CHARTER TOWNSHIP OF WHITE LAKE RESOLUTION TO APPROVE DUST CONTROL PROGRAM 2022

RESOLUTION NO. 22-012

At a regular meeting of the Township Board of the Charter Township of White Lake, Oakland County, Michigan, held in Township Annex Hall, 7527 Highland Road, White Lake, Michigan, on the 15th day of March 2022, at 7:00 p.m. With those present and absent being,

PRESENT:	
ABSENT:	
The following preamble and resolution was offered by	
and seconded by	

WHEREAS, the Charter Township of White Lake, in accordance with the Charter Township Act, MCL 42.1, *et seq*, and in accordance with its Administrative Policies and Procedures, which has been amended from time to time; and

WHEREAS, the Township has considered <u>The Road Commission of Oakland County's</u> <u>Dust Control Program (RCOC)</u>, and has decided that it is in the best interests of the Township to participate in this program with the RCOC; and

WHEREAS, the estimated cost for <u>5 applications</u> of dust control is <u>\$66,870.81</u>.

NOW, THEREFORE, BE IT HEREBY RESOLVED AS FOLLOWS:

- 1. The Board of Trustees of the Charter Township of White Lake hereby approves and authorizes the Township Supervisor to execute any and all documents and take any and all other actions as may be necessary or appropriate in order to satisfy the requirements of the program.
- 2. All resolutions and parts of resolutions insofar as they conflict with the provisions of this Resolution are rescinded.

A vote on the foregoing resolution v	vas taken and was as follows:
YEAS:	
NAYS:	
RESOLU	JTION DECLARED ADOPTED.
STATE OF MICHIGAN) COUNTY OF OAKLAND)	
adopted by the Township Board of Michigan, at its regular meeting held which resolution is on file in my of	regoing constitutes a true and complete copy of a resolution of the Charter Township of White Lake, Oakland County, delectronically via Zoom on March 16, 2021, the original of office. I further certify that notice of said meeting was given ith the Open Meetings Act, Act 267, Public Acts of Michigan,
IN WITNESS WHEREOF, I March, 2022.	I have hereunto affixed my official signature this 15 th day of
	Anthony L. Noble, Clerk White Lake Township

February 23, 2022

Mr. Rik Kowall, Supervisor Charter Township of White Lake 7525 Highland Road White Lake, MI 48383

Dear Mr. Kowall:

The Road Commission for Oakland County (RCOC) will be offering its dust-control program again this season. Enclosed you will find the 2022 Application Form and Instructions that we send to our previous year customers. If your township plans to participate financially in the dust-control program, a letter confirming the amount of township participation must be received by the RCOC Department of Customer Services - Waterford Office no later than April 15, 2022. Unless this letter is received, we will assume the township is not participating in the 2022 Program.

The dust-control program will run again as it did last year, with pricing being applied per application. While RCOC had not increased the cost per application since 2018, the 2022 application cost will have a slight increase, as illustrated on the table below. Townships that wish to cover all local and subdivision streets will get the "blanket coverage" rate while individual locations will receive the "individual" rate. This pricing allows the customers the option of selecting the best program to meet their needs.

Order type	2022 Cost/ft per Application	2022 Cost per 1000 ft	2022 Annual Cost – 4 Apps	2022 Annual Cost – 5 Apps	2021 Annual Cost - 4 Apps	2021 Annual Cost - 5 Apps
Blanket	\$0.0729	\$72.90	\$291.60	\$364.50	\$270.00	\$337.50
Individual	\$0.1266	\$126.60	\$506.40	\$633.00	\$452.00	\$565.00

RCOC will continue the flexibility to this program as well: A township that originally signs up for four applications may adjust to a fifth application, provided the notice is given to RCOC prior to the completion of the <u>third application</u>. RCOC's goal is to best fit the customer's needs and budget.

2022 Chloride Program Page 2

If you plan to coordinate individual resident dust-control orders, the orders must be submitted on Road Commission for Oakland County Work Order Applications. They must include the <u>complete</u> mailing address (this includes city and zip code) of the resident requesting the order. This is necessary in case we need to communicate with residents due to irregularities in the order. Communication will be from our office to the resident, as our Maintenance Department field staff will not knock on residents' doors.

INDIVIDUAL ORDERS:

- Must be a minimum of 500 ft for local roads, minimum of 1,000 ft for subdivision streets
- The application rate is 2,000 gallons per mile per application.

BLANKET ORDERS:

- Cover all local roads and subdivision streets township-wide
- The application rate will be 2,000 gallons per mile per application

Please find attached mileage by road for all local and subdivision gravel roads in your township (if applicable). We ask that you review this for accuracy prior to submitting your application for a blanket order.

