNTING ANTENNAS (Do this step before installing in rack)

- A.** Remove the hex nut from the threaded end of the front mount antenna cable.
- B.** Insert the end of the front mounting cable through the back side of the rack hole. Note that the hole is slotted on one side – it can only go in one way. Screw on the hex nut to secure.
- C.** Attach the antenna cable on the left side to antenna A INPUT and the cable on the right side of the unit to antenna B INPUT. Install the ADS48 into the rack. (See B and F below)

BACK OF ADS48

CABLE INSTRUCTION FOR ANTENNA DISTRIBUTION FOR

ADDITIONAL RECEIVERS: All cables are connected from the back side of the ADS48 to the back side of the additional receiver(s).

Using the BNC antenna coax cable, connect output Antenna A #1 from the ADS48 (see E above) to Antenna A on the Performance Series receiver and Antenna B #1 from the ADS48 (see C above) to Antenna B on the Performance Series receiver. Additional receivers are done in exactly the same way.

IMPORTANT: Antennas must be hooked up correctly A to A and B to B to work properly.

CABLE INSTRUCTION FOR POWER DISTRIBUTION:

All cables are connected from the back side of the ADS48 to the back side of the additional receiver(s).

Using the power jumper cables plug one side of the cable into DC Output #1 on the ADS48 (see D above) and the other end to the DCV Input on the Performance Series receiver. Additional receivers will be done in the same sequence.

Power Cable: Plug the provided IEC power cable into the back of the ADS48 and then plug into electrical outlet. (see A above)

Power up the ADS48 via the power switch on the front. The light will indicate that the unit is powered up. The ADS48 acts as the master power unit for all receivers in the chain. Receivers will not power up without the master power switch being on.

PRODUCT REGISTRATION: Please register your product online at www.audixusa.com/docs_12/about/product_registration.shtml.

SERVICE AND WARRANTY: This microphone is under warranty for a period of 1 year to be free of defects in material and workmanship. In the event of a product failure due to materials or workmanship, Audix will repair or replace said product at no charge with proof of purchase. Audix does not pay or reimburse shipping costs for warranty repairs or returns. The warranty excludes any causes other than manufacturing defects, such as normal wear, abuse, environmental damage, shipping damage or failure to use or maintain the product per the supplied instructions. No Implied Warranties: All implied warranties, including but not limited to implied warranties of merchantability and fitness for a particular purpose are hereby excluded. The liability of Audix, if any, for damages relating to allegedly defective products shall be limited to the actual price paid by Dealer for such products and shall in no event include incidental or consequential damages of any kind. Should your microphone fail in any way, please contact the Audix Service department at 503.682.6933. A Return Authorization is required before returning any product. **OTHER THAN THIS WARRANTY, AUDIX MAKES NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCTS, THE USE OF THE PRODUCTS, THE PERFORMANCE OF THE PRODUCTS. AUDIX SHALL NOT BE LIABLE FOR SPECIAL INCIDENTAL, CONSEQUENTIAL, INDIRECT OR SIMILAR DAMAGES ARISING FROM OR BASED ON THE SALE, USE, STORAGE OR DISPOSAL OF THE PRODUCTS, AUDIX'S SERVICE WORK, BREACH OF WARRANTY, BREACH OF CONTRACT. NEGLIGENCE, OR ANY OTHER THEORY OF LIABILITY, EVEN IF AUDIX HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.**

max TX™ SERIES TWISTED PAIR Model TX-TPR3A Format-A Three-Pair Receiver

- Three -10 dBV Unbalanced or +4 dBu Balanced Outputs
- Phono Jack and Detachable Terminal Block Outputs
- Audio Outputs for All Three Pairs (A, B and C)
- Utilizes All Three Format-A Pairs
- Powered Locally or Remotely through RJ45 Jack
- Local Power Feeds all Modules Connected to INPUT
- Wiring Fault Protection by Automatic Resetting Fuse
- Local Power Input on Terminal Block or dc Power Jack
- Blue LED Indicates Module is Powered
- Studio-Quality Precision Active Balanced Circuitry

The TX-TPR3A is a three-pair audio receiving module compatible with RDL Format-A twisted pair products. It is built in the versatile Max-TX series enclosure. The durable adhesives provided with the TX-TPR3A permit permanent or removable mounting. The TX-TPR3A may be rack or surface mounted with optional TX™ series accessories.

APPLICATION: The TX-TPR3A is a three-pair audio receiving module compatible with RDL Format-A twisted pair products. Three outputs are provided corresponding to the three signal pairs A, B and C. The audio signal received on each pair of the RJ45 INPUT jack feeds the corresponding -10 dBV unbalanced RCA phono jack output and the +4 dBu balanced detachable terminal block output. A studio-quality buffer amplifier feeds the outputs at the correct operating level.

The TX-TPR3A features bridging inputs, allowing it to be connected to the LOOP OUT jack of other receivers. The bridging input circuits used in all FORMAT-A twisted pair receivers allow connection of up to 10 receiver outputs for each cable pair. The possibility of multiple receiver locations adds enormous flexibility in the design of audio routing systems using RDL FORMAT-A products. The TX-TPR3A may be powered directly from a 24 Vdc power supply using either the power jack or the detachable terminal block. Local power connected to the module is also fed to all modules connected to the INPUT RJ45 jack.

The TX-TPR3A may be remotely powered through the twisted pair cable from any other module, signal distributor or RDL power inserter connected to the same twisted pair cable. Module power is indicated by a front-panel LED.

RDL FORMAT-A features superior audio performance that rivals or exceeds shielded wiring. Design simplicity, ease of installation, unsurpassed flexibility, automatic fused power, exceptional hum rejection, low noise, and low distortion provide designers and installers the optimum choice in economical twisted pair products.

max TX™ SERIES TWISTED PAIR

Model TX-TPR3A

Format-A Three-Pair Receiver

Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4
Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

STEP 1: Connect 24 Vdc to the **POWER** input (terminals or jack) if this module is not being powered through the twisted pair cable from another module, or if this module is located an excessive distance from the next powered module on the cable. Note: The front-panel power LED will be illuminated if this module is powered. If this module is powering other modules through the cable and if there is a wiring short, the short must be cleared then power must be turned off to this module for 10 seconds to reset the internal protection circuit.

STEP 2: Connect the **UNBAL OUT** jacks to -10 dBV equipment inputs, and/or connect the **BAL OUT** terminals to +4 dBu equipment inputs.

STEP 3: Connect the **INPUT** twisted pair cable coming from Format-A senders or distributors and mount the module.

NOTE: All six audio outputs may be used simultaneously. Each Format-A pair A, B and C provides two associated outputs: one balanced, one unbalanced.

NOTE: Connect a 24 Vdc power supply to the module if power is not being supplied through a twisted pair cable from a connected module.

RJ45 Standard wiring

RJ45 conductor colors shown are for 568A standard. The 568B standard may be used if the connectors at both ends of the cable are wired identically.

TX™ SERIES Model TX-TP4PW Power Inserter / Signal Breakout

- Power Remote Senders and Receivers from Convenient Location
- 24 Vdc Power Input on dc Power Jack
- Blue Power LED Shows Module is Receiving Power
- Green LED Indicates Correct dc Output Voltage on RJ45s
- Four Associated RJ45 Jacks Provide Power Output
- Pairs A, B and C are Connected Between all Four RJ45 Connectors
- Power up to Three High-Current Format-A Receivers

The TX-TP4PW is part of the group of versatile TX series products from Radio Design Labs. TX modules feature the superior engineering and components common to RDL products. The durable adhesives provided with the TX-TP4PW permit permanent or removable mounting. The TX-TP4PW may be rack or surface mounted with optional TX series accessories.

APPLICATION: The TX-TP4PW is a power inserter compatible with RDL twisted pair products. The TX-TP4PW is powered from a 24 Vdc power supply using a dc power jack. Four RJ45 jacks are provided to connect remote twisted pair senders and receivers. The audio signals on pairs A, B and C are connected between all four RJ45 connectors.

When one RJ45 receives signals from twisted pair senders, the remaining three RJ45 jacks can each connect to a separate twisted pair receiver. Three jacks are provided so that three home runs to twisted pair receivers are possible. This is particularly useful for powering three high current receivers that cannot be daisy chained, such as D-PSP1A Powered Speakers.

The TX-TP4PW may also connect to three home runs from separate Format-A senders. A sender set to feed Pair A connects to one RJ45 on the TX-TP4PW. Senders feeding pairs B and C connect to two other RJ45s. The fourth RJ45 becomes an output with signals on all pairs A, B and C. This is useful in installations where daisy chaining senders is not practical.

Power is provided to all modules connected to the RJ45 jacks. Signal pairs feed through the associated RJ45s. Output voltage is protected by an automatically resetting fuse. The output power LED facilitates identification of wiring faults. Module power is indicated by a front-panel LED.

TWISTED PAIR FORMAT-A Models D SERIES-BT1A Wall-Mounted Bluetooth® Audio Format-A Interface

- Bluetooth Audio Input for Installed Sound System
- Intuitive Single Button Pairing with LED Status Indication
- Special Software Not Required for Module Setup
- Customize the Module ID Name and Programming Password through the Bluetooth Connection
- Sends Received Bluetooth Audio to RDL Format-A Receivers
- Mono Summed or Stereo Audio Input Mode is Switch-Selectable on Rear Panel
- Rear-Panel Switch Selects which RJ45 Pair (A, B or C) is Fed in Mono Summed Mode
- Daisy-Chain up to Three D SERIES-BT1A modules to One Format-A Receiver in Mono Mode
- Remotely Powered through Twisted Pair Cable
- Signal and Power Pair Pass-Through on RJ45 Jacks

The D SERIES-BT1A is part of the group of versatile wall-mounted products from Radio Design Labs. The standard mounting case can be directly fastened in North American electrical boxes or in RDL International wall boxes.

APPLICATION: The D SERIES-BT1A modules are Bluetooth audio receiving modules compatible with RDL® Format-A twisted pair receivers. When paired with a compatible Bluetooth enabled device, the module receives stereo audio from the Bluetooth source. The stereo signal is sent through two Format-A pairs to any RDL Format-A receiver. A stereo/mono switch set by the installer permits summed mono audio to be sent over one switch-selected pair to the Format-A receiver.

If set for stereo operation, an additional Format-A source (set to Pair A) may be daisy chained with the D SERIES-BT1A to a three-pair Format-A receiver. If set for mono operation, up to three D SERIES-BT1A modules may be daisy chained to a single three-pair Format-A receiver. Connections between Format-A modules and Format-A receivers use standard CATx cable with RJ45 connectors.

The D SERIES-BT1A modules are powered from the Format-A receiver. The installer can customize the module name and programming password through the Bluetooth connection using a smartphone, computer or tablet terminal program. These modules feature studio-quality circuits and analog filters to provide audio performance exceeding expectations from consumer interface technologies. High performance, simplicity of operation and efficiency of installation make RDL the best value in professional Bluetooth interfaces.

Sole EMC specifications provided on product package.
Specifications are subject to change without notice.

Instructions for Bluetooth pairing

These instructions are based on the default RDL unit identification as RDL_BT_FA. If the RDL unit has been renamed by the installer, substitute the new name for RDL_BT_FA in the following steps.

PAIRING

1) Press and hold the PAIR button until the blue LED on the RDL unit illuminates, then release.

Note: The blue LED flashes as long as the unit is available for pairing. If the blue LED stops flashing before the pairing process is completed, restart these steps.

2) While the blue LED is flashing, locate RDL_BT_FA on your device's Bluetooth settings and click PAIR DEVICE, following screen prompts to complete the pairing process.

Note: The blue LED glows steady while the RDL unit is paired.

UN-PAIRING

The RDL unit will unpair automatically 30 seconds after the user device leaves the area. The user device may be manually disconnected by pressing and holding the PAIR button on the RDL unit.

RE-PAIRING

1) Press and hold the PAIR button until the blue LED on the RDL unit illuminates, then release.

2) While the blue LED is flashing, locate RDL_BT_FA under Previously Connected Devices on your device's Bluetooth settings and click RDL_BT_FA, following screen prompts to complete the re-pairing process.

Note: If the re-pairing fails, click Forget Device on the user device and pair the RDL unit as a new device.

Upon successful pairing, the user device applications for audio playback through a Bluetooth interface may be used.

Switching Engineered for AV over IP

Introducing the NETGEAR AV Line of M4250 Switches, developed and engineered for audio/video professionals with dedicated service and support. M4250 has been built from the ground up for the growing AV over IP market, combining years of networking expertise in AV with M4300 and M4500 series with best practices from leading experts in the professional AV market. AV codecs

generally use 1Gbps or 10Gbps per stream and the AV Line of M4250 targets the widespread 1Gbps codecs.

PoE+, Ultra90 PoE++ and rear-facing ports ensure a clean integration in AV racks. M4250 switches come pre-configured for standard audio and video signals. When requirements are more specific, an AV user interface offers customization with port-based profiles. For audio,

Dante, Q-SYS, AES67, and AVB profiles are available. For video the M4250 offers profiles for NVX, AMX, Q-SYS, NDI, Dante etc. as well as audio/video/control mixed profiles. When multiple switches are used, NETGEAR IGMP Plus™ brings automation for you to just connect them together, or with M4300 and M4500 switches.

Highlights

Extended AV features

- Dedicated AV web-based GUI interface for more specific AV installations
- Color-based AV profiles can be applied to the different ports
- Dante, Q-SYS, AES67 and AVB audio profiles
- NVX, SVSI, Q-SYS, NDI and Dante video profiles
- Audio / video / control mixed profiles
- Automatic switch interconnect with NETGEAR Auto-Trunk, Auto-LAG and IGMP Plus
- Common Layer 2 and Layer 3 switching engine across all M4250 models

- Built-in IT web GUI, console, telnet and SSH consistent with other NETGEAR M4300 and M4500 series
- Feature set includes static, RIP and PIM routing, DHCP Server and PTPv2

Audio Video Bridging (AVB) services

- AVB is one of the many features designed into the M4250 product line
- AVB is an industry standard for transporting content over a network
- AVB is used most often when very low latency is required such as in live performances when lip sync is critical

Other IT use cases

- Standard or recessed mounting with all ports in the back, or all ports in the front

- Fully featured L2/L3/L4 platform for midsize Enterprise campus networks, IoT and IPTV

Industry standard management

- Industry standard command line interface (CLI), main NETGEAR IT web interface (GUI), SNMP, sFlow and RSPAN
- The NETGEAR Engage™ Controller manages all M4250, M4300, M4350, and M4500 switches for your AV installations.

Industry leading warranty

- NETGEAR M4250 series is covered under NETGEAR ProSAFE Limited Lifetime Hardware Warranty*
- 90 days of Technical Support via phone and email, Lifetime Technical Support through online chat and Lifetime Next Business Day hardware replacement

* Software-controlled fan adjustments enable the fans to be turned off when ambient temperature and PoE loads are appropriate for a totally fanless operation.

** dBA values are SPL (Sound Pressure Level) values, testing following the ISO-7779 standard. Bystander Mode. Chamber Temp 25°C during testing. Full, 100%, Data and PoE loaded. Worst case.

SAMSUNG

Crystal UHD Signage

QBC series

Slim design. Stunning performance.

Introducing the QBC series, the slimmest display in the Samsung's UHD signage offerings. This products deliver an unparalleled slim design that fits into any business, while delivering the visual quality to make a big impact. The sleek form factor is easily installed to fit any room design and delivers stunning visual performance. Dynamic Crystal Color and Quantum Processor Lite 4K delivering consistent, lifelike colors to any content. This is not just a display for simple advertising. It's a display that brings the solutions, tools, and picture quality to grow to your business, no matter what industry you're in.

Key features

Ultra Slim Depth

The unparalleled ultra-slim thickness of 28.5mm makes it the thinnest option in Samsung's UHD Signage series. It comes with the Slim Fit Wall Mount, which allows you to install it neatly and easily in any environment.

Even Bezels and Centered VESA Holes

The bezels are even on all four sides of the display for a consistent look, while the central VESA mounting holes ensure secure mounting and easy adjustability to portrait mode.

Dynamic Crystal Color

One billion shades of color let you see every subtlety with lifelike color variations. Images are clear and consistent thanks to Samsung's industry leading video processing and upscaling technology.

Smart Calibration

Guarantee complete brand consistency across every location. Using the Samsung mobile app, calibrate displays to showcase brand logos and other collateral in the exact colors required.

Energy Star / EPEAT Bronze

Samsung is making diverse efforts to reduce our environmental impact in smart signage, and encouraging users to pursue a more sustainable life.

SMARTMOUNT.

Full-Service Video Wall Mount with Quick Release - Landscape

FOR 46" TO 65" DISPLAYS

Video walls should be easy to configure, quick to install, and a snap to maintain. The SmartMount® Full-Service Video Wall Mount with a Quick Release is designed for quick service access in recessed video wall applications. This mount provides versatility demanded by installers. With quick release functionality, users have the ability to articulate the display from the wall by gently pressing on the front of the display. The DS-VW765-LQR offers tool-less micro-adjustment and provides easy-access to any display. The custom wall plate spacers eliminate guesswork and on-site installation calculations, reducing installation time and cost.

