The parties will cooperate to determine which of the following two options will be used to address the impact of the Antenna Facility on the cost of painting or repairing the water tower: 1) Shortly before the painting date, COMPANY will place a temporary antenna array on a crane parked near the site. COMPANY will then remove the antennas from the water tower and the painting will proceed as it normally does. Once the painting or repair is finished, COMPANY will then re-attach the antennas where they were and will have them painted to match the newly repaired/painted water tower. All costs incurred in removing the antenna, placement of a temporary antenna array, reattaching and painting the antennas shall be the sole responsibility of COMPANY. 2) The contractor will bid on the cost of painting/repairing the tower without the Antenna Facility. COMPANY warrants that it shall maintain all of its Antenna Facilities in full compliance with all applicable regulations of the FCC and other governing bodies. COMPANY will be responsible for correcting any intermod problems with other users of the property, should they occur due to the equipment installed and operated by COMPANY.
