BACKGROUND

(Enter the who, what when, where, why)

At the April 21, 2026 City Council meeting, Council directed staff to continue evaluating occupancy of the proposed first-floor location, including the development of associated costs and policy considerations, and to return the item for further consideration no later than the second Council meeting in June.

At the May 20, 2026 Park Board meeting, Board members requested additional time to further evaluate space requirements, utility needs, and other potential solutions to concerns that had been raised in order to determine the best overall solution while taking multiple considerations into account.

As a result, staff was directed to formally request an extension of the June deadline to allow the Park Board additional time to complete its review process and return with a recommendation no later than the last Council meeting in July.