- Quick release can be disabled with a locking screw to prevent unintentional pop-outs
- Modular mount for unlimited video wall display configurations
- Pull-out/prop-open mechanism provides quick service access
- Integrated cable management tie-backs make display-to-display cabling simple

HDMI® OVER IP SYSTEM

EVO-IP HDMI® OVER IP SYSTEM

The EVO-IP HDMI over IP system delivers the ability to manage, transmit, and receive audio/video signals and control hundreds of devices over a local network. EVO-IP is fully customizable, easy to design, integrate and install. It transmits virtually lossless 4K@60Hz, 4:4:4, HDR, HDCP 2.2 video, audio, and IR/RS232 control as a point-to-point, splitter, switch, matrix and/or video wall solution. Each product is sold separately.

Transmitter (part # EVOIPTX1)

Receiver (part # EVOIPRX1)

Control Box (part # EVOIPCTL1)

EVO-IP HDMI® OVER IP CONTROL BOX

- Easy GUI automatically detects new devices in the system
- Customizable labels and names of sources and displays
- Setup through the GUI can be done without a computer
- HDMI Output for easy access to network information
- USB Ports Reserved for Future Use
- Upscale to 4K@30Hz or downscale to 720p
- EDID preset/learning
- Video Wall mode supports configurations up to 25 displays
- OSD mode to display text, pictures, or logos on the screen
- Great for digital signage
- Connects to the cloud to schedule events or to troubleshoot a situation remotely
- Able to be controlled with Alexa enabled products
- Dimensions: 3.4" W x 3" H x 1" D

HDMI® OVER IP SYSTEM

HDMI® OVER IP SYSTEM

EVO-IP HDMI® OVER IP TRANSMITTER

- Supports 4K@60Hz, 4:4:4 chroma
- System can support over 1000 transmitters and receivers
- HDR10 and Dolby Vision compatible
- Dolby/DTS/PCM audio formats supported
- HDCP 2.2/1.4
- POE or can be powered using provided power supply
- Manual dip switch configurable for a truly IP-Less installation
- Easy GUI automatically detects new devices in the system
- Customizable labels and names of sources and displays
- Setup through the GUI can be done without a computer
- Analog and Digital audio breakouts on TX and RX
- HDMI Loop-out for cascading or monitoring
- Upscale to 4K@30Hz or downscale to 720p
- EDID preset/learning
- Video Wall mode supports configurations up to 25 displays
- OSD mode to display text, pictures, or logos on the screen
- Great for digital signage

VM-2HxI

1:2 HDMI Distribution Amplifier

The **VM-2HxI** is a distribution amplifier for HDMI signals. The unit reclocks and equalizes the signal and distributes it to two identical outputs.

FEATURES

- Max. Data Rate - 6.75Gbps (2.25Gbps per graphic channel).
- HDTV Compatible.
- HDCP Compliant.
- HDMI Support - Deep Color, x.v.Color™, Lip Sync, CEC.
- 3D Pass-Through.
- I-EDIDPro™ Kramer Intelligent EDID Processing™ - Intelligent EDID handling & processing algorithm ensures Plug and Play operation for HDMI systems.
- Kramer Equalization & re-Klocking™ Technology - Rebuilds the digital signal integrity to travel longer distances.
- Active Output LED.
- Compact DigiTOOLS® - 3 units can be rack mounted side-by-side in a 1U rack space with the optional RK-3T rack adapter.

TECHNICAL SPECIFICATIONS

INPUT:	1 HDMI connector.
OUTPUTS:	2 HDMI connectors.
MAX. DATA RATE:	6.75Gbps (2.25Gbps per graphic channel).
COMPLIANCE WITH HDMI STANDARD:	Supports HDMI and HDCP.
CONTROLS:	EDID SETUP button, input select button.
INDICATOR LEDs:	IN 1, IN 2, OUT 1, OUT 2, and ON LEDs.
POWER CONSUMPTION:	5V DC, 910mA.
DIMENSIONS:	12cm x 7.2cm x 2.4cm (4.7" x 2.8" 1.0") W, D, H.
WEIGHT:	0.3kg (0.67lbs) approx.
INCLUDED ACCESSORIES:	Power supply, bracket installation kit.
OPTIONS:	RK-3T 19" rack adapter.

NYQUIST SYSTEM CONTROLLER

Model NQ-SYSCTRL

DESCRIPTION

Bogen's Nyquist System Controller offers contractors a cost-effective means to deploy Nyquist based solutions using a state-of-the-art processing platform preinstalled with the Nyquist application server software. The Nyquist System Controller facilitates quick installs and offers high-performance operation for even the largest Nyquist system configurations. Developed with commercial sound in mind, the Nyquist System Controller can simultaneously distribute a virtually unlimited number of audio streams anywhere across the network, making it perfect for background music applications.

The Nyquist System Controller can manage applications that require nearly any mix of multi-zone paging, intercom calling, or background music distribution at businesses, restaurants, retail stores, industrial facilities, and many other venues.

Nyquist systems also support a licensable option for using a secondary System Controller to provide Automatic Failover capability in cases where the primary System Controller fails or goes offline for whatever reason. When this occurs, the secondary System Controller automatically takes over and returns the system to normal service.

FEATURES

- Configuration and management via a web-based graphical user interface (GUI)
- Remote access from almost any PC/MAC, tablet, or mobile device
- Continuous monitoring of stations and appliances to ensure system operation
- Front panel power LED
- SIP tie-line and trunking support for connection to external phone systems or VoIP service providers
- Station and zone capacity for any Nyquist application (determined by system license)
- Talkback capability in any zone
- Multicast support for all zone paging and audio distribution
- Paging and announcement support across multiple facilities
- Pre-recorded and (optional) text-to-speech announcements
- Built-in streaming Internet radio and access to subscription-based music services
- Automatic Failover option available (requires a second System Controller and software license)
- Simultaneously distribute a virtually unlimited number of audio streams
- Music automatically added to music library from USB port
- Network-based audio that can be sourced (input) from any number of Nyquist appliances (NQ-P0100, NQ-GA20P2, etc.)
- Ample storage for music files, recorded announcements, and call recordings
- G722 and OPUS audio codec support to deliver superior HD audio quality
- Event scheduling of tones and audio distribution to all or select paging zones
- Emergency notifications that have higher priority over normal audio events
- Convection air cooled, fanless design for quiet, maintenance free operation
- Wall-, Rack, or Shelf-mountable – 1 RU package
- 19" Rack Mount Kit (NQ-RMK03; sold separately)

A & E SPECIFICATIONS

The Bogen System Controller shall be the Nyquist NQ-SYSCTRL for commercial paging needs. It is designed specifically for the high degree of scalability and flexibility required in commercial paging and audio distribution applications. The System Controller interfaces with the customer's data network to leverage the ultimate level of scalability for single or multiple locations and system sizes ranging from two to tens of thousands of stations. The System Controller shall be capable of being configured via the web-based GUI from virtually any PC/MAC, tablet, or mobile device. The System Controller shall continually monitor the Nyquist devices connected to the system and shall report via email when a device stops functioning correctly. The System Controller must support SIP tie-line and trunking support for connection to external phone systems. The System Controller shall use G722 and OPUS audio codec support to deliver superior HD audio quality. The NQ-SYSCTRL shall be capable of providing pre-recorded and (optional) text-to-speech announcements. The System Controller shall be capable of simultaneously distributing a virtually unlimited number of audio streams anywhere across the data network. The NQ-SYSCTRL shall be capable of being paired with a secondary NQ-SYSCTRL to provide Automatic Failover capability when licensed appropriately. The System Controller is a convection air cooled, fanless design for quiet, maintenance free operation. System Controllers that don't provide these features shall not be considered equivalent.

TECHNICAL SPECIFICATIONS

		NQ-SYSCTRL
Video Display		HDMI, DVI-D
Network Support		Dual 10/100/1000 Mbps NICs
Protocol Support		HTTPS, UDP, RTP, FTP, TFTP, SSH, SIP2, Unicast, Multicast
Codec Support		G711, G719, G722, G723, G726, G729, OPUS, Speex, a-law, μ-law, SIREN7, SIREN14, ADPCM
Connectors:	Power	10A Line Cord C14 IEC Inlet
	Line/MIC Input	3.5mm Line Out / 3.5mm Mic In (RESERVED FOR FUTURE USE)
	Network	2 x RJ45
	Misc. Outputs	4 x USB 3.0 ports, 2 x Serial ports (1 x RS232, 1 x RS232/422/485)
AC Input Voltage Range		100 VAC to 240 VAC 50/60 Hz
Maximum AC Current		1.5A
Indicators		Power LED (front) / Network LEDs (rear)
Operating Temperature Range		0° C to +60° C
Certifications		Safety: CAN/CSA C22.2 No. 62368-1:2014; UL62368-1:2014; EN 62368-1:2014 EMC: FCC Part 15b Class A; ICES-003, Issue 6: 2016; EN 55032:2012; EN 55035:2017
Physical Dimensions:		1/2 Rack Width x 1RU
Single Rack Space (1RU)		8.0" W x 1.70" H x 10.25" D (Depth includes Phoenix connectors: width is without rack mount brackets attached; height excludes rubber mounting feet)

Limited Warranty, Exclusion of Certain Damages

The NQ-SYSCTRL is warranted to be free from defects in materials and workmanship for two (2) years from the date of sale to the original purchaser. Any part of the product covered by this warranty that, with normal installation and use, becomes defective (as confirmed by Bogen upon inspection) during the warranty period will be repaired or replaced by Bogen, at Bogen's option, with new or refurbished product, provided the product is shipped insured and prepaid to: Bogen Factory Service Department: 4570 Shelby Air Drive, Suite 11, Memphis, TN 38118, USA. Repaired or replacement product(s) will be returned to you freight prepaid. This warranty does not extend to any of our products that have been subjected to abuse, misuse, improper storage, neglect, accident, improper installation or have been modified or repaired or altered in any manner whatsoever, or where the serial number or date code has been removed or defaced.

THE FOREGOING LIMITED WARRANTY IS BOGEN'S SOLE AND EXCLUSIVE WARRANTY AND THE PURCHASER'S SOLE AND EXCLUSIVE REMEDY. BOGEN MAKES NO OTHER WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED AND EXCLUDED TO THE MAXIMUM EXTENT ALLOWABLE BY LAW. Bogen's liability arising out of the manufacture, sale or supplying of products or their use or disposition, whether based upon warranty, contract, tort or otherwise, shall be limited to the price of the product. IN NO EVENT SHALL BOGEN BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF DATA OR LOSS OF USE DAMAGES) ARISING OUT OF THE MANUFACTURE, SALE OR SUPPLYING OF PRODUCTS, EVEN IF BOGEN HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

Products that are out of warranty will also be repaired by Bogen Factory Service Department -- same address as above or call 201-934-8500, at owner's expense. Returned products which do not qualify for warranty service, may be repaired or replaced at Bogen's option with a previously repaired or refurbished items. The parts and labor involved in these repairs are warranted for 90 days when repaired by the Bogen Factory Service Department. All parts and labor charges as well as shipping charges will be at the owner's expense.

All returns require a Return Authorization number. For most efficient warranty or repair service, please include a description of the failure.

07/2018

The C4000 Series is built upon Bogen's award-winning Nyquist software-based IP communications platform, which provides users with unparalleled flexibility and scalability, whatever their application.

BOGEN VoIP ADMIN PHONE— COLOR TOUCH DISPLAY

Model NQ-T1100

DESCRIPTION

The Bogen NQ-T1100 VoIP phone (by Yealink) offers a large 7” color touch screen that makes navigating Nyquist E7000 System* features and menus swift, easy and convenient. The NQ-T1100 employs Yealink’s Optima HD Voice technology and a wide-band codec for unparalleled audio clarity.

*Note: The NQ-T1100 is designed specifically for use with the Nyquist E7000 Series solution only.

KEY FEATURES & BENEFITS

HD Audio

Optima HD Voice technology combines cutting-edge hardware and software with wideband technology for maximum acoustic performance, allowing the NQ-T1100 to deliver higher HD audio quality than other VoIP phones in a high traffic network environment. And its hearing aid compatible (HAC) handset helps individuals with hearing loss to experience voices more clearly.

Easy Customization and High Expandability

The NQ-T1100 has a seven-inch, 800 x 480-pixel, backlit-color touch screen, which enables a rich visual presentation and easy navigation. A built-in USB 2.0 port can also be used for Bluetooth headset connectivity. The phone has 29 one-touch DSS keys which can be programmed to various features.

Efficient Installation and Provisioning

The NQ-T1100 supports auto-provisioning to help deliver ‘zero touch provisioning’ – eliminating any complex manual settings – making the NQ-T1100 simple to deploy, easy to maintain and upgrade..

Secure Transport and Interoperability

The NQ-T1100 uses SIP over Transport Layer Security (TLS/SSL), which is the latest network security technology.

ADDITIONAL FEATURES

Audio Features

- HD voice: HD handset, HD speaker
- Hearing aid compatible (HAC) handset
- Codecs: Opus, G.722, G.711(A/μ), G.723.1, G.729AB, G.726, iLBC
- DTMF: In-band, Out-of-band (RFC 2833) and SIP INFO
- Full-duplex hands-free speakerphone with AEC

Feature Keys

- 29 one-touch DSS keys
- 7 features keys: message, headset, hold, mute, transfer, redial, hands-free speakerphone
- 6 navigation keys
- Volume control keys
- Illuminated mute, headset and hands-free speaker phone key

Phone Features

- Call hold, mute, DND
- One-touch speed dial, hotline
- Call forward, call waiting, call transfer
- Group listening, SMS, emergency call
- Redial, auto answer
- Local 3-way conferencing
- 3-way conferencing
- Call park, call pickup
- Ring tone selection/import/delete
- Set date time manually or automatically
- RTCP-XR (RFC3611), VQ-RTCPXR (RFC6035)
- USB port (2.0 compliant) for optional Bluetooth headset Enhanced DSS key

The **E7000 Series** is built upon Bogen’s award-winning Nyquist software-based IP communications platform, which provides users with unparalleled flexibility and scalability, whatever their application.

ADDITIONAL FEATURES

Directory

- Local phonebook holds up to 1000 entries
- Black list
- Nyquist XML remote phonebook
- Smart dialing
- Phonebook search/import/export
- Call history: dialed/received/missed/forwarded
- Display and Indicator
- 7" 800 x 480-pixel color touch screen with backlight
- 24-bit depth color
- LED for call and message waiting indication
- Background wallpaper
- Intuitive user interface with icons and soft keys
- Caller ID with name, number and photo
- Screensaver
- Power saving mode

Interface

- 2 x RJ-45 Gigabit Ethernet ports
- Power over Ethernet (IEEE 802.3af), Class-3
- 1 x USB port (2.0 compliant)
- 1 x RJ9 handset port
- 1 x RJ9 headset port
- 1 x RJ12 EXT expansion port (Not used)

Management

- Configuration: browser/phone/auto-provision
- Auto-provision via Nyquist server for mass deployment
- Phone lock for personal privacy protection
- Reset to factory, reboot
- Package tracing export, system log

Network and Security

- SIP v1 (RFC2543), v2 (RFC3261)
- NAT traversal: STUN mode
- Proxy mode and peer-to-peer SIP link mode
- IP assignment: static/DHCP/PPPoE
- HTTP/HTTPS web server
- Time and date synchronization using SNTP
- UDP/TCP/DNS-SRV (RFC 3263)
- QoS: 802.1p/Q tagging (VLAN), Layer 3 ToS/DSCP
- SRTP for voice
- Transport Layer Security (TLS)
- HTTPS certificate manager
- OpenVPN, IEEE802.1X
- IPv6
- LLDP/CDP/DHCP VLAN
- ICE

Other Physical Features

- Wall-mountable (optional)
- External AC adapter (optional):
 - AC 100-240V input and DC 5V/2A output
- Power consumption (Optional AC adapter): 2.23-7.29W
- Power consumption (PoE): 3.19-10.78W
- Dimensions: 266mm W x 226mm D x 185mm H x 54mm T
- Operating humidity: 10% - 95%
- Operating temperature: -10°C - 50°C

Package Contents

- Bogen NQ-T1100 VoIP phone base unit
- Handset with handset cord
- Ethernet Cable (2m CAT5E UTP Cable)
- Attachable Stand
- Quick Start Guide

A & E SPECIFICATIONS

The Nyquist VoIP Admin Phone (NQ-T1100) with Color Touch display panel shall show the time of date, the station numbers, and the call-in priority of staff stations that are calling in. Depending upon the system CoS programming, a VoIP Admin Phone can display menus to activate Zone Paging, All-Call Paging, Emergency All-Call Paging, alarm signals, audio files, and external functions. The Staff phone has been designed with two RJ-45 Gigabit Ethernet ports one for connection to a PoE port on the LAN and one pass through for connecting a PC or other networked device. The phone can be desk or wall mountable with included bracket. Systems that do not provide these capabilities as a minimum will not be considered equal.

