QUANTUM ENERGY | ZERO EMISSIONS

ALL-ELECTRIC POWERTRAIN

FEATURES & BENEFITS

PERFORMANCE

- **OEM Platform:** Hometown Manufacturing HD
- **Max GVWR:** 23,000 lbs
- **Axle:** Dana ES9000R EAXLE
- **Battery Technology:** Proterra industrial grade liquid cooled lithium ion
- **Battery Capacity:** 226 kw/h
- **Range:** 130-140 miles
- **Gradeability:** 20%
- **Top Speed:** 70 mph
- **Regenerative Braking:** Standard
- **Level 2 AC Charging:** 19.2 kW / J1772
- **60kw Charge Time:** 3.5 hours
- **150kw Charge Time :** 1.8 hours
- **Charge Voltage & Power:** 208V, 25 kW
- **Operating Temperature:** --40 - 120 f

- Up to 93.7% operating and maintenance savings
- Drive in battery;
8-year/150,000 mile warranty with 700+ U.S. service centers
- Independent battery control improves reliability and performance
- Instant torque that outperforms diesel options
- Full welded cage framing, enclosed or open air body style
- Finished with elegant, vintage-looking features such as spiral brass, mahogany, and leather grab straps
- Full ADA options available
- Multiple floor plans to choose from
