Requirement	Permit Required?
<p>Measurements: <b><u>Window signs shall not exceed 30% of the window area</u></b> in which the sign is displayed. The maximum area for any one sign shall be 25 square feet.</p> <p>Neon signs shall be permitted as a window sign; except in the T-1 District where neon signs shall be prohibited.</p>	Yes
<p><b><u>50% max window area coverage</u></b> <b><u>20% max window coverage area per façade per story.</u></b></p>	No
<p>In-window signs shall be limited to a maximum area of written sign text message that <b><u>does not exceed 15% of the area of the window.</u></b></p>	Yes
<p><b><u>Maximum sign area: 30% of glass area located on the ground floor level</u></b> per road frontage.</p> <p>Type of illumination permitted: none.</p>	No

Interior window signs **not exceeding more than 15 percent for all combined window areas** on the same facade of the structure. Area devoted to signage within windows shall not count toward the sign area maximum permitted for the use. No

**50% max window area coverage 20% max window coverage area per facade per story** No

Window sign area calculations **less than 25% coverage**. If any individual business, organization or similar entity has a window sign or a total of all window signs covering 25% or less of all windows of that business, then the total area of the window signs shall not count against the allowable maximum wall, projecting or roof sign square footage of that business. Yes if over 25%

Window sign area calculation **25% of greater coverage**. If any individual business, organization or similar entity has a window sign or a total of all window signs covering more than 25% of all windows of that business, then the total of the window signs shall count against the allowable maximum wall, projecting or roof sign square footage of that business, and shall require a permit in accordance with § 64-20(c).

Window signs **not exceeding 30% of the glass area** of the glass areas that are used for exits/entrances or necessary for visibility to exits/entrances. All other glass shall be considered part of the building and held to the same restrictions as any other part of the building. Yes

Window obstruction by interior signs shall **not exceed more than 25% for any one window, nor more than 10% of all combined window areas** on the same facade of the structure. Area devoted to signage within windows shall not count toward the sign area maximum permitted for the use. No