Limited Warranty, Exclusion of Certain Damages

The **NQ-T1100** is warranted to be free from defects in materials and workmanship for five (5) years from the date of sale to the original purchaser. Any part of the product covered by this warranty that, with normal installation and use, becomes defective (as confirmed by Bogen upon inspection) during the warranty period will be repaired or replaced by Bogen, at Bogen's option, with new or refurbished product, provided the product is shipped insured and prepaid to: Bogen Factory Service Department: 4570 Shelby Air Drive, Suite 11, Memphis, TN 38118, USA. Repaired or replacement product(s) will be returned to you freight prepaid. This warranty does not extend to any of our products that have been subjected to abuse, misuse, improper storage, neglect, accident, improper installation or have been modified or repaired or altered in any manner whatsoever, or where the serial number or date code has been removed or defaced.

THE FOREGOING LIMITED WARRANTY IS BOGEN'S SOLE AND EXCLUSIVE WARRANTY AND THE PURCHASER'S SOLE AND EXCLUSIVE REMEDY. BOGEN MAKES NO OTHER WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED AND EXCLUDED TO THE MAXIMUM EXTENT ALLOWABLE BY LAW. Bogen's liability arising out of the manufacture, sale or supplying of products or their use or disposition, whether based upon warranty, contract, tort or otherwise, shall be limited to the price of the product. **IN NO EVENT SHALL BOGEN BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF DATA OR LOSS OF USE DAMAGES) ARISING OUT OF THE MANUFACTURE, SALE OR SUPPLYING OF PRODUCTS, EVEN IF BOGEN HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.** Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

Products that are out of warranty will also be repaired by Bogen Factory Service Department -- same address as above or call 201-934-8500, at owner's expense. The parts and labor involved in these repairs are warranted for 90 days when repaired by the Bogen Factory Service Department. All parts and labor charges as well as shipping charges will be at the owner's expense.

All returns require a Return Authorization number. For most efficient warranty or repair service, please include a description of the failure.

02/2021

IP-BASED PAGING AND AUDIO DISTRIBUTION SOLUTION

The C4000 Series is a software-based solution for commercial paging, music distribution, and sound masking applications that demand a high degree of scalability and flexibility. The heart of the C4000 solution is a powerful, state-of-the-art system controller with an easy to use Web-based Graphical User Interface (GUI) that is accessible from any PC, tablet, or mobile device. Built-in, commercially licensed, Internet radio-based streaming audio services are perfect for background music applications. Feature-rich, purpose-built appliances provide audio mixing, amplification, and distribution, as well as the ability to easily integrate with third-party devices and systems, such as PBXs, security, access control, and fire alarm.

The C4000 Series can be scaled to support a wide mix of audio sources, end points, and zones. The C4000 software can be easily upgraded over time to add new features and capabilities to address ever-changing customer needs, environments, and technology.

C4000 is perfect for:

- Offices
- Retail
- Restaurant and Bars
- Warehouses
- Industrial and Manufacturing Facilities
- Healthcare
- Public and Private Institutions
- Transportation Hubs
- Houses of Worship

Features and Capabilities:

- System Controller with optional Automatic Failover capability
- Support for a wide-array of networked appliances and endpoints
- Embedded pro-audio DSP capabilities in all amplifiers and mixers
- Internet-based streaming radio & music services
- Optional sound masking capability to help increase productivity & performance, as well as improve work-place comfort by delivering a substantial reduction of conversational & audio distractions
- Wall Baffle Combo Clock / Speaker / Message Display with LED Flasher facilitates user-programmable messages for standard or emergency announcements, along with two-way intercom communications
- Text-to-Speech based announcements
- Powerful automated Routines & Routines API to support crisis plans and third-party integrations
- Scheduled volume changes via Routines

1-CHANNEL PUBLIC ADDRESS MIXER/AMPLIFIERS

Models NQ-PA120, NQ-PA240, NQ-PA600

Models NQ-PA120 & NQ-PA240

Model NQ-PA600

DESCRIPTION

Bogen's Nyquist networked Public Address Mixer/Amplifier (PAMA) series offers cost-effective performance for permanent installations and commercial sound and is designed to meet the rigorous requirements of today's sophisticated sound systems. Developed with the commercial sound contractor in mind, the PAMA series provides unparalleled flexibility and versatility without the need for add-on modules. It includes an embedded pro-audio DSP for extensive and comprehensive signal processing – allowing users to skillfully manage and mix multiple audio input channels. The resulting audio signal mix can be directed to the PAMA's speaker out or line out, or streamed over the Nyquist network where it can be used for audio distribution to one or more zones.

The Nyquist NQ-PAXxx are now capable of Standalone Operation that allows for use of these appliances for AoIP applications such as a SIP endpoint to act as a paging mixer/amplifier for an existing PBX/VoIP phone system, or a paging mixer/amplifier on an existing PBX/analog phone system. Additionally, the NQ-PAXxx audio power amplifiers to be used in standalone audio applications where a networked amplifier is desired for remote volume, mixing and DSP control from a web browser-enabled device.

When used in a Nyquist 7000 ecosystem, zone-based program audio selection and volume levels can be remotely adjusted using Nyquist's web-based Zone Volume and Audio Distribution Control, which has been specially designed for use with low-cost tablets.

The PAMAs fit a wide range of commercial audio applications that require multi-zone paging and/or background music distribution at businesses, restaurants, retail stores, industrial facilities, and many other venues. These PAMAs are available in 120-, 240-, and 600-watt models, each with the same features to provide power and performance no matter how large or small the application. In addition to their extensive flexibility, the Nyquist networked PAMAs use the latest in Class D amplifier technology and provide unparalleled sonic quality, exceptional reliability, and reduced heat output for increased operating efficiency.

FEATURES

- **4 MIC/Line Inputs**
 - CH1-CH4 configurable balanced/unbalanced inputs via 2 XLR and 4 screw-terminal connections
 - CH4 can be configured to support Push-to-Talk Mic applications
 - Mic inputs can be configured to supply Phantom Power when needed
- **Web-based DSP control**
 - 16-band Graphic Equalizer
 - Signal Present and Clip Monitor
 - Adjustable High Pass, Low Pass, and Bandpass Filters
 - Noise Gate
 - Compressor/Limiter
 - 7-band Parametric Equalizer
 - Delay / Peak Limiter
 - Speaker Presets / RMS Limiter / Status
- **Standalone Operation**
- **Standalone SIP Endpoint Support**
- **8 ohm/70V output; 600 ohm balanced line output**
- **Nyquist network-based audio input (paging, audio distribution)**
- **Mixed signal can be routed to Line or Speaker Out or over the Nyquist network**
- **Safety: CAN/CSA C22.2 No. 62368-1:2014; UL62368-1:2014; EN 62368-1:2014**
- **EMC: FCC Part 15b Class A; ICES-003, Issue 6: 2016; EN 55032:2012; EN 55035:2017**
- **1/2 Rack Width – Wall-, Rack-, or Shelf-mountable: 8.0" W x 1.70" H x 8.6" D (2" H with rubber feet installed)**
- **19" Rack Mount Kit (NQ-RMK03; sold separately)**

A & E SPECIFICATIONS

The **Nyquist based Public Address Mixer/Amplifier (PAMA) series** shall be a model _____, rated at _____ watts RMS (NQ-PA120/120 watts, NQ-PA240/240 watts, and NQ-PA600/600 watts) with 8 ohm / 70V operation. The PAMA shall support the following: four (4) software selectable Mic or Line Input channels via two (2) XLR connectors and four (4) sets of Phoenix-style screw-terminals; one input channel shall be capable of being configured to support a Push-to-Talk microphone (e.g., Bogen DDU-250). The amplifier power output shall provide a frequency response from 20 Hz - 20 kHz < 0.03% THD+N at rated power with distortion of less than 0.03%. The PAMA shall support the following features: line-level output to drive input on a local amplifier; one (1) USB 2.0 host port (Type-A connector) for future use; two (2) x RGB "full spectrum" LED indicators for Power and Status. To access the higher-level functions of the PAMA it is designed with a 10/100 network connection that allows installers and users to access the Graphical User Interface setup and operate the Digital Signal Processing controls: 16-band Graphic Equalizer; Signal Present and Clip Monitor; Adjustable High Pass, Low Pass, and Bandpass Filters; Noise Gate; Compressor/Limiter; Delay; Peak Limiter; Speaker Presets; RMS Limiter; Status; and 7-band Parametric Equalizer. The PAMA has been designed without physical sliders and knobs so that unauthorized users cannot tamper with the settings. Program selection and audio levels shall be remotely adjustable using a web-based Zone Volume and Audio Distribution Control. Any Public Address Mixer/Amplifier with physical sliders and knobs used to adjust settings shall not be considered equal. The PAMA shall be powered by Universal Mains supply (100VAC - 240VAC) and shall be wall-, shelf- or rack-mountable and include the required wall mounting bracket hardware. Public Address Mixer/Amplifiers that don't provide these features shall not be considered equivalent.

The **C4000 Series** is built upon Bogen's award-winning Nyquist software-based IP communications platform, which provides users with unparalleled flexibility and scalability, whatever their application.

TECHNICAL SPECIFICATIONS

	NQ-PA120	NQ-PA240	NQ-PA600
Power Output	120W @ 70V/8 ohms	240W @ 70V/8 ohms	600W @ 70V/8 ohms
Line-In Sensitivity (Gain min./max.)	Continuously variable from 2V to 0.1V RMS		
MIC-In Sensitivity (Gain min./max.)	Continuously variable from 0.1V to 0.006V RMS		
MIC Equivalent Input Noise (EIN)	100 dB		
Line Out Bandwidth	20 Hz - 20 kHz < 0.03% THD+N		
Line Out	600-ohm electronically balanced, via 3-pin Phoenix on 6-pin Phoenix Plug/Header		
S/N Ratio (20 kHz BW)	97 dB		
Power Output Bandwidth	20 Hz - 20 kHz < .03% THD+N		
THD+N @ 1 kHz rated power	< 0.03%		
Rated Load Impedance	8 ohms		
Frequency Response @ 1 Watt	20 Hz - 20 kHz +/- 0.25 dB		
Amplifier Class of Operation	Class D		
Connectors	Power	10A Line Cord C14 IEC Inlet	
	Inputs	Channels 1, 2 Balanced 3-pin Phoenix Plugs/Headers and Balanced 3-pin Neutrik XLRs; Channel 3 Balanced 3-pin Phoenix on 6-pin Phoenix Plug/Header; Channel 4 Balanced 3-pin Phoenix only via 6-pin Phoenix Plug/Header; RJ45; USB 2.0 Type A	
	Outputs	Power Amplifier: 2-pin "touch proof" Phoenix Plug/Header Line Out balanced via 3-pin Phoenix on 6-pin Phoenix Plug/Header; streaming out via Nyquist network	
AC Input Voltage Range	85 VAC to 265 VAC 50/60 Hz		
Maximum AC Current	2A	3A	7A
Indicators	Status & Power LEDs (front) / Network LEDs (rear)		
Operating Temperature Range	-15 C to +40 C		
Thermal Emissions (Full Power)	90 BTU/hr.	135 BTU/hr.	225 BTU/hr.
Cooling	Convection		
Protection	RF, DC, Low Frequency, Thermal, Low Impedance, Short Circuit, Clip Limiting		
DSP Based Audio Features	16-band Graphic Equalizer; Signal Present and Clip Monitor; Adjustable High Pass, Low Pass, and Bandpass Filters; Noise Gate; Compressor/Limiter; 7-band Parametric Equalizer		
Special Features	Sleep Mode (defeatable), Power Factor Correction (PFC), 89% Amplifier Efficiency, On/Off Muting, Bridge Mode Switch, Channel 4 PTT (Push-to-Talk)		
Networking	Cat5 or better 10/100 network connectivity to Bogen's Nyquist network		
Certifications	CE and FCC Part 15b Class A; ICES-003, Issue 6; 2016; EN 55032:2012; EN 55035:2017		
Product Weight	5.2 lbs.		8.3 lbs.
Physical Dimensions:	1/2 Rack Width x 1RU*		1/2 Rack Width x 2RU**
*Single Rack Space (1RU)	8.00" W x 1.70" H x 13.48" D (Depth includes Phoenix connectors: width is without rack mount brackets attached; height excludes rubber mounting feet)		
**Double Rack Space (2RU)	8.00" W x 3.43" H x 13.48" D (Depth includes Phoenix connectors: width is without rack mount brackets attached; height excludes rubber mounting feet)		

Limited Warranty, Exclusion of Certain Damages

The NQ-PA120, NQ-PA240, and NQ-PA600 are warranted to be free from defects in materials and workmanship for five (5) years from the date of sale to the original purchaser. Any part of the product covered by this warranty that, with normal installation and use, becomes defective (as confirmed by Bogen upon inspection) during the warranty period will be repaired or replaced by Bogen, at Bogen's option, with new or refurbished product, provided the product is shipped insured and prepaid to: Bogen Factory Service Department: 4570 Shelby Air Drive, Suite 11, Memphis, TN 38118, USA. Repaired or replacement product(s) will be returned to you freight prepaid. This warranty does not extend to any of our products that have been subjected to abuse, misuse, improper storage, neglect, accident, improper installation or have been modified or repaired in any manner whatsoever, or where the serial number or date code has been removed or defaced.

THE FOREGOING LIMITED WARRANTY IS BOGEN'S SOLE AND EXCLUSIVE WARRANTY AND THE PURCHASER'S SOLE AND EXCLUSIVE REMEDY. BOGEN MAKES NO OTHER WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED AND EXCLUDED TO THE MAXIMUM EXTENT ALLOWABLE BY LAW. Bogen's liability arising out of the manufacture, sale or supplying of products or their use or disposition, whether based upon warranty, contract, tort or otherwise, shall be limited to the price of the product. IN NO EVENT SHALL BOGEN BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, LOSS OF DATA OR LOSS OF USE DAMAGES) ARISING OUT OF THE MANUFACTURE, SALE OR SUPPLYING OF PRODUCTS, EVEN IF BOGEN HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

Products that are out of warranty will also be repaired by Bogen Factory Service Department -- same address as above or call 201-934-8500, at owner's expense. Returned products which do not qualify for warranty service, may be repaired or replaced at Bogen's option with a previously repaired or refurbished items. The parts and labor involved in these repairs are warranted for 90 days when repaired by the Bogen Factory Service Department. All parts and labor charges as well as shipping charges will be at the owner's expense.

All returns require a Return Authorization number. For most efficient warranty or repair service, please include a description of the failure.

Easy Design™ Wall Baffle Speaker

Model WB1EZ

Description

The Bogen WB1EZ Wall Baffle Speaker is an 8" cone speaker enclosed in a simulated walnut-finished wooden enclosure with a black grille cloth on front. The WB1EZ is a 1-watt single-tap speaker with recessed volume control designed for use in 70V amplifier systems.

Designed for easy wall-mount installation, the WB1EZ comes pre-assembled.

Features

- Features screw terminal connections for fast wire lead connection
- 1W single-tap design
- Works with 70V amplifier outputs
- High intelligibility and efficiency
- Simulated walnut vinyl finish
- Designed for easy wall-mount installation
- 8" cone speaker
- Wooden cabinet
- Recessed volume control

Technical Specifications

Power Rating (RMS):	1-watt, continuous
Frequency Response:	50 Hz to 12 kHz
Impedance:	4900 ohms (for use on 70V amplifier outputs)
Sound Pressure Level:	95 dB at 4 ft. with a 1-watt input on axis
Dimensions:	9-1/2" W x 9-1/2" H x 5-1/4" D (3-1/4" D @ bottom)
Shipping Weight:	19 lb.
Finish:	Simulated walnut vinyl

Architect and Engineer Specifications*

The surface mounting loudspeaker shall be a Bogen Model WB1EZ, or equivalent, 8" cone-type loudspeaker having a frequency response of at least 50 Hz to 12 kHz. The on axis sound pressure level shall be 95 dB, at least four feet with one-watt input. The loudspeaker shall have a six-ounce ceramic magnet and a 3/4" voice coil.

The loudspeaker shall be assembled in a wall baffle for surface-mounting, angled for additional downward sound dispersion. The baffle shall be constructed of 3/8" particle board, glued and covered in

simulated walnut vinyl. Glue blocks shall be used to reinforce all side corner joints. The speaker opening shall be covered with a black grille cloth.

Overall dimensions shall be 9-1/2" W x 9-1/2" H x 5-1/4" D [top] (3-1/4" D base).

* Architect and Engineer Specifications are available on CD and online in a Word document to assist you with preparing your bids.

