Eric, 953 Sunnybeach, proposed to keep the site residential and give the homeowners the ability to expand their property.

Chairperson Seward closed the public hearing at 7:01 P.M.

Ms. McMachen stated the she appreciated the comments heard tonight. Sunnybeach Boulevard sounded like a major concern, and said the traffic consultants were revising the traffic study to include Sunnybeach. The existing church did not meet the driveway requirements, and the applicant would provide the safest driveway configuration as recommended by MDOT. The concept plan proposed a 6' fence along all of the property that abutted the site. In addition, there was a 20' buffer and there would be a dense green wall installed with evergreens.

Commissioner Carlock asked staff what zoning surrounded the site. Director O'Neil said it was a combination of Local Business, General Business, and Restricted Business, and Single-Family Residential south of the site.

Commissioner Anderson asked Ms. McMachen if the property had already been purchased. Ms. McMachen said the property was close to be closed on.

Commissioner Dehart asked staff if the developer needed to show a need for the development to the Township. Director O'Neil said no, the request needed to meet the requirements outlined in the zoning ordinance. The Master Plan designated the area for a commercial use, it would not be feasible to rezone the site to a Single-Family Residential zoning.

Commissioner Dehart asked if staff the project would need to obtain a variance for their driveway placement. Director O'Neil said yes, and MDOT would have the final say over the location of the driveway. The development would be required to have a cross access agreement to the daycare center to the west of the site.
