Board of Zoning and Appeals Application Procedure - Submission #663

Date Submitted: 10/27/2023

City of Whitewater

Board of Zoning Appeals Application Procedure

Municipal Building 312 W. Whitewater St Whitewater, WI 53190

Notice

The Board of Zoning Appeal meetings are scheduled on the 4th Thursday of the month. All complete plans must be in by 9:00 a.m. Monday prior to the 1st Thursday of the month. If not, the item will be placed on the next available Board of Zoning Appeal meeting.

PLEASE COMPLETE THE FOLLOWING APPLICATION

Refer to Chapter 19.72 of the City of Whitewater Municipal Code of Ordinances, entitled BOARD OF ZONING APPEALS, for more information on the application.

SITE PLAN SUBMITTAL REQUIREMENTS

We want to build a cedar fence 6 ft. in height for its entirety, not just along the back of the house. Current code indicates that along both Walworth Ave. and Indian Mound Parkway the fence may not exceed 4 ft. in height. The main reason we wish to build the whole fence at 6 ft. is that our home's location and bedrooms within are constantly subjected to the nuisance of noise from passing vehicles (especially diesel trucks revving their engines). My wife Bonnie and I both suffer from sleep conditions that a 6 ft. fence would help to mitigate against regarding the noise impacting the structure of the house directly. We had also received in-writing, confirmation and approval for the 6 ft. fence from Pam Cronce (who we understand has since retired) that she had had our request checked out and approved, as there was no hazard or visual impairment that would result from the fence structure. This was 1 year ago, though now we are ready to move forward with the project and have contractor lined-up. We are good neighbors and have proudly made many improvements to our home/property. We love Whitewater and raising our family here. The traffic noise issue is making things a bit unbearable though, and respectfully request that you approve our fence for 6 ft. height in its entirety.

- 1. Site plan, including location and dimensions of all buildings, parking, loading, vehicle and pedestrian circulation, signs, walls, fences, other structures, outdoor storage areas, mechanicals, and dumpsters. Adjacent streets and uses and methods for screening parking, loading, storage, mechanical, and dumpsters areas should be shown. Statistics on lot area, green space percentage, and housing density should be provided. The Plan Commission encourages compliance with its adopted parking lot curbing policy.
- 2. Natural Features Inventory map, showing the existing limits of all water bodies, wetlands, floodplains, existing trees with trunks more than 4 inches in diameter, and any other exceptional natural resource features on all or part of the site.
- 3. Landscape Plan, prepared by a professional, and showing an overhead view of all proposed landscaping and existing landscaping to remain. The species, size at time of planting, and mature size should be indicated for all plantings. Areas to be left in green space should be clearly delineated. The Plan Commission encourages compliance with its adopted landscaping guidelines, available from the Zoning Department.
- 4. Grading and drainage plan, meeting the City's stormwater management ordinance if required. The plan should show existing and proposed surface elevations on the site at two foot intervals or less, and proposed stormwater management improvements, such as detention/retention facilities where required. Stormwater calculations may be required.
- 5. Utilities plan, showing locations and sizes of existing and proposed connections to sanitary sewer, water, and storm sewer lines, along with required easements. Sampling manholes may be required for sanitary sewer. The City's noise ordinance must be met.
- 6. Building elevation, showing the dimensions, colors, and materials used on all sides of the building. The Plan Commission encourages variety and creativity in building colors and architectural styles, while respecting the character of the surrounding neighborhood.
- 7. Sign plan, meeting the City's sign ordinance, and showing the location, height, dimensions, color, materials, lighting and copy area of all signage.
- 8. Lighting plan, meeting the City's lighting ordinance, and showing the location, height, type, orientation and power all proposed outdoor lighting both on polies and on buildings. Cut sheets and photometric plans may be required for larger projects.