FREEDM® Loose Tube, Gel-Free, Interlocking Armored Cable, Plenum 12 F, Single-mode (OS2)

Part Number:
012ESP-T4101DA3

Corning FREEDM® loose tube gel-free interlocking armored cables are flame-retardant, indoor/outdoor, plenum-rated cables for interbuilding and intrabuilding backbones in aerial, duct and riser applications. Encased in a spirally wrapped, aluminum interlocking armor for ruggedness and superior crush resistance, these cables are ideal for industrial and heavy traffic areas and installations requiring extra protection for optical cables and for high-fiber-count trunking applications in areas with limited conduit or vault space. The plenum rating precludes the need for a transition splice when entering the building. These cables are available in fiber counts up to 72 fibers and are protected against water penetration by innovative waterblocking materials. These materials swell to absorb water without the use of messy gels to provide more efficient and craft-friendly cable preparation, making cable access easier and simplifies the use of buffer tube fan-out kits. The buffer tubes and fibers in each tube are color coded for quick, easy identification. The SZ-stranded, loose tube design isolates fibers from installation, environmental rigors and allows for easy midspan access. Available in 50 μm, 62.5 μm, single-mode and hybrid, the cable design is National Electrical Code® (NEC®) listed.

Features and Benefits

Gel-free waterblocking technology

Craft-friendly cable preparation

Loose tube design

Stable performance and compatibility with all common fiber types

Color-coded tubes and fibers

Quick and easy identification

Flexible interlocking armor

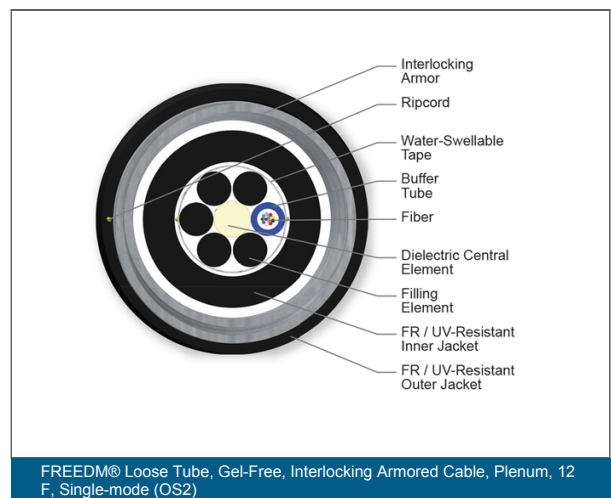

Up to seven times the crush protection compared to non-armored cables

Common installations

Outdoor aerial and duct

Opticom® Wall Mount Enclosures

specifications

Wall mount enclosures shall be constructed of steel material. Enclosures shall provide cable bend radius protection. Enclosures offer optional discrete locking capability between service and user segments.

technical information

Dimensions:	FWME2: WxHxD=12 x 10.18 x 2.32 in. (304.8 x 258.6 x 59.1mm) FWME4: WxHxD=16.11 x 12.25 x 3.52 in. (409.2 x 311.0 x 89.4mm) FWME8: WxHxD=16.11 x 20.25 x 3.52 in. (409.2 x 514.2 x 89.4mm)
Splicing tray and holder capacity:	FWME2: Holds (1) FSTHS which accommodates up to (2) FSTK for 12 fibers, Holds (1) FSC24 for 24 fibers FWME4: Holds (1) FST6H4 which accommodates up to (4) FST6 FWME8: Holds (2) FST6H4 which accommodates up to (4) FST6 each
HD Flex™ Cassette and holder capacity:	FWME2: Not usable FWME4: Holds (4) FLEX-OPTI-1RU holders which accommodates (2) HD Flex™ cassettes each FWME8: Holds (8) FLEX-OPTI-1RU holders which accommodates (2) HD Flex™ cassettes each
Packaging:	Includes accessory kit and labels

key features and benefits

Improved strain relief clip	Easier to install and align fiber with grommet
Spooling area	Manages and organizes fiber slack
Rubber grommet	Offers dust/debris protection and helps secure cable to enclosure
Improved latch	Provides improved closure
Optional keyed lock	Provides added security
Works with most Mini-Com® LC, SC, and ST modules and Opticom®, HD Flex™ cassettes	Offers flexibility for a variety of applications
Flush mounted latch	Minimizes box depth from wall
Optional splicing tray and holder	Allows splicing within patching enclosures

applications

Opticom® Wall Mount Enclosures are designed to manage and organize fiber distribution in areas where space is limited. They can also be used to manage cable from outside the facility. Enclosures can be used as an interconnect or cross-connect in any

telecommunications room and can use any standard FAP or FMP series adapter panel. Opticom® Enclosures are completely modular and can manage both fiber and copper cables.

Opticom® Wall Mount Enclosures

Max 48 fibers (2 FAP):	FWME2
Max 24 fibers (1 FSC24):

technical information

HD Flex Fiber Optic Cassettes offer a wide array of deployment options to support both Ethernet and Fibre Channel networks. Cassettes are available in 4-port, 6-port, and 12-port configurations with several connector options on the front and back of the cassettes. Splice cassettes and adapter/coupler modules are also available.

applications

Allows system designers to tailor configuration, reach and breakout construction to application requirements; to minimize waste, optimize cable management, speed deployment, and improve flexibility and manageability for lower installation costs.

construction

--------------------------	---

HD Flex™ Fiber Enclosures

specifications

The HD Flex enclosure shall house, organize, manage and protect fiber optic trunk cables, terminations, splices, connectors and patch cords as well as accommodate all HD Flex cassettes and fiber adapter panels (FAP). The HD Flex Enclosures provide front access with drawers that slide out into two locked positions, regardless of how many enclosures are stacked together. The Enclosure trays have a unique split tray feature that allows for half of the tray to operate independently, which is an ideal option for maintainability as well as redundant networks.

The Enclosures allow cassettes and FAPs to be installed by dropping them into the front of the enclosure tray or sliding them into the rear of the enclosure tray. This allows each individual cassette or FAP to be removed with minimal disruption to other cassettes or FAPs.

The Enclosures are constructed of steel material and can be ordered in either 4-port, 6-port or 12-port configurations that accept combinations of either 4-port, 6-port cassettes and 12-port cassettes respectively.

technical information

Mounting:	Integral mounting flange for installation in 19" wide EIA-310 racks
Material:	Steel and plastic

key features and benefits

Modular design accepts up to 12 HD Flex Fiber Cassettes or Fiber Adapter Panels per rack unit	Provides higher patch field density in fewer rack units saving valuable rack space
Compatible with all HD Flex Fiber Cassettes and Fiber Adapter Panels	Provides versatility and flexibility with a fully modular solution for a variety of pre-terminated installations
Rack/Cabinet Rail Mounting Cable Management Bracket	Provides template for additional mounting of cables, moving cable from back of enclosure to side of enclosure resulting in easy access to connections for improved serviceability
Front and Rear Accessible Enclosure Tray	Allows access to connections from front or rear of rack/cabinet facilitating easy moves, adds and changes without disruption of network connections
Front Drop In and Rear Slide Out Mounting of Cassettes and Fiber Adapter Panels	Allows access to cassettes without fully sliding out cable management plate
Split Enclosure Tray	Allows each half of tray to operate independently providing improved reliability and serviceability of redundant network connections
Multi-positional Enclosure Tray	Allows tray to be locked in two extended positions resulting in improved access when patching and maintaining network connections
Convertible between 4-port, 6-port and 12-port Cassettes and Fiber Adapter Panels	Accommodates current and future optical connectivity options, duplex, and parallel fiber

applications

HD Flex Fiber Optic Enclosures provide a system for managing fiber terminations, connections, and patching in all types of applications. The enclosures are a component of the HD Flex Fiber Cabling System. They are ideal for fast, flexible and reliable patch field solutions within main, horizontal and/or equipment distribution areas (MDA, HDA and EDA).

technical information

Push-Pull LC Duplex Fiber Optic Patch Cords containing the custom push-pull strain relief boot and duplex clip, allow users easy accessibility when deploying very high density LC patch fields in data center applications. Available in riser (OFNR), and low smoke zero halogen (LSZH) rated jacket materials to comply with local cabling ordinances and OM4, OM3 or OS1/OS2 fiber types to meet the demands of today's highest speed applications.

application

Provide interconnect and cross-connect of applications in entrance facilities, telecommunication rooms, data centers, at the desk and network applications to interconnect pre-terminated cassettes in main distribution, horizontal distribution, and equipment distribution areas.

construction

Fiber count:	Duplex (2-fiber) jacketed zipcord
Cable jacket ratings:	Riser (OFNR) Low Smoke Zero Halogen (LSZH) per: IEC 60332-1-2, IEC 60332-3-24, IEC 60754-1, IEC 60754-2, IEC 61034-2
Fiber types:	Singlemode: OS1/OS2 9/125µm Multimode: OM3 50/125µm OM4 50/125µm
Connector types, End 'A':	Duplex LC
Connector types, End 'B':	Duplex LC
Jacket color:	OS1/OS2: Yellow OM3: Aqua OM4: Aqua

optical properties

Connector insertion loss:	Standard: 0.25dB max (OM3 and OM4) 0.35dB max (OS2) Optimized: 0.15dB max (OM3 and OM4) Ultra: 0.10dB max (OM4)
Connector return loss:	26dB min (OM3 and OM4) 55dB min (OS1/OS2)

physical properties

Cable outside diameter (OD):	1.6mm duplex
Bend Radius (min) Short-Term:	16mm
Bend Radius (min) Long-Term:	32mm
Connector cable retention:	50N (4.24lb) @ 0° 19.4N (4.4lb) @ 90°
Connector durability:	500 cycles

environmental properties

Storage and shipping temperature:	-40°C to 70°C
Operating and installation temperature:	-10°C to 60°C

standards

Meets or exceeds ISO/IEC 11801, TIA-568-C.3, TIA-604-10 (FOCIS-10)

Restriction of Hazardous Substances (RoHS) Compliance:	All patch cord components meet the requirement of Directive 2002/95/EC
---	--

THANK YOU!

Motor City Electric Technologies

Submitted to White Lake Township

January 29, 2025

White Lake Township Hall

Low Voltage & AV Proposal – Township Hall

White Lake Township, Michigan

INTRODUCTION

On behalf of the entire Motor City Electric Technologies (MCET) and Bluewater Technologies (BWT) staff, I would like to thank you for your interest in our products and services. MCET and BWT have been servicing our customers for over thirty years by specializing in all facets of the Technologies and Audio/Visual industry. Our philosophy is to build successful, long-lasting relationships with our customers.

With our years of experience in Technologies, AV design, and installation industry, MCET and BWT are confident that we can provide White Lake Township with a more effective and user-friendly Low Voltage and AV solution, while maintaining a similar budget to what is outlined in the current bid. Our proposal aims to enhance the overall functionality and ease of use for the township's Low Voltage and AV systems, ensuring it is intuitive for all users.

Beyond providing a user-friendly design, our solution will also focus on improving the long-term reliability of the AV systems. By utilizing more robust components and streamlined systems, we can offer a setup that reduces the complexity of future maintenance and service needs, saving time and costs in the future. We would appreciate the opportunity to work with you on a Design/Assist proposal that would allow us to develop a tailored AV solution that delivers the highest possible quality for all rooms, at a competitive price point. Our goal is to ensure that the township of White Lake receives the best possible AV experience, now and in the years to come.

We look forward to the possibility of collaborating on this project and are excited about the potential to serve the township's needs.

MCET COMPANY HISTORY & INFORMATION

As one of the largest contractors in the nation, Motor City Electric Co. (MCE) was founded in 1952 and has continued to grow its position as an electrical contractor in the Midwest. MCE has nine focused divisions, including Automotive and Process, Commercial, Industrial, Specialty Industries, Service and Emergency, Public Works and Steel, Technologies, Utilities and Excavation.

Motor City Electric Technologies, formally the Cadre Corporation, was created in 1993 and is the technology, integration, and engineering subsidiary of Motor City Electric Co. MCET is an Information Technology, Controls Engineering and Low Voltage integrator/installer that provides professional and technical services in all aspects of Information Technology, from system design to comprehensive maintenance and installation services. MCET's staff of experienced designers, project managers, engineers, estimators, technicians, and installers are your sole source for structured cable, voice & data, life safety systems, video surveillance & card access systems, audio/visual solutions, and Information Technology communication systems, whether wired or wireless.

As a member of the IBEW and NECA, MCET currently employs more than fifty (50) IBEW Local 58 Union Sound and Communication Technicians with an average length of employment of 7 years and has an office support staff of over twenty-five employees comprised of CAD Operators, Engineers, Designers, Programmers and Project Managers.

BLUEWATER TECHNOLOGIES COMPANY PROFILE

Bluewater Technologies is a privately held, woman-owned, S-corporation founded in metro-Detroit in 1985. The company began by providing simple AV equipment rentals for local businesses and organizations, then rapidly evolved in response to changes in technology and the demands of customers. Currently, Bluewater provides a full range of technology, fabrication, software and creative services for Meetings & Events, Workplace Technology, Retail Experience and Environments & Exhibitions, and ranks among the top 15 Systems Integrators nationally. From TVs and VCRs on carts in the '80s, to high-end projection systems and LED video walls in the '90s, to the technology-fueled experiences of the 2000s, Bluewater has always pushed the boundaries of innovative technology and maintained a focus on excellence.

As a privately held company, Bluewater does not share financial information. However, we can confirm that we are financially stable and profitable. If additional details are required, please contact Eric Butler, CFO at ebutler@bluewatertech.com.

Organizational Structure

Bluewater serves our diverse portfolio of clients through four locations: Our company headquarters in Wixom, MI, offices in Grand Rapids, a production facility in Mesick, MI, and an office in Indianapolis, IN. We currently employ a staff of 175 throughout these locations.

WORK PROGRAM

Scope Requirement: - MCET will provide and install the required low voltage system (voice, data, cable infrastructure, fiber backbone, terminations, testing, and certification) as required in the RFP. MCET and our strategic Audio-Visual partner Bluewater Technologies (BWT). will provide the installation of the required Audio Video systems, commissioning and testing as required in the RFP. As part of the Scope of Work, The MCET Team will provide the necessary project management, project engineering, technical implementation support, training, and other professional services for the implementation of the project. Our team will ensure the timely and satisfactory completion of each site / facility location as outlined in the RFP.

Closeout Procedure - MCET will provide O&M manuals, drawings, documentation, test documentation, warranty documentation, and training.

MCET EXECUTIVE TEAM AND STAFF

Management Team

David M. Krausman (RCDD), Vice President of Motor City Electric Technologies, leads our management team. David joined MCET in 2003 with 25 years of experience in the technology industry.

Justine Fleming (RCDD), General Manager of Motor City Electric Technologies, joined MCET in 1996 with 30 years of experience in the technology industry.

Scott Sutherland, Senior Estimator of Motor City Electric Technologies, joined MCET in 2001 with 35 years of experience in the technology industry.

Mahria Boone, (CCENT, CCNA, and iBwave certification), RF Design Engineer/Network Technician of Motor City Electric Technologies, joined MCET in 2004 with 24 years of experience in the industry.

Marc Spontack, Security Engineer/Project Manager of Motor City Electric Technologies, joined MCET in 2012 with 28 years of experience in the technology industry.

Jonathan Buchler, Project Manager of Motor City Electric Technologies, joined MCET in 2019 with 20 years of experience in the technology industry.

Ronald Kitchen, Project Manager of Motor City Electric Technologies, joined MCET in 2021 with 35 years of experience in the technology industry.

Danial Jipping, Project Manager of Motor City Electric Technologies, joined MCET in 2020 with 5 years of experience in the technology industry.

Trey Ebinger (PMP, RCDD), Project Manager Motor City Electric Technologies, joined MCET in 2020 with 5 years of experience in the technology industry.

Project Management Team

Our project management team brings with them 20 years of experience in the technology industry managing various size projects including but limit to educational, commercial, municipal, manufacture, distribution, transportation, utilities, industrial, distribution, and large public venues. The MCET project management team carries BICSI and RCDD certification and accreditation.

Capabilities

Motor City Electric Technologies offers complete technology contracting services from design and installation to operations, maintenance, and service. Types of work provided include but limit to cellular phone registration systems, emergency radio response systems, wireless systems, security systems, communications, controls, data centers, fiber optic, sound and video, telecommunications infrastructure, transportation systems, networks, programing, configuration, and system testing.

Client industries include commercial, automotive, casinos, governments and municipalities, medical/hospitals, hotels, service industry, manufacturers, schools, universities, arenas/stadiums, utilities, and fresh water/wastewater treatment plants.

Engineering and Design Services

Our engineering team utilizes state-of-the-art software tools to assist with BIM, Revit, 3D modeling, and other workflow processes for our engineering and design work and for coordination with our trade colleagues. This includes tools from AutoCAD, including:

- Autodesk Design Suite
- Revit
- AutoCAD
- BIM 360
- iBwave Level 3

Technicians and Installers Team

Motor City Electric Technologies technicians and installer teams bring with them over 20 years of experience in the technology industry and our signatory to IBEW. MCET is dedicated to keeping our teams up to date on the latest certifications, industry standards, including but limit to cross and specialized system training to provide a well divers installation field team. Our installation varies anywhere from structures cabling, security systems, network systems, wireless, public safety, and cellular reinforcement systems.

