

Congress of the United States
House of Representatives
Washington, DC 20515

Good afternoon,

Although I am unable to join you in person today, I would like to pass along my heartfelt congratulations to the City of Wilsonville on the grand opening of their new Public Works Complex. This new facility will help deliver safer and more efficient services to the citizens of Wilsonville.

When emergencies happen, our public works crews are often the first to respond. They do so much to ensure our roads are safe and our utilities and services are working the way they should. On any given day, you can find these workers out and about maintaining Wilsonville's roads, streetlights, water systems, fire hydrants, landscaping, and sewage systems. This is the difficult and often unglamorous work that keeps Wilsonville safe, functioning, and beautiful.

The new Seismic Class 4 Public Works Complex will ensure that our public works department can efficiently serve community needs throughout the year and respond swiftly to emergencies and natural disasters.

Congratulations once again to the City of Wilsonville on this ribbon cutting and thank you for everything you do to make our city a safe and special place to live. As always, it is an honor to serve you in the United States Congress.

Sincerely,

U.S. Representative for Oregon
