

**Joint Values and Outcomes  
for the 2025 State Legislative Transportation Package  
by the Communities of Clackamas County**

**Approved on 8/1/2024 for Logo Gathering**

The jurisdictions named here support a seamless, functional transportation system that prioritizes safety and the reliable movement of people and goods.

We acknowledge that without adequate transportation funding to address maintenance and capital projects in our communities, our collective transportation system will continue to struggle, maintenance projects will become capital projects, and our transportation systems will fail to meet public expectations and uses. As the state legislature considers funding solutions to address state and local needs, the values and outcomes named here will be the foundation of our advocacy.

**These values are not an endorsement of any collective or particular funding proposal.**

**To ensure an equitable, balanced, and seamless system for all, a transportation package should...**

- Develop in collaboration with local voices and jurisdictions
- Protect and retain the 50/30/20 revenue formula from the State Highway Fund
- Secure operations and maintenance funding for state and local partners
- Increase safety for all travel modes and reduce diversion from highways onto local roads

**To ensure maximum and efficient utilization of public dollars, a transportation package should...**

- Provide local jurisdictions with the resources to implement state requirements
- Build trust through budget transparency, implement cost saving measures, and limit administrative costs
- Maximize our opportunity to leverage federal funds for local and state projects of significance
- Secure varied revenue sources to diversify funding tools for local and state agencies

**To advance projects that build public trust and accountability, a transportation package should...**

- Finish what was promised in HB 2017 and HB 3055, including the I-205 widening and bridge improvements between Stafford Rd and Abernethy Bridge.
- Formulate a list of additional, high-priority projects for future funding, such as Sunrise Corridor and other investments addressing growth in urban, suburban, and rural communities

**To provide accessibility and funding to multimodal facilities and services, a transportation package should...**

- Complete gaps in transit service, sidewalks, and bike lanes
- Improve transit operations, including regional coordination and equitable access to transit
- Invest in transit and paratransit so that it is a convenient, reliable, and safe travel option
- Provide sustainable long-term funding for first- and last-mile transit solutions
- Consider investments that improve safety for commuters reliant on bicycles, scooters, and other non-traditional transportation options

**To support housing production and economic opportunities, a transportation package should...**

- Accelerate transportation networks supporting developing areas
- Improve the operations of regional freight routes, bridges and arterials
- Improve safety and reduce congestion on roads that connect urban and rural communities