Technician Staff Certifications Consist of:

- RCDD and BICSI certified technician
- BICSI certified Technicians
- CCNA certified network technicians

Service Group

Motor City Electric Technologies provides service technician equipped service vehicles dedicated to non-emergency (Next business day) and emergency (24/7, 4-Hour Response) dispatch. We provide project oriented spare critical equipment to ensure all emergency responses can be handled without major disruption.

Quality

Motor City Electric Technologies is ISO 9001:2015 certified, but for our team members, taking pride in our work is a greater measure of quality performance. That means doing it right, checking to make sure that it is right, and making sure that the customer is satisfied with the results.

Safety

Motor City Electric Technologies provides safety training to its employees on a regular basis. From the National Electric Code (NEC), National Fire Protection Association codes (NFPA), and OSHA standards to first aid, CPR, equipment operation, hazardous materials to ensure workplace safety.

PROJECT PROFILE

Wayne County Criminal Justice Center

Scope: Wayne County Criminal Justice Center Project encompasses four buildings. It has adult and juvenile detention facilities (525,000 square-feet and 129,000 square-feet respectively), a 263,000 square-foot courthouse, and a 155,000 square-foot sheriff's office. MCET was responsible for the installation of voice/data, security, IPTV, public safety network, and wireless access points.

Over the course of the project, MCET will install 321 wireless access points, 992 cameras, 487 IPTVs, 185 PSN devices, and 1,976 access control doors. Additionally, MCET will install 1,094,573 feet of copper cable and 37,806 feet of fiber cable throughout the Wayne County Criminal Justice Center.

Customer: Wayne County

Target Completion Date: 2023

Value: \$10.5 Million

Little Caesars Enterprises, Inc.

Little Caesars Headquarters

Scope: This newly constructed nine-story, 234,000 square foot, Little Caesars Global Resource Center at the corner of Woodward Avenue and Columbia Street in The District Detroit features a one-of-its-kind Passive Optical Network (PON) powered by digital electricity (DE). The installation is a Corning ONE based solution with single mode fiber to the edge. The implementation is designed with four (4) optical line terminals, seven (7) software defined data planes, one (1) top of rack switch operating over nine hundred (900) optical line terminals allowing up to four thousand (4,000) user ports. This passive optical network

supports six hundred (600) users, one hundred and sixty (160) security cameras, one hundred fifty (150) wireless access points with a building wide audio video solution supporting one hundred ten (110) Crestron Nvx's, one hundred fifty (150) flat panel display, ten (10) video projectors, two (2) interactive video walls.

This innovative technology provides the owner with all the network connections they are accustomed to with a less expensive network operational cost. The design eliminates the use of Ethernet switches in the network and reduces the overall network infrastructure. While future proofing the cabling infrastructure, this allows the network maintenance to become centralized and easier to manage.

Customer: Brinker Christman A Joint Venture

Completed: 2019

Value: \$5 Million

Olympia Development Little Caesars Arena

Scope: This newly constructed 800,000 square-foot arena is home to the Detroit Red Wings and Detroit Pistons. MCET was responsible for the installation of the voice/data, broadcast, intercom, LED televisions and lower bowl audio systems. Over the course of the project, MCET installed more than 2.5 Million feet of Category 6A Ethernet cable, 500,000 feet of jacketed fiber optic cable (8.4 Million feet or 1,590 Miles by the strand), and 2 Million feet of Broadcast audio/video cable. This project also included the installation of over 1,300 high-definition televisions and 900 wireless access points.

Customer: Barton Malow – Hunt – White

Completed: 2017

Value: \$20 Million

Oakland and University Engineering Center

Scope: As the home for the School of Engineering and Computer Science, this 6-story 127,000 square-foot facility features state-of-the-art classrooms and research space. MCET installed over 2,700 Category 6A voice/data drops as well as the audio/visual, access controls, CCTV and building management systems. A redundant diverse fiber optic communication backbone was installed at the university data center as part of this project.

Customer: Oakland University

Completed: 2015

Value: \$4 Million

Macomb County Department of Roads Communications and Technology Center (COMTEC)

Scope: A 25,000 square foot state-of-the-art facility that provides 24/7 situational awareness for residents, businesses and first responders. The facility houses the Macomb County Sheriff's Office Centralized Dispatch, the Road Department Traffic Operations Center, the Information Technology Department and Data Center, and the Emergency Management & Communications Department. For this project, MCET installed the supporting audio/visual equipment and structured cabling to support a 20' x 50' video wall, eight traffic-monitoring stations, twenty-five E911 dispatch stations, the County-wide Emergency Operations Center, a centralized data center, and a computer lab/training facility.

Customer: Michigan Department of Transportation / Macomb County Dept. of Roads

Completed: 2013

Value: \$3.3 Million

BLUEWATER TECHNOLOGIES COMPANY PROFILE

Bluewater Technologies is a privately held, woman-owned, S-corporation founded in metro-Detroit in 1985. The company began by providing simple AV equipment rentals for local businesses and organizations, then rapidly evolved in response to changes in technology and the demands of customers. Currently, Bluewater provides a full range of technology, fabrication, software and creative services for Meetings & Events, Workplace Technology, Retail Experience and Environments & Exhibitions, and ranks among the top 15 Systems Integrators nationally. From TVs and VCRs on carts in the '80s, to high-end projection systems and LED video walls in the '90s, to the technology-fueled experiences of the 2000s, Bluewater has always pushed the boundaries of innovative technology and maintained a focus on excellence.

As a privately held company, Bluewater does not share financial information. However, we can confirm that we are financially stable and profitable. If additional details are required, please contact Eric Butler, CFO at ebutler@bluewatertech.com.

Organizational Structure

Bluewater serves our diverse portfolio of clients through four locations: Our company headquarters in Wixom, MI, offices in Grand Rapids, a production facility in Mesick, MI, and an office in Indianapolis, IN. We currently employ a staff of 175 throughout these locations.

Officers and Executives

Suzanne Schoeneberger - President & Owner – Wixom

John Tracy – CEO – Wixom

Eric Butler - CFO - Wixom

Nanette Studebaker – COO - Wixom

Nick Marino – VP, Sales - Integration - Wixom

Brittney Bemb – VP, Integration Operations – Wixom

BWT EXECUTIVE TEAM

Nick Marino – Vice President Sales, Integration Nick has been with Bluewater for over 15 years. He joined the company as a senior account executive in 2009 and has since been promoted from the Director of Sales to the Vice President of Sales leading the Integration sales team. Nick has led some of Bluewater's largest projects such as Macomb County Comtec, Buffalo Wild Wings, BAE Systems, The Taubman Company and Little Caesars Arena. Prior to joining Bluewater, Nick was the National Sales Manager at Sport View Technologies for over 5 years.

Brittney Bemb – Vice President of Operations, Integration MBA, PMP Brittney has over 15 years of project management experience from live event and software management to platform integration and AV Project Management. In her career, she has successfully managed over 1,500 projects ranging from \$2,000 to \$3.5 million in value. Brittney changed course in 2015 from managing projects to following her path as a teacher and mentor to become the Director of Bluewater's PMO and Experiential teams. As demand in the industry shifted, Brittney did the same to help Bluewater launch new processes, tools, and platforms to better serve their clients and team members as the Director of Operational Excellence. As a Bluewater team member for 11 years, Brittney now acts as the Vice President of Operations - Integration. She works to drive consistent improvement in quality standards and efficiency to provide the best solutions and experience for Bluewater's clients.

Derek Monette – Director of Operations Derek began his career in the commercial AV industry after graduating from Central Michigan University in 2007. He started as a Field Technician before transitioning to Project Management and joined Bluewater as a Project Manager in 2013. In 2017, Derek moved to the Engineering team, eventually leading it until 2022, when he took on the role of Director of Operations. With expertise in project management and engineering, Derek ensures operational excellence across Bluewater.

Ben Lindsey - Quality Assurance Manager, CTS Ben has been an invaluable member of the Bluewater team since 2000, bringing in over two decades of expertise. Starting with bench-level equipment repair for top manufacturers like NEC, Sony, and Biamp, Ben quickly expanded his role to fieldwork and system support. From 2008 to 2018, he became a go-to expert for programming installations, integrating complex systems like Crestron, AMX, and Extron. Ben's deep technical knowledge and leadership skills led him to manage several key teams, including Programmers, Managed Service Technicians, and Engineering. Currently, he serves as Bluewater's Quality Assurance Manager, ensuring every project meets the highest standards. Throughout his career, Ben has been dedicated to supporting his teammates at every phase of the project life cycle, making him a vital resource for both technical and strategic success.

Lisa Page – Project Management Lead Lisa has been with Bluewater for two years, starting as a Project Manager and quickly advancing to Project Management Lead. She began her project management career in architectural construction, overseeing projects from design through fabrication and installation. With a solid foundation in both construction and AV, Lisa is known for her exceptional problem-solving abilities and ensures that both her clients and team have everything they need for a successful project. Her talent for listening, clear communication, and relentless determination makes her a trusted leader who consistently delivers exceptional results.

Melissa Phillips – Account Manager Melissa has been an integral part of our team for the past eight years, consistently demonstrating her dedication and expertise as an Account Manager. Known for her meticulous attention to detail and client-focused approach, Melissa excels in understanding and addressing the unique needs of each client, ensuring their satisfaction and success. As a team player, she collaborates seamlessly with her colleagues, fostering a cooperative and productive work environment. Her commitment to building strong client relationships and ensuring that we are a dependable partner for their solutions has been pivotal to our company's growth and reputation. Melissa's unwavering dedication to her clients and her ability to deliver tailored solutions make her a valued asset to our team and a trusted advisor to our clients.

Woody Booth – Senior Project Manager With over 25 years in the commercial audio-visual industry, Woody started at Bluewater as a Lead Installation Technician and later became the Installation Manager and Estimator. Over the past 17 years, he has excelled as a Project Manager and Estimator, handling Bluewater's largest installation projects for high-profile clients like GM, Ford, and Quicken Loans. Woody specializes in large-scale, new construction installations, notably managing multi-million-dollar projects in downtown Detroit. His detailed, client-focused approach ensures on-time project completion and outstanding client experiences, also providing critical support in large project estimates.

Steve Insley – Director of Managed Services and Install Steve has over 11 years of experience in the AV industry, progressing from Installation Supervisor to Integration Operations Manager and now Manager of Operations and Managed Services. He also brings over 10 years of expertise in voice, data, and structured cabling. Steve works closely with all members of Bluewater's integration and service teams, ensuring seamless collaboration and operational excellence. His professional certifications include Crestron DMC-D-4K, and Extron EAVA, demonstrating his commitment to industry standards and quality.

Drew Kergan – Field Engineer, CTS-I Drew began his career in the audio-video industry working in residential AV from 1997 to 1999 before joining Bluewater in 1999. He quickly advanced to Lead Technician, playing a pivotal role in transitioning projects from analog to digital systems. As one of the most knowledgeable technicians in the industry, Drew holds a CTS-I certification and is highly sought after for his expertise. Known for handling tough on-site situations with ease, he excels at keeping clients informed and satisfied through clear communication and well-defined next steps. His ability to work seamlessly with all trades ensures the success of even the most challenging projects, making him an invaluable asset to the Bluewater team.

Jeff Hynes – Programmer, CTS-I Jeff has been a key contributor to Bluewater since 2011, progressing from Field Engineer to a highly skilled AV Systems Programmer. Specializing in Crestron programming, Jeff has extensive experience working with top manufacturers like Q-sys, Extron, and Biamp. His certifications include Crestron Certified Programmer and Avixa's CTS-I, along with numerous other programming credentials that highlight his expertise in advanced technologies. Jeff's deep technical knowledge enables him to design, program, and implement complex AV systems, providing innovative solutions tailored to meet clients' needs.

PROJECT PROFILES

Little Caesars Enterprises' World Headquarters - Detroit, MI

PROJECT VALUE: \$2.8 MILLION - Completed 2019

In conjunction with MCET, Bluewater provided a turn-key AV solution for the entire Little Caesars Enterprises' World Headquarters. This included a video/IP solution that provides the ultimate in flexibility by providing the ability to provide any source to any designation. Additionally, BW furnished and installed 50+ conference rooms, huddle rooms, boardrooms, and collaboration spaces that ranged from extremely basic with wireless and wired collaboration to a display to spaces with much more functionality including wireless/wired collaboration for presentations, video, and audio conferencing, multi touch capability and fully integrated control that controls all aspects of the space.

In addition to the conference room spaces, Bluewater furnished and installed Direct View LED in an open space for presentation and digital signage capabilities, a test kitchen, a Little Caesars replicated site, Focus/ Observation area, divisible training room for individual training session with 4 spaces or the ability to open up for a much larger group, a gym, a terrace with mobile systems for presentation overflow, and entry way projection mapped floor and sound masking throughout the entire 9 floor building. Bluewater worked with the architect, the designer and consultant to specify and install equipment and provide 2 years of post-install support.

Lastly, Bluewater designed and built the studio for LCE that relies on green screen technology and is in the process of designing a new XR studio in the same space.

United Shore Mortgage - Pontiac, MI:

PROJECT VALUE \$ 2.2 MILLION

Bluewater provided all digital signage and conference room technology throughout United Shore's new state-of-the-art headquarters in Pontiac, MI. Spaces include: the lobby's custom LED welcome signage, the auditorium, which will boast rear projectors, new audio, and Crestron control; the fitness center and full basketball court, with audio and monitors throughout; and 11 training rooms, all of which have a presentation area, control, and audio. Bluewater gave the same treatment to the cafeteria, security room, conference rooms, and the common areas throughout all three floors. In total, Bluewater installed over 175 displays and dozens of speakers throughout the building. The finished product is a completely tech-savvy office for the modern worker. We are grateful to be recognized as one of SCN's 2018 Installs of the Year for this project.

Penske Entertainment - Indianapolis Motor Speedway – Indianapolis, IN

PROJECT VALUE: \$5+ Million since 2020. Projects on-going.

Bluewater has installed and/or is repairing and supporting all LED boards out at Indianapolis Motor Speedway since 2020. We also provide LED and AV technicians for on-site race support. We have also worked with Penske Entertainment on providing installation and support of their conference room technologies. Recent changes started in 2020 with the 100' x 20' 6mm Pagoda board. 2023- Updated scoring Pylon from 16mm pixel pitch to a brighter 10mm pixel pitch. 2023-New Start/Finish line 10mm LED board and Infield 10mm board. 2024 work includes 12 new 3mm infield mound boards, Turn 7,

outside Turn 1 and 4 10mm LED boards. We are currently managing 63 individual LED displays. LED displays are ABSEN and KWAV

#

Salesforce Tower – Indianapolis, IN

PROJECT VALUE: \$3 Million - Completed 2019

Bluewater was chosen by Salesforce as the most qualified AV integrator to install and support their 100 conference rooms across 14 floors in Salesforce Tower. There were 3 bid phases and Bluewater won each phase based on consistent workmanship, attention to detail and LIVE support. Their top floor “The Ohana Floor” was \$750k by itself and Bluewater supports their Townhall meetings that take place there. Technology includes Crestron, QSC, Shure, Biamp, Samsung.

PROJECT TIME FRAME FLOW CHART

Gant Chart will be provided upon award.

January 29, 2025

Ms. Trish Pergament
White Lake Township
7525 Highland Road
White Lake, MI 48383

Subject: White Lake Township Hall
Township Hall Low Voltage & AV Design Work
Motor City Electric Technologies Inc. Proposal No. 25-0640 Township Hall

Dear Ms. Pergament:

Motor City Electric Technologies Inc. is pleased to offer our proposal for the above-referenced project located in White Lake Township Hall, Michigan.

Price Breakout for Exhibit A - Township Hall - Low Voltage & AV Design Work and Exhibit B - Township Hall - Low Voltage & AV are provided below.

Our proposal is based on the following:

- Low Voltage & AV - New Civic Center Buildings - White Lake Township 10-25-24 Final
- White Lake Township Hall Building Low Voltage Design Work Specifications (V4)
- White Lake Township Hall Low Voltage Drawings
- White Lake Township Bldg. Drawings Issued for Construction 2024-08-23.
- Public Safety Bldg. Project Manual

SCOPE OF SERVICES

Motor City Electric Technologies Inc. will provide the following services:

IT Room 137

- Furnish and install 12" ladder rack and ladder rack dropouts.
- Furnish and install one (1) 42U server cabinet per specification and one (1) metered PDU.
- Furnish and install one (1) 45U 2-post relay rack, two (2) vertical wire managers, and one (1) metered PDU.
- Furnish and install one (1) telecommunications ground bar.
- Ground server cabinet, relay rack, and ladder rack to the telecommunications ground bar.
- Furnish and install 24-port modular patch panels with category 6 jacks and F-type inserts for each terminated cable.
- Furnish and install the required 1U horizontal wire managers.
- Furnish and install one (1) rack mount enclosure and required LC single mode fiber adapter plate.
- Furnish and install category 6 1-foot patch cords for each patch panel termination.
- Furnish and install RG6 coaxial 1-foot patch cords for each patch panel termination.
- Furnish and install EZ path sleeves per the specification.

