### BACKGROUND

(Enter the who, what, when, where, why)

At the September 3<sup>rd</sup> Common Council meeting the Common Council approved the new suggested permit prices, based on the recommendation of the Finance Committee. However, the Common Council asked that the permits be reviewed by the finance committee. The Council noted that the Finance Committee should reevaluate some of the smaller permits- such as toilet replacement, garbage disposal replacement etc. Attached to this memo you will see the number of permits there were pulled in 2023 and 2024. These numbers were requested by the Common Council to help evaluate what permits should be eliminated.

Additionally, the building inspector has attached a letter to this memo about what permits should remain on this list due to health and safety concerns.
