Executive Summary

A thorough review of your request has given us a better understanding of your unique needs and helped us determine ways that we can partner with you to make the City of Willow Park's Code a more useful and effective resource for your community. The executive summary below serves as an overview for building a collaborative codification solution that can help the City achieve its goals.

Situation Analysis

The City of Willow Park's Code was originally codified in 2017, and it has not been updated since 2019. As a result, the Code may contain inconsistencies, errors and outdated information that could potentially affect the Code's enforceability and alignment with relevant Texas statutes.

We propose to recodify the Code and recent ordinances into an easy-to-use, completely new Code of Ordinances. The Code can be reviewed by Texas-licensed attorneys. Findings will be discussed with the City, and revisions will be made to ensure the Code is up to date. The completed Code will be delivered in printed form.

The City would also like to provide online access to the Code and make it easier for constituents and staff to find information by implementing a fully searchable online version of its Code, housed on our unparalleled *eCode360* platform.

Willow Park's Investment

The price of the recommended solution will be \$12,395.

A detailed breakdown of the investment and available options can be found in the Investment Details and Options section on page 8.

The Franklin Legal Recommended Solution and Process

Copies of Ordinances

Franklin Legal will recodify the existing Code and all ordinances of a general and permanent nature. The City will provide all ordinances for consideration and inclusion in the new Code (either electronically or copies of originals).

Editorial and Legal Review

After arranging the new Code for the City, full-time licensed Texas attorneys will analyze each draft Code provision against state, federal and case law to determine if any provisions are unlawful, unconstitutional, obsolete, or otherwise unenforceable. Recommendations will be made as to how to rectify any such issues.

Code Review

Codification Powered by Code Review brings your Code project to life during the milestones of your project. Code Review is a revolutionary Code review platform, shared interactively between the General Code project team and your review committee, that guides you through the stages of your Codification project. (Please see page 12 for more information about Code Review.) The City will be given access to the draft Code and review via the Code Review platform. Franklin Legal will assist the City in the review process. Once complete, the draft Code will be revised to reflect those changes requested by the City.

Adopting Ordinance

Franklin Legal attorneys will prepare and submit an ordinance to adopt the final draft of the new Code.

Printed Copies

Franklin Legal will provide the required number of printed copies of the new Code. The Code will be bound in an appropriately sized D-ring-style turned-edge binder. The City name will be foil leaf stamped on the binder.

Publish a Secure Online Code with eCode360

Once the final deliverables have been prepared, Franklin Legal will make your *eCode360* site available to the public. *eCode360* is a secure, reliable online platform created specifically to house codified laws and municipal documents. Provide Ongoing Code Maintenance

Franklin Legal Publishing will perform all aspects of the supplementation process. Supplements will be prepared on a schedule as selected by the City. The City need only provide the new ordinances for inclusion in the Code. Franklin Legal will then prepare amendatory pages for insertion in the new Code. The average turn-around time for Code supplements is 3 to 4 weeks, depending on the volume of new legislation.

Project Materials

Source Materials

Franklin Legal, as the current codifier, currently maintains the Code. The Code is updated through Ordinance No. 797-19, adopted August 27, 2019.

Project Scope

The processing, review, and inclusion of any materials not submitted as of the date of this proposal are outside the project scope as proposed and therefore may be subject to additional charges. We request that Willow Park set up a process to routinely send any new legislation upon adoption. Additional legislation can be included in the Code prior to adoption, subject to an additional charge at the end of the project.

The American Rescue Plan

On March 11, 2021, President Biden signed into law the American Rescue Plan Act of 2021. This \$1.9 trillion stimulus package is a huge opportunity for municipalities as the Plan includes \$360 billion in direct financial relief for state and local governments, including \$65 billion for America's cities, villages and towns, as well as \$65 billion for counties. While the new law outlines the allocation process and authorized use of funds, the U.S. Department of the Treasury is charged with issuing related regulations, guidance and allocation amounts.

The U.S. Department of Homeland Security (DHS) has determined Code enforcement is essential to the U.S. response to the coronavirus pandemic. Federal funding available under the recently enacted American Rescue Plan can be used by governments to continue their essential operations and by addressing their digital (virtual) needs for remote work. **According to the U.S. Treasury, this funding can be used for municipal and building Code department hardware and software investments.** The investments that establish digital (virtual) capabilities, including the deployment of technology that enables online access to Codes, will help mitigate the challenges ahead for vital governmental services. When considering how to use available American Rescue Plan funds keep in mind:

- > Federal funding to maintain operations and develop digital (virtual) capabilities is essential
- > The lack of digital (virtual) capabilities risks the safety and efficacy of departments' work
- > Code officials are essential to health and safety during the pandemic
- > Inadequate operations and digital (virtual) capabilities slow construction essential to response and recovery
