

## INTER OFFICE MEMO

June 17, 2025

Dear Board members,

At the June 18, 2024, Board meeting we approved the first half of the General Township/Fire Department computers that needed replacement. At that time, we discussed that I would be bringing the second phase of the computer replacements to you for approval in 2025.

Attached please find the quotation for the remaining desktops and laptops that need to be replaced. These computers have aged out and will soon no longer support Windows 11, thus leaving our network vulnerable.

I have attached the VC3 quote and comparisons so you can see that we are receiving a fair price from VC3.

I request that the Board approve the purchase of replacement computers in an amount not to exceed \$35,100.

Thank you,

  
Trish Pergament  
Deputy Supervisor  
(248) 698-3399 X-150

Ticket #3946548 - 2025.04 - TFF - Win10 Replacements (32)

Know Your Gear

The Dell OptiPlex 7020 Plus stands out as a powerful personal computer designed to meet the demands of both professional and personal computing environments. At its core, a 14-core Intel Core i5 processor with a turbo speed of up to 5 GHz ensures efficient performance across a wide range of applications. Coupled with 16 GB of DDR5 SDRAM, it offers multitasking capabilities and swift data processing.

Storage is both fast and reliable, thanks to the inclusion of a Class 35 NVMe SSD, ensuring quick boot times and seamless application loading. Networking is robust, with Gigabit Ethernet and wireless options providing versatile connectivity solutions. Furthermore, the Dell OptiPlex 7020 Plus is committed to environmental sustainability, boasting ENERGY STAR and EPEAT certifications. This not only signifies a reduced carbon footprint but also translates to lower operating costs, making it an ideal choice for eco-conscious users seeking a high-performance desktop solution.

## Know Your Gear

The Dell OptiPlex 7020 Plus stands out as a high-performance personal computer designed to meet the demands of modern workplaces. At its core, a 20-core Intel Core i7 processor, coupled with DDR5 SDRAM, ensures seamless multitasking and efficient operation across various applications. Security is prioritized with a TPM 2.0 chip and physical anti-theft features, safeguarding sensitive information effectively.

Storage solutions are advanced, with an NVMe SSD providing quick data access and minimal load times, enhancing productivity. The inclusion of a wireless keyboard and mouse combo, along with Intel UHD Graphics 770, supports a clean, versatile workspace setup. Environmental considerations are also at the forefront, with ENERGY STAR certification and EPEAT compliance, making the Dell OptiPlex 7020 Plus an ideal choice for eco-conscious businesses looking to minimize their ecological impact while maximizing performance.