1 full set, 15 11 x 17 and 1 Electric Copy (color copies if possible) should be submitted. All plans should be drawn to a scale of not less than 50 feet to the inch; represent actual existing and proposed site conditions in detail; and indicate the name, address, and phone number of the applicant, land owner, architect, engineer, landscape designer, contractor, or others responsible for preparation. it is often possible and desirable to include two or more of the about 8 plans on one map. the Zoning Administrator or Plan and Architectural Review Commission may request more information, or may reduce the submittal requirements. If any of the about 8 plans is not submitted, the applicant should provide a written explanation of why it is not submitted.

TO: THOSE REQUESTING A VARIANCE OF ZONING REQUIREMENTS

FROM: THE BOARD OF ZONING APPEALS

THINGS YOU WILL HAVE TO PROVE TO BE GRANTED A VARIANCE

The Board of Zoning Appeals has the power "to hear and grant applications for variances as will not be contrary to the public interest where, owing to special conditions, a literal enforcement will result in practical difficulty or unnecessary hardship, so that the spirit and purposes of the ordinance shall be observed and the public safety, welfare and justice secured." USE VARIANCES WILL NOT BE GRANTED

FINDINGS PREREQUISITE TO GRANTING A VARIANCE

No variance to the provisions of this title shall be granted by the Board unless it finds beyond a reasonable doubt that *ALL* of the following facts and conditions exist, and so indicates in the minutes of its proceedings:

- A. The particular physical surroundings, shape, or topographical conditions of the specific property involved would result in a practical hardship upon the owner as distinguished from a mere inconvenience, if the strict letter of the regulations were to be carried out;
- B. The conditions upon which the application for a variance is based would be applicable generally to other property within the same zoning classifications;
- C. The purpose of the variance is not based exclusively upon a desire for economic or other material gain by the applicant or owner;

The proposed variance will not impair an adequate supply of light and air to adjacent property or substantially increase the congestion in the public streets, or increase the danger of fire, or endanger the public safety, or substantially diminish or impair property values within the neighborhood.

Please consider the above items in presenting your oral testimony, for a lack of such testimony may result in denial of the variance.

All questions in the application must be answered.

AGREEMENT OF SERVICES	

REIMBURSABLE BY THE PETITIONER/APPLICANT.

The City may retain the services of professional consultants (including planners, engineers, architects, attorneys, environmental specialists, recreation specialists, and other experts) to assist in the City's review of a proposal coming before the Plan Commission, Board of Zoning Appeals and/or Common Council. The submittal of a development application or petition by a Petitioner shall be construed as an agreement to pay for such professional review services applicable to the proposal. the City may apply the charges for these services to the Petitioner and/or property owner. The City may delay acceptance of the application or petition as complete, or may delay final approval of the proposal, until the Petitioner pays such fees. Review fees which are applied to the Petitioner, but which are not paid, may be assigned by the City as a special assessment to the subject property. The Petitioner shall be required to provide the City with an executed copy of the following form as a prerequisite to the processing of the proposed application (Architectural Review, B.Z.A., Planning, Zoning Change):

RE:

421 Indian Mound Parkway 6 foot fence installation Parcel # /MO 00001

Dear Jes:

On October 26,2023 you filled an application to document installation of a fence to be placed at 421 Indian Mound Parkway.

Per the application and the zoning code section 19.06.120 fence height shall not exceed a height of four fee in the required street yard.

As such the application has been denied by our office.

Please contact me with any questions or concerns.

Thank you.

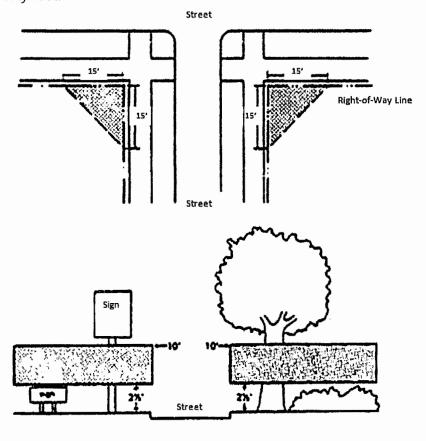

Regards,

Allison Schwark 262-249-6701

19.51.010 - Intersection visibility requirements.