IDF

- Furnish and install one (1) wall mount fiber splice cabinet.

Fiber Backbone

- Furnish and install one (1) 12-strand single mode armored plenum fiber from the IDF wall mount fiber splice cabinet to IT room 137 fiber enclosure. Fiber will be fusion spliced to the outdoor fiber from the Public Safety Building and the IDF and fusion spliced to fiber pigtails the fiber enclosure in IT room 137.
- OTDR directional test fiber, certify per the specification and provided documentation.

Low Voltage Outlets

- Furnish and install the non-continuous support for the new category 6 cable and fiber pathways.
- Furnish and install the required faceplate and surface mount per the low voltage drawing outlet locations.
- Furnish and install category 6 RJ45 jacks in various colors for the data, voice, wireless access point, cameras, and audio-video low voltage drawing outlet locations.
- Furnish and install category 6 RJ45 shielded jacks in various colors for the data, voice, wireless access point, cameras, audio-video low voltage drawing outlet locations.
- Furnish and install F-type coaxial inserts per the low voltage drawing outlet locations.
- Furnish and install HDMI inserts per the low voltage drawing outlet locations.
- Furnish and install category 6 plenum cable in various colors from each jack location to IT room 137 and terminate cable at each end.
- Furnish and install category 6 plenum shielded cable from each jack location to room 002 and terminate cable at each end.
- Furnish and install RG6 plenum coaxial cable from each F-type insert location to IT room 137 and terminate cable at each end.
- Label, test, and certify category 6 cable per specification and provided documentation.

Access Control Cabling

- Furnish and install 22 AWG/6 conductor plenum rated cable from the card reader locations to IT room 137 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the door contact locations to IT room 137 and coil cable at each end for future installation.
- Furnish and install 18 AWG/2 conductor plenum rated cable from the duress button locations to IT room 137 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the electrified lock locations to IT room 137 and coil cable at each end for future installation.

Additional Items

- Man lift (as required.)
- Necessary cable supports for structured cabling system.
- As-builts
- Fire-Stopping
- Permits

AV Design Work

- Furnish and install AV systems per the specification and drawings in the following areas.
 - Board Room 001
 - Activity Space 031, 032, 033, 034, 035
 - Conference Room 003
 - Lobby 011
 - Lounge/Reception 016
 - Deputy Supervisor 105
 - Deputy Supervisor 106
 - Conference Room 108
 - Lobby 111
 - Conference Room 116
 - Clerk Room 132
 - Deputy Clerk Room 133
 - Deputy Treasurer Room 151
 - Treasurer Room 152
 - Planning Director 163
 - DPS Director 173
 - Reception 120
 - Reception 130
 - Reception 160
 - Employee Wellness Center 190
 - Exterior Displays

Clarifications

1. Who is managing the Digital Signage Players? Does a CMS platform need to be specified or is there one desired? We did not provide a quote for a CMS platform.
2. Lobby 011 the amp specified does not auto switch audio signals. This will be all manually switched and controlled at the amp by the end user.
3. 8" Altona Panel has been discontinued. We have provided funds for a 10" Velocity Panel
4. All owner furnished equipment and furniture shall be available prior to install.

Exclusions

Our proposal excludes the following:

- Low voltages and AV Conduits, back boxes, floor boxes, floor cores, power.
- Backerboards for TV monitors
- Door hardware
- Overtime.
- Dumpsters.
- Winter Conditions.
- Ground man
- BIM and BIM coordination
- Parking
- Access control, Surveillance, intrusion detection systems and installation
- Intercom Master Stations and Intercoms and installation.

- Network Switches, Wireless Access Points and UPS
- Copper patch cord and installation at the device outlets.
- Cutouts in furniture for popup or cable cubby interfaces.

BASE PRICE

The Total Sum as specified herein by Motor City Electric Technologies Inc. is Four Hundred Fifty-Six Thousand, Nine Hundred Thirty-Five and 00/100 (**\$456,935.00**) Dollars. Note: Excludes Taxes.

Add for Payment & Performance Bond

Add: \$ 3,705.00

PRICE BREAKOUT

EXHIBIT A

Exhibit A - Township Hall - Low Voltage & AV Design Work

Exhibit A Price: \$ 186,350.00

Add for Payment & Performance Bond: \$ 1,510.00

EXHIBIT B

Exhibit B - Township Hall - Low Voltage & AV Design Work

Exhibit B Price: \$ 270,585.00

Add for Payment & Performance Bond: \$ 2,195.00

Complete Bill of Materials and Unit Pricing Provided Below for Exhibit A & Exhibit B

SCHEDULE

In accordance with the above, it is Motor City Electric Technologies' intention to begin work on this project upon receipt of the order and project schedule, with the completion of all work within a mutually agreed upon time frame.

TERMS AND CONDITIONS

1. All prices shall remain in effect subject to your acceptance until July 29, 2025.
2. Our terms of payment are thirty (30) days net from the date of invoice. We will invoice the last working day of each month for all work performed that month.
3. Our labor is based on IBEW, Sound, and Communication rates, Monday thru Friday, 8-hour days, (First Shift).
4. Our installation price does not include the following:
 - Shift or Overtime
5. Our price does not include MBE involvement.
6. Any delays due to additional changes to the system and/or omissions of others will be charged as additional work.

7. Motor City Electric Technologies will not be responsible for the correctness or accuracy of any information supplied by others or the subsequent errors resulting from such incorrect information.
8. Motor City Electric Technologies will not be held liable for any schedule delays due to drawing approval delays and/or errors or omissions of others.
9. Back charges for any field additions, deletions, modifications, or “corrections” authorized and implemented without our knowledge and consent will not be accepted.
10. Standard manufacturer warranties apply unless otherwise stated.
11. This proposal is not a firm offer and shall not bind MCET to enter into an agreement for the work described. Any agreement must be based upon terms acceptable to MCET.

Thank you for the opportunity to quote these services. Should you have any questions regarding our proposal, please do not hesitate to call.

Sincerely,

Scott Sutherland

Motor City Electric Technologies

Submitted to White Lake Township

January 29, 2025

White Lake Township Public Safety Building

Low Voltage & AV Proposal – Public Safety Building

White Lake Township, Michigan

INTRODUCTION

On behalf of the entire Motor City Electric Technologies (MCET) and Bluewater Technologies (BWT) staff, I would like to thank you for your interest in our products and services. MCET and BWT have been servicing our customers for over thirty years by specializing in all facets of the Technologies and Audio/Visual industry. Our philosophy is to build successful, long-lasting relationships with our customers.

With our years of experience in Technologies, AV design, and installation industry, MCET and BWT are confident that we can provide White Lake Township with a more effective and user-friendly Low Voltage and AV solution, while maintaining a similar budget to what is outlined in the current bid. Our proposal aims to enhance the overall functionality and ease of use for the township's Low Voltage and AV systems, ensuring it is intuitive for all users.

Beyond providing a user-friendly design, our solution will also focus on improving the long-term reliability of the AV systems. By utilizing more robust components and streamlined systems, we can offer a setup that reduces the complexity of future maintenance and service needs, saving time and costs in the future. We would appreciate the opportunity to work with you on a Design/Assist proposal that would allow us to develop a tailored AV solution that delivers the highest possible quality for all rooms, at a competitive price point. Our goal is to ensure that the township of White Lake receives the best possible AV experience, now and in the years to come.

We look forward to the possibility of collaborating on this project and are excited about the potential to serve the township's needs.

MCET COMPANY HISTORY & INFORMATION

As one of the largest contractors in the nation, Motor City Electric Co. (MCE) was founded in 1952 and has continued to grow its position as an electrical contractor in the Midwest. MCE has nine focused divisions, including Automotive and Process, Commercial, Industrial, Specialty Industries, Service and Emergency, Public Works and Steel, Technologies, Utilities and Excavation.

Motor City Electric Technologies, formally the Cadre Corporation, was created in 1993 and is the technology, integration, and engineering subsidiary of Motor City Electric Co. MCET is an Information Technology, Controls Engineering and Low Voltage integrator/installer that provides professional and technical services in all aspects of Information Technology, from system design to comprehensive maintenance and installation services. MCET's staff of experienced designers, project managers, engineers, estimators, technicians, and installers are your sole source for structured cable, voice & data, life safety systems, video surveillance & card access systems, audio/visual solutions, and Information Technology communication systems, whether wired or wireless.

As a member of the IBEW and NECA, MCET currently employs more than fifty (50) IBEW Local 58 Union Sound and Communication Technicians with an average length of employment of 7 years and has an office support staff of over twenty-five employees comprised of CAD Operators, Engineers, Designers, Programmers and Project Managers.

BLUEWATER TECHNOLOGIES COMPANY PROFILE

Bluewater Technologies is a privately held, woman-owned, S-corporation founded in metro-Detroit in 1985. The company began by providing simple AV equipment rentals for local businesses and organizations, then rapidly evolved in response to changes in technology and the demands of customers. Currently, Bluewater provides a full range of technology, fabrication, software and creative services for Meetings & Events, Workplace Technology, Retail Experience and Environments & Exhibitions, and ranks among the top 15 Systems Integrators nationally. From TVs and VCRs on carts in the '80s, to high-end projection systems and LED video walls in the '90s, to the technology-fueled experiences of the 2000s, Bluewater has always pushed the boundaries of innovative technology and maintained a focus on excellence.

As a privately held company, Bluewater does not share financial information. However, we can confirm that we are financially stable and profitable. If additional details are required, please contact Eric Butler, CFO at ebutler@bluewatertech.com.

Organizational Structure

Bluewater serves our diverse portfolio of clients through four locations: Our company headquarters in Wixom, MI, offices in Grand Rapids, a production facility in Mesick, MI, and an office in Indianapolis, IN. We currently employ a staff of 175 throughout these locations.

WORK PROGRAM

Scope Requirement: - MCET will provide and install the required low voltage system (voice, data, cable infrastructure, fiber backbone, terminations, testing, and certification) as required in the RFP. MCET and our strategic Audio-Visual partner Bluewater Technologies (BWT). will provide the installation of the required Audio Video systems, commissioning and testing as required in the RFP. As part of the Scope of Work, The MCET Team will provide the necessary project management, project engineering, technical implementation support, training, and other professional services for the implementation of the project. Our team will ensure the timely and satisfactory completion of each site / facility location as outlined in the RFP.

Closeout Procedure - MCET will provide O&M manuals, drawings, documentation, test documentation, warranty documentation, and training.

MCET EXECUTIVE TEAM AND STAFF

Management Team

David M. Krausman (RCDD), Vice President of Motor City Electric Technologies, leads our management team. David joined MCET in 2003 with 25 years of experience in the technology industry.

Justine Fleming (RCDD), General Manager of Motor City Electric Technologies, joined MCET in 1996 with 30 years of experience in the technology industry.

Scott Sutherland, Senior Estimator of Motor City Electric Technologies, joined MCET in 2001 with 35 years of experience in the technology industry.

Mahria Boone, (CCENT, CCNA, and iBwave certification), RF Design Engineer/Network Technician of Motor City Electric Technologies, joined MCET in 2004 with 24 years of experience in the industry.

Marc Spontack, Security Engineer/Project Manager of Motor City Electric Technologies, joined MCET in 2012 with 28 years of experience in the technology industry.

Jonathan Buchler, Project Manager of Motor City Electric Technologies, joined MCET in 2019 with 20 years of experience in the technology industry.

Ronald Kitchen, Project Manager of Motor City Electric Technologies, joined MCET in 2021 with 35 years of experience in the technology industry.

Danial Jipping, Project Manager of Motor City Electric Technologies, joined MCET in 2020 with 5 years of experience in the technology industry.

Trey Ebinger (PMP, RCDD), Project Manager Motor City Electric Technologies, joined MCET in 2020 with 5 years of experience in the technology industry.

Project Management Team

Our project management team brings with them 20 years of experience in the technology industry managing various size projects including but limit to educational, commercial, municipal, manufacture, distribution, transportation, utilities, industrial, distribution, and large public venues. The MCET project management team carries BICSI and RCDD certification and accreditation.

Capabilities

Motor City Electric Technologies offers complete technology contracting services from design and installation to operations, maintenance, and service. Types of work provided include but limit to cellular phone registration systems, emergency radio response systems, wireless systems, security systems, communications, controls, data centers, fiber optic, sound and video, telecommunications infrastructure, transportation systems, networks, programing, configuration, and system testing.

Client industries include commercial, automotive, casinos, governments and municipalities, medical/hospitals, hotels, service industry, manufacturers, schools, universities, arenas/stadiums, utilities, and fresh water/wastewater treatment plants.

Engineering and Design Services

Our engineering team utilizes state-of-the-art software tools to assist with BIM, Revit, 3D modeling, and other workflow processes for our engineering and design work and for coordination with our trade colleagues. This includes tools from AutoCAD, including:

- Autodesk Design Suite
- Revit
- AutoCAD
- BIM 360
- iBwave Level 3

Technicians and Installers Team

Motor City Electric Technologies technicians and installer teams bring with them over 20 years of experience in the technology industry and our signatory to IBEW. MCET is dedicated to keeping our teams up to date on the latest certifications, industry standards, including but limit to cross and specialized system training to provide a well divers installation field team. Our installation varies anywhere from structures cabling, security systems, network systems, wireless, public safety, and cellular reinforcement systems.

Technician Staff Certifications Consist of:

- RCDD and BICSI certified technician
- BICSI certified Technicians
- CCNA certified network technicians

Service Group

Motor City Electric Technologies provides service technician equipped service vehicles dedicated to non-emergency (Next business day) and emergency (24/7, 4-Hour Response) dispatch. We provide project oriented spare critical equipment to ensure all emergency responses can be handled without major disruption.

Quality

Motor City Electric Technologies is ISO 9001:2015 certified, but for our team members, taking pride in our work is a greater measure of quality performance. That means doing it right, checking to make sure that it is right, and making sure that the customer is satisfied with the results.

Safety

Motor City Electric Technologies provides safety training to its employees on a regular basis. From the National Electric Code (NEC), National Fire Protection Association codes (NFPA), and OSHA standards to first aid, CPR, equipment operation, hazardous materials to ensure workplace safety.

PROJECT PROFILE

Wayne County Criminal Justice Center

Scope: Wayne County Criminal Justice Center Project encompasses four buildings. It has adult and juvenile detention facilities (525,000 square-feet and 129,000 square-feet respectively), a 263,000 square-foot courthouse, and a 155,000 square-foot sheriff's office. MCET was responsible for the installation of voice/data, security, IPTV, public safety network, and wireless access points.

Over the course of the project, MCET will install 321 wireless access points, 992 cameras, 487 IPTVs, 185 PSN devices, and 1,976 access control doors. Additionally, MCET will install 1,094,573 feet of copper cable and 37,806 feet of fiber cable throughout the Wayne County Criminal Justice Center.

Customer: Wayne County

Target Completion Date: 2023

Value: \$10.5 Million

Little Caesars Enterprises, Inc.

Little Caesars Headquarters

Scope: This newly constructed nine-story, 234,000 square foot, Little Caesars Global Resource Center at the corner of Woodward Avenue and Columbia Street in The District Detroit features a one-of-its-kind Passive Optical Network (PON) powered by digital electricity (DE). The installation is a Corning ONE based solution with single mode fiber to the edge. The implementation is designed with four (4) optical line terminals, seven (7) software defined data planes, one (1) top of rack switch operating over nine hundred (900) optical line terminals allowing up to four thousand (4,000) user ports. This passive optical network

supports six hundred (600) users, one hundred and sixty (160) security cameras, one hundred fifty (150) wireless access points with a building wide audio video solution supporting one hundred ten (110) Crestron Nvx's, one hundred fifty (150) flat panel display, ten (10) video projectors, two (2) interactive video walls.

This innovative technology provides the owner with all the network connections they are accustomed to with a less expensive network operational cost. The design eliminates the use of Ethernet switches in the network and reduces the overall network infrastructure. While future proofing the cabling infrastructure, this allows the network maintenance to become centralized and easier to manage.

Customer: Brinker Christman A Joint Venture

Completed: 2019

Value: \$5 Million

Olympia Development Little Caesars Arena

Scope: This newly constructed 800,000 square-foot arena is home to the Detroit Red Wings and Detroit Pistons. MCET was responsible for the installation of the voice/data, broadcast, intercom, LED televisions and lower bowl audio systems. Over the course of the project, MCET installed more than 2.5 Million feet of Category 6A Ethernet cable, 500,000 feet of jacketed fiber optic cable (8.4 Million feet or 1,590 Miles by the strand), and 2 Million feet of Broadcast audio/video cable. This project also included the installation of over 1,300 high-definition televisions and 900 wireless access points.

Customer: Barton Malow – Hunt – White

Completed: 2017

Value: \$20 Million

Oakland and University Engineering Center

Scope: As the home for the School of Engineering and Computer Science, this 6-story 127,000 square-foot facility features state-of-the-art classrooms and research space. MCET installed over 2,700 Category 6A voice/data drops as well as the audio/visual, access controls, CCTV and building management systems. A redundant diverse fiber optic communication backbone was installed at the university data center as part of this project.

