City of Whitter Legislative Report 6/2/25

The 34th Alaska State Legislature adjourned its first session a day early, gaveling out in the early afternoon Tuesday, May 20th. Earlier that morning the House and Senate garnered enough votes in a joint session to override the Governor's veto of the education funding bill, HB 57, that includes some policy measures and around a \$700 increase to the BSA. Whether the Governor line-item vetoes the associated appropriation is yet to be seen.

While lawmakers met their constitutional duty to pass a balanced budget for FY26, totaling \$6.07 billion in Unrestricted General Funds (UGF), they failed to secure the three quarters vote needed to fund the FY25 supplemental budget (\$193 million) using the Constitutional Budget Reserve (CBR), one of the State's main savings accounts. Without the CBR available, funding FY25 expenses will now default to contingency language added by the Conference Committee to use up to \$100 million from the unrestricted balance of the Alaska Industrial Development and Export Authority (AIDEA) and any remaining deficit above \$100 million from the Higher Education Investment Fund (HEIF) - not an ideal fix, as this could have a significant negative impact on AIDEA's bonding rate.

It's speculated that the Governor will likely veto funding the FY25 supplemental budget with AIDEA funds and instead use the HEIF to fund the entire balance. The Governor has 20 days (minus Sundays) to determine his vetos once the budget is transmitted, the bills have been transmitted and that deadline is June 19th.

BUDGET HIGHLIGHTS

The Legislature during the Conference Committee process managed to produce an FY26 Operating Budget \$381 million below the previous year's post-supplemental budget (<u>HB</u> 53). This largely had to do with significant reductions in agency spending and a reduced PFD.

The Capitol Budget also remained bleak, at just \$167.9 million in general funds, a significant reduction from last year's Capitol Budget. A large portion of this year's Capitol Budget is matching funds needed to capture federal grants like within the Department of Transportation where \$57 million of included general funds will be unlocking over \$2

billion in federal transportation matching funds. Other highlights include the notable absence of district priority projects and the inclusion of funds for deferred maintenance and statewide emergency response.

Key Legislation Passed

Of the 30 pieces of legislation passed this session, several notable bills include:

- <u>HB 57</u>, the education funding package increasing the Base Student Allocation by \$700, which was vetoed by Governor Dunleavy but later overridden by lawmakers—the first veto override since 2009.
- <u>SB 113</u>, a tax measure on digital businesses like Amazon and Netflix, also passed but is expected to be vetoed due to constitutional concerns.
- <u>HB 65</u>, a bill passed early in session allowing the Alaska Railroad to borrow money to fund a new cruise ship dock in Seward passed, which will be a boon to tourism in the region.
- <u>SB 15</u> allows teens (18 and older) to serve alcohol in restaurants, breweries and distilleries, a response to workforce needs especially during the tourism season.
- Three bills that came out of the Seafood Task Force recommendations passed this session including:
- <u>HB 31</u> that will exempt many commercial fishing boats from having to register with the Alaska DMV when they've already licensed with the Commercial Fisheries Entry Commission (CFEC)
- HB 116 allows commercial fishermen to form cooperatives for insurance
- <u>SB 156</u> would allow the Alaska Commercial Fishing and Agriculture Bank (CFAB) to receive additional funds to issue low-interest loans to fishermen
- <u>SB 132</u>, a major overhaul of the state's insurance laws, passed both bodies. The bill amongst many other changes allows coverage for major multi-owner residential construction projects involving at least 40 units, three or more property owners, and a total cost of \$20 million or more.
- <u>SB 183</u>, gives the state's legislative auditor additional support to require the executive branch to provide requested information during the audit process, an issue that came to a point in recent years with the Alaska Department of Revenue regarding tax payments by oil and gas companies.

Significant legislation that did not make it across the finish line this year but will likely be revisited next session include a major elections reform bill, <u>SB 64</u>, a long-time-coming pension bill, <u>HB 78</u>, which made its way out of the House and over to the Senate, and a campaign finance limits bill, <u>HB 16</u>, which sits in the Senate Rules Committee.

Finally, changes to the state's oil and gas tax system in <u>SB 92</u> and <u>SB 112</u> remain in limbo, awaiting action next session, as the state will likely need to explore new revenue sources to offset decreasing oil prices and other ongoing fiscal challenges.

Please remember that all bills introduced this year, that did not pass, will still be in play next year. Have a great summer!!