If you have questions concerning the instructions, the Department of Customer Services at the Road Commission will be glad to give you a more detailed explanation of any part of our dust control program. You can reach the department at 1-877-858-4804. Enclosed, for your information, is a copy of the Dust-Control Program Instructions and Application Schedule.

Sincerely,

David Czerniakowski, Director Department of Customer Services

INSTRUCTIONS FOR 2022 DUST-CONTROL PROGRAM ROAD COMMISSION FOR OAKLAND COUNTY

To participate in the Road Commission for Oakland County (RCOC) 2022 Dust-Control Program, complete the following steps:

- For best assurance of scheduling timely service, orders and payment for seasonal dust control applications MUST BE RECEIVED ON OR BEFORE MONDAY, APRIL 25, 2022.
- The attached form must be completely filled out and submitted by mail to the Road Commission for Oakland County, Department of Customer Services, 2420 Pontiac Lake Road at County Center Drive West, Waterford Township, Michigan 48328. Please check with your township to find out if your application should be placed there or with the Road Commission.
- The cost of dust control treatments will be \$0.1266 per linear foot per application for individual orders of <u>four</u> applications. While RCOC had not increased the cost per application since 2018, the 2022 application cost will have a slight increase, as illustrated on the table below.

Order type	2022 Cost/ft per Application	2022 Cost per 1,000 ft	2022 Annual Cost - 4 Apps	2021 Annual Cost - 4 apps
Individual	\$0.1266	\$126.60	\$506.40	\$452.00

• Some townships participate in the cost of dust control so <u>please check with your township</u> office regarding their participation as it may change from year to year.

Additional requirements are as follows:

- 1. Description of the road to be treated must include township, road name, linear footage and EXACT location of starting and ending points. Orders without this information will be returned and must be resubmitted by April 25, 2022.
- 2. Orders must be for at least 1,000 consecutive linear feet of dust control with the following **EXCEPTIONS:**
 - a) Where there is more than one short subdivision street (under 1,000 feet) we will accept orders where the combined footage is in excess of 1,000 feet provided the streets adjoin one another.
 - b) Orders for less than 1,000 feet in subdivisions will be accepted provided the full 1,000 foot payment is made, i.e. \$506.40 for four applications.
 - c) On local "mile type" roads, orders will be accepted for a minimum of 500 feet with no more than one skip. Orders greater than 500 feet will be limited to two skips. This does not apply to subdivision streets.
- 3. Only ONE check should be sent to cover each order. Make the check payable to:

ROAD COMMISSION FOR OAKLAND COUNTY

Mail or drop off your order to: ROAD COMMISSION FOR OAKLAND COUNTY

2420 PONTIAC LAKE ROAD

ATTN: DEPARTMENT OF CUSTOMER SERVICES

WATERFORD, MI 48328

- **4.** To avoid delays in processing your order, please make sure you have coordinated your order with orders being placed by your neighbors (connecting orders).
- **5.** Private roads cannot be included in this program.

If you have a question concerning our program or need a copy of the application form, please call the Department of Customer Services toll-free at (877) 858-4804 or send us an email at dcsmail@rcoc.org.

APPLICATION SCHEDULE

Our goal is to have the first application completed by approximately the last weekend of May. Subsequent applications will follow every 4-6 weeks. Please note: The timeframe between applications may vary due to unforeseen circumstances such as weather, equipment breakdowns, material supply and other factors.

DUST CONTROL MATERIAL

The dust control material that is spread will be mineral-well brine (naturally occurring salt water – see below for more details about the brine used) at an application rate of 2,000 gallons per mile. The width of the application will be 20 to 22 feet. No special width or double applications will be provided. Intersections and extremely wide roads will not be fully covered. Due to our spreading schedule, it is necessary to limit the number of applications to four.

FACTS ABOUT MINERAL-WELL BRINE

- 1. Mineral-well brine attracts moisture from the atmosphere and the ground. It is this moisture which acts as a binder on the "fines" in the surface aggregate, preventing them from becoming airborne.
- 2. Periods of minimal rainfall and low humidity will result in less moisture attracted to the surface of a gravel road on which mineral-well brine has been applied. As a result, the effectiveness will be less during these periods than during periods of high humidity and more rain. The amount of moisture attracted determines how effectively the dust is controlled. During dry periods, the application may be light in color or appear to be streaked.
- 3. A number of conditions are detrimental to the effectiveness of mineral-well brine with high traffic volume being the foremost. Sandy soil, lack of binders in the gravel and lack of shade trees all have some adverse affect on mineral-well brine.
- 4. We do not accept applications for mineral-well brine on roads which have been oiled. Mineral-well brine cannot penetrate the oiled surface and either "runs off" or "puddles." It is suggested waiting one or two seasons prior to purchasing brine for this type of road.
- 5. Even under normal conditions, it is assumed that dust will not be completely eliminated, and we do not make any promise or commitment to that effect.