- A. At all intersections of streets or alleys, no fence, hedge, wall, sign or other structure shall be erected, placed, planted or allowed to grow in such a manner as to collectively impede more than fifteen percent of the vision area between a height of two and one-half feet and ten feet above the established curb level of the intersection of streets or alleys in the area bounded by the right-of-way lines and a line joining points along the right-of-way fifteen feet from the point of intersection. (Refer to diagram below.)
- B. In the case of major streets and highways intersecting with other arterial streets or railways, the corner cutoff distances establishing the triangular vision clearance space shall be increased to forty feet.

No Visual Obstructions Allowed in this Area

(Ord. No. 1914A, 2-18-2016)

It is the applicants' responsibility for the fence being located on the intended property and to meet all City of Whitewater regulations. This memorandum of understanding follows the City of Whitewater ordinance 19.06.120. Please read and check each box below. Please complete all items. Leave blank, if not applicable. Attach additional pages as necessary.

General Responsibilities*

- Residential fences and walls are permitted either within or on the property line.
- Fences and walls shall not exceed a height of six feet in the side yard or rear yard area and shall not exceed a height of four feet in the required street yard.
- Fences or walls exceeding a height of six feet in the side or rear yard area may be permitted by written approval of the Director of Neighborhood Services and a Building Permit.
- All driveway openings abutting a public right-of-way shall have a fifteen-foot free vision triangle set back from both sides of the driveway. (Similar to Section 19.51.010.)
- The finished face of the fence shall face outward to the street (for the front yard) and toward the outer perimeter for side and rear yard fences.
- Fences shall be kept in good repair and be properly maintained, which shall include maintenance of paint, stain or other finishing products.
- Fences shall have consistent fence building material which may include naturally resistant or treated wood, brick or masonry, natural stone, wrought iron, vinyl, galvanized and/or coated chain link.
- Fence material, other than these materials, shall require review approval by the Neighborhood Services Director

-Security	Fen	ces*
-----------	-----	------

Yes

▼ No

Check if fence is for security purposes

Within the B-3 and M-1 districts, security fences are permitted within the side and rear yard areas. Such fences shall be designed to enclose the entire area for security and shall not exceed ten feet in height. Barbed wire is permitted only on security fences at least six feet above established grade levels.

-Swimming Pools*
☑ No
Check if fence is for a swimming pool
For the purpose of this chapter, "pool" shall include swimming pools, hot tubs, whirlpools or other similar devices, but shall not include:
 a. Storable swimming or wading pools having a diameter of eighteen feet or less and a wall height of twenty-four inches or less and which are constructed in such a way as to be readily disassembled for storage and reassembled to original integrity; or
b. Storable swimming or wading pools with nonmetallic inflatable walls regardless of dimension.
c. All temporary swimming pools shall be removed and stored by November 1. Swimming pools shall not be allowed in front yards. Swimming pools on side or in backyards shall be a minimum of fifteen feet from the property line.
d. All swimming pools shall be covered and ladders removed when not in use.
e. Pools within the scope of this section which are not enclosed within a permanent building shall be completely enclosed by a fence of sufficient strength to prevent access to the pool. Such fence or wall shall not be less than six feet in height and shall be so constructed as not to have voids, holes or openings larger than six inches in one dimension. Gates or doors shall be kept locked (which includes the use of self-locking devices) while the pool is not in actual use.

Signature

THE APPLICANT IS RESPONSIBLE FOR THE FENCE BEING LOCATED ON THE INTENDED PROPERTY and certifies that the fence does not encroach into any utility easement, public right-of-way, vision clearance area, or neighboring properties.

THE APPLICANT FURTHER AGREES THAT IF THE FENCE IS BUILT IN OR ACROSS ANY OF THESE AREAS, THE APPLICANT WILL BE RESPONSIBLE FOR REMOVING AND REPLACING THE FENCE.

I agree to abide by applicable rules and regulations regarding the standards for fences within the City. I understand that this is not a permit, but a memorandum of understanding that I have read and understand the City ordinance regulations and will meet City Code when installing a fence on my property.