Customer: Oakland University

Completed: 2015

Value: \$4 Million

Macomb County Department of Roads Communications and Technology Center (COMTEC)

Scope: A 25,000 square foot state-of-the-art facility that provides 24/7 situational awareness for residents, businesses and first responders. The facility houses the Macomb County Sheriff's Office Centralized Dispatch, the Road Department Traffic Operations Center, the Information Technology Department and Data Center, and the Emergency Management & Communications Department. For this project, MCET installed the supporting audio/visual equipment and structured cabling to support a 20' x 50' video wall, eight traffic-monitoring stations, twenty-five E911 dispatch stations, the County-wide Emergency Operations Center, a centralized data center, and a computer lab/training facility.

Customer: Michigan Department of Transportation / Macomb County Dept. of Roads

Completed: 2013

Value: \$3.3 Million

BLUEWATER TECHNOLOGIES COMPANY PROFILE

Bluewater Technologies is a privately held, woman-owned, S-corporation founded in metro-Detroit in 1985. The company began by providing simple AV equipment rentals for local businesses and organizations, then rapidly evolved in response to changes in technology and the demands of customers. Currently, Bluewater provides a full range of technology, fabrication, software and creative services for Meetings & Events, Workplace Technology, Retail Experience and Environments & Exhibitions, and ranks among the top 15 Systems Integrators nationally. As a privately held company, Bluewater does not share financial information. However, we can confirm that we are financially stable and profitable. If additional details are required, please contact Eric Butler, CFO at ebutler@bluewatertech.com.

Organizational Structure

Bluewater serves our diverse portfolio of clients through four locations: Our company headquarters in Wixom, MI, offices in Grand Rapids, a production facility in Mesick, MI, and an office in Indianapolis, IN. We currently employ a staff of 175 throughout these locations.

Officers and Executives

Suzanne Schoeneberger - President & Owner – Wixom

John Tracy – CEO – Wixom

Eric Butler - CFO - Wixom

Nanette Studebaker – COO - Wixom

Nick Marino – VP, Sales - Integration - Wixom

Brittney Bemb – VP, Integration Operations – Wixom

BWT EXECUTIVE TEAM

Nick Marino – Vice President Sales, Integration Nick has been with Bluewater for over 15 years. He joined the company as a senior account executive in 2009 and has since been promoted from the Director of Sales to the Vice President of Sales leading the Integration sales team. Nick has led some of Bluewater's largest projects such as Macomb County Comtec, Buffalo Wild Wings, BAE Systems, The Taubman Company and Little Caesars Arena. Prior to joining Bluewater, Nick was the National Sales Manager at Sport View Technologies for over 5 years.

Brittney Bemb – Vice President of Operations, Integration MBA, PMP Brittney has over 15 years of project management experience from live event and software management to platform integration and AV Project Management. In her career, she has successfully managed over 1,500 projects ranging from \$2,000 to \$3.5 million in value. Brittney changed course in 2015 from managing projects to following her path as a teacher and mentor to become the Director of Bluewater's PMO and Experiential teams. As demand in the industry shifted, Brittney did the same to help Bluewater launch new processes, tools, and platforms to better serve their clients and team members as the Director of Operational Excellence. As a Bluewater team member for 11 years, Brittney now acts as the Vice President of Operations - Integration. She works to drive consistent improvement in quality standards and efficiency to provide the best solutions and experience for Bluewater's clients.

Derek Monette – Director of Operations Derek began his career in the commercial AV industry after graduating from Central Michigan University in 2007. He started as a Field Technician before transitioning to Project Management and joined Bluewater as a Project Manager in 2013. In 2017, Derek moved to the Engineering team, eventually leading it until 2022, when he took on the role of Director of Operations. With expertise in project management and engineering, Derek ensures operational excellence across Bluewater.

Ben Lindsey - Quality Assurance Manager, CTS Ben has been an invaluable member of the Bluewater team since 2000, bringing in over two decades of expertise. Starting with bench-level equipment repair for top manufacturers like NEC, Sony, and Biamp, Ben quickly expanded his role to fieldwork and system support. From 2008 to 2018, he became a go-to expert for programming installations, integrating complex systems like Crestron, AMX, and Extron. Ben's deep technical knowledge and leadership skills led him to manage several key teams, including Programmers, Managed Service Technicians, and Engineering. Currently, he serves as Bluewater's Quality Assurance Manager, ensuring every project meets the highest standards. Throughout his career, Ben has been dedicated to supporting his teammates at every phase of the project life cycle, making him a vital resource for both technical and strategic success.

Lisa Page – Project Management Lead Lisa has been with Bluewater for two years, starting as a Project Manager and quickly advancing to Project Management Lead. She began her project management career in architectural construction, overseeing projects from design through fabrication and installation. With a solid foundation in both construction and AV, Lisa is known for her exceptional problem-solving abilities and ensures that both her clients and team have everything they need for a successful project. Her talent for listening, clear communication, and relentless determination makes her a trusted leader who consistently delivers exceptional results.

Melissa Phillips – Account Manager Melissa has been an integral part of our team for the past eight years, consistently demonstrating her dedication and expertise as an Account Manager. Known for her meticulous attention to detail and client-focused approach, Melissa excels in understanding and addressing the unique needs of each client, ensuring their satisfaction and success. As a team player, she collaborates seamlessly with her colleagues, fostering a cooperative and productive work environment. Her commitment to building strong client relationships and ensuring that we are a dependable partner for their solutions has been pivotal to our company's growth and reputation. Melissa's unwavering dedication to her clients and her ability to deliver tailored solutions make her a valued asset to our team and a trusted advisor to our clients.

Woody Booth – Senior Project Manager With over 25 years in the commercial audio-visual industry, Woody started at Bluewater as a Lead Installation Technician and later became the Installation Manager and Estimator. Over the past 17 years, he has excelled as a Project Manager and Estimator, handling Bluewater's largest installation projects for high-profile clients like GM, Ford, and Quicken Loans. Woody specializes in large-scale, new construction installations, notably managing multi-million-dollar projects in downtown Detroit. His detailed, client-focused approach ensures on-time project completion and outstanding client experiences, also providing critical support in large project estimates.

Steve Insley – Director of Managed Services and Install Steve has over 11 years of experience in the AV industry, progressing from Installation Supervisor to Integration Operations Manager and now Manager of Operations and Managed Services. He also brings over 10 years of expertise in voice, data, and structured cabling. Steve works closely with all members of Bluewater's integration and service teams, ensuring seamless collaboration and operational excellence. His professional certifications include Crestron DMC-D-4K, and Extron EAVA, demonstrating his commitment to industry standards and quality.

Drew Kergan – Field Engineer, CTS-I Drew began his career in the audio-video industry working in residential AV from 1997 to 1999 before joining Bluewater in 1999. He quickly advanced to Lead Technician, playing a pivotal role in transitioning projects from analog to digital systems. As one of the most knowledgeable technicians in the industry, Drew holds a CTS-I certification and is highly sought after for his expertise. Known for handling tough on-site situations with ease, he excels at keeping clients informed and satisfied through clear communication and well-defined next steps. His ability to work seamlessly with all trades ensures the success of even the most challenging projects, making him an invaluable asset to the Bluewater team.

Jeff Hynes – Programmer, CTS-I Jeff has been a key contributor to Bluewater since 2011, progressing from Field Engineer to a highly skilled AV Systems Programmer. Specializing in Crestron programming, Jeff has extensive experience working with top manufacturers like Q-sys, Extron, and Biamp. His certifications include Crestron Certified Programmer and Avixa's CTS-I, along with numerous other programming credentials that highlight his expertise in advanced technologies. Jeff's deep technical knowledge enables him to design, program, and implement complex AV systems, providing innovative solutions tailored to meet clients' needs.

PROJECT PROFILES

Little Caesars Enterprises' World Headquarters - Detroit, MI

PROJECT VALUE: \$2.8 MILLION - Completed 2019

In conjunction with MCET, Bluewater provided a turn-key AV solution for the entire Little Caesars Enterprises' World Headquarters. This included a video/IP solution that provides the ultimate in flexibility by providing the ability to provide any source to any designation. Additionally, BW furnished and installed 50+ conference rooms, huddle rooms, boardrooms, and collaboration spaces that ranged from extremely basic with wireless and wired collaboration to a display to spaces with much more functionality including wireless/wired collaboration for presentations, video, and audio conferencing, multi touch capability and fully integrated control that controls all aspects of the space.

In addition to the conference room spaces, Bluewater furnished and installed Direct View LED in an open space for presentation and digital signage capabilities, a test kitchen, a Little Caesars replicated site, Focus/ Observation area, divisible training room for individual training session with 4 spaces or the ability to open up for a much larger group, a gym, a terrace with mobile systems for presentation overflow, and entry way projection mapped floor and sound masking throughout the entire 9 floor building. Bluewater worked with the architect, the designer and consultant to specify and install equipment and provide 2 years of post-install support.

Lastly, Bluewater designed and built the studio for LCE that relies on green screen technology and is in the process of designing a new XR studio in the same space.

United Shore Mortgage - Pontiac, MI:

PROJECT VALUE \$ 2.2 MILLION

Bluewater provided all digital signage and conference room technology throughout United Shore's new state-of-the-art headquarters in Pontiac, MI. Spaces include: the lobby's custom LED welcome signage, the auditorium, which will boast rear projectors, new audio, and Crestron control; the fitness center and full basketball court, with audio and monitors throughout; and 11 training rooms, all of which have a presentation area, control, and audio. Bluewater gave the same treatment to the cafeteria, security room, conference rooms, and the common areas throughout all three floors. In total, Bluewater installed over 175 displays and dozens of speakers throughout the building. The finished product is a completely tech-savvy office for the modern worker. We are grateful to be recognized as one of SCN's 2018 Installs of the Year for this project.

Penske Entertainment - Indianapolis Motor Speedway – Indianapolis, IN

PROJECT VALUE: \$5+ Million since 2020. Projects on-going.

Bluewater has installed and/or is repairing and supporting all LED boards out at Indianapolis Motor Speedway since 2020. We also provide LED and AV technicians for on-site race support. We have also worked with Penske Entertainment on providing installation and support of their conference room technologies. Recent changes started in 2020 with the 100' x 20' 6mm Pagoda board. 2023- Updated scoring Pylon from 16mm pixel pitch to a brighter 10mm pixel pitch. 2023-New Start/Finish line 10mm LED board and Infield 10mm board. 2024 work includes 12 new 3mm infield mound boards, Turn 7,

outside Turn 1 and 4 10mm LED boards. We are currently managing 63 individual LED displays. LED displays are ABSEN and KWAV

#

Salesforce Tower – Indianapolis, IN

PROJECT VALUE: \$3 Million - Completed 2019

Bluewater was chosen by Salesforce as the most qualified AV integrator to install and support their 100 conference rooms across 14 floors in Salesforce Tower. There were 3 bid phases and Bluewater won each phase based on consistent workmanship, attention to detail and LIVE support. Their top floor “The Ohana Floor” was \$750k by itself and Bluewater supports their Townhall meetings that take place there. Technology includes Crestron, QSC, Shure, Biamp, Samsung.

PROJECT TIME FRAME FLOW CHART

Gant Chart will be provided upon award.

January 29, 2025

Ms. Trish Pergament
White Lake Township
7525 Highland Road
White Lake, MI 48383

Subject: White Lake Township
Public Safety Building Low Voltage & AV Design Work
Motor City Electric Technologies Inc. Proposal No. 25-0640 Public Safety Building

Dear Ms. Pergament:

Motor City Electric Technologies Inc. is pleased to offer our proposal for the above-referenced project located in White Lake Township Hall, Michigan.

Price Breakout for Exhibit C - Public Safety Building -- Low Voltage & AV Design Work and Exhibit D- Township Hall - Low Voltage & AV are provided below.

Our proposal is based on the following:

- Low Voltage & AV - New Civic Center Buildings - White Lake Township 10-25-24 Final
- White Lake Public Safety Building Low Voltage Design Work Specifications (V4)
- White Lake Public Safety Building Low Voltage Drawings
- Public Safety Building -Drawings Construction
- Public Safety Bldg Project Manual

SCOPE OF SERVICES

Motor City Electric Technologies Inc. will provide the following services:

IT Room 247

- Furnish and install 12" ladder rack and ladder rack dropouts.
- Furnish and install one (1) 42U server cabinet per specification and one (1) metered PDU.
- Furnish and install one (1) 45U 2-post relay rack, two (2) vertical wire managers, and one (1) metered PDU.
- Furnish and install one (1) telecommunications ground bar.
- Ground server cabinet, relay rack, and ladder rack to the telecommunications ground bar.
- Furnish and install 24-port modular patch panels with category 6 jacks and F-type inserts for each terminated cable.
- Furnish and install the required 1U horizontal wire managers.
- Furnish and install one (1) rack mount enclosure and required LC singlemode fiber adapter plate.
- Furnish and install category 6 1-foot patch cords for each patch panel termination.
- Furnish and install RG6 coaxial 1-foot patch cords for each patch panel termination.
- Furnish and install EZ path sleeves per the specification.

IDF

- Furnish and install one (1) wall mount fiber splice cabinet.

Fiber Backbone

- Furnish and install one (1) 12-strand underground outdoor fiber singlemode fiber between Public Safety Building and Town Hall Building.
- Furnish and install one (1) 12-strand singlemode armored plenum fiber from the IDF wall mount fiber splice cabinet to IT room 247 fiber enclosure. Fiber will be fusion spliced to the outdoor fiber from the Public Safety Building and the IDF and fusion spliced to fiber pigtails the fiber enclosure in IT room 247.
- OTDR directional test fiber, certify per the specification and provided documentation.

Low Voltage Outlets

- Furnish and install the non-continuous support for the new category 6 cable and fiber pathways.
- Furnish and install the required faceplate and surface mount per the low voltage drawing outlet locations.
- Furnish and install category 6 RJ45 jacks in various colors for the data, voice, wireless access point, fire sensors, intercoms, security monitors, cameras, audio-video low voltage drawing outlet locations.
- Furnish and install F-type coaxial inserts per the low voltage drawing outlet locations.
- Furnish and install HDMI inserts per the low voltage drawing outlet locations.
- Furnish and install category 6 plenum cable in various colors from each jack location to IT room 247 and terminate cable at each end.
- Furnish and install RG6 plenum coaxial cable from each F-type insert location to IT room 247 and terminate cable at each end.
- Furnish and install category 6 plenum cable and 18 AWG/2 conductor plenum rated cable from the fire sensor locations to watch room 230 and terminate cable at each end.
- Label, test, and certify category 6 cable per specification and provided documentation.

Access Control Cabling

- Furnish and install 22 AWG/6 conductor plenum rated cable from the card reader locations to IT room 247 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the door contact locations to IT room 247 and coil cable at each end for future installation.
- Furnish and install 18 AWG/2 conductor plenum rated cable from the duress button locations to IT room 247 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the electrified lock locations to IT room 247 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the alarm surveillance locations to IT room 247 and coil cable at each end for future installation.
- Furnish and install 18 AWG/4 conductor plenum rated cable from the strobe locations to IT room 247 and coil cable at each end for future installation.

LMR400 Coax

- Furnish and install LMR400 plenum rated cable coaxial cable to the mezzanine area coil cable at each end for future installation.

Additional Items

- Man lift (as required.)
- Necessary cable supports for structured cabling system.
- As-builts
- Fire-Stopping
- Permits

AV Design Work

- Furnish and install AV systems per the specification and drawings in the following areas.
 - Exercise 103
 - Briefing 112
 - Public Lobby 241
 - Community Room 242
 - Dispatch 250
 - Patrol SGTS 115
 - Patrol LT 117
 - Hub Zone 123
 - Apparatus Bay 200 (OFE PROVIDED AKNOWLEGED)
 - Fire Chief 212
 - Fire Marshall 213
 - Admin 214
 - Admin Hallway 215 (OFE PROVIDED AKNOWLEGED)
 - Conference Room 219
 - Sleep Room 221 (OFE PROVIDED AKNOWLEGED)
 - Sleep Room 222 (OFE PROVIDED AKNOWLEGED)
 - Sleep Room 223 (OFE PROVIDED AKNOWLEGED)
 - Sleep Room 224 (OFE PROVIDED AKNOWLEGED)
 - Watch Room 230
 - Shift Commander Office 231
 - Shift Commander Office 232 (OFE PROVIDED ACKNOWLEDGED)
 - Kitchen/Day Room 234 (OFE PROVIDED ACKNOWLEDGED)
 - Admin LT 248
 - Conference Rooms 256
 - Future Officer 260
 - Social Worker 264
 - Future Officer 266
 - Police Admin 265
 - Police Chief 267
 - SRO 271
 - Detective 272
 - Detective 273
 - Detective LT 274
 - Paging System

Clarifications

1. Briefing 112: Lower-Level Plan R.10.1. The Shows 3 HDMI input locations but only calls for 2 HDMI wall plates and TVS. We have provided for 2 as defined.
2. Who is managing the Digital Signage Players? Does a CMS platform need to be specified or is there one desired? We did not provide a quote for a CMS platform.
3. 8" Atlona Panel has been discontinued. We have provided funds for a 10" Velocity Panel
4. All owner furnished equipment and furniture shall be available prior to install.

