Subject: APPEAL — September 2, 2026 FOIA Response — Item 10-C Distribution Records

Caution: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

White Lake Charter Township Board:

This is a formal APPEAL of the Township's September 2, 2026 partial denial and response to my August 28, 2026 FOIA request concerning distribution of Item 10-C materials for the July 21, 2026 Board meeting.

My request specifically sought existing records showing whether and how each of the following submissions was transmitted, uploaded, routed, or otherwise made available to Township Board members:

1. June 25, 2026 FOIA appeal.
2. July 3, 2026 written statement and Exhibits A–C.
3. July 12, 2026 supplement and Exhibits D1–D5.
4. July 17, 2026 resubmission concerning the missing Item 10-C materials.
5. July 20, 2026 supplemental or corrected materials.

The September 2 production does not clearly identify records establishing whether each of these five specific submissions was actually transmitted or made available to Board members.

Instead, the response provides general agenda and packet-distribution records and states that certain unidentified requested records do not exist.

I therefore request reversal of the partial denial and ask the Township to:

1. Produce all existing records showing whether each of the five submissions identified above was transmitted, uploaded, routed, attached, or otherwise made available to Board members before the July 21 meeting.
2. If no responsive record exists for any particular submission, specifically identify that submission and certify that no responsive record exists.
3. For any responsive record withheld under attorney-client privilege, identify the basis for withholding and release all reasonably separable nonexempt portions.

Please treat this email as a formal FOIA appeal and distribute it and any attachments to every member of the White Lake Charter Township Board.

Thank you,

Ernest G. Parker
