The lakes in Whitewater are one of its greatest assets, a tremendous resource that sets the city apart. The lakes deserve more attention than the park & rec department can give, with all their other responsibilities. Any sizable lake in the surrounding area has a lake district.

Having a district focused on improving the lakes could mean real progress, including removal of the invasive cattails. I urge the council to approve formation of a lake district.

Good Morning Everyone!

I'm working on my presentation for the June 3rd City Council Meeting. On my last slide I would like to incorporate a statement from each of the lakes advisory committee members. If you would take a moment and think of a sentence or two I can place on my slide to help hit the message home. Your name will be cited after your remark. Thank you for taking the time to think and provide this to me.

Reasons Why A Cravath & Trippe Lakes District is the best choice for the City of Whitewater

Important Ask.

This could be the last attempt we get to pass the resolution, I am please asking that you all take your passion and put it in the form of an email to the city council members, city clerk Heather Boehm, and myself. Please also state that you would like it placed in the June 3rd City Council Packet for the Resolution of the Lakes District Agenda Item. This will allow all members and the public to see what the

benefits the lakes district will really provide. If you have neighbors with this same passion and willingness to send an email, please share this information with them as well.

When sending the email, if you place all the emails in the Bcc: line, it will go to all of them without creating an ability to write back and create a walking quorum. If all of the letters could be submitted by Friday, May 23rd, this will ensure they get into the packet.
