BACKGROUND

(Enter the who, what when, where, why)

In compliance with the WI Department of Natural Resources (WDNR), the 2024 Compliance Maintenance Annual Report (CMAR) is included for your review. The CMAR is designed as an assessment tool to communicate the Wastewater Utilities operational success and possible shortcomings or deficiencies to City administration and elected officials. Ratings should help direct time, effort and dollars into the Utility.

For 2024, the Utility recorded an “A” in each rating section.

Please notice the “Phosphorus” section to see how well the treatment process has been running. However, despite low effluent Phosphorus numbers the facility is aware of the upcoming reduced effluent limits and is actively exploring various compliance options. The current infrastructure will be unable to meet the upcoming limit of 0.075 mg/l.