Exclusions

Our proposal excludes the following:

- Low voltages and AV Conduits, back boxes, floor boxes, floor cores, power.
- Backerboards for TV monitors
- Door hardware
- Overtime.
- Dumpsters.
- Winter Conditions.
- Ground man
- BIM and BIM coordination
- Parking
- Access control, Surveillance, intrusion detection systems and installation
- Intercom Master Stations and Intercoms and installation.
- Network Switches, Wireless Access Points and UPS
- Copper patch cord and installation at the device outlets.
- Cutouts in furniture for popup or cable cubby interfaces.

BASE PRICE

The Total Sum as specified herein by Motor City Electric Technologies Inc. is Five Hundred Twenty-Five Thousand, Two Hundred Thirty-Five and 00/100 (**\$525,235.00**) Dollars. Note: Taxes Not Included

Add for Payment & Performance Bond

Add: \$ 4,255.00

PRICE BREAKOUT**EXHIBIT A**

Exhibit A - Township Hall - Low Voltage & AV Design Work

Exhibit A Price: \$ 316,665.00

Add for Payment & Performance Bond: \$ 2,565.00

EXHIBIT B

Exhibit B - Township Hall - Low Voltage & AV Design Work

Exhibit B Price: \$ 208,570.00

Add for Payment & Performance Bond: \$ 1,690.00

Complete Bill of Materials and Unit Pricing Provided Below for Exhibit A & Exhibit B

SCHEDULE

In accordance with the above, it is Motor City Electric Technologies' intention to begin work on this project upon receipt of the order and project schedule, with the completion of all work within a mutually agreed upon time frame.

TERMS AND CONDITIONS

1. All prices shall remain in effect subject to your acceptance until July 29, 2025.
2. Our terms of payment are thirty (30) days net from the date of invoice. We will invoice the last working day of each month for all work performed that month.
3. Our labor is based on IBEW, Sound, and Communication rates, Monday thru Friday, 8-hour days, (First Shift).
4. Our installation price does not include the following:
 - Shift or Overtime
5. Our price does not include MBE involvement.
6. Any delays due to additional changes to the system and/or omissions of others will be charged as additional work.
7. Motor City Electric Technologies will not be responsible for the correctness or accuracy of any information supplied by others or the subsequent errors resulting from such incorrect information.
8. Motor City Electric Technologies will not be held liable for any schedule delays due to drawing approval delays and/or errors or omissions of others.
9. Back charges for any field additions, deletions, modifications, or "corrections" authorized and implemented without our knowledge and consent will not be accepted.
10. Standard manufacturer warranties apply unless otherwise stated.
11. This proposal is not a firm offer and shall not bind MCET to enter into an agreement for the work described. Any agreement must be based upon terms acceptable to MCET.

Thank you for the opportunity to quote these services. Should you have any questions regarding our proposal, please do not hesitate to call.

Sincerely,

Scott Sutherland

White Lake Charter Township

7525 Highland Road

White Lake, MI 48383

Challenger 2.0, LLC, DBA Cable Runners, in partnership with Third Coast Tech, LLC, is interested in providing low voltage cabling and A/V gear as specified.

Challenger 2.0 is a spinoff from Challenger Technologies, where Steve McComb, BICSI RCDD, its CEO, has provided low-voltage cabling services for over 17 years. We are centrally located in southern lower Michigan to provide services from coast to coast (Lake Michigan to Lake Erie).

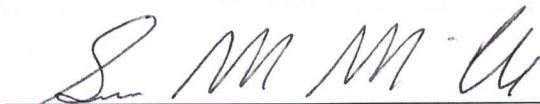

Third Coast Tech is highly recommended. They have over 40 years of AV experience and are based in Waterford, MI. They are highly local and can provide exceptional service and response times.

Both teams are familiar with new construction projects and are excited to work closely with the project GC, technology design firms, and the Township. Both teams have worked with the Township in the past.

References are available upon request.

12. The selected Vendor shall be required to indemnify; defend, and hold harmless White Lake Township, its elected and appointed officials, employees, and agents from all claims incurred by or asserted against the Township by any person or entity, which are alleged to have been caused by the acts or omissions of Vendor, Vendor's employees and Vendor's subcontractors. The Township's right to indemnification is in excess and above any insurance required by the Township. The Vendor shall have no right against the Township for indemnification, contribution or subrogation.
13. The selected Vendor shall be required to provide a warranty for their work, which covers defects in materials and workmanship and for a period of one year from the date of occupancy.
14. The selected Vendor shall be required to, at a minimum, meet the insurance requirements as described in **Exhibit E**. The selected Vendor shall provide the Township with the proper certificate of insurance upon award of business and prior to performing any work on site. The selected Vendor shall provide a performance bond and bond in the amount of 100% of the total cost of the project in conformance with the bond documents provided in Exhibit F. The selected Vendor shall indicate the cost of the bonds as a separate line item in its proposal.
15. The Vendor certifies to White Lake Township that neither it nor any of its successors, parent companies, subsidiaries, or companies under common ownership or control of the Vendor, are an "Iran Linked Business" engaged in investment activities of \$20,000,000.00 or more with the energy sector of Iran, within the meaning of Michigan Public Act 517 of 2012. It is expressly understood and agreed that the Vendor, if selected shall not become an "Iran linked business" during the term of an agreement with the Township.

NOTE: IF A PERSON OR ENTITY FALSELY CERTIFIES THAT IT IS NOT AN IRAN LINKED BUSINESS AS DEFINED BY PUBLIC ACT 517 OF 2012, IT WILL BE RESPONSIBLE FOR CIVIL PENALTIES OF NOT MORE THAN \$250,000.00 OR TWO TIMES THE AMOUNT OF THE CONTRACT FOR WHICH THE FALSE CERTIFICATION WAS MADE, WHICHEVER IS GREATER, PLUS COSTS OF INVESTIGATION AND REASONABLE ATTORNEY FEES INCURRED, AS MORE FULLY SET FORTH IN SECTION 5 OF ACT NO. 517, PUBLIC ACTS OF 2012.

Company Name: Challenger 2.0, LLC

Address: 119 5th St, Michigan Center, MI 49254

EXPECTATIONS FOR AWARD ACCEPTANCE

1. To have on file proper certificates of insurance and executed bonds prior to performing work on site.
2. To have proper equipment and responsible personnel to complete work as specified.
3. To repair any adjacent materials damaged in the execution of the work specified in this RFP and provide continuous housekeeping and clean-up.
4. Expediting, communication, and follow-up is required.
5. Cooperation with the other contractors on-site as needed to perform work.
6. Ability to begin work in accordance with the timing of the physical buildings as described above under **General Terms** item #1.

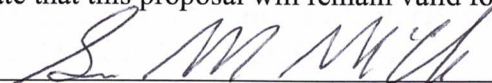

CERTIFICATIONS

The final product and all related materials shall be the sole property of White Lake Charter Township.

I hereby state that I have read, understand, and become thoroughly familiar with and understand the terms and scope of work contained in the RFP.

I hereby state that all the information I have provided is true, accurate and complete. I hereby state that I have the authority to submit this proposal, which will become the basis for a binding contract if accepted by White Lake Township.

I hereby state that this proposal will remain valid for six (6) months from this certification date.

White Lake, MI 48383

Bond Amount: Five Percent (5%) Amount Bid

PROJECT : (Name, location or address, and Project number, if any):

White Lake Township - Hall Building
Low Voltage and AV Cabling
2025 Civic Center Drive, White Lake Township, MI 48383

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters in to a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed by the Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

POWER OF ATTORNEY

RLI Insurance Company Contractors Bonding and Insurance Company

9025 N. Lindbergh Dr. Peoria, IL 61615
Phone: 800-645-2402

Know All Men by These Presents:

That this Power of Attorney is not valid or in effect unless attached to the bond which it authorizes executed, but may be detached by the approving officer if desired.

That **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, each an Illinois corporation, (separately and together, the "Company") do hereby make, constitute and appoint:

Jason McLelland, Heidi Schluessler, Ashley Skelly, jointly or severally

in the City of Adrian, State of Michigan its true and lawful Agent(s) and Attorney(s) in Fact, with full power and authority hereby conferred, to sign, execute, acknowledge and deliver for and on its behalf as Surety, in general, any and all bonds and undertakings in an amount not to exceed Twenty Five Million Dollars (\$25,000,000.00) for any single obligation.

The acknowledgment and execution of such bond by the said Attorney in Fact shall be as binding upon the Company as if such bond had been executed and acknowledged by the regularly elected officers of the Company.

RLI Insurance Company and/or **Contractors Bonding and Insurance Company**, as applicable, have each further certified that the following is a true and exact copy of a Resolution adopted by the Board of Directors of each such corporation, and is now in force, to-wit:

"All bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, any Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or Agents who shall have authority to issue bonds, policies or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile."

IN WITNESS WHEREOF, the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, as applicable, have caused these presents to be executed by its respective Vice President with its corporate seal affixed this 16th day of March, 2023.

CERTIFICATE

On this 16th day of March, 2023, before me, a Notary Public, personally appeared Barton W. Davis, who being by me duly sworn, acknowledged that he signed the above Power of Attorney as the aforesaid officer of the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company** and acknowledged said instrument to be the voluntary act and deed of said corporation.

I, the undersigned officer of **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, do hereby certify that the attached Power of Attorney is in full force and effect and is irrevocable; and furthermore, that the Resolution of the Company as set forth in the Power of Attorney, is now in force. In testimony whereof, I have hereunto set my hand and the seal of the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company** this 4th day of December, 2024.

Project Summary

Client: _____

Date _____

Contractor: Third Coast Tech, LLC. _____

Date _____

White Lake Charter Township

7525 Highland Road

White Lake, MI 48383

Challenger 2.0, LLC, DBA Cable Runners, in partnership with Third Coast Tech, LLC, is interested in providing low voltage cabling and A/V gear as specified.

Challenger 2.0 is a spinoff from Challenger Technologies, where Steve McComb, BICSI RCDD, its CEO, has provided low-voltage cabling services for over 17 years. We are centrally located in southern lower Michigan to provide services from coast to coast (Lake Michigan to Lake Erie).

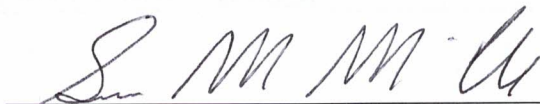

Third Coast Tech is highly recommended. They have over 40 years of AV experience and are based in Waterford, MI. They are highly local and can provide exceptional service and response times.

Both teams are familiar with new construction projects and are excited to work closely with the project GC, technology design firms, and the Township. Both teams have worked with the Township in the past.

References are available upon request.

12. The selected Vendor shall be required to indemnify; defend, and hold harmless White Lake Township, its elected and appointed officials, employees, and agents from all claims incurred by or asserted against the Township by any person or entity, which are alleged to have been caused by the acts or omissions of Vendor, Vendor's employees and Vendor's subcontractors. The Township's right to indemnification is in excess and above any insurance required by the Township. The Vendor shall have no right against the Township for indemnification, contribution or subrogation.
13. The selected Vendor shall be required to provide a warranty for their work, which covers defects in materials and workmanship and for a period of one year from the date of occupancy.
14. The selected Vendor shall be required to, at a minimum, meet the insurance requirements as described in **Exhibit E**. The selected Vendor shall provide the Township with the proper certificate of insurance upon award of business and prior to performing any work on site. The selected Vendor shall provide a performance bond and bond in the amount of 100% of the total cost of the project in conformance with the bond documents provided in Exhibit F. The selected Vendor shall indicate the cost of the bonds as a separate line item in its proposal.
15. The Vendor certifies to White Lake Township that neither it nor any of its successors, parent companies, subsidiaries, or companies under common ownership or control of the Vendor, are an "Iran Linked Business" engaged in investment activities of \$20,000,000.00 or more with the energy sector of Iran, within the meaning of Michigan Public Act 517 of 2012. It is expressly understood and agreed that the Vendor, if selected shall not become an "Iran linked business" during the term of an agreement with the Township.

NOTE: IF A PERSON OR ENTITY FALSELY CERTIFIES THAT IT IS NOT AN IRAN LINKED BUSINESS AS DEFINED BY PUBLIC ACT 517 OF 2012, IT WILL BE RESPONSIBLE FOR CIVIL PENALTIES OF NOT MORE THAN \$250,000.00 OR TWO TIMES THE AMOUNT OF THE CONTRACT FOR WHICH THE FALSE CERTIFICATION WAS MADE, WHICHEVER IS GREATER, PLUS COSTS OF INVESTIGATION AND REASONABLE ATTORNEY FEES INCURRED, AS MORE FULLY SET FORTH IN SECTION 5 OF ACT NO. 517, PUBLIC ACTS OF 2012.

EXPECTATIONS FOR AWARD ACCEPTANCE

1. To have on file proper certificates of insurance and executed bonds prior to performing work on site.
2. To have proper equipment and responsible personnel to complete work as specified.
3. To repair any adjacent materials damaged in the execution of the work specified in this RFP and provide continuous housekeeping and clean-up.
4. Expediting, communication, and follow-up is required.
5. Cooperation with the other contractors on-site as needed to perform work.
6. Ability to begin work in accordance with the timing of the physical buildings as described above under **General Terms** item #1.

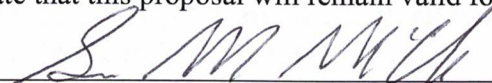

CERTIFICATIONS

The final product and all related materials shall be the sole property of White Lake Charter Township.

I hereby state that I have read, understand, and become thoroughly familiar with and understand the terms and scope of work contained in the RFP.

I hereby state that all the information I have provided is true, accurate and complete. I hereby state that I have the authority to submit this proposal, which will become the basis for a binding contract if accepted by White Lake Township.

I hereby state that this proposal will remain valid for six (6) months from this certification date.

CONTRACTOR (Name, legal status and address):

Challenger 2.0, LLC
119 5th Street
Michigan Center, MI 49254

SURETY (Name, legal status and principal place of business):

RLI Insurance Company
9025 N. Lindbergh Dr., Peoria IL, 61615
P.O. Box 3967 Peoria IL, 61612

OWNER (Name, legal status and address):

White Lake Township
7325 Highland Road
White Lake, MI 48383

Bond Amount: Five Percent (5%) Amount Bid

PROJECT : (Name, location or address, and Project number, if any):

White Lake Township - Public Safety Building
Low Voltage and AV Cabling
10785 Elizabeth Lake Road, White Lake Township, MI 48383

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters in to a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed by the Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

POWER OF ATTORNEY

RLI Insurance Company Contractors Bonding and Insurance Company

9025 N. Lindbergh Dr. Peoria, IL 61615
Phone: 800-645-2402

Know All Men by These Presents:

That this Power of Attorney is not valid or in effect unless attached to the bond which it authorizes executed, but may be detached by the approving officer if desired.

That **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, each an Illinois corporation, (separately and together, the "Company") do hereby make, constitute and appoint:

Jason McLelland, Heidi Schluessler, Ashley Skelly, jointly or severally

in the City of Adrian, State of Michigan its true and lawful Agent(s) and Attorney(s) in Fact, with full power and authority hereby conferred, to sign, execute, acknowledge and deliver for and on its behalf as Surety, in general, any and all bonds and undertakings in an amount not to exceed Twenty Five Million Dollars (\$25,000,000.00) for any single obligation.

The acknowledgment and execution of such bond by the said Attorney in Fact shall be as binding upon the Company as if such bond had been executed and acknowledged by the regularly elected officers of the Company.

RLI Insurance Company and/or **Contractors Bonding and Insurance Company**, as applicable, have each further certified that the following is a true and exact copy of a Resolution adopted by the Board of Directors of each such corporation, and is now in force, to-wit:

"All bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, any Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or Agents who shall have authority to issue bonds, policies or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile."

IN WITNESS WHEREOF, the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, as applicable, have caused these presents to be executed by its respective Vice President with its corporate seal affixed this 16th day of March, 2023.

CERTIFICATE

On this 16th day of March, 2023, before me, a Notary Public, personally appeared Barton W. Davis, who being by me duly sworn, acknowledged that he signed the above Power of Attorney as the aforesaid officer of the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company** and acknowledged said instrument to be the voluntary act and deed of said corporation.

I, the undersigned officer of **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company**, do hereby certify that the attached Power of Attorney is in full force and effect and is irrevocable; and furthermore, that the Resolution of the Company as set forth in the Power of Attorney, is now in force. In testimony whereof, I have hereunto set my hand and the seal of the **RLI Insurance Company** and/or **Contractors Bonding and Insurance Company** this 4th day of December, 2024.
